Kate Schuelke Biography

Kate Schuelke has more than 30 years of experience as legal counsel with a variety of technology companies overseeing intellectual property law, corporate governance, litigation, compliance, mergers and acquisitions, commercial transactions, global security and government relations. Kate was appointed as Seagate Technology's Chief Legal Officer and Corporate Secretary in 2017. Prior to joining Seagate, Kate was Senior Vice President, General Counsel, and Secretary at Altera Corporation, during which time she helped negotiate that company's purchase by Intel. Earlier in her career, Kate held several positions of increasing responsibility at major law firms, both domestically and internationally, and was a Fulbright Scholar lecturer on U.S. intellectual property law while overseas. Kate received a Bachelor of Arts Degree in Economics from the University of Buffalo and received her Juris Doctor from New York University School of Law. Kate serves on the board of directors of SiTime Corporation.

## About Credo

Our mission is to deliver high-speed solutions to break bandwidth barriers on every wired connection in the data infrastructure market. Credo is an innovator in providing secure, high-speed connectivity solutions that deliver improved power efficiency as data rates and corresponding bandwidth requirements increase exponentially throughout the data infrastructure market. Our innovations ease system bandwidth bottlenecks while simultaneously improving on power, security, and reliability. Our connectivity solutions are optimized for optical and electrical Ethernet applications, including the emerging 100G (or Gigabits per second), 200G, 400G, 800G and the emerging 1.6T (or Terabits per second) port markets. Credo products are based on our proprietary Serializer/Deserializer (SerDes) and Digital Signal Processor (DSP) technologies. Our product families include Integrated Circuits (ICs) for the optical and line card markets, Active Electrical Cables (AECs) and SerDes Chiplets. Our intellectual property (IP) solutions consist primarily of SerDes IP licensing.
