

Credo Schedules First Quarter Fiscal Year 2024 Financial Results Conference Call

August 10, 2023 at 9:00 AM EDT

SAN JOSE, Calif., Aug. 10, 2023 (GLOBE NEWSWIRE) -- Credo Technology Group Holding Ltd ("Credo") (Nasdaq: CRDO), an innovator in providing secure, high-speed connectivity solutions that deliver improved power and cost efficiency as data rates and corresponding bandwidth requirements increase throughout the data infrastructure market, today announced it will hold a conference call on Thursday, August 24, 2023, at 1:15 p.m. Pacific Time to discuss its financial results for the fiscal first quarter ended July 29, 2023.

The news release announcing the first quarter fiscal year 2024 financial results will be disseminated on August 24, 2023 after the market closes.

Interested parties may join the conference call beginning at 1:15 p.m. Pacific Time on Thursday, August 24, 2023 by registering online at <https://register.vevent.com/register/BI9d21771adfe649c38581fce70d65ebce>. After registering, a confirmation will be sent through email, including dial-in details and a unique conference call code for entry. It is recommended that participants register and dial in to the call at least 10 minutes before the start of the call. A live webcast of the conference call will be available on Credo's Investor Relations website at <http://investors.credosemi.com/>.

A replay of the webcast will be available via the web at <http://investors.credosemi.com/>

About Credo

Our mission is to deliver high-speed solutions to break bandwidth barriers on every wired connection in the data infrastructure market. Credo is an innovator in providing secure, high-speed connectivity solutions that deliver improved power and cost efficiency as data rates and corresponding bandwidth requirements increase exponentially throughout the data infrastructure market. Our innovations ease system bandwidth bottlenecks while simultaneously improving on power, security and reliability. Our connectivity solutions are optimized for optical and electrical Ethernet applications, including the 100G (or Gigabits per second), 200G, 400G, 800G and emerging 1.6T (or Terabits per second) port markets. Our products are based on our proprietary Serializer/Deserializer (SerDes) and Digital Signal Processor (DSP) technologies. Our product families include integrated circuits (ICs), Active Electrical Cables (AECs) and SerDes Chipllets. Our intellectual property (IP) solutions consist primarily of SerDes IP licensing.
