Approximate date of commencement of proposed sale to the public: As soon as practicable after the effective date of this Registration Statement.

If any of the securities being registered on this form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, check the following box. ☐

If this form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ☐

If this form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ☐

If this form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer ☒

Smaller reporting company ☒

Emerging growth company ☒

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act. ☐

| Title Of Each Class Of Securities To Be Registered | Proposed Maximum Aggregate Offering Price ⁽¹⁾⁽²⁾ | Amount Of Registration Fee |
|---|---|-------------------------------|
| Ordinary Shares, par value \$0.00005 per share | \$ | \$ |

(1) Includes the aggregate offering price of any additional shares which the underwriters have the right to purchase.

(2) Estimated solely for the purpose of computing the amount of the registration fee pursuant to Rule 457(o) under the Securities Act of 1933, as amended.

The Registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the registration statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. These securities may not be sold until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and neither we nor the selling shareholders are soliciting offers to buy these securities in any jurisdiction where the offer or sale is not permitted.

Subject to Completion. Dated _____, 2021.

Shares

Credo Technology Group Holding Ltd

Ordinary Shares

This is an initial public offering of ordinary shares of Credo Technology Group Holding Ltd. We are offering _____ ordinary shares. The selling shareholders named in this prospectus, which include members of our board of directors and senior management, are offering an additional _____ ordinary shares. We will not receive any of the proceeds from the sale of ordinary shares by the selling shareholders.

Prior to this offering, there has been no public market for our ordinary shares. It is currently estimated that the initial public offering price per share will be between \$ _____ and \$ _____. We have applied to list our ordinary shares on The Nasdaq Global Select Market under the symbol "CRDO."

Credo Technology Group Holding Ltd is a Cayman Islands holding company that conducts its operations and operates its business through its subsidiaries in the United States and internationally. Investors in the ordinary shares are purchasing equity securities of a Cayman Islands holding company rather than equity securities of our subsidiaries that have substantive business operations. As used in this prospectus, "we," "us," "our company," "our" or "Credo" refers to Credo Technology Group Holding Ltd, a Cayman Islands company, and its subsidiaries as a group. None of our subsidiaries have declared or paid any dividends or distributions on equity to their respective holding companies, including Credo Technology Group Holding Ltd, as of the date of this prospectus. Our subsidiaries in the PRC, Hong Kong and the United States perform cost plus services including general and administrative services, research and development services and sales and marketing services on a contract basis for our Cayman Islands subsidiary, Credo Technology Group Ltd (CTGL). Our Hong Kong and U.S. subsidiaries distribute tangible goods and provide value-added services to third-party customers on behalf of CTGL by utilizing intellectual property owned by CTGL. Amounts payable among our subsidiaries are net settled periodically in accordance with the Company's intercompany arrangements. We have not relied, and do not expect to rely, on dividends or other distributions on equity from any of our subsidiaries for our cash requirements. We have no plans to declare cash dividends, but as a holding company, we would depend on receipt of funds from one or more of our subsidiaries if we determine to pay cash dividends to holders of our ordinary shares in the future. See "Prospectus Summary-Holding Company Structure" for a more detailed description.

We are an "emerging growth company" as defined under the federal securities laws and, as such, we have elected to comply with certain reduced reporting requirements for this prospectus and may elect to do so in future filings.

See "Risk Factors" beginning on page 17 to read about factors you should consider before buying our ordinary shares.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

| | Per Share | Total |
|--|-----------|----------|
| Initial public offering price | \$ _____ | \$ _____ |
| Underwriting discount ⁽¹⁾ | \$ _____ | \$ _____ |
| Proceeds, before expenses, to Credo Technology Group Holding Ltd | \$ _____ | \$ _____ |
| Proceeds, before expenses, to the selling shareholders | \$ _____ | \$ _____ |

(1) See the section titled "Underwriting" for a description of the compensation payable to the underwriters.

To the extent that the underwriters sell more than _____ ordinary shares, the underwriters have the option to purchase up to an additional _____ ordinary shares from us and up to an additional _____ ordinary shares from the selling shareholders at the initial public offering price less the underwriting discount. We will not receive any proceeds from the sale of shares by the selling shareholders..

The underwriters expect to deliver the ordinary shares against payment in New York, New York on _____, 2021.

Goldman Sachs & Co. LLC

In this prospectus, “Credo,” “Credo Technology Group Holding Ltd,” the “company,” “we,” “us” and “our” refer to Credo Technology Group Holding Ltd and its consolidated subsidiaries. Neither we, the selling shareholders nor the underwriters have authorized anyone to provide any information or to make any representations other than those contained in this prospectus or in any free writing prospectuses we have prepared. Neither we, the selling shareholders nor the underwriters take responsibility for, and can provide no assurance as to the reliability of, any other information that others may provide you. We, the selling shareholders and the underwriters are offering to sell, and seeking offers to buy, ordinary shares only in jurisdictions where offers and sales are permitted. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or of any sale of the ordinary shares. Our business, results of operations and financial condition may have changed since such date.

For investors outside the United States: Neither we, the selling shareholders nor any of the underwriters have done anything that would permit this offering or possession or distribution of this prospectus in any jurisdiction where action for that purpose is required, other than in the United States. Persons outside the United States who come into possession of this prospectus must inform themselves about, and observe any restrictions relating to, the offering of our ordinary shares and the distribution of this prospectus outside the United States.

This prospectus includes industry and market data that we obtained from periodic industry publications, third-party studies and surveys, filings of public companies in our industry and internal company surveys. These sources include government and industry sources. Industry publications and surveys generally state that the information contained therein has been obtained from sources believed to be reliable. Although we believe the industry and market data to be reliable as of the date of this prospectus, this information could prove to be inaccurate. Industry and market data could be wrong because of the method by which sources obtained their data and because information cannot always be verified with complete certainty due to the limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties. In addition, we do not know all of the assumptions regarding general economic conditions or growth that were used in preparing the forecasts from the sources relied upon or cited herein.

Through and including , 2021 (25 days after the date of this prospectus), all dealers effecting transactions in our ordinary shares, whether or not participating in this offering, may be

required to deliver a prospectus. This is in addition to a dealer's obligation to deliver a prospectus when acting as an underwriter and with respect to an unsold allotment or subscription.

PROSPECTUS SUMMARY

This summary highlights information contained elsewhere in this prospectus. This summary may not contain all of the information that you should consider before deciding to invest in our ordinary shares. You should read this entire prospectus carefully, including the sections titled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Risk Factors" and the consolidated financial statements and the notes to those statements included elsewhere in this prospectus. Our fiscal year ends on April 30. Any references to a fiscal year in this prospectus are to the 12 months ending on April 30 of the relevant year, and any references to a fiscal quarter are to the applicable quarter within a fiscal year. Our fiscal years ended April 30, 2020 and 2021 are referred to herein as fiscal 2020 and fiscal 2021, respectively.

We refer to the People's Republic of China (solely for purposes of this prospectus, excluding Taiwan, Hong Kong and Macau) as "mainland China" or the "PRC."

OVERVIEW

Mission Statement

Our mission is to deliver high-speed solutions to break bandwidth barriers on every wired connection in the data infrastructure market.

Company Overview

Credo is an innovator in providing secure, high-speed connectivity solutions that deliver improved power and cost efficiency as data rates and corresponding bandwidth requirements increase exponentially throughout the data infrastructure market.

Our innovations ease system bandwidth bottlenecks while simultaneously improving on power, security and reliability. Our connectivity solutions are optimized for optical and electrical Ethernet applications, including the emerging 100G (or Gigabits per second), 200G, 400G and 800G port markets. Our products are based on our proprietary Serializer/Deserializer (SerDes) and Digital Signal Processor (DSP) technologies. Our product families include integrated circuits (ICs), Active Electrical Cables (AECs) and SerDes Chiplets. Our intellectual property (IP) solutions consist primarily of SerDes IP licensing.

Data generation has increased dramatically over the past 10 years, creating new and complicated challenges in both circuit and system design. Our proprietary SerDes and DSP technologies enable us to disrupt competition in existing markets, lead the way into emerging markets, and innovate to create new market opportunities. While many others in the data infrastructure industry struggle to meet customers' increasing performance and energy efficiency requirements, we continue to innovate to deliver groundbreaking solutions. A recent example is the announcement of our HiWire Switch AEC and open-source implementation with Microsoft that helps realize Microsoft's vision for a highly reliable network-managed dual-Top-of-Rack (ToR) architecture (a network architecture design in which computing equipment located within the same or an adjacent rack are, for redundancy, connected to two in-rack network switches, which are, in turn, connected to aggregation switches via fiber optic cables), overcoming complex and slow legacy enterprise approaches, simplifying deployment, and improving connection reliability in the datacenter.

The multi-billion dollar data infrastructure market that we serve is driven largely by hyperscale data centers (hyperscalers), high performance computing (HPC) and 5G infrastructure. The demands for increased bandwidth, improved power and cost efficiency, and heightened security have simultaneously and dramatically expanded as work, education and entertainment have rapidly digitized across myriad end-point users.

Within the data infrastructure ecosystem, we target the wired connectivity market as it relates to communication electronics, which Gartner forecasts will grow from \$12 billion in 2020 to \$17 billion in

2025.* 650 Group forecasts that within this market, hyperscalers will be one of the primary drivers of growth for connectivity solutions and that higher speed 400G and 800G switches in the datacenter in particular will grow at a 49% compound annual growth rate (CAGR), from 2020 to 2025. Additionally, we estimate that the market for high-speed connectivity products will grow from \$2 billion in 2022 to \$5 billion in 2025. Our core technology is standard-agnostic, and any high-speed connectivity environment, such as the enterprise, HPC or consumer environment, could be a target for our disruptive solutions. We believe our market opportunity will continue to grow as the technical challenges of delivering higher speeds create increasingly challenging technical or cost hurdles for incumbent providers.

During fiscal 2020 and 2021, we generated \$53.8 million and \$58.7 million in total revenue, respectively. Product sales and product engineering services revenue comprised 31% and 63% of our total revenue in fiscal 2020 and 2021, respectively, and IP license and IP license engineering services revenue represented 69% and 37% of our total revenue in fiscal 2020 and 2021, respectively. Geographically, 67% and 75% of our total revenue in fiscal 2020 and fiscal 2021, respectively, was generated from customers in North America, and 33% and 25% of our total revenue in fiscal 2020 and fiscal 2021, respectively, was generated from customers in the rest of the world, primarily in Asia. During fiscal 2020 and 2021, we generated \$1.3 million in net income and \$27.5 million in net loss, and \$2.5 million in adjusted net income and \$13.9 million in adjusted net loss, respectively. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Non-GAAP Financial Measure” for a definition of adjusted net income and a reconciliation between adjusted net income (loss) and net income (loss).

Industry Overview

We believe we are well positioned to benefit from the strong secular tailwinds driving the data infrastructure market, which is being driven by several factors, including:

- **Explosion of Data Generation and Network Traffic.** Cloud workloads, already vast and expanding, the proliferation of streaming video, 5G wireless deployment, expansion of the Internet of Things (IoT) and growing adoption of artificial intelligence are creating an explosion of data which is straining existing data infrastructure and forcing paradigm shifts from transistor to system level. According to International Data Corporation (IDC), the amount of data created, captured, copied, and consumed in the world is expected to increase by approximately 2.8 times, from 64 ZettaBytes (ZB),¹ in 2020 to more than 179ZB in 2025, reflecting a projected CAGR of 23%. This rapid growth in data and the related data traffic across networks is leading to bandwidth barriers and bottlenecks, creating the need for solutions that can enable faster connectivity speeds, while addressing power constraints and security requirements.
- **Demand from All Corners of Digital Infrastructure.** Increased data traffic requires increased data bandwidth. Participants across the data infrastructure ecosystem require higher performance connectivity solutions. We see this demand led by hyperscalers, whose position at the nexus of data infrastructure aggregates the incremental increases at the network edge, quickly followed by demand from 5G carriers. Furthermore, as the industry develops and bandwidth requirements proliferate, we expect to see these same dynamics extend more broadly, driving increased adoption in enterprise, HPC and consumer applications.
- **Increasing Shift to DDCs.** Hyperscalers and 5G network operators are rapidly evolving their network topology architectures as they move towards higher speeds. Increasingly, these customers are looking to Distributed, Disaggregated Chassis (DDCs), which separate the traditional, proprietary chassis used for switching and routing into its building blocks so it can more efficiently scale. The move to DDCs enables the use of standards-based hardware, a choice in software, and the ability to avoid vendor lock-in. However, legacy connectivity options are poorly suited to address this evolution. “Optical transceivers” and Active Optical Cables

¹ One Zettabyte is equal to one trillion Gigabytes.

(AOCs), suffer from high power consumption, high costs and poor longevity and passive Direct Attach Cables (DACs), are too thick and short-reaching to route at the required densities. This is leading to increasing interest in AEC technology as a key enabling technology for DDC architectures.

Our Market Opportunity

We believe we are in the early stages of penetrating a massive opportunity. We benefit from the strong secular tailwinds in the data infrastructure market. Within the large and growing data infrastructure ecosystem, our offerings target the wired connectivity market as it relates to communication electronics. According to Gartner, the wired connectivity market for communication electronics is expected to grow from \$12 billion in 2020 to \$17 billion in 2025.* 650 Group forecasts that within this market, hyperscalers will be one of the primary drivers of growth for connectivity solutions and that higher speed 400G and 800G switches in the datacenter in particular will grow at a 49% CAGR from 2020 to 2025. Additionally, we estimate that the market for high-speed connectivity products will grow from \$2 billion in 2022 to \$5 billion in 2025. We specialize in providing high-performance, energy-efficient and cost-effective connectivity solutions. With the continued exponential growth of data traffic, we expect rising demand for our products as speed requirements increase over time. Additionally, we intend to continue to develop new offerings that will expand the capabilities of our portfolio and address a broader section of the total wired connectivity market.

Our Competitive Strengths

We believe our key competitive strengths include the following:

- **Foundational Intellectual Property.** We believe our technology leadership is based on our strong SerDes IP portfolio. Our purpose-built mixed-signal and DSP architectures are the foundation of our high-performance, power-efficient and cost-effective connectivity solutions. We believe this IP portfolio provides us with a significant competitive advantage.
- **Proven Demand from Tier 1 Customer Base.** We are engaged with five of the top seven hyperscalers (measured by their total capital expenditures across all vendors for the twelve months ended March 31, 2021), and our customer base includes over 20 blue chip clients, including more than 10 original equipment manufacturers (OEMs) and original design manufacturers (ODMs), more than 10 optical module manufacturers and other leading technology companies. Our engagements with hyperscalers to date include design wins, as well as other commercial arrangements entered into in the ordinary course of our business, such as development and/or supply agreements. We consider a design win to occur when a customer notifies us that it has selected our products or technology to be incorporated into a product or system under development, often as part of a competitive technology review and bid process. While not legally enforceable contractual obligations, we believe design wins are an important step towards the adoption of our products or technologies by a customer, as competition for design wins is a highly selective process and generally results in the customer devoting substantial resources in partnering with us in development. The demand for our products and solutions by these leading technology companies demonstrates the strong demand for the enterprise-grade functionality, scalability, reliability and security that we offer.
- **Comprehensive Family of Connectivity Solutions.** Our extensive solutions portfolio includes HiWire AECs, Optical DSPs, Line Card PHYs, SerDes Chiplets for Multi-Chip Module (MCM) package integration and SerDes IP licensing. Our suite of products and technologies address our customers' various bandwidth, power, cost, security, reliability, and end-to-end signal integrity requirements. We believe we can provide superior service to our customers by serving as a single point of contact. Furthermore, our extensive knowledge and experience across a range of connectivity offerings better enables us to identify potential bottlenecks and design solutions to address them, differentiating us from competitors focused on point solutions.

- **Best-in-Class Technology.** We believe we are at the forefront of the high-performance connectivity market. Our architectural approach enables us to design in mature fabrication processes yet still deliver leading edge performance and power at a significantly lower cost. Our optimized SerDes architectures achieve industry-leading power efficiency on small die areas in cost-effective mature processes.
- **Culture of Continuous Innovation.** We have a history of innovation and pioneering new technologies. We believe our culture of continuous innovation positions us as a market leader with best-in-class products and IP solutions.
- **Top Industry Talent and Experienced Leadership Team.** We employ an engineering-focused workforce as well as a highly technical management team with deep industry experience and connectivity expertise. Our global team included 293 engineers as of September 30, 2021, while our international footprint allows us to continue attracting talent needed to support our business. We are led by a team of seasoned semiconductor and connectivity experts. Many of our executives have more than 20 years of semiconductor innovation experience and an extensive track record of successful leadership across multiple semiconductor companies.

Our Growth Strategy

To further our mission of providing secure, high-speed connectivity solutions, we intend to focus on the following strategic areas:

- **Extend our leadership in SerDes technologies.** Our proprietary SerDes architectures have underpinned our products and IP solutions since our inception. We intend to continue investing in research and development in our SerDes design to expand our technology leadership.
- **Broaden our portfolio of products and IP solutions.** We intend to continue to broaden our portfolio of offerings by developing new products and IP solutions to meet the evolving needs of the data infrastructure ecosystem as well as expand into adjacent markets we do not serve today.
- **Attract and acquire new customers.** We believe that we have a substantial opportunity to continue to grow our customer base. We intend to accelerate new customer acquisition across the markets that we serve as well as enter into new market segments by scaling our sales and marketing capabilities.
- **Extend and deepen relationships with existing customers.** We have demonstrated our ability to sell multiple of our connectivity solutions to several of our Tier 1 customers, and we will continue to seek to extend and deepen our relationships with existing customers. These relationships with leading hyperscalers, OEMs, ODMs and optical module manufacturers give us insight and extensive visibility into product designs, design specifications, development, production timeline, product implementation, and product innovation. Our direct relationships enable us to better anticipate our customer needs and will facilitate our ability to sell multiple connectivity solutions to our customers over time.

Our Products and Solutions

We are pioneering comprehensive Ethernet connectivity solutions that deliver high bandwidth, scalability and end-to-end signal integrity for next-generation platforms. Today, we offer the following products and solutions: HiWire AECs, Optical DSPs, Line Card PHYs, SerDes Chiplets and SerDes IP.

- **HiWire AECs.** HiWire AECs are copper interconnect cables designed for affordable, low power operation at 100G, 200G, 400G and 800G data speeds. HiWire AECs enable hyperscaler and 5G architects to accelerate the transition to DDC by offering a high-performance alternative to short, thick DACs and high power, high-cost AOCs. DDCs allow providers to pair white box hardware from ODMs with open source and third-party software to address issues surrounding operating

expenses, flexibility and cost in traditional chassis applications. Our ToR to Network Interface Card (NIC) AEC solutions enable hardware architects to pair commodity NIC and ToR hardware with value-added AECs to address needs related to redundancy and racking plans.

- **Optical DSPs.** We provide high-performance, low-power, and cost-effective 50G to 400G PAM4 optical DSPs across a broad spectrum of use cases, speeds and bandwidths. The DSPs enable optical interconnect for cloud-scale, hyperscale and enterprise data center build-outs with 100G to 800G PAM4 optical modules and build-outs for 5G wireless service providers with 50G PAM4 devices. These full-featured DSPs utilize our industry-leading transmitters and low bit error rate (BER) receivers, and are optimized for cost-efficient production.
- **Line Card PHYs.** We are enabling data connectivity and security in hyperscale and enterprise data centers with leading edge, low power Line Card PHY solutions. Our Retimers, Gearboxes and MACsec / IPSEC devices support PAM4 / NRZ backplane and line card connectivity up to 112G per lane, supporting platforms up to 25.6 Terabits per second (Tbps) with 800G ports. Dedicated and multi-mode Retimers, Gearboxes and MACsecs, built around our low-power, high-performance SerDes IP, enable our customers to meet performance, power and price objectives.
- **SerDes Chiplets.** SerDes technology enables data transmission at high rates while minimizing the number of interconnects required. As the bandwidth of interconnects increase, the complexity of the design for signal transmission increases. Our SerDes architecture has made it possible to deliver cost- and power- effective SerDes solutions in mature process nodes and make them available in chiplet form (multiple SerDes lanes in a single die) for integration with MCM System-on-Chips (SoCs), overcoming the need for matching core logic and SerDes IP in the same process node. Our SerDes Chiplets are designed for high performance and low power from mature processes, allowing customers to fabricate their core logic in advanced processes and combine them in their MCM SoC.
- **SerDes IP.** SerDes IP is designed for the easy SoC integration of tens to hundreds of SerDes lanes. We design SerDes IP to optimally balance performance, power, and manufacturing process costs and risks. Our patented mixed signal and DSP architectures are the foundation of our high performance and low power SerDes technology. Our architectural approach enables design in a mature fabrication process while delivering leading-edge performance and power efficiency.

For a more detailed description of our products, see “Business—Our Products and Solutions.”

Risk Factors

Investors in this offering are purchasing equity securities of a Cayman Islands holding company rather than equity securities of our subsidiaries that have substantive business operations. Credo Technology Group Holding Ltd is a Cayman Islands holding company that conducts its operations and operates its business through its subsidiaries in the United States and internationally. Such structure involves unique risks to investors in the ordinary shares. Before you invest in our ordinary shares, you should carefully consider all the information in this prospectus, including matters set forth under the heading “Risk Factors.” These risks include, but are not limited to, the following:

- We have incurred net losses and have an accumulated deficit. We may incur net losses in the future.
- Our revenue and operating results may fluctuate from period to period, which could cause the trading price of our ordinary shares to fluctuate.
- We depend on a limited number of customers for a substantial portion of our revenue, and the loss of, or a significant reduction in sales to, one or more of our major customers could negatively impact our revenue and operating results.

- We do not have long-term purchase commitments from our customers, and if our customers cancel or change their purchase orders, our revenue and operating results could suffer.
- We are subject to order and shipment uncertainties, and differences between our estimates of customer demand and product mix and our actual results could negatively affect our business, financial condition and results of operations.
- We face intense competition and expect competition to increase in the future. If we fail to compete effectively, it could have a material adverse effect on our business, financial condition and results of operations.
- Winning business is often subject to lengthy competitive selection processes that require us to incur significant expenditures prior to generating any revenue or without any guarantee of any revenue related to this business. Even if a customer chooses a Credo product for its system and starts to design us into that system, it may decide to cancel or change its plans, which could cause us to lose anticipated revenue from a product. If we fail to generate revenue after incurring substantial expenses to develop our products, it could materially and adversely affect our business, financial condition and results of operations.
- We rely on a limited number of third parties to manufacture, assemble and test our products, and the failure to manage our relationships with our third-party contractors successfully could adversely affect our ability to market and sell our products and our reputation. Our revenue and operating results would suffer if these third parties fail to deliver products or components in a timely manner and at reasonable cost or if manufacturing capacity is reduced or eliminated, as we may be unable to obtain alternative manufacturing capacity.
- Our target customer and product markets may not grow or develop as we currently expect, and if we fail to penetrate new markets and scale successfully within those markets, our business, financial condition and results of operations would be harmed.
- Risks related to our international operations, including, but not limited to, the following:
 - Our business, financial condition and results of operations could be adversely affected by worldwide economic conditions, as well as political and economic conditions in the countries in which we conduct business.
 - Our global operations expose us to numerous legal and regulatory requirements and failure to comply with such requirements, including unexpected changes to such requirements, could adversely affect our results of operations.
 - Uncertainties with respect to the legal system of the PRC, including uncertainties regarding the enforcement of laws, and sudden or unexpected changes in policies, laws and regulations in the PRC could adversely affect us.
 - The PRC government has significant oversight over the conduct of the business of our PRC subsidiaries; such oversight could result in a material change in our operations and/or the value of our ordinary shares or could significantly limit our ability to offer or continue to offer ordinary shares and/or other securities to investors and cause the value of such securities to significantly decline.
 - Although the audit report included in this prospectus is issued by an independent registered public accounting firm that is subject to inspections by the Public Company Accounting Oversight Board (the PCAOB), there is no guarantee that future audit reports will be prepared by auditors or their international affiliates in jurisdictions without restrictions on the ability of the PCAOB to fully inspect their work and, as such, future investors may be deprived of such inspections, which could result in limitations or

restrictions on our access of the U.S. capital markets. Furthermore, trading in our securities may be prohibited under the Holding Foreign Companies Accountable Act (the HFCAA) or the Accelerating Holding Foreign Companies Accountable Act, if enacted, if the SEC subsequently determines our audit work is performed by auditors that the PCAOB is unable to inspect or investigate completely, and as a result, U.S. national securities exchanges, such as The Nasdaq Global Select Market (the Nasdaq), may determine to delist our securities. Furthermore, on June 22, 2021, the U.S. Senate passed the Accelerating Holding Foreign Companies Accountable Act, which, if enacted, would amend the HFCA Act and require the SEC to prohibit an issuer's securities from trading on any U.S. stock exchanges if its auditor is not subject to PCAOB inspections for two consecutive years, instead of three as currently provided by the HFCAA.

- PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from using the proceeds of this offering to make loans or additional capital contributions to our PRC subsidiaries, which could materially and adversely affect our liquidity and our ability to fund and expand our business.
- We may face claims of intellectual property infringement, misappropriation or other violations, which could be time-consuming or costly to defend or settle, result in the loss of significant rights or harm our relationships with our customers or reputation in the industry.

Holding Company Structure

Credo Technology Group Holding Ltd is a holding company with no operations of its own. We conduct substantially all of our operations through our indirect, wholly-owned subsidiaries in the United States, the PRC and Hong Kong. As of April 30, 2021, more than 75% of our assets were held by our subsidiaries located in the United States and Cayman Islands, and less than 25% of our assets were held by our entities located in Hong Kong and mainland China. In addition, approximately 59%, 15% and 11% of our long lived assets were physically located in Taiwan (the majority of which are comprised of masks sets used in production that are legally owned by our subsidiary in the Cayman Islands), the PRC and Hong Kong, respectively, as of April 30, 2021.

None of our subsidiaries have declared or paid any dividends or distributions on equity to their respective holding companies, including Credo Technology Group Holding Ltd, as of the date of this prospectus. Since our inception through April 30, 2021, our operations have been financed primarily by the sale of convertible preferred shares and ordinary shares by Credo Technology Group Holding Ltd, and cash generated from selling products, licensing IP and providing IP customization services to customers. Credo Technology Group Holding Ltd has contributed approximately \$107.0 million to its direct and indirect subsidiaries since inception as share capital to fund working capital needs and capital expenditures.

Our current operating structure is described below.

- **G&A, R&D and S&M Services.** Our subsidiaries in the PRC, Hong Kong and the United States perform cost plus services including general and administrative services, research and development services and sales and marketing services on a contract basis for our Cayman Islands subsidiary, Credo Technology Group Ltd (CTGL). For fiscal 2020 and 2021 and the three months ended July 31, 2021, CTGL incurred approximately \$8.7 million, \$13.3 million and \$4.0 million of expenses to our subsidiaries in the PRC, \$7.0 million, \$8.5 million and \$3.8 million of expenses to our subsidiaries in Hong Kong and \$22.8 million, \$28.5 million and \$7.3 million of expenses to our subsidiary in the United States, respectively, for services rendered.
- **Inventory Sales Cycle and Distribution of Value-Added Services.** Our Hong Kong and U.S. subsidiaries distribute tangible goods and provide value-added services (i.e., design engineering services and support services) to third-party customers on behalf of CTGL by utilizing intellectual

property owned by CTGL. CTGL purchases wafers from TSMC, and then sells these wafers to its subsidiary in Hong Kong. Our Hong Kong subsidiaries contract with third-party contract manufacturers for assembly and test services and then sell finished goods inventory directly to non-U.S. customers or CTGL's U.S. subsidiary for resale to U.S. customers. Our Hong Kong subsidiaries and U.S. subsidiary earn arm's length profits consistent with their functions, assets and risks. For fiscal 2020 and 2021 and the three months ended July 31, 2021, our Hong Kong subsidiaries recorded purchase price adjustments in aggregate of \$13.5 million, \$14.0 million and \$3.5 million, respectively, payable to CTGL, and our U.S. subsidiary recorded purchase price adjustments in aggregate of \$29.2 million, \$24.8 million and \$1.5 million, respectively, payable to CTGL and \$1.7 million, \$6.5 million and \$0.8 million, respectively, payable to our Hong Kong subsidiaries, in connection with our sales cycle.

Amounts payable as described above are net settled periodically in accordance with the Company's intercompany arrangements.

Historically, net cash generated from customers of our subsidiaries has been reinvested in the applicable subsidiary's operations. We considered whether the subsidiaries' earnings are expected to be repatriated in the foreseeable future and concluded that each subsidiary's earnings would be indefinitely reinvested. In addition, other than the tender offer described in "Certain Relationships and Related Party Transactions—Tender Offer," Credo Technology Group Holding Ltd has not declared or paid any dividends or distributions to holders of its equity securities.

We have not relied, and do not expect to rely, on dividends or other distributions on equity from any of our subsidiaries for our cash requirements. We have no plans to declare cash dividends, but as a holding company, we would depend on receipt of funds from one or more of our subsidiaries if we determine to pay cash dividends to holders of our ordinary shares in the future. See "Risk Factors—Risks Related to Our International Operations—In the future, we may rely on dividends and other distributions on equity paid by our subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our subsidiaries to make payments to us could have a material and adverse effect on our ability to conduct our business."

Our cash is primarily held by Credo Technology Group Holding Ltd and by our subsidiaries located in Hong Kong, the United States and the Cayman Islands, and we do not believe that there are any significant restrictions on our ability to distribute these funds to Credo Technology Group Holding Ltd. from their respective distributable profits or other distributable reserves in accordance with applicable law. While our PRC subsidiaries have generated only a limited amount of revenue and hold only a small proportion of our cash, there are restrictions on the ability of our PRC subsidiaries to pay dividends under current PRC laws and regulations. In particular, our PRC subsidiaries may pay dividends only out of their respective accumulated after-tax profits after making up losses as determined in accordance with PRC accounting standards and regulations. In addition, each of our PRC subsidiaries is required to set aside at least 10% of its accumulated after-tax profits each year, if any, to fund a statutory reserve fund, until the aggregate amount of such fund reaches 50% of its registered capital. Such reserve funds cannot be distributed to us as dividends. At its discretion, each of our PRC subsidiaries may allocate a portion of its after-tax profits based on PRC accounting standards to a discretionary common reserve.

Our PRC subsidiaries generate a portion of their revenue in Renminbi, which is not freely convertible into other currencies. As a result, any restriction on currency exchange may limit the ability of our PRC subsidiaries to use their Renminbi revenues to pay dividends to us. In addition, the PRC Enterprise Tax Law (EIT Law) and its implementation rules provide that a withholding tax rate of up to 10% will be applicable to dividends payable by Chinese companies to non-PRC-resident enterprises unless otherwise exempted or reduced according to treaties or arrangements between the PRC central government and governments of other countries or regions where the non-PRC-resident enterprises are incorporated.

Furthermore, if certain procedural requirements are satisfied, the payment of current account items, as defined in the relevant PRC laws and regulations, including profit distributions and trade and service

related foreign exchange transactions, can be made in foreign currencies without prior approval from the PRC's State Administration of Foreign Exchange (SAFE) or its local branches. However, where Renminbi is to be converted into foreign currency and remitted out of the PRC to pay capital expenses, such as the repayment of loans denominated in foreign currencies, approval from or registration with competent government authorities or their authorized banks is required. The PRC government may take measures at its discretion from time to time to restrict access to foreign currencies for current account or capital account transactions. To the extent we desire to use funds from our PRC subsidiaries to fund our operations, the foreign exchange control system could prevent us from obtaining sufficient foreign currencies to satisfy our foreign currency demands, and we may not be able to pay dividends in foreign currencies to our offshore intermediate holding companies or ultimate parent company, or to our shareholders or investors in our ordinary shares. Further, we cannot assure you that new regulations or policies will not be promulgated in the future, which may further restrict the remittance of Renminbi into or out of the PRC. We cannot assure you, in light of the restrictions in place, or any amendment to be made from time to time, that our current or future PRC subsidiaries will be able to satisfy their respective payment obligations that are denominated in foreign currencies, including the remittance of dividends outside of the PRC.

Recent Regulatory Developments

The PRC government has recently indicated that it may exert more control or influence over offerings of securities conducted overseas. If the PRC authorities attempt to exercise such control or influence through regulation over our PRC subsidiaries, we could be required to restructure our operations to comply with such regulations or potentially cease operations in the PRC entirely, which could adversely affect our results of operations and financial condition. Moreover, any such action could significantly limit our ability to offer or continue to offer securities to investors and cause the value of such securities to significantly decline.

Based on our understanding of the current PRC laws and regulations, our company and PRC subsidiaries are not required to obtain any prior permission from any PRC governmental authorities including the China Securities Regulatory Commission (CSRC) for consummating this offering or to offer our securities to foreign investors, and as of the date of this prospectus, we have not received any inquiry, notice, warning, sanctions or regulatory objection to this offering from the CSRC or any other PRC governmental authorities. However, there can be no assurance that the relevant PRC governmental authorities, including the CSRC, would agree with our interpretation of the laws and regulations, or that the CSRC or any other PRC governmental authorities would not promulgate new rules or adopt new interpretation of existing rules that would require us to obtain and maintain CSRC or other PRC governmental approvals for this offering or to otherwise offer our securities to foreign investors. If we do not receive and maintain any such approvals, incorrectly conclude that such approvals are not required, or applicable laws, regulations, or interpretations change such that we are required to obtain such approvals in the future, it could significantly limit our ability to offer or continue to offer securities to investors and cause the value of our ordinary shares to significantly decline. See "Risk Factors—Risks Related to Our International Operations—The PRC government has significant oversight over the conduct of the business of our PRC subsidiaries."

Company Information

Founded in 2008, Credo has an international footprint with offices in North America and Asia. Our registered mailing address is c/o Maples Corporate Services Limited, PO Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands. Our principal website is www.credosemi.com. The information contained on, or that can be accessed through, our website is not a part of this prospectus or the registration statement of which it forms a part.

We are a Cayman Islands exempted company. Exempted companies are Cayman Islands companies conducting business mainly outside the Cayman Islands and, as such, are exempted from complying with certain provisions of the Companies Act (As Revised) (Companies Act). As an exempted company, we

have applied for and received a tax exemption undertaking from the Cayman Islands government that, in accordance with Section 6 of the Tax Concessions Act (As Revised) of the Cayman Islands, for a period of 20 years from the date of the undertaking, no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations will apply to us or our operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax will be payable (i) on or in respect of our shares, debentures or other obligations or (ii) by way of the withholding in whole or in part of a payment of dividend or other distribution of income or capital by us to our shareholders or a payment of principal or interest or other sums due under a debenture or other obligation of us.

Implications of Being an Emerging Growth Company and a Smaller Reporting Company

We are an “emerging growth company,” as defined in the Jumpstart Our Business Startups Act of 2012 (JOBS Act). As such, we are eligible for exemptions from various reporting requirements applicable to other public companies that are not emerging growth companies, including, but not limited to, presenting only two years of audited financial statements in addition to any required unaudited interim financial statements with correspondingly reduced “Management’s Discussion and Analysis of Financial Condition and Results of Operations” disclosure in this prospectus, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002 (Sarbanes-Oxley Act), reduced disclosure obligations regarding executive compensation and an exemption from the requirements to obtain a non-binding advisory vote on executive compensation or golden parachute arrangements.

In addition, an emerging growth company can take advantage of an extended transition period for complying with new or revised accounting standards. This provision allows an emerging growth company to delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have elected to avail ourselves of this provision of the JOBS Act. As a result, we will not be subject to new or revised accounting standards at the same time as other public companies that are not emerging growth companies. Therefore, our consolidated financial statements may not be comparable to those of companies that comply with new or revised accounting pronouncements as of public company effective dates.

We will remain an emerging growth company until the earliest of: (i) the last day of the fiscal year following the fifth anniversary of the consummation of this offering; (ii) the last day of the fiscal year in which we have total annual gross revenue of at least \$1.07 billion; (iii) the last day of the fiscal year in which we are deemed to be a “large accelerated filer” as defined in Rule 12b-2 under the Securities Exchange Act of 1934, as amended (Exchange Act), which would occur if the market value of our ordinary shares held by non-affiliates exceeded \$700.0 million as of the last business day of the second fiscal quarter of such year; or (iv) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period.

We are also a “smaller reporting company” as defined in the Exchange Act. We may continue to be a smaller reporting company even after we are no longer an emerging growth company. We may take advantage of certain of the scaled disclosures available to smaller reporting companies and will be able to take advantage of these scaled disclosures for so long as our public float is less than \$250.0 million measured on the last business day of our second fiscal quarter, or our annual revenue is less than \$100.0 million during the most recently completed fiscal year and our public float is less than \$700.0 million measured on the last business day of our second fiscal quarter.

THE OFFERING

| | |
|---|--|
| Ordinary shares offered by us | shares, or shares if the underwriters exercise their option to purchase additional shares from us in full |
| Ordinary shares offered by the selling shareholders | shares, or shares if the underwriters exercise their option to purchase additional shares from the selling shareholders in full |
| Ordinary shares to be outstanding after this offering | shares, or shares if the underwriters exercise their option to purchase additional shares in full |
| Option to purchase additional shares from us and the selling shareholders | We have granted the underwriters an option, exercisable for 30 days after the date of this prospectus, to purchase up to additional shares from us, and the selling shareholders have granted the underwriters an option, exercisable for 30 days after the date of this prospectus, to purchase up to additional shares from the selling shareholders. |
| Use of proceeds | <p>We estimate that the net proceeds to us from this offering will be approximately \$ million, or approximately \$ million if the underwriters exercise their option to purchase additional shares from us in full, assuming an initial public offering price of \$ per share (the midpoint of the range set forth on the cover page of this prospectus), after deducting estimated underwriting discounts and commissions and estimated offering expenses. We will not receive any proceeds from the sale of ordinary shares by the selling shareholders.</p> <p>Each \$1.00 increase (decrease) in the public offering price per share would increase (decrease) our net proceeds, after deducting estimated underwriting discounts and commissions, by \$ million (assuming no exercise of the underwriters' option to purchase additional shares from us).</p> <p>We intend to use the net proceeds we receive from this offering for working capital and other general corporate purposes. We may also use a portion of the net proceeds we receive from this offering for acquisitions or strategic transactions, though we have not entered into any agreements or commitments with respect to any material transactions and have no understandings or agreements with respect to any such transactions at this time.</p> <p>See "Use of Proceeds" for more information.</p> |
| Risk factors | See the section titled "Risk Factors" and other information included in this prospectus for a discussion of factors you should carefully consider before deciding to invest in our ordinary shares. |
| Proposed Nasdaq trading symbol | "CRDO" |

The number of ordinary shares that will be outstanding after this offering is based on 120,896,007 ordinary shares (including all of our convertible preferred shares on an as-converted basis) outstanding as of July 31, 2021, and excludes:

- 13,430,207 ordinary shares issuable upon the exercise of options to purchase our ordinary shares outstanding as of July 31, 2021, with a weighted-average exercise price of \$1.77 per share;
- ordinary shares issuable upon the exercise of options to purchase our ordinary shares granted after July 31, 2021, with a weighted-average exercise price of \$ per share;
- 714,546 ordinary shares outstanding as of July 31, 2021 issued upon the early exercise of share options and subject to repurchase;
- ordinary shares issuable upon the exercise of that we expect to grant under our 2021 Equity Incentive Plan upon the pricing of this offering to our directors, executive officers and certain other employees at an exercise price equal to the initial public offering price of this offering;
- an estimated additional ordinary shares reserved for future issuance under our 2021 Equity Incentive Plan, which will become effective immediately prior to the completion of this offering, as well as any automatic increases in the number of ordinary shares reserved for future issuance pursuant to this plan; and
- an estimated ordinary shares initially reserved for issuance under our Employee Share Purchase Plan (ESPP), which will become effective immediately prior to the completion of this offering, as well as any automatic increases in the number of ordinary shares reserved for future issuance pursuant to this plan.

Unless otherwise indicated, this prospectus reflects and assumes the following:

- the issuance and sale by us of ordinary shares in this offering, at an initial public offering price of \$ per share (the midpoint of the range set forth on the cover page of this prospectus);
- the automatic conversion of all of our outstanding convertible preferred shares into an aggregate of 52,059,826 ordinary shares immediately prior to the completion of this offering;
- outstanding shares exclude 714,546 ordinary shares outstanding as of July 31, 2021 issued upon the early exercise of share options and subject to repurchase;
- no exercise of outstanding options;
- no exercise by the underwriters of their option to purchase additional shares from us or the selling shareholders; and
- the filing and effectiveness of our amended and restated memorandum and articles of association, which will occur prior to the closing of this offering.

We refer to our Series A convertible preferred shares, Series B convertible preferred shares, Series C convertible preferred shares, Series D convertible preferred shares and Series D+ convertible preferred shares as our convertible preferred shares in this prospectus, as well as for financial reporting purposes and in the financial tables included in this prospectus, as more fully explained in Note 8 to our consolidated financial statements included elsewhere in this prospectus.

SUMMARY CONSOLIDATED FINANCIAL AND OTHER DATA

The following tables set forth a summary of our historical consolidated financial data as of and for the periods indicated. We have derived the summary consolidated statements of operations data for the fiscal years ended April 30, 2020 and 2021 from our audited consolidated financial statements included elsewhere in this prospectus. The summary consolidated statements of operations data for the three months ended July 31, 2020 and 2021 and the summary consolidated balance sheet data as of July 31, 2021 are derived from our unaudited interim financial statements included elsewhere in this prospectus. The unaudited interim condensed consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements and reflect, in the opinion of management, all adjustments of a normal, recurring nature that are necessary for the fair presentation of the unaudited interim condensed consolidated financial statements. Our historical results are not necessarily indicative of results that may be expected in the future, and the results for the three months ended July 31, 2021 and are not necessarily indicative of results to be expected for the full year or any other period. You should read this data together with our consolidated financial statements and related notes included elsewhere in this prospectus and the information in the section titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” The summary consolidated financial data included in this section are not intended to replace the consolidated financial statements and related notes and are qualified in their entirety by our consolidated financial statements and related notes included elsewhere in this prospectus.

| Weighted-average shares used in computing net loss per share attributable to ordinary shareholders ⁽²⁾ : | | | | |
| Basic and diluted | 71,727,881 | 69,098,799 | 72,680,026 | 68,409,095 |
| Non-GAAP Financial Measure: | | | | |
| Adjusted net income (loss) ⁽³⁾ | \$ 2,470 | \$ (13,905) | \$ (4,600) | \$ (12,102) |

(1) The following table sets forth the share-based compensation expense included in our consolidated statements of operations for fiscal 2020 and 2021, and our unaudited condensed consolidated statements of operations for the three months ended July 31, 2020 and 2021:

| | Year Ended April 30, | | Three Months Ended July 31, | |
|--------------------------|----------------------|--------|-----------------------------|-------|
| | 2020 | 2021 | 2020 | 2021 |
| (in thousands) | | | | |
| Cost of revenue | \$ 33 | \$ 183 | \$ 46 | \$ 87 |
| Research and development | 584 | 7,737 | 119 | 482 |
| Sales and marketing | 480 | 1,970 | 182 | 390 |

| | | | | |
|--|----------|-----------|--------|----------|
| General and administrative | 150 | 4,016 | 44 | 116 |
| Total share-based compensation expense | \$ 1,247 | \$ 13,906 | \$ 391 | \$ 1,075 |

- (2) See Notes 2 and 12 to our audited consolidated financial statements and Note 12 to our unaudited interim condensed consolidated financial statements included elsewhere in this prospectus for an explanation of the calculations of our basic and diluted net loss per ordinary share and the weighted-average number of shares used in the computation of the per share amounts.
- (3) We use adjusted net income (loss), a non-GAAP financial measure, to help us make strategic decisions, establish budgets and operational goals for managing our business, analyze our financial results and evaluate our performance. We present the non-GAAP financial measure adjusted net income (loss) in this prospectus because we believe this non-GAAP financial measure provides an additional tool for investors to use in comparing our core business and results of operations over multiple periods with other companies in our industry, many of which present similar non-GAAP financial measures to investors. However, our presentation of adjusted net income (loss) may not be comparable to similarly titled measures reported by other companies due to differences in the way that these measures are calculated. In addition adjusted net income (loss) excludes share-based compensation expense, although equity compensation has been, and will continue to be, an important part of our compensation strategy and our future expenses. Adjusted net income (loss) should not be considered as the sole measure of our performance and should not be considered in isolation from, or as a substitute for, net income (loss) calculated in accordance with GAAP.

We define adjusted net income (loss) as net income (loss) reported on our consolidated statements of operations, excluding the impact of share-based compensation expense, and the related tax effect adjustment to the provision for income taxes.

A reconciliation of our adjusted net income (loss) to our net income (loss) is presented below.

| | Year Ended April 30, | | Three Months Ended July 31, | |
|----------------------------------|----------------------|-------------|-----------------------------|-------------|
| | 2020 | 2021 | 2020 | 2021 |
| | (in thousands) | | (in thousands) | |
| Net income (loss) | \$ 1,329 | \$ (27,511) | \$ (4,840) | \$ (12,577) |
| Share-based compensation expense | 1,247 | 13,906 | 391 | 1,075 |
| Related tax effect adjustment | (106) | (300) | (151) | (600) |
| Adjusted net income (loss) | \$ 2,470 | \$ (13,905) | \$ (4,600) | \$ (12,102) |

| | As of July 31, 2021 | | |
|--------------------------------|---------------------|--------------------------|---|
| | Actual | Pro Forma ⁽¹⁾ | Pro Forma As Adjusted ⁽²⁾⁽³⁾ |
| | (in thousands) | | |
| Balance Sheet Data: | | | |
| Cash and cash equivalents | \$ 100,221 | \$ | \$ |
| Working capital ⁽⁴⁾ | \$ 117,792 | \$ | \$ |
| Total assets | \$ 156,745 | \$ | \$ |
| Convertible preferred shares | \$ 205,210 | \$ | \$ |
| Shareholders' equity (deficit) | \$ (66,477) | \$ | \$ |

- (1) The pro forma consolidated balance sheet data gives effect to: (i) the automatic conversion of all outstanding convertible preferred shares into an aggregate of 52,059,826 ordinary shares immediately prior to the completion of this offering, as if such conversion had occurred on July 31, 2021; and (ii) the filing and effectiveness of our amended and restated memorandum and articles of association, which will occur prior to the closing of this offering.
- (2) The pro forma as adjusted consolidated balance sheet data gives effect to: (i) the pro forma items described in footnote (1) above; and (ii) the issuance and sale by us of ordinary shares in this offering, assuming an initial public offering price of \$ per share (the midpoint of the range set forth on the cover page of this prospectus), after deducting estimated underwriting discounts and commissions and estimated offering expenses.

- (3) The pro forma as adjusted consolidated balance sheet data is illustrative only and will change based on the actual initial public offering price and other terms of this offering determined at pricing. Each \$1.00 increase (decrease) in the assumed initial public offering price of \$ per share would increase (decrease) each of our pro forma as adjusted cash and cash equivalents, working capital, total assets and total shareholders' equity (deficit) by \$ million, assuming the number of ordinary shares offered by us, as set forth on the cover page of this prospectus, remains the same, and after deducting the estimated underwriting discounts and commissions and estimated offering expenses. Similarly, each increase (decrease) of 1.0 million shares in the number of ordinary shares offered by us would increase (decrease) each of our pro forma as adjusted cash and cash equivalents, working capital, total assets and total shareholders' equity (deficit) by \$ million, assuming the assumed initial public offering price of \$ per share remains the same, and after deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us.
- (4) Working capital is defined as total current assets less total current liabilities. See our unaudited condensed consolidated financial statements and related notes included elsewhere in this prospectus for further details regarding our current assets and current liabilities.

RISK FACTORS

Investors in this offering are purchasing equity securities of a Cayman Islands holding company rather than equity securities of our subsidiaries that have substantive business operations. Credo Technology Group Holding Ltd is a holding company incorporated under the laws of the Cayman Islands with no operations of its own. We conduct substantially all of our operations through our indirect, wholly-owned subsidiaries in the United States and internationally. As such, investors in the ordinary shares are not purchasing equity securities of our subsidiaries that have substantive business operations but instead are purchasing equity securities of a Cayman Islands holding company. Investing in our ordinary shares involves a high degree of risk. You should carefully consider the risks and uncertainties described below, together with all of the other information in this prospectus, including our audited consolidated financial statements and related notes and "Management's Discussion and Analysis of Financial Condition and Results of Operations," before investing in our ordinary shares. If any of the following risks are realized, in whole or in part, our business, results of operations and financial condition could be materially and adversely affected. In that event, the price of our ordinary shares could decline, and you could lose part or all of your investment. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair the operation of our business.

Risks Related to Our Business

We have incurred net losses and have an accumulated deficit. We may incur net losses in the future.

Although we generated net income of \$1.3 million for fiscal 2020, we have a history of net losses and experienced a net loss of \$27.5 million for fiscal 2021 and a net loss of \$12.6 million for the three months ended July 31, 2021, primarily attributable to increased operating expenses, such as investments in research and development, including share-based compensation. As of April 30, 2020 and 2021, we had an accumulated deficit of \$18.8 million and \$68.3 million, respectively. As of July 31, 2021, we had an accumulated deficit of \$80.8 million.

We cannot assure you that we will generate sufficient revenue to offset the cost of growing our business in the future. Our revenue or revenue growth rate may decline in the future because of a variety of factors, including increased competition and the maturation of our business. You should not consider our historical revenue growth or operating expenses as indicative of our future performance.

Additionally, we also expect our costs to increase in future periods. We expect to continue to expend substantial financial and other resources on research and development, expansion into new markets, marketing and general administration (including expenses related to being a public company). These investments may not result in increased revenue or growth in our business.

If our revenue or revenue growth rate declines or our operating expenses exceed our expectations, our financial performance will be adversely affected. We will need to generate and sustain increased revenue levels in future periods in order to maintain or increase our level of profitability. If we cannot successfully grow our revenue at a rate that exceeds the increases in costs associated with our business, we will not be able to achieve or maintain profitability or generate positive cash flow on a sustained basis, and the trading price of our ordinary shares could decline.

Our revenue and operating results may fluctuate from period to period, which could cause the trading price of our ordinary shares to fluctuate.

Our revenue and operating results have fluctuated in the past and may fluctuate from period to period in the future due to a variety of factors, many of which are beyond our control. Factors relating to our

business that may contribute to these fluctuations include the following factors, as well as other factors described elsewhere in this prospectus:

- the impact of the COVID-19 pandemic on our business, suppliers and customers;
- customer demand and product life cycles;
- the receipt, reduction or cancellation of, or changes in the forecasts or timing of, orders by customers;
- the gain or loss of one or more significant customers;
- changes in orders or purchasing patterns from one or more of our major customers;
- delays in completing sales due to our lengthy sales cycle, which often includes a substantial customer evaluation and approval process;
- market acceptance of our products and our customers' products;
- our ability to develop, introduce and market new products and technologies on a timely basis;
- the timing and extent of product development costs;
- new product announcements and introductions by us or our competitors;
- our research and development costs and related new product expenditures and our ability to achieve cost reductions in a timely or predictable manner;
- seasonality and fluctuations in sales by product manufacturers that incorporate our technology into their products;
- changes in end-market demand, including cyclical, seasonality and the competitive landscape;
- cyclical fluctuations in the semiconductor market, and the markets of our end customers;
- fluctuations in our manufacturing yields and costs;
- significant warranty claims, including those not covered by our suppliers;
- changes in our pricing, product cost and product mix; and
- supply chain disruptions, delays, shortages and capacity limitations.

As a result of these and other factors, you should not rely on the results of any prior quarterly or annual periods, or any historical trends reflected in such results, as indications of our future revenue or operating performance. Fluctuations in our revenue and operating results could cause the trading price of our ordinary shares to decline and, as a result, you may lose some or all of your investment.

We depend on a limited number of customers for a substantial portion of our revenue, and the loss of, or a significant reduction in sales to, one or more of our major customers could negatively impact our revenue and operating results.

In fiscal 2021, we had three customers that each accounted for 10% or more of our total revenue. Customer A, Customer D and Customer F accounted for 32%, 12% and 10%, respectively, of our total revenue in fiscal 2021. In the three months ended July 31, 2021, we had two customers that each accounted for 10% or more of our total revenue. Customer A and Customer H accounted for 32% and 17%, respectively, of our total revenue in the three months ended July 31, 2021. In addition, in fiscal 2021 and the three months ended July 31, 2021, sales to our top 10 customers accounted for approximately 88% and 86%, respectively, of our total revenue. We believe our operating results for the

foreseeable future will continue to depend on sales to a relatively small number of customers. In the future, these customers may decide not to purchase our products or solutions at all, may purchase fewer products or solutions than they did in the past or may alter their purchasing patterns. Further, the amount of revenue attributable to any single customer or our customer concentration generally, may fluctuate in any given period. In addition, our relationships with some customers may deter other potential customers who compete with these customers from buying our products. To attract new customers or retain existing customers, we may offer these customers favorable terms, including the right to terminate or delay orders on little notice, exclusivity or most favored nations pricing on our products. Such agreements could impair our operating results. In the event of pricing reductions or financial incentives for key customers, our average selling prices and gross margins would decline. The loss of a key customer, a reduction in sales to any key customer or our inability to attract new significant customers could negatively impact our revenue and materially and adversely affect our business or results of operations.

Our future success will depend in large part on our ability to successfully execute our strategy.

Prior to fiscal 2021, the majority of our total revenue was derived from our IP solutions and related licensing revenue. However, our business strategy is to build on our IP portfolio as a product-focused business to deliver comprehensive connectivity products. Revenue from sales of our products accounted for 22% and 47% of our total revenue in fiscal 2020 and 2021, respectively. Revenue from sales of our products accounted for 51% and 68% of our total revenue for the three months ended July 31, 2020 and 2021, respectively. We are still in the process of implementing our strategy to focus on product sales, and we cannot be certain that this strategy will succeed. To succeed, we will need to develop products that achieve market acceptance, broaden our customer base and manage the risks relating to product development and sales, including developing, introducing and marketing new products and technologies on a timely basis, managing supply chain and manufacturing risks, achieving design wins, managing product costs, and anticipating customer demand and requirements.

We do not have long-term purchase commitments from our customers, and if our customers cancel or change their purchase orders, our revenue and operating results could suffer.

Substantially all of our sales to date have been made on a purchase order basis. We generally do not obtain long-term commitments with our customers or commitments for minimum purchases from our customers. Our arrangements with our customers permit our customers to cancel, change or delay their product purchase orders upon specified notice and subject to negotiated limitations. In some cases our customers may cancel purchase orders on relatively short notice to us and without penalty to them. In addition, customers may delay delivery of orders to a subsequent fiscal quarter. Our revenue and operating results could fluctuate materially and could be materially and disproportionately impacted by purchasing decisions of our customers, including our larger customers. In the future, our customers may decide to purchase fewer units than they have in the past, may alter their purchasing patterns at any time with limited notice, may change the terms on which they are prepared to do business with us or may decide not to continue to purchase our products at all, any of which could cause our revenue to decline materially and materially harm our business, financial condition and results of operations. Cancellations of, reductions in, or rescheduling of customer orders could also result in the loss of anticipated sales without allowing us sufficient time to reduce our inventory and operating expenses, as a substantial portion of our expenses are fixed at least in the short term. In addition, changes in forecasts or the timing of orders expose us to the risks of inventory shortages or excess inventory. Any of the foregoing events could materially and adversely affect our business, financial condition and results of operations.

We are subject to order and shipment uncertainties, and differences between our estimates of customer demand and product mix and our actual results could negatively affect our business, financial condition and results of operations.

Our product sales are primarily generated on the basis of purchase orders with our customers rather than long-term purchase commitments. However, we place orders with our suppliers based on forecasts of customer demand and, in some instances, may establish buffer inventories to accommodate

anticipated demand, which may not materialize. Due to our lengthy product development cycle, it is critical for us to anticipate changes in demand for our various product features and the applications they serve to allow sufficient time for product development and design. We have limited visibility into future customer demand and the product mix that our customers will require, which could adversely affect our revenue forecasts and operating margins. Moreover, because some of our target markets are relatively new, many of our customers have difficulty accurately forecasting their product requirements and estimating the timing of their new product introductions, which ultimately affects their demand for our products. Our failure to accurately forecast demand can lead to product shortages that can impede production by our customers and harm our customer relationships. Conversely, our failure to forecast declining demand or shifts in product mix can result in excess or obsolete inventory. In addition, the rapid pace of innovation in our industry could also render significant portions of our inventory obsolete. Excess or obsolete inventory levels could result in unexpected expenses or increases in our reserves that could adversely affect our business, financial condition and results of operations. In contrast, if we were to underestimate customer demand or if sufficient manufacturing capacity were unavailable, we could forego revenue opportunities, potentially lose market share and damage our customer relationships. In addition, any significant future cancellations or deferrals of product orders or the return of previously sold products due to manufacturing defects could materially and adversely impact our profit margins, increase our write-offs due to product obsolescence and restrict our ability to fund our operations.

We face intense competition and expect competition to increase in the future. If we fail to compete effectively, it could have a material adverse effect on our business, financial condition and results of operations.

The global semiconductor market in general, and the data infrastructure market in particular, are highly competitive. We compete or plan to compete in different target markets to various degrees on the basis of a number of principal competitive factors, including product performance, power budget, features and functionality, customer relationships, size, ease of system design, product roadmap, reputation and reliability, customer support and price. We expect competition to increase and intensify as more and larger competitor companies enter our markets. Increased competition could result in price pressure, reduced profitability and loss of market share, any of which could materially and adversely affect our business, financial condition and results of operations.

Currently, our competitors range from large, international companies offering a wide range of semiconductor products to smaller companies specializing in narrow markets. Our principal competitors with respect to our products include Broadcom Ltd. (Broadcom) and Marvell Technology, Inc. (Marvell) (which recently acquired Inphi Corporation, another competitor of ours) as well as various DAC suppliers. Our principal competitors with respect to IP licensing include Synopsys, Inc. (Synopsys), Cadence Design Systems, Inc. (Cadence) and Alphawave IP Group plc (Alphawave). We expect competition will increase as our market grows, connectivity technology advances and existing competitors improve or expand their product offerings. In addition, new companies could enter our market, creating additional competition in the future.

Our ability to compete successfully depends, in part, on factors that are outside of our control, including industry and general economic trends. Many of our competitors are substantially larger, have greater financial, technical, marketing, distribution, customer support, government support and other resources, are more established than we are and have significantly better brand recognition and broader product offerings, and may be able to bundle their products to gain market share. This in turn may enable them to better withstand adverse economic or market conditions, such as those caused by the current COVID-19 pandemic, in the future and significantly reduce their pricing so as to compete against us. Our ability to compete successfully will depend on a number of factors, including:

- our ability to define, design and regularly introduce new products and solutions that anticipate the functionality and integration needs of our customers' next-generation products and applications;

- our ability to build strong and long-lasting relationships with our customers and other industry participants;
- our ability to capitalize on, and prevent losses due to, vertical integration by significant customers;
- our products' performance, power efficiency and cost-effectiveness relative to those of competing products;
- our ability to achieve design wins;
- the effectiveness and success of our customers' products utilizing our products or solutions within their competitive end markets;
- our research and development capabilities to provide innovative products and solutions and maintain our product roadmap;
- the strength of our sales and marketing efforts and our brand awareness and reputation;
- our ability to deliver products in large volume on a timely basis at competitive prices;
- our ability to withstand or respond to significant price competition;
- our ability to grow and maintain international operations in a cost-effective manner;
- our ability to obtain, maintain, protect and enforce our intellectual property rights, including obtaining intellectual property rights from third parties that may be necessary to meet the evolving demands of the market;
- our ability to defend against potential patent infringement claims from third parties;
- our ability to promote and support our customers' incorporation of our products or solutions into their products; and
- our ability to retain high-level talent, including our management team and engineers.

Our competitors may also establish cooperative relationships among themselves or with third-parties or may acquire companies that provide similar products to ours. As a result, new competitors or alliances may emerge that could capture significant market share. Any of these factors, alone or in combination with others, could harm our business, financial condition, and results of operations and result in a loss of market share and an increase in pricing pressure.

Winning business is often subject to lengthy competitive selection processes that require us to incur significant expenditures prior to generating any revenue or without any guarantee of any revenue related to this business. Even if a customer chooses a Credo product for its system and starts to design us into that system, it may decide to cancel or change its plans, which could cause us to lose anticipated revenue from a product. If we fail to generate revenue after incurring substantial expenses to develop our products, it could materially and adversely affect our business, financial condition and results of operations.

We are focused on securing design wins that enable us to sell our products and solutions. We consider a design win to occur when a customer notifies us that it has selected our products or technology to be incorporated into a product or system under development, often as part of a competitive technology review and bid process. While not legally enforceable contractual obligations, we believe design wins are an important step towards the adoption of our products or technologies by a customer, as competition for design wins is a highly selective process and generally results in the customer devoting substantial resources in partnering with us in development. These selection processes typically are lengthy and can require us to incur significant design and development expenditures and dedicate limited engineering resources in pursuit of a single customer opportunity. We may not win the competitive

selection process and may never generate any revenue despite incurring significant design and development expenditures. Failure to obtain a design win could prevent us from offering an entire generation of a product to a particular customer. This could cause us to lose revenue and require us to write-off obsolete inventory, and could weaken our position in future competitive selection processes. Further, because of the significant costs associated with qualifying new suppliers, customers are likely to use the same or an enhanced version of semiconductor products from existing suppliers across a number of similar and successor products for a lengthy period of time. As a result, if we fail to secure an initial design win for any of our products to any particular customer, we may lose the opportunity to make future sales of those products to that customer for a significant period of time or at all and experience an associated decline in net sales relating to those products.

Even when we do achieve a design win, we may never generate any revenue despite incurring development expenditures. For example, despite achieving a design win, the customer may determine not to proceed with a contemplated project and cancel the project with little notice to us, resulting in a loss of projected revenue. In addition, even after securing a design win, we may experience delays in generating revenue from our products as a result of the lengthy development cycle typically required. Our customers may take several months or more than a year to evaluate our products and solutions. Our design cycle from initial engagement to volume shipment is typically two to three years.

The delays inherent in these lengthy sales cycles increase the risk that a customer will decide to cancel, curtail, reduce or delay its product plans or adopt a competing design from one of our competitors, which could cause us to lose anticipated revenue if we continue development but are unable to secure a new design win. Any delay or cancellation of a customer's plans could materially and adversely affect our financial results, as we may have incurred significant expense without generating any revenue. Moreover, our customers' failure to successfully market and sell their products could reduce demand for our products and materially and adversely affect our business, financial condition and results of operations.

Because of our extended sales cycle, our revenue in future years is highly dependent on design wins we are awarded in prior years. It is typical that a design win will not result in meaningful revenue until one or more years later, if at all. If we do not continue to achieve design wins in the short term, our revenue in the following years will deteriorate.

Further, a significant portion of our revenue in any period may depend on a single product design win with a large customer. As a result, the loss of any key design win or any significant delay in the ramp of volume production of the customer's products for which our product is designed could adversely affect our business, financial condition and results of operations. We may not be able to maintain sales to our key customers or continue to secure key design wins for a variety of reasons, and our customers can stop incorporating our products into their data infrastructure or product offerings with limited notice to us and suffer little or no penalty.

If we fail to anticipate or respond to technological shifts or market demands, or to timely develop new or enhanced products or technologies in response to the same, it could result in decreased revenue and the loss of design wins to our competitors. Due to the interdependence of various components in the systems within which our products and the products of our competitors operate, customers are unlikely to change to another design, once adopted, until the next generation of a technology. As a result, if we fail to introduce new or enhanced products that meet the needs of our customers or penetrate new markets in a timely fashion, and our designs do not gain acceptance, we will lose market share and our competitive position would be harmed.

We may experience difficulties demonstrating the value to customers of newer solutions if they believe existing solutions are adequate to meet end customer expectations. If we are unable to sell new generations of our product, our business would be harmed.

As we develop and introduce new products and solutions, we face the risk that customers may not value or be willing to bear the cost of incorporating these newer products or solutions into their product

offerings, particularly if they believe their customers are satisfied with prior offerings. Regardless of the improved features or superior performance of the newer products or solutions, customers may be unwilling to adopt our new products or solutions due to design or pricing constraints, among other reasons. Because of the extensive time and resources that we invest in developing new products and solutions, if we are unable to sell new generations of our products or solutions, our revenue could decline and our business, financial condition, and results of operations would be negatively affected.

Our customers require our products and our third-party contractors to undergo a lengthy and expensive qualification process which does not assure product sales. If we are unsuccessful or delayed in qualifying any of our products with a customer, our business and operating results would suffer.

Prior to purchasing our products, our customers require that both our products and our third-party contractors undergo extensive qualification processes, which involve testing of our products in the customers' systems, as well as testing for reliability. This qualification process may continue for several months or more. However, qualification of a product by a customer does not assure any sales of the product to that customer. Even after successful qualification and sales of a product to a customer, a subsequent revision in our third party contractors' manufacturing process or our selection of a new supplier may require a new qualification process with our customers, which may result in delays and in our holding excess or obsolete inventory. After our products are qualified, it can take several months or more before the customer commences volume production of components or systems that incorporate our products. Despite these uncertainties, we devote substantial resources, including design, engineering, sales, marketing and management efforts, to qualify our products with customers in anticipation of sales. If we are unsuccessful or delayed in qualifying any of our products with a customer, sales of those products to the customer may be precluded or delayed, which may impede our growth and materially and adversely affect our business, financial condition and results of operations.

The success of our products is dependent in part on our customers' ability to develop products that achieve market acceptance, and our customers' failure to do so could negatively affect our business.

The success of our products is heavily dependent on the timely introduction, quality and market acceptance of our customers' products incorporating our products, which are impacted by factors beyond our control. Our customers' products are often very complex and subject to design complexities that may result in design flaws, as well as potential defects, errors and bugs. We have in the past been subject to delays and project cancellations as a result of design flaws in the products developed by our customers, changing market requirements, such as the customer adding a new feature, or because a customer's product fails their end customer's evaluation or field trial. In other cases, customer products are delayed due to incompatible deliverables from other vendors. We incur significant design and development costs in connection with designing our products for customers' products that may not ultimately achieve market acceptance. If our customers discover design flaws, defects, errors or bugs in their products, or if they experience changing market requirements, failed evaluations or field trials or incompatible deliverables from other vendors, they may delay, change or cancel a project, and we may have incurred significant additional development costs and may not be able to recoup our costs, which in turn would adversely affect our business, financial condition and results of operations.

The complexity of our products could result in undetected defects and we may be subject to warranty claims and product liability, which could result in a decrease in customers and revenue, unexpected expenses and loss of market share. In addition, our product liability insurance may not adequately cover our costs arising from product defects or otherwise.

Highly complex products such as ours may contain defects, errors and bugs when they are first introduced or as new versions are released. We have in the past and may in the future experience these defects, errors and bugs. If any of our solutions have reliability, quality or compatibility problems, we may not be able to successfully correct these problems in a timely manner or at all. In addition, if any of our

proprietary features contain defects, errors or bugs when first introduced or as new versions of our products are released, we may be unable to timely correct these problems. Consequently, our reputation may be damaged and customers may be reluctant to buy our products, which could harm our ability to retain existing customers and attract new customers, and could adversely affect our financial results. In addition, these defects, errors or bugs could interrupt or delay sales to our customers. If any of these problems are not found until after we have commenced commercial production of a new product, we may incur significant additional development costs and product recall, repair or replacement costs. These problems may also result in claims against us by our customers or others.

Generally, we attempt to limit our liability to the replacement of the part or to the revenue received for the product through our negotiated agreements, as well as our standard terms and conditions, but these limitations on liability may not be effective or sufficient in scope in all cases. If a customer's equipment fails in use, the customer may incur significant monetary damages including an equipment recall or associated replacement expenses, as well as lost revenue. The customer may claim that a defect in our products caused the equipment failure and assert a claim against us to recover monetary damages. The process of identifying a defective or potentially defective product in systems that have been widely distributed may be lengthy and require significant resources, and may divert the attention of our engineering personnel from our product development efforts. We may test the affected product to determine the root cause of the problem and to determine appropriate solutions. We may find an appropriate solution or a temporary fix while a permanent solution is being determined. If we are unable to determine the root cause, find an appropriate solution or offer a temporary fix, we may delay shipment to customers. As a result, we may incur significant replacement costs, customers may bring contract damage claims and our reputation may be harmed. In certain situations, we may incur costs or expenses related to a recall of one of our products in order to avoid the potential claims due to a design or manufacturing process defect. Defects in our products could harm our relationships with our customers and damage our reputation. Customers may be reluctant to buy our products, which could harm our ability to retain existing customers and attract new customers. In addition, the cost of defending these claims and satisfying any arbitration award or judicial judgment with respect to these claims could harm our business prospects and financial condition. Although we carry product liability insurance, we cannot be sure that we have obtained a sufficient amount of insurance coverage, that asserted claims will be within the scope of coverage of the insurance or that we will have sufficient resources to satisfy any asserted claims arising from defects in our products or otherwise.

If we fail to accurately anticipate and respond to market trends and changing industry standards, or if we fail to develop and introduce new or enhanced products to address these trends or prevailing industry standards on a timely basis, our ability to attract and retain customers could be impaired and our competitive position could be harmed.

We operate in industries characterized by rapidly changing technologies and industry standards as well as technological obsolescence. We have developed products that may have long product life cycles of seven years or more. We believe that our future success depends on our ability to develop and introduce new technologies and products that generate new sources of revenue to replace, or build upon, existing product revenue streams that may be dependent upon limited product life cycles. If we are not able to repeatedly introduce, in successive years, new products that ship in volume, our revenue will likely not grow and may decline significantly and rapidly.

To compete successfully, we must design, develop, market and sell new or enhanced products that provide increasingly higher levels of performance and reliability while meeting industry standards and the cost expectations of our customers. The introduction of new products by our competitors, the delay or cancellation of a system or platform for which any of our products are designed, the market acceptance of products based on new or alternative technologies or the emergence of new industry standards could render our existing or future products uncompetitive from a pricing standpoint, obsolete and otherwise unmarketable. Our failure to anticipate or timely develop new or enhanced products or technologies in response to technological shifts or changes in industry standards could result in decreased revenue and our competitors achieving design wins over us. In particular, we may experience difficulties with product

design, manufacturing, marketing or certification that could delay or prevent our development, introduction or marketing of new or enhanced products. Although we believe our products are fully compliant with applicable industry standards, proprietary enhancements may not in the future result in full conformance with existing industry standards under all circumstances. Due to the interdependence of various components in the systems within which our products and the products of our competitors operate, customers are unlikely to change to another design, once adopted, until the next generation of a technology. Moreover, products for our target markets are based on industry standards that are continually evolving, and industry standards are often developed and promoted by larger companies who are industry leaders and provide other components of the systems in which our products are incorporated. If larger companies do not support the same industry standards that we do, or if competing standards emerge, it could render our products incompatible with products developed by other suppliers or make it difficult for our products to meet the requirements of certain customers. As a result, if we fail to introduce new or enhanced products that meet prevailing industry standards and the needs of our customers or penetrate new markets in a timely fashion, and our designs do not gain acceptance, we will lose market share and our competitive position, potentially on an extended basis, and our operating results will be adversely affected. Our pursuit of necessary technological advances will also require substantial time and expense.

We rely on a limited number of third parties to manufacture, assemble and test our products, and the failure to manage our relationships with our third-party contractors successfully could adversely affect our ability to market and sell our products and our reputation. Our revenue and operating results would suffer if these third parties fail to deliver products or components in a timely manner and at reasonable cost or if manufacturing capacity is reduced or eliminated, as we may be unable to obtain alternative manufacturing capacity.

We operate an outsourced manufacturing business model. As a result, we rely on third-party foundry wafer fabrication and assembly and test capacity. We currently outsource all of our IC manufacturing to Taiwan Semiconductor Manufacturing Company Limited (TSMC), with the remaining assembly and testing processes outsourced to other subcontractors primarily in Asia. We also use third-party contract manufacturers for a significant majority of our assembly and test operations, including Amkor Technology Inc. (Amkor), Advanced Semiconductor Engineering, Inc. (ASE), King Yuan Electronics Company (KVEC) and TeraPower Technology Inc. for our IC products, and BizLink Technology, Inc. (BizLink) and Cheng Ui Precision Industry (Foxlink) for our AEC products.

Relying on third-party manufacturing, assembly and testing presents significant risks to us, including the following:

- failure by us, our customers or their end customers to qualify a selected supplier;
- capacity shortages during periods of high demand;
- reduced control over delivery schedules and quality;
- shortages of materials;
- third parties infringing, misappropriating or otherwise violating our intellectual property rights;
- impairment of the operation or security of our products if errors or other defects occur in the third-party technologies we use, and difficulties correcting such errors or defects because the development and maintenance of those technologies is not within our control;
- limited warranties on wafers or products supplied to us; and
- potential increases in prices or reduced yields.

The ability and willingness of our third-party contractors to perform is largely outside our control. If one or more of our contract manufacturers or other outsourcers fails to perform its obligations in a timely

manner or at satisfactory quality levels, our ability to bring products to market and our reputation could suffer. For example, if that manufacturing capacity is reduced or eliminated at one or more facilities, including as a response to a general decline in the semiconductor or electrical cable industry, or any of those facilities are unable to keep pace with the growth of our business, we could have difficulties fulfilling our customer orders and our revenue could decline. In addition, if these third parties fail to deliver quality products and components on time and at reasonable prices, we could have difficulties fulfilling our customer orders, which could materially and adversely affect our business, financial condition and results of operations.

We do not generally have long-term contracts with our suppliers and substantially all of our purchases are on a purchase order basis. Suppliers may extend lead times, limit supplies, place products on allocation or increase prices due to commodity price increases, capacity constraints or other factors that could lead to interruption of supply or increased demand in the industry. For example, the COVID-19 pandemic, trade sanctions and other factors have led to worldwide supply constraints, including with respect to wafers and substrates. Additionally, the supply of these materials may be negatively impacted by increased trade tensions between the U.S. and its trading partners, particularly the PRC. Moreover, in August 2021, TSMC began informing its customers that it plans to increase the prices of its most advanced chips by roughly 10% and its less advanced chips by up to 20%, effective in late 2021 or early 2022 as a result of a global supply shortage that began in 2020. In the event that we cannot timely obtain sufficient quantities of materials or at reasonable prices, the quality of the material deteriorates or we are not able to pass on higher materials costs to our customers, our business, financial condition and results of operations could be adversely impacted.

Additionally, as our fabrication and assembly and test contractors are located in the Pacific Rim region, principally in Taiwan, our manufacturing capacity may be similarly reduced or eliminated due to natural disasters, including earthquakes, drought, typhoons, political unrest, trade restrictions, war, labor strikes, work stoppages or public health crises, such as the COVID-19 pandemic. This could cause significant delays in shipments of our products until we are able to shift our manufacturing, assembly or testing from the affected contractor to another third-party vendor. There can be no assurance that alternative manufacturing capacity could be obtained on favorable terms, if at all.

We generally do not maintain long-term supply contracts with TSMC, or our other third-party manufacturers or other suppliers, and any disruption in our supply of products or materials could have a material adverse effect on our business, financial condition and results of operations.

Except for our agreement with BizLink for the manufacture of certain AEC products, we do not maintain long-term supply contracts with TSMC or generally with any of our third-party contract manufacturers or other suppliers. We make substantially all of our purchases on a purchase order basis. Our suppliers are not typically required to supply us products for any specific period or in any specific quantity, and we negotiate pricing with our main vendors on a purchase order-by-purchase order basis. We expect that it would take approximately 9 to 12 months to transition from our current foundry or assembly services to new providers. Such a transition would likely result in increased production costs and require a qualification process by our customers or their end customers. Neither TSMC, BizLink nor our third-party manufacturers or other suppliers have provided contractual assurances to us that adequate capacity will be available to us to meet our anticipated future demand for our solutions. We generally place orders for products with some of our suppliers several months prior to the anticipated delivery date, with order volumes based on our forecasts of demand from our customers. If we inaccurately forecast demand for our products, we may be unable to obtain adequate and cost-effective foundry or assembly capacity from TSMC or our other third-party manufacturers or suppliers to meet our customers' delivery requirements, or we may accumulate excess inventories. Moreover, even if we accurately forecast demand for our products, we cannot be sure that TSMC or our other third-party manufacturers or suppliers will allocate sufficient capacity to satisfy our requirements.

TSMC and our assembly and test vendors may allocate capacity to the production of other companies' products while reducing deliveries to us on short notice. In particular, other customers that are

larger and better financed than us or that have long-term agreements with TSMC or our assembly and test vendors may cause TSMC or our assembly and test vendors to reallocate capacity to those customers, decreasing the capacity available to us. If we enter into costly arrangements with suppliers that include nonrefundable deposits or loans in exchange for capacity commitments, commitments to purchase specified quantities over extended periods or investment in a foundry, our operating results could be harmed. We may not be able to make any such arrangement in a timely fashion or at all, and any arrangements may be costly, reduce our financial flexibility and be on terms that are not favorable to us. Moreover, even if we are able to secure committed foundry capacity, we may be obligated to use all of that capacity or incur penalties. These penalties may be expensive and could harm our financial results. To date, we have not entered into such arrangements with TSMC or our assembly and test suppliers. If we need another foundry or assembly and test subcontractor because of increased demand, or if we are unable to obtain timely and adequate deliveries from our providers, we might not be able to cost effectively and quickly retain other vendors to satisfy our requirements.

For example, due to the COVID-19 pandemic, we have experienced some supply constraints, including with respect to wafers and substrates. Additionally, the supply of these materials may be negatively impacted by increased tensions between the United States and its trading partners, particularly the PRC. For example, Huawei Technologies Co. Ltd. (Huawei), as well as many of its suppliers, have significantly increased their wafer orders from TSMC due to U.S. export restrictions on sales to Huawei. This has caused, and may continue to cause, some dislocations in the semiconductor supply chain which may result in reduced capacity available to us. In the event that we cannot timely obtain sufficient quantities of materials or at reasonable prices, the quality of the material deteriorates or we are not able to pass on higher materials or energy costs to our customers, our business, financial condition and results of operations could be adversely impacted.

We rely on third-party technologies for the development of our products and our inability to use such technologies in the future would harm our ability to remain competitive.

We rely on third parties for technologies that are integrated into our products, such as wafer fabrication and assembly and test technologies used by our contract manufacturers, as well as licensed architecture technologies. If we are unable to continue to use or license these technologies on reasonable terms, or if these technologies fail to operate properly, we may not be able to secure alternatives in a timely manner or at all, and our ability to remain competitive would be harmed. In addition, if we are unable to successfully license technology from third parties to develop future products, we may not be able to develop such products in a timely manner or at all. The operation or security of our products could be impaired if errors or other defects occur in the third-party technologies we use, and it may be more difficult for us to correct any such errors and defects in a timely manner, if at all, because the development and maintenance of these technologies is not within our control. Any impairment of the technologies or of our relationship with these third parties could harm our business.

We rely on our relationships with industry and technology leaders to enhance our product offerings and our inability to continue to develop or maintain such relationships in the future would harm our ability to remain competitive.

We develop many of our products for applications in systems that are driven by industry and technology leaders in the data infrastructure market. We also work with customers, system manufacturers and standards bodies to define industry conventions and standards within our target markets. We believe these relationships enhance our ability to achieve market acceptance and widespread adoption of our products. If we are unable to continue to develop or maintain these relationships, our products and solutions would become less desirable to our customers, our sales would suffer and our competitive position could be harmed.

Average selling prices of our products generally decrease over time, which could negatively impact our revenue and gross margins.

Average selling prices of semiconductor products in the markets we serve have historically decreased over time, and we expect such declines to occur for our products over time. Accordingly, if competition increases in our target markets, we may need to reduce the average unit price of our products in anticipation of competitive pricing pressures, new product introductions by us or our competitors and for other reasons. Our gross margins and financial results will suffer if we are unable to offset reductions in our average selling prices by reducing our costs, developing new or enhanced products on a timely basis with higher selling prices or gross margins, or increasing our sales volumes.

We seek to offset the anticipated reductions in our average selling prices by reducing the cost of our products through improvements in manufacturing yields and lower wafer, assembly and testing costs, developing new products, enhancing lower-cost products on a timely basis and increasing unit sales. Because we do not operate our own manufacturing or assembly facilities or most of our testing facilities, we may not be able to reduce our costs as rapidly as companies that operate their own facilities, and our costs may even increase, which could further reduce our gross margins. We rely primarily on obtaining yield improvements and volume-based cost reductions to drive cost reductions in the manufacture of existing products, introducing new products that incorporate advanced features and optimize die size and other price and performance factors that enable us to increase revenue while maintaining gross margins. To the extent that such cost reductions or revenue increases do not occur at a sufficient level and in a timely manner, our business, financial condition and results of operations could be adversely affected. If we are unable to offset these anticipated reductions in our average selling prices, our business, financial condition and results of operations could be negatively affected.

Our gross margins may fluctuate due to a variety of factors, which could negatively impact our results of operations and our financial condition.

Our gross margins may fluctuate due to a number of factors, including customer and product mix, revenue mix between various offerings, market acceptance of our new products, timing and seasonality of end-market demand, yield, wafer pricing, packaging and testing costs, competitive pricing dynamics and geographic and market pricing strategies.

To attract new customers or retain existing customers, we have in the past and will in the future offer certain customers favorable prices, which would decrease our average selling prices and likely impact gross margins. Further, we may also offer pricing incentives to our customers on earlier generations of products that inherently have a higher cost structure, which would negatively affect our gross margins. In addition, in the event our customers, including our larger customers, exert more pressure with respect to pricing and other terms with us, it could put downward pressure on our margins. In addition, in connection with the significant increase in semiconductor IC demand as a consequence of increases in demand resulting from the COVID-19 pandemic, the cost of certain materials used to manufacture our products, including for semiconductor wafers, has increased as demand has outpaced supply.

In addition, we maintain an inventory of our products at various stages of production and in finished good inventory. We hold these inventories in anticipation of customer orders. If those customer orders do not materialize in a timely manner, we may have excess or obsolete inventory which we would have to reserve or write-down, and our gross margins would be adversely affected.

The ongoing COVID-19 pandemic has disrupted and will likely continue to disrupt normal business activity and may adversely impact our operations and financial results.

The global spread of COVID-19 and the efforts to control it have disrupted, and reduced the efficiency of, normal business activities in much of the world. The pandemic has resulted in authorities around the world implementing numerous unprecedented measures such as travel restrictions, quarantines, shelter in place orders, and factory and office shutdowns. These measures have impacted, and will likely

continue to impact, our workforce and operations, and those of our customers, contract manufacturers, suppliers and logistics providers.

Although transmission rates have shown signs of slowing at various points during the course of the pandemic, and the roll-out of vaccines and other therapeutic treatments are anticipated to lessen the severity of the pandemic in the coming months and years, considerable uncertainty regarding the economic impact of the COVID-19 pandemic is likely to result in sustained market turmoil and severe global economic disruption. In addition, although a number of vaccines have been introduced in recent months, distribution globally and within countries has been uneven and there remains significant uncertainty whether or how quickly they will support lifting of governmental and social measures and anticipated return of economic growth in the future. We have experienced, and expect to continue to experience, some disruptions to parts of our global semiconductor supply chain, including procuring necessary components and inputs, such as wafers and substrates, in a timely fashion, with suppliers increasing lead times or placing products on allocation and raising prices. In addition, disruptions to commercial transportation infrastructure have increased delivery times for materials and component, transfers of our products to our key suppliers and, in some cases, could affect our ability to timely ship our products to customers. As a result of these supply chain disruptions, we may be required to increase customer order lead times and place some products on allocation. These factors may limit our ability to fulfill orders and we may be unable to satisfy all of the demand for our products, which may adversely affect our relationships with our customers.

In addition, in response to governmental directives and recommended safety measures, we modified our workplace practices globally, which has resulted in many of our employees working remotely for extended periods of time. Working remotely for extended periods may reduce our employees' efficiency and productivity, which may cause product development delays, hamper new product innovation and have other unforeseen adverse effects on our business. While we have implemented a phased-in return of employees to some of our facilities, we may need to modify our business practices in a manner that may adversely impact our business. While we have implemented personal safety measures at all of our facilities where our employees are working onsite, any actions we take may not be sufficient to mitigate the risk of infection.

Continuation of governmental restrictions, continued spread of the virus (including the emergence of vaccine-resistant variants) or prolonged disruption in global markets may result in:

- a global economic recession or depression that could significantly reduce demand and/or prices for our products;
- reduced productivity in our product development, operations, marketing, sales, and other activities, and delays in the delivery of our products;
- disruptions to our supply chain;
- disruptions in the qualification and testing of our products in our customers' systems;
- increased costs resulting from individuals working from home or from our efforts to mitigate the impact of the COVID-19 pandemic;
- reduced access to financing to fund our operations due to a deterioration of credit and financial markets; or
- higher rate of losses on our accounts receivables due to credit defaults.

The impact of the COVID-19 pandemic continues to evolve and its duration and ultimate disruption to our business, the overall demand for our products and the related financial impact, as well as any similar disruptions that may result from any future pandemic, epidemic or other outbreak of infectious disease, will depend on future developments, which are highly uncertain and cannot be predicted. In addition,

given the inherent uncertainty surrounding COVID-19 due to rapidly changing governmental directives, public health challenges and economic disruption, the potential impact that the COVID-19 pandemic could have on the other risk factors described in this “Risk Factors” section remains unclear.

Our ability to receive timely payments from, or the deterioration of the financial conditions of, our customers, could adversely affect our operating results.

Our ability to receive timely payments from, or the deterioration of the financial condition of, our customers could adversely impact our collection of accounts receivable, and, as a result, our revenue. We regularly review the collectability and creditworthiness of our customers to determine an appropriate allowance for doubtful accounts. Based on our review of our customers, we had no reserve for doubtful accounts as of April 30, 2020 and 2021. If our doubtful accounts were to exceed our current or future allowance for doubtful accounts, our business, financial condition and results of operations would be adversely affected.

We may not be able to accurately predict our future capital needs, and we may not be able to obtain additional financing to fund our operations.

We may need to raise additional funds in the future. Any required additional financing may not be available on terms acceptable to us, or at all. If we raise additional funds by issuing equity securities or convertible debt, investors may experience significant dilution of their ownership interest, and the newly-issued securities may have rights senior to those of the holders of our ordinary shares. If we raise additional funds by obtaining loans from third parties, the terms of those financing arrangements may include negative covenants or other restrictions on our business that could impair our operational flexibility and would also require us to incur additional interest expense. If additional financing is not available when required or is not available on acceptable terms, we may have to scale back our operations or limit our production activities, and we may not be able to expand our business, develop or enhance our products or solutions, take advantage of business opportunities or respond to competitive pressures, which could negatively impact our business, financial condition and results of operations.

We may not be able to effectively manage our growth, and we may need to incur significant expenditures to address the additional operational and control requirements of our growth, either of which could harm our business, financial condition and results of operations.

To effectively manage our growth, we must continue to expand our operational, engineering and financial systems, procedures and controls and to improve our accounting and other internal management systems. This may require substantial managerial and financial resources, and our efforts in this regard may not be successful. Our current systems, procedures and controls may not be adequate to support our future operations. In addition, in connection with operating as a public company, we will incur additional significant legal, accounting and other expenses that we did not incur as a private company. If our revenue does not increase to offset these increases in our expenses, we may not achieve or maintain profitability in future periods. Any failure to successfully implement systems enhancements and improvements will likely have a negative impact on our ability to manage our expected growth as well as our ability to ensure uninterrupted operation of key business systems and compliance with the rules and regulations applicable to public companies.

If we are unable to manage our growth effectively, we may not be able to take advantage of market opportunities or develop new or improved products or solutions, and we may fail to satisfy customer product or support requirements, maintain the quality of our products or solutions, execute our business plan or respond to competitive pressures, any of which could negatively affect our business, financial condition, and results of operations.

If TSMC or any of the other manufacturers with which we contract, or any additional foundries with which we may contract in the future, do not achieve satisfactory yields or quality, our reputation and customer relationships could be harmed.

We depend on satisfactory wafer foundry manufacturing capacity, wafer prices and production yields, as well as timely wafer delivery to meet customer demand and enable us to maintain gross margins. The fabrication of our products is a complex and technically demanding process. Minor deviations in the manufacturing process can cause substantial decreases in yields and, in some cases, cause production to be suspended. Our IC foundry vendor, TSMC, other manufacturers with which we contract and any foundries we may employ in the future may experience manufacturing defects and reduced manufacturing yields from time to time. If these vendors were to extend lead times, limit supplies or the types of capacity we require, or increase prices due to capacity constraints or other factors, our revenue and gross margin may materially decline. For example, in August 2021, TSMC began informing its customers that it plans to increase the prices of its most advanced chips by roughly 10% and its less advanced chips by up to 20%, effective in late 2021 or early 2022, as a result of a global supply shortage that began in 2020. Further, any new foundry vendors we employ may present additional and unexpected manufacturing challenges that could require significant management time and focus. Changes in manufacturing processes or the inadvertent use of defective or contaminated materials by the foundries that we employ could result in lower than anticipated production yields or unacceptable performance of our devices. Many of these problems are difficult to detect at an early stage of the manufacturing process and may be time-consuming and expensive to correct. Poor production yields from the foundries that we employ, or defects, integration issues or other performance problems in our solutions could significantly harm our customer relationships and financial results, and give rise to financial or other damages to our customers. Any product liability claim brought against us, even if unsuccessful, would likely be time-consuming and costly to defend.

Manufacturing yields for new products initially tend to be lower as we complete product development and commence volume manufacturing, and typically increase as we bring the product to full production. Our business model includes the assumption of improving manufacturing yields and, as a result, material variances between projected and actual manufacturing yields will have a direct effect on our gross margin and profitability. The difficulty of accurately forecasting manufacturing yields and maintaining cost competitiveness through improving manufacturing yields will continue to be magnified by the increasing process complexity of manufacturing semiconductor products.

While we currently use distributors to only a limited extent to assist in selling our products, we may choose to rely on distributors in the future. If we fail to retain any distributors upon which we rely in the future, or if any of these parties fail to perform as expected, it could reduce our future sales.

While we currently use distributors to only a limited extent to assist in selling our products, we may choose to rely on distributors in the future. To the extent we rely on distributors in the future, we would be unable to predict the extent to which these distributors will be successful in marketing and selling our products. Moreover, many of these distributors would also be likely to market and sell competing products, which may affect the extent to which they would promote our products. Even where our relationships are formalized in contracts, any such distributors would likely have the right to terminate their relationships with us at any time. Our future performance may also depend, in part, on our ability to attract distributors who would be able to market and support our products effectively, especially in markets in which we have not previously sold our products. If we choose to rely on distributors in the future, and cannot retain any such distributors or find replacement distributors, our business, financial condition and results of operations could be harmed. Moreover, because we would not control the sales representatives and other employees of any such distributors, any actions by the sales representatives and other employees of such distributors that do not comply with our sales process or priorities or applicable regulatory requirements could harm the reputation of our company or our products, result in legal liability to us or result in sales that are below our expectations, any of which could have a material adverse effect on our business, financial condition and results of operations.

We are subject to environmental, health and safety laws, which could increase our costs, restrict our operations and require expenditures that could have a material adverse effect on our results of operations and financial condition.

We are subject to a variety of international laws and regulations relating to the use, disposal, clean-up of and human exposure to hazardous materials. Compliance with environmental, health and safety requirements could, among other things, require us to modify our manufacturing processes, restrict our ability to expand our facilities or require us to acquire pollution control equipment, all of which can be very costly. Any failure by us to comply with such requirements could result in the limitation or suspension of the manufacture of our products and could result in litigation against us and the payment of significant fines and damages by us in the event of a significant adverse judgment. In addition, complying with any cleanup or remediation obligations for which we are or become responsible could be costly and have a material adverse effect on our business, financial condition and results of operations.

Changing requirements relating to the materials composition of our semiconductor products, including the restrictions on lead and certain other substances in electronic products sold in various countries, including the United States, the PRC and Japan, and in the European Union, increase the complexity and costs of our product design and procurement operations and may require us to re-engineer our products. Such re-engineering may result in excess inventory or other additional costs and could have a material adverse effect on our results of operations. We may also experience claims from employees from time to time with regard to exposure to hazardous materials or other workplace related environmental claims.

If we fail to maintain an effective system of disclosure controls and internal control over financial reporting, our ability to produce timely and accurate financial statements or comply with applicable regulations could be impaired.

As a public company, we will be subject to the reporting requirements of the Exchange Act, the Sarbanes-Oxley Act and the rules and regulations of the applicable listing standards of the . We expect that the requirements of these rules and regulations will continue to increase our legal, accounting and financial compliance costs, make some activities more difficult, time-consuming and costly and place significant strain on our personnel, systems and resources. The Sarbanes-Oxley Act requires, among other things, that we maintain effective disclosure controls and procedures and internal control over financial reporting. We are continuing to develop and refine our disclosure controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we will file with the Securities and Exchange Commission (SEC) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that information required to be disclosed in reports under the Exchange Act is accumulated and communicated to our principal executive and financial officers. We are also continuing to improve our internal control over financial reporting.

In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, we have expended, and anticipate that we will continue to expend, significant resources, including accounting-related costs and significant management oversight. Our current controls and any new controls that we develop may become inadequate because of changes in conditions in our business. In addition, changes in accounting principles or interpretations could also challenge our internal controls and require that we establish new business processes, systems and controls to accommodate such changes. We have limited experience with implementing the systems and controls that will be necessary to operate as a public company, as well as adopting changes in accounting principles or interpretations mandated by the relevant regulatory bodies. Additionally, if these new systems, controls or standards and the associated process changes do not give rise to the benefits that we expect or do not operate as intended, it could adversely affect our financial reporting systems and processes, our ability to produce timely and accurate financial reports or the effectiveness of internal control over financial reporting. Moreover, our business may be harmed if we experience problems with any new systems and controls that result in delays in their implementation or increased costs to correct any post-implementation issues that may arise.

Further, weaknesses in our disclosure controls and internal control over financial reporting may be discovered in the future. Any failure to develop or maintain effective controls or any difficulties encountered in their implementation or improvement could harm our business or cause us to fail to meet our reporting obligations and may result in a restatement of our financial statements for prior periods. Any failure to implement and maintain effective internal control over financial reporting also could adversely affect the results of periodic management evaluations and annual independent registered public accounting firm attestation reports regarding the effectiveness of our internal control over financial reporting that we will eventually be required to include in our periodic reports that will be filed with the SEC. Ineffective disclosure controls and procedures and internal control over financial reporting could also cause investors to lose confidence in our reported financial and other information, which would likely have a negative effect on the trading price of our ordinary shares. In addition, if we are unable to continue to meet these requirements, we may not be able to remain listed on the .

We are not currently required to comply with the SEC rules that implement Section 404 of the Sarbanes-Oxley Act and are therefore not required to make a formal assessment of the effectiveness of our internal control over financial reporting for that purpose. As a public company, we will be required to provide an annual management report on the effectiveness of our internal control over financial reporting commencing with our second annual report on Form 10-K. Our independent registered public accounting firm is not required to formally attest to the effectiveness of our internal control over financial reporting until our first annual report filed with the SEC where we are an accelerated filer or a large accelerated filer, which will not occur until at least our second annual report on Form 10-K. At such time, our independent registered public accounting firm may issue a report that is adverse in the event it is not satisfied with the level at which our internal control over financial reporting is documented, designed or operating. Any failure to maintain effective disclosure controls and internal control over financial reporting could harm our business and could cause a decline in the trading price of our ordinary shares.

There is a risk that we will be a passive foreign investment company for the current or any future taxable year, which generally would result in adverse U.S. federal income tax consequences to U.S. investors in our ordinary shares.

In general, a non-U.S. corporation is a passive foreign investment company (PFIC) for U.S. federal income tax purposes for any taxable year in which (i) 50% or more of the average value of its assets (generally determined on a quarterly basis) consists of assets that produce, or are held for the production of, passive income, or (ii) 75% or more of its gross income consists of passive income. For purposes of the above calculations, a non-U.S. corporation that owns, directly or indirectly, at least 25% by value of the shares of another corporation is treated as if it held its proportionate share of the assets of the other corporation and received directly its proportionate share of the income of the other corporation. Passive income generally includes dividends, interest, rents or royalties (other than certain rents or royalties earned in the conduct of an active business) and investment gains. Cash is generally a passive asset for these purposes. Goodwill is generally characterized as an active asset to the extent it is associated with business activities that produce active income.

Based on the manner in which we currently conduct our business, our current and expected composition of our income and assets and the expected value of our assets (including the value of our goodwill, which is based on the expected price of our ordinary shares), we do not expect to be a PFIC for our current taxable year. However, our PFIC status is an annual determination that may change. If we were a PFIC for any taxable year during which a U.S. taxpayer held ordinary shares, the U.S. taxpayer generally would be subject to adverse U.S. federal income tax consequences, including increased tax liability on disposition gains and certain distributions and additional reporting requirements. See "Taxation—U.S. Federal Income Tax Considerations—Passive Foreign Investment Company Rules."

If a United States person is treated as owning 10% or more of our outstanding equity, such holder may be subject to adverse U.S. federal income tax consequences.

If a United States person is treated as owning (directly, indirectly, or constructively) at least 10% of the value or voting power of our outstanding equity, such person may be treated as a “United States shareholder” with respect to each controlled foreign corporation, or CFC, in our group. Because our group includes a U.S. subsidiary, certain of our non-U.S. subsidiaries will be treated as CFCs (regardless of whether we are treated as a CFC). A United States shareholder of a CFC may be required to report annually and include in its U.S. taxable income its pro rata share of such CFC’s “Subpart F income,” “global intangible low-taxed income,” and investments in U.S. property, regardless of whether we make any distributions to the United States shareholder. An individual that is a United States shareholder with respect to a CFC generally would not be allowed certain tax deductions or foreign tax credits that would be allowed to a United States shareholder that is a U.S. corporation. Failure to comply with these reporting obligations may subject a United States shareholder to significant monetary penalties and may prevent the statute of limitations with respect to such shareholder’s U.S. federal income tax return for the year for which reporting was due from starting. We are not required to assist investors in determining whether we are or any of our non-U.S. subsidiaries is treated as a CFC or whether any investor is treated as a United States shareholder with respect to us or our non U.S. subsidiaries or furnish to any United States shareholders information that may be necessary to comply with the aforementioned reporting and tax paying obligations. The United States Internal Revenue Service has provided limited guidance on situations in which investors may rely on publicly available information to comply with their reporting and tax paying obligations with respect to foreign-controlled CFCs. A United States investor should consult its advisors regarding the potential application of these rules to an investment in our ordinary shares.

Changes in our tax rates or exposure to additional tax liabilities or assessments could affect our profitability, and audits by tax authorities could result in additional tax payments.

We are affected by various taxes imposed in different jurisdictions, including direct and indirect taxes imposed on our global activities. Significant judgment is required in determining our provisions for taxes, and there are many transactions and calculations where the ultimate tax determination is uncertain. The amount of income tax we pay is subject to ongoing audits by tax authorities. If audits result in payments or assessments, our future results may include unfavorable adjustments to our tax liabilities, and we could be adversely affected. Any significant changes to the tax system in the jurisdictions where we operate could adversely affect our business, financial condition and results of operations.

Risks Related to Our Industry

Our target customer and product markets may not grow or develop as we currently expect, and if we fail to penetrate new markets and scale successfully within those markets, our business, financial condition and results of operations would be harmed.

Within the data infrastructure industry, our target markets include the networking OEMs, optical module OEMs, hyperscalers, 5G communications (5G), IoT, HPC and artificial intelligence markets. Any deterioration in our target customer or product markets or reduction in capital spending to support these markets could lead to a reduction in demand for our products, which would adversely affect our business, financial condition and results of operations. Further, these markets are relatively new and still developing, and if our target customer markets do not grow or develop in ways that we currently expect, demand for our products and solutions may not materialize as expected, which would also negatively impact our business, financial condition and results of operations.

We may be unable to predict the timing or development of trends in our target markets with any accuracy. If we fail to accurately predict market requirements or market demand for these products and solutions, our business will suffer. A market shift towards an industry standard that we may not support could significantly decrease the demand for our products and solutions.

Our future revenue growth, if any, will depend in part on our ability to expand within our existing markets, our ability to continue to penetrate emerging markets, such as the 5G market, and our ability to enter into new markets. Each of these markets presents distinct and substantial challenges and risks and, in many cases, requires us to develop new customized solutions to address the particular requirements of that market. Meeting the technical requirements and securing design wins in any of these new markets will require a substantial investment of our time and resources. We cannot assure you that we will secure design wins from these or other new markets, or that we will achieve meaningful revenue from sales in these markets. If any of these markets do not develop as we currently anticipate or if we are unable to penetrate them and scale in them successfully, our revenue may not increase or could decline.

If sufficient market demand for 100G/200G/400G/800G solutions does not develop or develops more slowly than expected, or if we fail to accurately predict market requirements or market demand for 100G/200G/400G/800G solutions, our business, competitive position and operating results would suffer.

We are currently investing significant resources to develop semiconductor solutions supporting 100G/200G/400G/800G data transmission rates in order to increase the number of such solutions in our product line. If we fail to accurately predict market requirements or market demand for 100G/200G/400G/800G semiconductor solutions, or if our 100G/200G/400G/800G semiconductor solutions are not successfully developed or competitive in the industry, our business will suffer. If 100G/200G/400G/800G networks are deployed to a lesser extent or more slowly than we currently anticipate, we may not realize any benefits from our investment. As a result, our business, financial condition and results of operations would suffer.

Our business is dependent on capital expenditures by data centers and service providers, and any downturn that they experience could negatively impact our business.

Our business depends on continued capital expenditures by data center service providers and is subject to the cyclical nature of such expenditures. If the demand for our customers' products declines or fails to increase, as a result of lower capital expenditures by service providers or any other factors, demand for our products will be similarly affected. Global economic downturns have caused in the past, and may cause in the future, a significant reduction in capital spending on data infrastructure equipment, which could materially and adversely affect our business, financial condition and results of operations.

We may be unable to make the substantial and productive research and development investments, which are required for our business to remain competitive.

The data infrastructure industry requires substantial investment in research and development in order to develop and bring to market new and enhanced technologies and products. Our products originated with our research and development efforts and have provided us with a significant competitive advantage. Our research and development expenses were \$34.8 million for fiscal 2021 and \$9.7 million for the three months ended July 31, 2021. We are committed to investing in new product development in order to remain competitive in our target markets. We do not know whether we will have sufficient resources to maintain the level of investment in research and development required to remain competitive. In addition, there is no assurance that the technologies which are the focus of our research and development expenditures will become commercially successful. Increased investments in research and development or unsuccessful research and development efforts could cause our cost structure to fall out of alignment with demand for our products, which would have a negative impact on our financial results.

Raw material price fluctuations can increase the cost of our products, impact our ability to meet customer commitments, and may adversely affect our business, financial condition and results of operations.

The cost of raw materials is a key element in the cost of our products. Our inability to offset material price inflation through increased prices to customers, suppliers, productivity actions or through commodity hedges could adversely affect our business, financial condition and results of operations. Many major

components, product equipment items and raw materials are procured or subcontracted on a single or sole-source basis. Although we maintain a qualification and performance surveillance process and we believe that sources of supply for raw materials and components are generally adequate, it is difficult to predict what effects shortages or price increases may have in the future. Our inability to fill our supply needs would jeopardize our ability to fulfill obligations under our contracts, which could, in turn, result in reduced sales and profits, contract penalties or terminations, and damage to our customer relationships.

Furthermore, increases in the price of silicon wafers, copper cables, printed circuit boards (PCBs), testing costs and commodities, which may result in increased production costs, mainly assembly and packaging costs, may result in a decrease in our gross margins. Moreover, our suppliers may pass the increase in raw materials and commodity costs onto us, which would further reduce the gross margin of our products. In addition, as we are a fabless company, global market trends such as a shortage of capacity to fulfill our fabrication needs also may increase our raw material costs and thus decrease our gross margin.

We are subject to the cyclical nature of the semiconductor industry, which has suffered and may suffer from future recessionary downturns.

The semiconductor industry is highly cyclical and is characterized by constant and rapid technological change, rapid product obsolescence and price erosion, evolving standards, frequent new product introductions and wide fluctuations in product supply and demand. The industry has experienced significant downturns during recent global recessions. These downturns have been characterized by diminished product demand, production overcapacity, high inventory levels and accelerated erosion of average selling prices. Any future downturns could negatively impact our business and operating results. Furthermore, any upturn in the semiconductor industry could result in increased competition for access to third-party foundry and assembly capacity. We are dependent on the availability of this capacity to manufacture and assemble our products. Neither our third-party foundry nor our assembly contractors has provided assurances that adequate capacity will be available to us in the future.

Social and environmental responsibility regulations, policies and provisions, as well as customer and investor demands, may make our supply chain more complex and may adversely affect our relationships with customers and investors.

There is an increasing focus on corporate social and environmental responsibility in the semiconductor industry. A number of our customers have adopted, or may adopt, procurement policies that include social and environmental responsibility provisions or requirements that their suppliers should comply with, or they may seek to include such provisions or requirements in their procurement terms and conditions. An increasing number of investors are also requiring companies to disclose corporate social and environmental policies, practices and metrics. Legal and regulatory requirements, as well as investor expectations, on corporate social responsibility practices and disclosure, are subject to change, can be unpredictable, and may be difficult and expensive for us to comply with, given the complexity of our supply chain and our significant outsourced manufacturing. If we are unable to comply, or are unable to cause our suppliers to comply, with such policies or provisions or meet the requirements of our customers and our investors, a customer may stop purchasing products from us or an investor may sell their shares, and may take legal action against us, which could harm our reputation, revenue and results of operations.

In addition, as part of their corporate social and environmental responsibility programs, an increasing number of OEMs are seeking to source products that do not contain minerals sourced from areas where proceeds from the sale of such minerals are likely to be used to fund armed conflicts, such as in the Democratic Republic of Congo. This could adversely affect the sourcing, availability and pricing of minerals used in the manufacture of semiconductor devices, including our products. As a result, we may face difficulties in satisfying these customers' demands, which may harm our sales and operating results.

Industry consolidation may lead to increased competition and may harm our operating results.

There has been a trend toward industry consolidation in our markets for several years, including the recent acquisition of Inphi Corporation by Marvell, two of our competitors. We expect this trend to continue as companies attempt to improve the leverage of growing research and development costs, strengthen or hold their market positions in an evolving industry or are unable to continue operations. Companies that are strategic alliance partners in some areas of our business may acquire or form alliances with our competitors, thereby reducing their business with us. We believe that industry consolidation may result in stronger competitors that are better able to compete as sole-source vendors for customers. This could lead to more variability in our operating results and could have a material adverse effect on our business, operating results and financial condition.

Risks Related to Our International Operations

Our business, financial condition and results of operations could be adversely affected by worldwide economic conditions, as well as political and economic conditions in the countries in which we conduct business.

We outsource the fabrication and assembly of all of our products to third parties that are primarily located in Asia. In addition, we conduct research and development activities in the United States, mainland China, Taiwan and Hong Kong. We also conduct marketing and administrative functions in the United States and mainland China. In addition, members of our sales force are located in the United States, mainland China, Taiwan, Japan, and Canada. Accordingly, our business and operating results are impacted by worldwide economic conditions. Uncertainty about current global economic conditions may cause businesses to postpone spending in response to tighter credit, unemployment or negative financial news. This in turn could have a material adverse effect on the demand for our products or the systems into which our products are incorporated. Multiple factors relating to our international operations and to particular countries in which we operate could negatively impact our business, financial condition and results of operations. These factors include:

- complexity and costs of managing international operations, including manufacturing, assembly and testing of our products and associated costs;
- compliance with local laws and regulations and unanticipated changes in local laws and regulations, including tax laws and regulations;
- reduced protection of intellectual property rights and heightened exposure to intellectual property theft;
- trade and foreign exchange restrictions and higher tariffs, including the ongoing trade tensions between the United States and the PRC that has resulted in higher tariffs on certain semiconductor products;
- timing and availability of import and export licenses and other governmental approvals, permits and licenses, including export classification requirements;
- restrictions imposed by the U.S. government or foreign governments on our ability to do business with certain companies or in certain countries as a result of international political conflicts or the COVID-19 pandemic, and the complexity of complying with those restrictions;
- transportation delays and other consequences of limited local infrastructure, and disruptions, such as large scale outages or interruptions of service from utilities or telecommunications providers;
- difficulties in staffing international operations;
- changes in immigration policies which may impact our ability to hire personnel;

- local business and cultural factors that differ from our normal standards and practices;
- differing employment practices and labor relations;
- heightened risk of terrorist acts, civil disturbances or political instability;
- regional health issues and the impact of public health epidemics on employees and the global economy, such as the worldwide COVID-19 pandemic;
- power outages and natural disasters;
- changes in political, regulatory legal or economic conditions;
- disruptions of capital and trading markets; and
- difficulty in obtaining distribution and support.

These risks could harm our international operations, delay new product releases, increase our operating costs and hinder our ability to grow our operations and business and, consequently, our business, financial condition and results of operations could suffer. For example, we rely on TSMC in Taiwan as the foundry for all of our semiconductor products. If political tensions between the PRC and Taiwan were to increase, it could disrupt our business.

Our global operations expose us to numerous legal and regulatory requirements and failure to comply with such requirements, including unexpected changes to such requirements, could adversely affect our results of operations.

We service our customers around the world. We are subject to numerous, and sometimes conflicting, legal regimes of the United States and foreign national, state and provincial authorities on matters as diverse as anti-corruption, trade restrictions, tariffs, taxation, sanctions, immigration, internal and disclosure control obligations, securities regulation, anti-competition, data security, privacy, labor relations, wages and severance, and health care requirements. For example, our operations in the United States are, and our operations outside of the United States may also be, subject to U.S. laws on these diverse matters. U.S. laws may be different in significant respects from the laws of the PRC or Taiwan, where we have significant operations, and jurisdictions where we seek to expand. U.S. laws could also directly conflict with PRC laws, forcing businesses to choose between compliance with conflicting legal regimes. For example, in January 2021, the Ministry of Commerce of the People's Republic of China (MOFCOM) issued MOFCOM Order No. 1 of 2021 on Rules Counteracting Unjustified Extraterritorial Application of Foreign Legislation and Other Measures (Order No. 1). MOFCOM's Order No. 1 established a blocking regime aimed at counteracting the impact of foreign sanctions on Chinese persons and entities. It allows MOFCOM to prohibit Chinese persons and entities from complying with identified foreign laws and creates a private right of action for Chinese entities and persons affected by those laws to seek damages. Order No. 1 will become operational once the Chinese government identifies the specific extraterritorial legislation and other measures to which it applies. These measures could include U.S. export controls and sanctions. We also may seek to expand operations in emerging market jurisdictions where legal systems are less developed or familiar to us.

In addition, there can be no assurance that the laws or administrative practices relating to taxation (including the current position as to income and withholding taxes), foreign exchange, export controls, economic sanctions or otherwise in the jurisdictions where we have operations will not change. Changes in tax laws in some jurisdictions may also have a retroactive effect and we may be found to have paid less tax than required in such regions. Compliance with diverse legal requirements is costly, time consuming and requires significant resources. Violations of one or more of these regulations in the conduct of our business could result in significant fines, criminal sanctions against us or our officers, prohibitions on doing business and damage to our reputation. Violations of these regulations in connection with the performance of our obligations to our customers also could result in liability for significant monetary

damages, fines or criminal prosecution, unfavorable publicity and other reputational damage, and allegations by our customers that we have not performed our contractual obligations. Due to the varying degrees of development of the legal systems of the countries in which we operate, local laws might be insufficient to protect our rights.

Uncertainties with respect to the PRC legal system, including uncertainties regarding the enforcement of laws, and sudden or unexpected changes in policies, laws and regulations in the PRC could adversely affect us.

We generated 0.3% of our revenue in mainland China in fiscal year 2021, and 3.8% of our assets (by book value) were held in mainland China as of April 30, 2021. Our operations in mainland China are governed by the PRC laws and regulations. The PRC legal system is a civil law system based on written statutes. Unlike the common law system, prior court decisions under the civil law system may be cited for reference but have limited precedential value. Since the PRC legal system continues to rapidly evolve, the interpretations of many laws and regulations are not always uniform and enforcement of these laws and regulations involves uncertainties. In addition, any new PRC laws or changes in PRC laws and regulations related to, among other things, foreign investment and manufacturing in the PRC could have a material adverse effect on our business and our ability to operate our business in mainland China.

From time to time, we may have to resort to administrative and court proceedings to enforce our legal rights. Any administrative and court proceedings in mainland China may be protracted, resulting in substantial costs and diversion of resources and management attention. Since PRC administrative and court authorities have significant discretion in interpreting and implementing statutory provisions and contractual terms, it may be more difficult to evaluate the outcome of administrative and court proceedings and the level of legal protection we enjoy, than in more developed legal systems. These uncertainties may impede our ability to enforce contracts in the PRC and could materially and adversely affect our business and results of operations.

Furthermore, the PRC legal system is based in part on government policies and internal rules, some of which are not published on a timely basis, or at all, and may have retroactive effect. As a result, we may not be aware of our violation of any of these policies and rules until sometime after the violation. Such unpredictability towards our contractual, property and procedural rights and any failure to quickly respond to changes in the regulatory environment in the PRC could adversely affect our business, and impede our ability to continue our operations in mainland China and proceed with our future business plans in mainland China.

The PRC government has significant oversight over the conduct of the business of our PRC subsidiaries; such oversight could result in a material change in our operations and/or the value of our ordinary shares or could significantly limit our ability to offer or continue to offer ordinary shares and/or other securities to investors and cause the value of such securities to significantly decline.

The PRC government has significant oversight over the conduct of the business of our PRC subsidiaries and may intervene or influence our operations in mainland China at any time as the PRC government deems appropriate to further regulatory, political and societal goals, which may potentially result in a material adverse effect on our operations. The PRC government has recently published new policies that significantly affect certain industries other than ours, and we cannot rule out the possibility that it will in the future release regulations or policies regarding our industry that could adversely affect our business, financial condition and results of operations.

The Regulations on Mergers and Acquisitions of Domestic Companies by Foreign Investors (M&A Rules), adopted by six PRC regulatory agencies in 2006 and amended in 2009, require any offshore special purpose vehicle that is controlled by PRC companies or individuals and formed for the purpose of seeking a public listing on an overseas stock exchange through acquisition of PRC domestic companies to obtain the approval of the CSRC prior to the listing and trading of its securities on an overseas stock

exchange. On September 21, 2006, the CSRC published on its official website procedures specifying documents and materials required to be submitted to it by any such special purpose vehicle seeking CSRC's approval of overseas listings. We understand that under the current PRC laws, regulations and rules, the CSRC's approval are not required for the listing and trading of the securities on the Nasdaq in the context of this offering, given that: (i) the CSRC currently has not issued any definitive rule or interpretation concerning whether offerings like ours in this prospectus are subject to this regulation, (ii) our company is not controlled by PRC companies or individuals, and (iii) we have established our PRC subsidiaries by means of direct investment and not by acquisitions. However, substantial uncertainty remains regarding the scope and applicability of the M&A Rules and the CSRC approval requirement.

Recently, the General Office of the Central Committee of the Communist Party of China and the General Office of the State Council jointly issued the Opinions on Strictly Cracking Down on Illegal Securities Activities According to Law (Opinions), which call for strengthened regulation over illegal securities activities and supervision on overseas listings by China-based companies and propose to take effective measures, such as promoting the development of relevant regulatory systems to deal with the risks and incidents faced by China-based overseas-listed companies. The PRC government has indicated that it may exert more control or influence over offerings of securities conducted overseas. If the PRC authorities attempt to exercise such control or influence through regulation over our PRC subsidiaries, we could be required to restructure our operations to comply with such regulations or potentially cease operations in the PRC entirely, which could adversely affect our results of operations and financial condition. Moreover, any such action could significantly limit our ability to offer or continue to offer securities to investors and cause the value of such securities to significantly decline.

Based on our understanding of the current PRC laws and regulations, our company and PRC subsidiaries are not required to obtain any prior permission under the M&A Rules or the Opinions from any PRC governmental authorities including the CSRC for consummating this offering or to offer our securities to foreign investors, and as of the date of this prospectus, we have not received any inquiry, notice, warning, sanctions or regulatory objection to this offering from the CSRC or any other PRC governmental authorities. However, there can be no assurance that the relevant PRC governmental authorities, including the CSRC, would agree with our interpretation of the laws and regulations, or that the CSRC or any other PRC governmental authorities would not promulgate new rules or adopt new interpretation of existing rules that would require us to obtain and maintain CSRC or other PRC governmental approvals for this offering or to otherwise offer our securities to foreign investors. If we do not receive and maintain any such approvals, incorrectly conclude that such approvals are not required, or applicable laws, regulations, or interpretations change such that we are required to obtain approval in the future, it could significantly limit our ability to offer or continue to offer securities to investors and cause the value of our ordinary shares to significantly decline.

Currently, under the Basic Law of the Hong Kong Special Administrative Region of the PRC (the "Basic Law"), Hong Kong is self-governed by its own government under the PRC framework of "one country two systems" with a high degree of autonomy under its local constitution. Apart from laws listed in Annex 3 to the Basic Law, which deal with nationality, foreign affairs, national defense and national security matters, PRC laws do not apply to Hong Kong. We cannot assure you, however, that the PRC will maintain the "one country two systems" framework, and the PRC government may seek to further influence the business conduct of entities organized under the laws of Hong Kong, including our Hong Kong subsidiaries. If the PRC government were to enact laws and regulations in the future that resulted in significant oversight or other restrictions on the conduct of the business of our Hong Kong subsidiaries, it could materially and adversely affect our business and results of operations.

Although the audit report included in this prospectus is issued by an independent registered public accounting firm that is subject to inspections by the PCAOB, there is no guarantee that future audit reports will be prepared by auditors or their international affiliates in jurisdictions without restrictions on the ability of the PCAOB to fully inspect their work, and as such, future investors may be deprived of such inspections, which could result in limitations or restrictions on our access of the U.S. capital markets. Furthermore, trading in our securities may be prohibited under the

HFCAA, if enacted, or the Accelerating Holding Foreign Companies Accountable Act if the SEC subsequently determines our audit work is performed by auditors that the PCAOB is unable to inspect or investigate completely, and as a result, U.S. national securities exchanges, such as the Nasdaq, may determine to delist our securities. Furthermore, on June 22, 2021, the U.S. Senate passed the Accelerating Holding Foreign Companies Accountable Act, which, if enacted, would amend the HFCA Act and require the SEC to prohibit an issuer's securities from trading on any U.S. stock exchanges if its auditor is not subject to PCAOB inspections for two consecutive years instead of three, as currently provided by the HFCAA.

As an independent registered public accounting firm with the PCAOB, our auditor is required under the laws of the United States to undergo regular inspections by the PCAOB to assess their compliance with the laws of the United States and professional standards. Although we have operations within the PRC, a jurisdiction where the PCAOB is currently unable to conduct inspections without the approval of the Chinese government authorities, our independent registered public accounting firm is currently subject to inspection by the PCAOB without restriction.

Inspections of other auditors conducted by the PCAOB outside the PRC have at times identified deficiencies in those auditors' audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. The lack of PCAOB inspections of audit work undertaken in the PRC prevents the PCAOB from regularly evaluating auditors' audits and their quality control procedures. As a result, to the extent that any component of our auditor's work papers are or become located in the PRC, such work papers will not be subject to inspection by the PCAOB. As a result, investors would be deprived of such PCAOB inspections, which could result in limitations or restrictions to our access of the U.S. capital markets.

As part of a continued regulatory focus in the United States on access to audit and other information currently protected by national law, particularly in the PRC, in June 2019, a bipartisan group of lawmakers introduced bills in both houses of the U.S. Congress which, if passed, would require the SEC to maintain a list of issuers for which PCAOB is not able to inspect or investigate the audit work performed by a foreign public accounting firm completely. The proposed Ensuring Quality Information and Transparency for Abroad-Based Listings on our Exchanges (EQUITABLE) Act prescribes increased disclosure requirements for these issuers and, beginning in 2025, the delisting from U.S. national securities exchanges such as the Nasdaq of issuers included on the SEC's list for three consecutive years. It is unclear if this proposed legislation will be enacted. Furthermore, there have been recent deliberations within the U.S. government regarding potentially limiting or restricting PRC-based companies from accessing U.S. capital markets.

On May 20, 2020, the U.S. Senate passed the HFCAA, which includes requirements for the SEC to identify issuers whose audit work is performed by auditors that the PCAOB is unable to inspect or investigate completely because of a restriction imposed by a non-U.S. authority in the auditor's local jurisdiction. The U.S. House of Representatives passed the HFCAA on December 2, 2020, and the HFCAA was signed into law on December 18, 2020. Additionally, in July 2020, the U.S. President's Working Group on Financial Markets issued recommendations for actions that can be taken by the executive branch, the SEC, the PCAOB or other federal agencies and department with respect to Chinese companies listed on U.S. stock exchanges and their audit firms, in an effort to protect investors in the United States. In response, on November 23, 2020, the SEC issued guidance highlighting certain risks (and their implications to U.S. investors) associated with investments in PRC-based issuers and summarizing enhanced disclosures the SEC recommends PRC-based issuers make regarding such risks. On March 24, 2021, the SEC adopted interim final rules relating to the implementation of certain disclosure and documentation requirements of the HFCAA. We will be required to comply with these rules if the SEC identifies us as having a "non-inspection" year (as defined in the interim final rules) under a process to be subsequently established by the SEC. The SEC is assessing how to implement other requirements of the HFCAA, including the listing and trading prohibition requirements described above. Under the HFCAA, our securities may be prohibited from trading on the Nasdaq or other U.S. stock exchanges if our auditor is not inspected by the PCAOB for three consecutive years, and this ultimately

could result in our ordinary shares being delisted. Furthermore, on June 22, 2021, the U.S. Senate passed the Accelerating Holding Foreign Companies Accountable Act, which, if enacted, would amend the HFCAA and require the SEC to prohibit an issuer's securities from trading on any U.S. stock exchanges if its auditor is not subject to PCAOB inspections for two consecutive years instead of three consecutive years, thus reducing the time period before a company's securities may be prohibited from trading or become delisted. On September 22, 2021, the PCAOB adopted a final rule implementing the HFCAA, which provides a framework for the PCAOB to use when determining, as contemplated under the HFCAA, whether the Board is unable to inspect or investigate completely registered public accounting firms located in a foreign jurisdiction because of a position taken by one or more authorities in that jurisdiction.

While we understand that there has been dialogue among the China Securities Regulatory Commission (the CSRC), the SEC and the PCAOB regarding the inspection of PCAOB-registered accounting firms in the PRC, there can be no assurance that we will be able to comply with requirements imposed by U.S. regulators. Delisting of our ordinary shares could force holders of our ordinary shares to sell their ordinary shares. The market price of our ordinary shares could be adversely affected as a result of anticipated negative impacts of these executive or legislative actions upon, as well as negative investor sentiment towards, companies that have or are perceived to have significant operations in the PRC and are listed in the United States, regardless of whether these executive or legislative actions are implemented and regardless of our actual operating performance.

We are subject to economic sanctions, export control and similar laws. Non-compliance with such laws can subject us to criminal or civil liability and harm our business, financial condition and results of operations.

Due to the nature of our products and underlying technology, as well as the location of our research and development activities, supply chain and shipment facilities, we do not believe that any of our current products are subject to the U.S. Department of Commerce's Export Administration Regulations (EAR) by reason of their origin, or the application of the general de minimis rule, or the general foreign-produced direct product rule of the EAR, although there can be no assurance that applicable regulatory agencies would agree with our conclusions or that our products will not become "subject to the EAR" in the future. We are also subject to economic and trade sanctions regulations administered by the U.S. Treasury Department's Office of Foreign Assets Controls. The export or reexport of products "subject to the EAR" could require export authorizations, including by license, a license exception, or other appropriate government authorizations and conditions, including annual or semi-annual reporting. Export control and economic sanctions laws also include prohibitions on the sale or supply of certain of our products to embargoed or sanctioned countries, regions, governments, persons, and entities. These laws, are complex, may change frequently and with limited notice, have generally become more stringent and have intensified over time, especially in light of ongoing trade tensions with the PRC. We may be required to incur significant expense to comply with, or to remedy violations of, these regulations.

For example, we sell to markets in Asia where multiple companies have been added to the Entity List or the EAR's Military End User List in recent periods, resulting in license requirements for or, in some instances, the prohibition of, exports of items subject to control under the EAR to those entities. Although we have taken precautions to prevent our products from being provided in violation of export control regulations, and are in the process of further enhancing our policies and procedures relating to export control compliance, in 2020 we inadvertently provided three evaluation boards of nominal value to two customers without required export licenses in apparent violation of U.S. export control regulations. In June 2021, we submitted to the U.S. Department of Commerce's Bureau of Industry and Security (BIS) a final voluntary self-disclosure concerning these apparent violations. On September 16, 2021, BIS closed the matter with the issuance of a warning letter. Although BIS declined to prosecute or sanction us, if we were to violate the EAR in the future, the matter could be reopened or taken into consideration when investigating future matters, and we may be subject to criminal prosecution or administrative sanctions. While we believe that we have remedied the deficiencies that resulted in the apparent violations through additional training, system enhancements and enhanced export controls, we cannot assure you that our

policies and procedures relating to export control compliance will prevent violations in the future. If we fail to comply with these laws, we and our employees could be subject to civil or criminal penalties, including the possible loss of export privileges, monetary penalties and, in extreme cases, imprisonment of responsible employees for knowing and willful violations of these laws. We may also be adversely affected through penalties, reputational harm, loss of access to certain markets or otherwise.

In addition, various countries regulate the import and export of certain encryption and other technology, including import and export permitting and licensing requirements, and have enacted laws that could limit our ability to distribute our products and solutions or could limit our users' ability to access our products and solutions in those countries. Changes in our products and solutions, or future changes in the export and import control regulations of the United States or other countries, may prevent our users with international operations from utilizing our products and solutions globally or, in some cases, prevent the export or import of our products and solutions to certain countries, governments or persons altogether. For example, in May 2019, MOFCOM announced the establishment of the Unreliable Entity List, a Chinese framework for economic sanctions that could restrict or prohibit China-related export or import activities for listed entities, among other measures. In September 2020, MOFCOM issued the Regulations on Unreliable Entity List, setting out principles for administration of the Unreliable Entity List framework. Any future change in export or import regulations, economic sanctions or related legislation, or change in the countries, governments, persons or technologies targeted by such regulations, could result in decreased use of our products and solutions by, or in our decreased ability to export or sell products and solutions to, existing or potential customers with international operations. Any decreased use of our products or solutions or limitation on our ability to export or sell our products and solutions would likely adversely affect our business, financial condition and results of operations.

We cannot predict whether any material suits, claims or investigations relating to these laws may arise in the future. Regardless of the outcome of any future actions, claims or investigations, we may incur substantial defense costs and such actions may cause a diversion of management time and attention. Also, it is possible that we may be required to pay substantial damages or settlement costs which could have a material adverse effect on our business, financial condition and results of operations.

We face significant political risks associated with doing business in Taiwan, particularly due to the tense relationship between Taiwan and mainland China, that could negatively affect the trading price of the ordinary shares.

We conduct a portion of our business in Taiwan, and our Taiwanese suppliers are critical within our supply chain. Accordingly, our business, financial condition and results of operations and the market price of our ordinary shares may be affected by changes in governmental policies, taxation, inflation or interest rates in Taiwan and by social instability and diplomatic and social developments in or affecting Taiwan which are outside of our control. Since 1949, Taiwan and the Chinese mainland have been separately governed. The PRC claims that it is the only legitimate government in China, including Taiwan and mainland China, and that Taiwan is part of China. Although significant economic and cultural relations have been established between Taiwan and mainland China in the past few years, such as the adoption of the Economic Cooperation Framework Agreement and memorandum regarding cross-strait financial supervision, we cannot assure you that relations between Taiwan and mainland China will not become strained again. For example, the PRC government has refused to renounce the use of military force to gain control over Taiwan and, in March 2005, passed an Anti-Secession Law that authorized non-peaceful means and other necessary measures should Taiwan move to gain independence from the PRC. Past developments in relations between Taiwan and mainland China have on occasion depressed the market prices of the securities of companies doing business in Taiwan. Such initiatives and actions are commonly viewed as having a detrimental effect to reunification efforts between Taiwan and mainland China. Relations between Taiwan and mainland China and other factors affecting military, political or economic conditions in Taiwan could materially and adversely affect our financial condition and results of operations, as well as the market price and the liquidity of our ordinary shares.

We could be adversely affected by violations of applicable anti-corruption laws or violations of our internal policies designed to ensure ethical business practices.

We operate in a number of countries throughout the world. We are subject to the risk that we, our U.S. employees or our employees located in other jurisdictions or any third parties that we engage to do work on our behalf in foreign countries may take action determined to be in violation of anti-corruption laws in any jurisdiction in which we conduct business, including the U.S. Foreign Corrupt Practices Act of 1977 (FCPA). In addition, we operate in certain countries in which the government may take an ownership stake in an enterprise and such government ownership may not be readily apparent, thereby increasing the risk of potential FCPA violations. Any violation of the FCPA or any similar anti-corruption law or regulation could result in substantial fines, sanctions, civil and/or criminal penalties and curtailment of operations in certain jurisdictions and might adversely affect our business, results of operations or financial condition. In addition, we have internal ethics policies that we require our employees to comply with in order to ensure that our business is conducted in a manner that our management deems appropriate. If these anti-corruption laws or internal policies were to be violated, our reputation and operations could be substantially harmed.

Fluctuations in exchange rates between and among the currencies of the countries in which we do business could adversely affect our results of operations.

Our sales have been historically denominated in U.S. dollars and, in mainland China, the Renminbi. An increase in the value of the U.S. dollar or of the Renminbi relative to the currencies of the countries in which our customers operate could impair the ability of our customers to cost-effectively purchase or integrate our solutions into their product offerings, which may materially affect the demand for our products or solutions and cause these customers to reduce their orders, which in turn would adversely affect our business, financial condition and results of operations. If we increase operations in other currencies in the future, we may experience further foreign exchange gains or losses due to the volatility of other currencies compared to the U.S. dollar and the Renminbi. Certain of our employees are located in Hong Kong and Taiwan. Accordingly, a portion of our payroll as well as certain other operating expenses are paid in currencies other than the U.S. dollar and the Renminbi. Our results of operations are denominated in U.S. dollars, and the difference in exchange rates in one period compared to another may directly impact period-to-period comparisons of our results of operations. Furthermore, currency exchange rates have been especially volatile in the recent past, and these currency fluctuations may make it difficult for us to predict our results of operations.

We have not implemented any hedging strategies to mitigate risks related to the impact of fluctuations in currency exchange rates. Even if we were to implement hedging strategies, not every exposure can be hedged and, where hedges are put in place based on expected foreign exchange exposure, they are based on forecasts which may vary or which may later prove to have been inaccurate. Failure to hedge successfully or anticipate currency risks accurately could adversely affect our operating results

PRC regulation of loans to and direct investment in PRC entities by offshore holding companies and governmental control of currency conversion may delay or prevent us from using the proceeds of this offering to make loans or additional capital contributions to our PRC subsidiaries, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

We are an offshore holding company conducting our operations in mainland China through our PRC subsidiaries. We may make loans to our PRC subsidiaries subject to the approval or registration from governmental authorities and limitation of amount, or we may make additional capital contributions to our wholly owned subsidiaries in the PRC. Any loans to our wholly owned subsidiaries in mainland China, which are treated as foreign invested enterprises under PRC law, are subject to foreign exchange loan registrations, and cannot exceed statutory limits, which is either the difference between the registered capital and the total investment amount of such enterprise or the upper limit calculated based on a statutory formula. In addition, a foreign-invested enterprise (FIE) shall use its capital pursuant to the principle of authenticity and self-use within its business scope, unless otherwise permitted by relevant

laws and regulations. Under the relevant PRC laws and regulations, the foreign capital of an FIE shall not be used for the following purposes: (i) directly or indirectly used for payment beyond the business scope of the enterprise (which typically does not include domestic equity investments unless specifically permitted subject to certain conditions as required by applicable PRC laws and regulations) or the payment prohibited by relevant laws and regulations; (ii) directly or indirectly used for investment in securities or investments other than banks' principal-secured products unless otherwise provided by relevant laws and regulations; (iii) the granting of loans to non-affiliated enterprises, except where it is expressly permitted in the business license; and (iv) paying the expenses related to the purchase of real estate that is not for self-use (except for the foreign-invested real estate enterprises).

In light of the various requirements imposed by PRC regulations on loans to and direct investment in PRC entities by offshore holding companies, we cannot assure you that we will be able to complete the necessary government registrations or obtain the necessary government approvals on a timely basis, if at all, with respect to any future loans by us to our PRC subsidiaries or with respect to future capital contributions by us to our PRC subsidiaries. If we fail to complete such registrations or obtain such approvals, our ability to use the proceeds from this offering and to capitalize or otherwise fund our PRC operations may be negatively affected, which could materially and adversely affect our liquidity and our ability to fund and expand our business in the PRC.

Any failure to comply the foreign exchange registration requirements may expose us or our PRC resident beneficial owners or PRC participants of employee stock incentive plans to liability and penalties under PRC law.

In December 2006, the People's Bank of China issued the Administration Measures on Individual Foreign Exchange Control, providing that direct overseas investment by domestic individuals shall meet relevant requirements and such domestic individuals are required to register with the SAFE for the foreign exchange for overseas investment and complete certain other procedures. In July 2014, the State Administration of Foreign Exchange of the PRC (SAFE) promulgated the Circular on Relevant Issues Concerning Foreign Exchange Control on Domestic Residents' Offshore Investment and Financing and Roundtrip Investment Through Special Purpose Vehicles (SAFE Circular 37). SAFE Circular 37 requires PRC residents (including PRC citizens and other persons that are deemed PRC residents) to register with SAFE or its local branches in connection with their direct or indirect offshore investment activities before making a contribution to an enterprise directly established or indirectly controlled by the PRC residents outside of the PRC for the purpose of overseas investment or financing with their legally owned domestic or offshore assets or equity interests, referred to in SAFE Circular 37 as a "special purpose vehicle," and also requires the foreign invested enterprise that is established through round-trip investment to truthfully disclose its controller(s). SAFE Circular 37 further requires amendment to the SAFE registrations in the event of any changes with respect to the basic information and material matters of the offshore special purpose vehicle, including an increase or decrease of capital contribution by the PRC residents, share transfer or exchange, or mergers or divisions. However, due to inherent uncertainty in the implementation of the regulatory requirements by the PRC authorities, such registration might not always be practically available in all circumstances as provided in those regulations. While it is uncertain whether we will be deemed a "special purpose vehicle" as regulated by SAFE Circular 37, in practice, our shareholders or beneficial owners who are PRC residents may be required to conduct the registration, which registrations are yet to be completed, sometimes due to reasons beyond their control.

Further, under SAFE regulations, PRC citizens and certain PRC residents who participate in share incentive plans in overseas listed companies are required to register with the SAFE through a domestic qualified agent, which could be the PRC subsidiaries of such overseas listed company, and complete certain other procedures. Our executive officers and other employees who are PRC citizens or residents and who have been or will be granted incentive shares or options may be subject to these regulations. Failure to complete the SAFE registrations may subject our PRC subsidiaries or our executive officers and other employees to fines and legal sanctions.

We may not at all times be fully informed of the identities of all the PRC residents holding direct or indirect interests in our company, and we cannot assure you that all of our shareholders or beneficial owners who are PRC residents or entities, or all of our executive officers and other employees who are PRC citizens or residents and who have been or will be granted incentive shares or options, have complied with, and will in the future make or obtain any applicable registrations or approvals required by, SAFE regulations. Failure or inability by our shareholders or beneficial owners who are PRC residents or by our executive officers and other employees who are PRC citizens or residents and who have been or will be granted incentive shares or options to comply with SAFE regulations, failure by us to conduct or amend the foreign exchange registrations of our PRC subsidiaries, or failure to disclose or a misrepresentation of the controller(s) or ultimate shareholders of the foreign invested enterprise that is established through round trip investment, could subject us to fines or legal sanctions, such as restrictions on our overseas or cross-border investment activities or our PRC subsidiaries' ability to make distributions or pay dividends to us. As a result, our ability to contribute capital to fund our business operations in the PRC and our ability to receive distributions from our PRC subsidiaries could be materially and adversely affected. We also face regulatory uncertainties that could restrict our ability to adopt additional incentive plans for our directors, executive officers and employees under PRC law.

Potential political, legal and economic instability in Hong Kong may adversely impact our results of operations.

We generated 7.7% of our revenue in Hong Kong in fiscal year 2021, and 19.7% of our assets (by book value) were held in Hong Kong as of April 30, 2021. Accordingly, political and economic conditions in Hong Kong and the surrounding region may directly affect our business. Since early 2019, a number of political protests and conflicts have occurred in Hong Kong in connection with proposed legislation that would allow local authorities to detain and extradite people who are wanted in territories that Hong Kong does not have extradition agreements with, including mainland China and Taiwan. Such protests have negatively impacted the economy of Hong Kong, including the retail market, property market, stock market, and tourism.

As a Special Administrative Region of the PRC, Hong Kong maintains and develops relations with foreign states and regions based on the Basic Law. We cannot assure you that future political or legal developments, including as a result of political or social unrest, will not affect Hong Kong's status as a Special Administrative Region of the PRC or otherwise affect its current relations with foreign states and regions.

It is unclear whether there will be other political or social unrest in the near future or as to the authorities' reactions to any such protests if they recur or that there will not be other events that could lead to the disruption of the economic, legal, political and social conditions in Hong Kong. If such events persist for a prolonged period of time or if the economic, legal, political and social conditions in Hong Kong are disrupted, our overall business and results of operations may be adversely affected.

The future development of national security laws and regulations in Hong Kong could materially impact our business by possibly triggering sanctions and other measures which can cause economic harm to our business.

On May 28, 2020, the National People's Congress of the People's Republic of China approved a proposal to impose a new national security law for Hong Kong and authorized the Standing Committee of the National People's Congress to proceed to work out details of the legislation to be implemented in Hong Kong. On June 30, 2020, The Law of the People's Republic of China on Safeguarding National Security Law in the Hong Kong Special Administrative Region (the Hong Kong National Security Law) became effective. Among other things, it criminalizes separatism, subversion, terrorism and foreign interference in Hong Kong.

As a result of the Hong Kong National Security Law, in July 2020, the U.S. President signed into law the Hong Kong Autonomy Act, authorizing the U.S. administration to impose blocking sanctions against

individuals and entities determined to “materially contribute” to the erosion of Hong Kong’s autonomy. The Hong Kong Autonomy Act further authorizes secondary sanctions, including the imposition of blocking sanctions, against foreign financial institutions that knowingly conduct a significant transaction with foreign persons sanctioned under this authority. On the same day, the U.S. President also issued Executive Order 13936 pursuant to which existing license exceptions and preferential status for Hong Kong under relevant U.S. export control laws and regulations were revoked. The combined effect of the Hong Kong National Security Law, the Hong Kong Autonomy Act and Executive Order 13936 have caused, and may continue to cause, substantial market uncertainties for businesses operating in Hong Kong. We cannot rule out the possibility of additional sanctions or other forms of penalties by foreign governments, which may cause economic and other hardship for Hong Kong, including companies like us that do business in Hong Kong. It is difficult for us to predict the impact, if any, the implementation of national security laws will have on our business, as such impact will depend on future developments, which are highly uncertain and cannot be predicted.

In the future, we may rely on dividends and other distributions on equity paid by our subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our subsidiaries to make payments to us could have a material and adverse effect on our ability to conduct our business.

We have not relied, and do not expect to rely, on dividends or other distributions on equity from any of our subsidiaries for our cash requirements. Although we have no plans to declare cash dividends, if we determine to pay cash dividends to holders of our ordinary shares in the future, as a holding company, we would depend on receipt of funds from one or more of our subsidiaries.

Our cash is primarily held by Credo Technology Group Holding Ltd and by our subsidiaries located in Hong Kong, the United States and the Cayman Islands, and we do not believe that there are any significant restrictions on our ability to distribute these funds to Credo Technology Group Holding Ltd. from their respective distributable profits or other distributable reserves in accordance with applicable laws. While our PRC subsidiaries have generated only a limited amount of revenue and hold only a small proportion of our cash, there are restrictions on the ability of our PRC subsidiaries to pay dividends under PRC laws and regulations. In particular, our PRC subsidiaries may pay dividends only out of their respective accumulated after-tax profits after making up losses as determined in accordance with PRC accounting standards and regulations. In addition, each of our PRC subsidiaries is required to set aside at least 10% of its accumulated after-tax profits each year, if any, to fund a statutory reserve fund, until the aggregate amount of such fund reaches 50% of its registered capital. Such reserve funds cannot be distributed to us as dividends. At its discretion, each of our PRC subsidiaries may allocate a portion of its after-tax profits based on PRC accounting standards to a discretionary common reserve.

Our PRC subsidiaries generate a portion of their revenue in Renminbi, which is not freely convertible into other currencies. As a result, any restriction on currency exchange may limit the ability of our PRC subsidiaries to use their Renminbi revenues to pay dividends to us. In addition, the PRC Enterprise Tax Law (EIT Law) and its implementation rules provide that a withholding tax rate of up to 10% will be applicable to dividends payable by Chinese companies to non-PRC-resident enterprises unless otherwise exempted or reduced according to treaties or arrangements between the PRC central government and governments of other countries or regions where the non-PRC-resident enterprises are incorporated.

Furthermore, if certain procedural requirements are satisfied, the payment of current account items, as defined in the relevant PRC laws and regulations, including profit distributions and trade and service related foreign exchange transactions, can be made in foreign currencies without prior approval from the PRC’s State Administration of Foreign Exchange (SAFE) or its local branches. However, where Renminbi is to be converted into foreign currency and remitted out of mainland China to pay capital expenses, such as the repayment of loans denominated in foreign currencies, approval from or registration with competent government authorities or their authorized banks is required. The PRC government may take measures at its discretion from time to time to restrict access to foreign currencies for current account or capital account transactions. To the extent we desire to use funds from our PRC subsidiaries to fund our

operations, the foreign exchange control system could prevent us from obtaining sufficient foreign currencies to satisfy our foreign currency demands, and we may not be able to pay dividends in foreign currencies to our offshore intermediate holding companies or ultimate parent company, or to our shareholders or investors in our ordinary shares. Further, we cannot assure you that new regulations or policies will not be promulgated in the future, which may further restrict the remittance of Renminbi into or out of the PRC. We cannot assure you, in light of the restrictions in place, or any amendment to be made from time to time, that our current or future PRC subsidiaries will be able to satisfy their respective payment obligations that are denominated in foreign currencies, including the remittance of dividends outside of the PRC.

Risks Related to Our Intellectual Property

We may face claims of intellectual property infringement, misappropriation or other violations, which could be time-consuming or costly to defend or settle, result in the loss of significant rights or harm our relationships with our customers or reputation in the industry.

The semiconductor and data infrastructure industries are characterized by companies that hold patents and other intellectual property rights and that vigorously pursue, protect and enforce intellectual property rights. From time to time, third parties may assert against us and our customers their patent and other intellectual property rights to technologies that are important to our business.

We may in the future, particularly as a public company with an increased profile and visibility, receive communications from others alleging our infringement, misappropriation or other violation of patents, trade secrets or other intellectual property rights. In addition, in the event that we recruit employees from other technology companies, including certain potential competitors, and these employees are involved in the development of products that are similar to the products they assisted in developing for their former employers, we may become subject to claims that such employees have improperly used or disclosed trade secrets or other proprietary information. We may also in the future be subject to claims by our suppliers, employees, consultants or contractors asserting an ownership right in our patents or patent applications, as a result of the work they performed on our behalf.

Claims that our products, processes or technology infringe, misappropriate or otherwise violate third-party intellectual property rights, regardless of their merit or resolution, could be time-consuming or costly to defend or settle and could divert the efforts and attention of our management and technical personnel. Infringement claims also could harm our relationships with our customers and might deter future customers from doing business with us. We do not know whether we will prevail in these proceedings given the complex technical issues and inherent uncertainties in intellectual property litigation. If any pending or future proceedings result in an adverse outcome, we could be required to:

- cease the manufacture, use or sale of the infringing products, processes or technology;
- pay substantial damages for infringement, misappropriation or other violation;
- expend significant resources to develop non-infringing products, processes or technology, which may not be successful;
- license technology from the third-party claiming infringement, which license may not be available on commercially reasonable terms, or at all;
- cross-license our technology to a competitor to resolve an infringement claim, which could weaken our ability to compete with that competitor; or
- pay substantial damages to our customers or end-users to discontinue their use of or to replace infringing technology sold to them with non-infringing technology, if available.

Additionally, even if successful in such proceedings, our rights in our products, processes or technology may be invalidated, or narrowed. Moreover, there could be public announcements of the

results of hearings, motions or other interim proceedings or developments, and if securities analysts or investors perceive these results to be negative, it could have a substantial adverse effect on the price of our ordinary shares. Any of the foregoing results could have a material adverse effect on our business, financial condition and results of operations.

Any potential dispute involving patents or other intellectual property could affect our customers and vendors which could trigger our indemnification obligations to them and result in substantial expense to us.

In any potential dispute involving patents or other intellectual property, our customers and vendors could also become the target of litigation. Our agreements with customers and vendors generally include indemnification or other provisions under which we agree to indemnify or otherwise be liable to them for losses suffered or incurred as a result of claims of intellectual property infringement. Large indemnity payments could harm our business, financial condition and results of operations. From time to time, customers require us to indemnify or otherwise be liable to them for breach of confidentiality or failure to implement adequate security measures with respect to their intellectual property and trade secrets. Although we normally contractually limit our liability with respect to such obligations, we may still incur substantial liability related to them. Any litigation against our customers could trigger technical support and indemnification obligations under some of our agreements, which could result in substantial expense to us.

In addition, other customers and vendors may ask us to indemnify them if a claim is made as a condition to awarding future design wins to us. Because some of our counterparts are larger than we are and have greater resources than we do, they may be more likely to be the target of an infringement claim by third parties than we would be, which could increase our chances of becoming involved in a future lawsuit. If any such claims were to succeed, we might be forced to pay damages on behalf of our customers or vendors that could increase our expenses, disrupt our ability to sell our solutions and reduce our revenue. Any dispute with a customer or vendor with respect to such obligations could have adverse effects on our relationship with such customer or vendor and other current and prospective customers or vendors and reduce demand for our solutions. In addition to the time and expense required for us to supply support or indemnification to our customers, any such litigation could severely disrupt or shut down the business of our customers or vendors, which in turn could hurt our relations with them and cause the sale of our products to decrease. Any of the foregoing could harm our business, financial condition, and results of operations.

We use a significant amount of intellectual property in our business. Monitoring unauthorized use of our intellectual property can be difficult and costly and if we are unable to obtain, maintain and protect our intellectual property, our business could be adversely affected.

Our success depends in part upon our ability to obtain and maintain patent and other intellectual property protection with respect to our products and the technology we develop. To accomplish this, we rely on a combination of intellectual property rights, including patents, copyrights and trademarks in the United States and in selected foreign countries where we believe filing for such protection is appropriate. We also rely on trade secret laws, as well as confidentiality and non-disclosure and other contractual protections, to protect our proprietary know-how. Some of our products and technologies are not covered by any patent or patent application, as we do not believe patent protection of these products and technologies is critical to our business strategy at this time.

We cannot assure you that any patents from any pending or future patent applications will be issued, and even if our pending patent applications are granted, the scope of the rights granted to us may not be meaningful, may not provide us with a commercial advantage and may be subject to reinterpretation after issuance. The patent prosecution process is expensive, time-consuming, and complex, and we may not be able to file, prosecute, maintain, enforce or license all necessary or desirable patent applications at a reasonable cost or in a timely manner. It is also possible that we will fail to identify patentable aspects of our research and development output in time to obtain patent protection. Failure to timely seek patent

protection on products or technologies generally precludes us from seeking future patent protection on these products or technologies. Even if we do timely seek patent protection, the coverage claimed in a patent application can be significantly reduced before a patent is issued, and its scope can be reinterpreted after issuance. We cannot guarantee that:

- any of our present or future patents or patent claims will not lapse or be invalidated, narrowed, circumvented, challenged or abandoned;
- our intellectual property rights will provide competitive advantages to us;
- our ability to assert our intellectual property rights against others (including potential competitors) or to settle current or future disputes will not be limited by our agreements with third parties;
- any of our pending or future patent applications will be issued or have the coverage originally sought;
- our intellectual property rights will be enforced in jurisdictions where competition may be intense or where legal protections may be weak;
- any of the trademarks, copyrights, trade secrets or other intellectual property rights that we presently employ in our business will not lapse or be invalidated, narrowed, circumvented, challenged, abandoned or otherwise diminished or eliminated; or
- we will not lose the ability to assert our intellectual property rights against or to license our technology to others and collect royalties or other payments.

In addition, our competitors or others may design around our protected patents or other intellectual property rights. Effective intellectual property protection may be unavailable or more limited in foreign jurisdictions relative to those protections available in the United States, or may not be applied for in one or more relevant jurisdictions. Even if foreign patents are granted, effective enforcement in foreign countries may not be available. The failure of our patents to adequately protect our technology might make it easier for our competitors to offer similar products or technologies, and our business, financial condition and operations could be adversely affected.

Monitoring unauthorized use of our intellectual property is difficult and costly. Unauthorized use of our intellectual property may have occurred or may occur in the future. Although we have taken steps to minimize the risk of this occurring, any such failure to identify unauthorized use and otherwise adequately protect our intellectual property would adversely affect our business. From time to time, we may need to commence litigation or other legal proceedings in order to:

- assert claims of infringement of our intellectual property rights;
- defend our products from piracy;
- protect our trade secrets or know-how; or
- determine the enforceability, scope and validity of the propriety rights of others.

Lawsuits or other proceedings that we initiate to protect or enforce our patents or other intellectual property rights could be expensive, time consuming and unsuccessful. Any claims we assert against perceived infringers could provoke these parties to assert counterclaims against us alleging that we infringe their intellectual property or alleging that our intellectual property is invalid or unenforceable. Moreover, if we are required to commence litigation, whether as a plaintiff or defendant, we would also be forced to divert our attention and the efforts of our employees, which could, in turn, result in lower revenue and higher expenses. If we pursue litigation to assert our intellectual property rights, an adverse decision in any of these legal actions could limit our ability to assert our intellectual property rights, limit the value of our technology or otherwise negatively impact our business, financial condition and results of

operations. Legal fees related to such litigation will increase our operating expenses and may reduce our net income.

In addition to patent protection, we also rely on other proprietary rights, including protection of trade secrets, and other proprietary information that is not patentable or that we elect not to patent. However, trade secrets can be difficult to protect and some courts are less willing or unwilling to protect trade secrets. We rely on contractual protections with our customers, suppliers, employees and consultants, and we implement security measures designed to protect our trade secrets. We cannot guarantee that we have entered into such agreements with each party that may have or have had access to our trade secrets or proprietary technology and processes. The semiconductor industry is generally subject to high turnover of employees, so the risk of trade secret misappropriation may be amplified. Unauthorized copying or other misappropriation of our trade secrets and other intellectual property could enable third parties to benefit from our technologies without paying us for doing so, which could harm our business. We cannot assure you that our contractual protections and security measures have not been or will not be breached or that we will have adequate remedies for any such breach. Accordingly, we cannot guarantee that we have secured, or will be able to secure, effective protections for all of our trade secrets or other proprietary information that we use or claim rights to.

Many of our products include intellectual property licensed from third parties, and we are party to a number of third-party intellectual property license agreements. Some of these license agreements require us to make one-time payments or ongoing royalty payments. We cannot guarantee that the third-party patents and technology we license will not be licensed to our competitors or others in the semiconductor industry. As a result, we may not be able to prevent competitors from developing and commercializing competitive products in territories included in all of our licenses. In the future, we may need to obtain additional licenses, renew existing license agreements or otherwise replace existing technology. We are unable to predict whether these license agreements can be obtained or renewed or the technology can be replaced on acceptable terms, or at all. In that event, we may be required to expend significant time and resources to redesign our technology, products or the methods for manufacturing them or to develop or license replacement technology, all of which may not be feasible on a technical or commercial basis. Any disputes with our licensing partners with respect to such agreements could narrow what we believe to be the scope of our rights to the relevant intellectual property, increase our obligations under such agreements or restrict our ability to develop and market our current or new products and services. Any of these events could negatively impact our business, financial condition and results of operations.

Further, certain of our vendor agreements contain provisions permitting the vendor to become a party to, or a beneficiary of, a source code escrow agreement under which we place certain proprietary source code in escrow with a third party. Under these source code escrow agreements, our source code may be released to the vendor upon the occurrence of specified events, such as in situations of our bankruptcy or insolvency or our failure to support or maintain our source code. Disclosing the content of our source code may limit the intellectual property protection we can obtain or maintain for our source code or our software containing such source code and may facilitate intellectual property infringement, misappropriation or other violation claims against us.

In addition, from time to time, we enter into agreements with select customers, vendors and others to customize and otherwise develop technologies and intellectual property, and we expect to enter into new, similar arrangements from time to time in the future. Some of these agreements contain terms that allocate ownership of, and rights to use and enforce, technologies and intellectual property rights. As a result of these agreements, we may be required to limit use of, or refrain from using, certain of such related technologies and intellectual property rights in parts of our business. Determining inventorship and ownership of technologies and intellectual property rights resulting from development activities can be difficult and uncertain. Disputes may arise with customers, vendors and other third parties regarding ownership of and rights to use and enforce these technologies and intellectual property rights or regarding interpretation of our agreements with these third parties, and these disputes may result in claims against us or claims that intellectual property rights, which we believe we own, are not owned by us, are not enforceable, or are invalid. The cost and effort to resolve these types of disputes, or the loss

of intellectual property rights if we lose these types of disputes, could harm our business and financial condition.

A breach of our information technology systems or physical security systems, or any actual or perceived violation of privacy or data protection laws, could harm our business and operating results.

We rely on our information technology systems to process, transmit and store electronic information (including sensitive data such as confidential business information and personally identifiable data relating to employees, customers, and other business partners), and to manage or support a variety of critical business processes and activities. We face various cybersecurity threats, including threats to our information technology infrastructure and attempts to gain access to our proprietary information, denial-of-service attacks, requests for money transfers, ransomware, as well as threats to the physical security of our facilities and employees. In addition, we face cyber threats from entities that may seek to target us through our customers, vendors, subcontractors, employees, and other third parties with whom we do business. We may experience cybersecurity threats such as viruses and attacks by hackers targeting our information technology systems. We can provide no assurance that our current information technology systems, or those of the third parties upon which we rely, are fully protected against such cyber security threats. Although such events have not had a material impact on our financial condition, results of operations or liquidity or reputation to date, future threats could, among other things: cause harm to our business and our reputation; disrupt our operations; expose us to potential liability, regulatory actions and the loss of business; as well as impact our results of operations materially. We believe such attempts are increasing in number and in technical sophistication. In some instances, we, our customers, and the users of our products and services might be unaware of an incident or its magnitude and effects. Due to the evolving nature of these security threats, we cannot predict the potential impact of any future incident.

While we take measures to protect the security of, and prevent unauthorized access to, our systems and personal and proprietary information, the security controls for our systems, as well as other security practices we follow, may not prevent unauthorized access to, damage to, disablement or encryption of, use or misuse of, disclosure of, modification of, destruction of or loss of our data or the data of others (including personally identifiable information and proprietary information). Any actual or perceived security incident could harm our business and operating results and could result in, among other things, unfavorable publicity, governmental inquiry and oversight, difficulty in marketing our services, allegations by our customers that we have not performed our contractual obligations, litigation by affected parties including our customers and possible financial obligations for damages related to the theft or misuse of such information or inventory, any of which could negatively impact our business, financial condition and results of operations.

Furthermore, data privacy is subject to frequently changing rules and regulations, which sometimes conflict among the various jurisdictions and countries in which we provide services. We are subject to a variety of local, state, national and international laws, directives and regulations that apply to the collection, use, retention, protection, disclosure, transfer and other processing of personal data in the different jurisdictions in which we operate. Data privacy laws and regulations, including the European Union's General Data Protection Regulation, effective May 2018, the California Consumer Privacy Act, effective January 2020, and the California Privacy Rights and Enforcement Act of 2020, partially effective as of December 2020, pose increasingly complex compliance challenges, which may increase compliance costs, and any failure to comply with data privacy laws and regulations could result in significant penalties. In addition, we may be subject to new data privacy laws, such as, the Virginia Consumer Data Protection Act and the Colorado Privacy Act. These and other similar state laws may encourage other states and the federal government to pass comparable legislation, introducing the possibility of greater penalties and more rigorous compliance requirements. Compliance with U.S. and international data protection laws and regulations could cause us to incur substantial costs or require us to change our business practices and compliance procedures in a manner adverse to our business. Any inability to adequately address data privacy or data protection, or other information security-related concerns, even if unfounded, or to successfully negotiate privacy, data protection or information security-

related contractual terms with customers, or to comply with applicable laws, regulations and policies relating to privacy, data protection and information security, could result in additional cost and liability to us, harm our reputation and brand, and could negatively impact our business, financial condition and results of operations.

In addition, PRC regulatory authorities have implemented and are considering a number of legislative and regulatory proposals concerning data protection. For example, China's Cyber Security Law, which became effective in June 2017, established China's first national-level data protection for "network operators," which may include all organizations in the PRC that connect to or provide services over the internet or other information network. The Cyber Security Law requires network operators to perform certain functions related to cybersecurity protection. In addition, the Cyber Security Law imposes certain requirements on network operators of critical information infrastructure (CIIOs). For example, CIIOs generally shall, during their operations in the PRC, store the personal information and important data collected and produced within the territory of the PRC, and shall perform certain security obligations as required under the Cyber Security Law, including that the CIIOs shall pass the national security review when purchasing network product or service which may affect national security. In addition, China's Data Security Law, which was promulgated by the Standing Committee of the PRC National People's Congress (the SCNPC), on June 10, 2021 and became effective on September 1, 2021, outlines the main system framework of data security protection. For example, the Data Security Law introduces a data classification and hierarchical protection system based on the importance of data in economic and social development, as well as the degree of harm it will cause to national security, public interests, or legitimate rights and interests of individuals or organizations when such data is tampered with, destroyed, leaked, or illegally acquired or used. Processors of "important data" are further required to conduct periodic risk assessment and submit assessment report to relevant regulatory authorities. In addition, the Data Security Law provides a national security review procedure for those data activities which may affect national security. Furthermore, Regulations on the Security Protection of Critical Information Infrastructure (the CII Protection Regulations), which was promulgated by the State Council of the PRC on July 30, 2021 and became effective on September 1, 2021, stipulates the obligations and liabilities of the regulators, society and CIIOs in protecting the security of critical information infrastructure (the CII). According to the CII Protection Regulations, regulators supervising specific industries shall formulate detailed guidance to recognize the CII in the respective sectors, and CIIOs shall take the responsibility to protect the CII's security by performing certain prescribed obligations. For example, CIIOs are required to conduct network security test and risk assessment, report the assessment results to relevant regulatory authorities, and timely rectify the issues identified at least once a year.

The Opinions, which were issued by the General Office of the State Council and the General Office of the CPC Central Committee on July 6, 2021, require the speedup of the revision of the provisions on strengthening the confidentiality and archives coordination between regulators related to overseas issuance and listing of securities, and improvement to the laws and regulations related to data security, cross-border data flow, and management of confidential information. Numerous regulations, guidelines and other measures have been or are expected to be adopted under the umbrella of, or in addition to the Cyber Security Law and Data Security Law. Drafts of some of these laws, regulations or measures have now been published, including the draft amendment to the Measures for Cyber Security Review published by Cyberspace Administration of China in July 2021 for public comments, which provides that, among others, an application for cyber security review shall be made by an issuer who is a CIIO or a "data processing operator" as defined therein before such issuer's securities become listed in a foreign country if the issuer possesses personal information of more than 1 million users, and that the relevant governmental authorities in the PRC may initiate cyber security review if such governmental authorities determine an operator's cyber products or services, data processing or potential listing in a foreign country affect or may affect national security.

The exact scope of CIIOs and important data under the current laws, regulations and regulatory regime remains unclear, and the authorities may have wide discretion in the interpretation and enforcement of the related laws and regulations. If we are deemed as a CIIO, or as an operator who

collects, uses and processes important data according to the Cyber Security Law, Data Security Law and other relevant laws and regulations, we may need to perform or be subject to certain prescribed obligations, and if we were found to be in violation of these applicable laws and regulations, we may be subject to administrative penalties, including fines and service suspension. We also cannot rule out the possibility that certain of our customers may be deemed as CIIOs, or as operators processing important data, in which case our products or services or data processing activities, if being deemed as related to national security, will need to be submitted for cybersecurity review before we can enter into agreements with such customers, and before the conclusion of such procedure, the customers will not be allowed to use our products or services. If the reviewing authority considers that the use of our services by certain of our customers involves risk of disruption, is vulnerable to external attacks, or may negatively affect, compromise, or weaken the protection of national security, we may not be able to provide our products or services to such customers, which could have a material adverse effect on our results of operations and business prospects.

We use certain software governed by open source licenses, which under certain circumstances could materially adversely affect our business, financial condition, operating results and cash flow.

Certain of our software, as well as that of our customers and vendors, may be derived from so-called “open source” software that is generally made available to the public by its authors and/or other third parties. Open source software is made available under licenses that impose certain obligations on us in the event we were to distribute derivative works of the open source software. These obligations may require us to make source code for the derivative works available to the public and/or license such derivative works under a particular type of license, rather than the forms of license we customarily use to protect our intellectual property. In the event that the copyright holder of any open source software were to successfully establish in court that we had not complied with the terms of a license for a particular work, we could be required to release the source code of that work to the public and/or stop distribution of that work if the license is terminated, which could adversely impact our business and results of operations.

While we take steps to monitor the use of all open source software in our products, processes and technology and try to ensure that no open source software is used in such a way as to require us to disclose the source code to the related product, processes or technology when we do not wish to do so, such use could inadvertently occur. Additionally, if a third party software provider has incorporated certain types of open source software into software we license from such third party for our products, processes or technology, we could, under certain circumstances, be required to disclose the source code to our products, processes or technology. This could harm our intellectual property position and have a material adverse effect on our business, results of operations and financial condition.

Further, although some open source vendors provide warranty and support agreements, it is common for such software to be available “as-is” with no warranty, indemnity or support. Although we monitor our use of such open source code to avoid subjecting our products to unintended conditions, such use, under certain circumstances, could materially adversely affect our business, financial condition and operating results and cash flow, including if we are required to take remedial action that may divert resources away from our development efforts.

Risks Relating to Investments in Cayman Islands Companies

We are a Cayman Islands company and, because the rights of shareholders under Cayman Islands law differ from those under U.S. law, shareholders may have difficulty protecting their shareholder rights.

Our corporate affairs are governed by our amended and restated memorandum and articles of association, the Companies Act and the common law of the Cayman Islands. The rights of shareholders to take action against the directors, actions by minority shareholders and the fiduciary responsibilities of

our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands.

Unlike many jurisdictions in the United States, Cayman Islands law does not specifically provide for shareholder appraisal rights on a merger or consolidation of a company. This may make it more difficult for you to assess the value of any consideration you may receive in a merger or consolidation or to require that the offeror give you additional consideration if you believe the consideration offered is insufficient.

Shareholders of Cayman Islands exempted companies, such as our company, have no general rights under Cayman Islands law to inspect corporate records and accounts or to obtain copies of lists of shareholders of the company. Our directors have discretion under our amended and restated memorandum and articles of association to determine whether or not, and under what conditions, our corporate records may be inspected by our shareholders, but are not obliged to make them available to our shareholders. This may make it more difficult for you to obtain the information needed to establish any facts necessary for a shareholder motion or to solicit proxies from other shareholders in connection with a proxy contest.

The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, which has persuasive, but not binding, authority on a court in the Cayman Islands. The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a less exhaustive body of securities laws as compared to the United States, and some states, such as Delaware, have more fulsome and judicially interpreted bodies of corporate law. See “Description of Share Capital—Comparison of Cayman Islands Corporate Law.”

Investors in this offering are purchasing equity securities of a Cayman Islands holding company rather than equity securities of our subsidiaries that have substantive business operations. It may be difficult to enforce a judgment of U.S. courts for civil liabilities under U.S. federal securities laws against us in the Cayman Islands or against our PRC or Hong Kong subsidiaries.

Credo Technology Group Holding Ltd is a holding company incorporated under the laws of the Cayman Islands with no operations of its own. We conduct substantially all of our operations through our indirect, wholly-owned subsidiaries in the United States and internationally. As such, investors in the ordinary shares are not purchasing equity securities of our subsidiaries that have substantive business operations but instead are purchasing equity securities of a Cayman Islands holding company. The Cayman Islands courts are unlikely:

- to recognize or enforce against us judgments of courts of the United States based on certain civil liability provisions of U.S. securities laws; or
- to impose liabilities against us, in original actions brought in the Cayman Islands, based on certain civil liability provisions of U.S. securities laws that are penal in nature.

Although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be in respect of taxes or a fine or penalty, inconsistent with a Cayman Islands judgment in respect of the same matter, impeachable on the grounds of fraud or obtained in a manner, and/or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands Court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

As a result of all of the above, public shareholders may have more difficulty protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a U.S. company. See "Enforcement of Judgments."

Provisions in our amended and restated memorandum and articles of association may have the effect of discouraging lawsuits against our directors and officers.

Cayman Islands law does not limit the extent to which a company's memorandum and articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against willful default, fraud or the consequences of committing a crime. Our amended and restated memorandum and articles of association provide for indemnification of our officers and directors to the maximum extent permitted by law, including for any liability incurred in their capacities as such, except through their own willful neglect or default. Our indemnification obligations may discourage shareholders from bringing a lawsuit against our officers or directors for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood of derivative litigation against our officers and directors, even though such an action, if successful, might otherwise benefit us and our shareholders. Furthermore, a shareholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against our officers and directors pursuant to these indemnification provisions.

We employ a mail forwarding service, which may delay or disrupt our ability to receive mail in a timely manner.

Mail addressed to us and received at our registered office will be forwarded unopened to the forwarding address supplied by us to be dealt with. Neither we nor our directors, officers, advisors or service providers (including the organization which provides registered office services in the Cayman Islands) will bear any responsibility for any delay howsoever caused in mail reaching the forwarding address.

Risks Related to Our Ordinary Shares and this Offering

An active trading market for our ordinary shares may not develop or be sustained and you may not be able to sell your shares at or above the initial public offering price, or at all.

There has been no public market for our ordinary shares prior to this offering. An active market in our ordinary shares may not develop upon completion of this offering or, if it does develop, it may not be sustainable or liquid enough for you to sell your shares. We have applied to list our ordinary shares on The Nasdaq Global Select Market, but we cannot assure you that an active trading market will develop.

Our share price may be volatile and may decline, resulting in a loss of some or all of your investment.

The initial public offering price for our ordinary shares will be determined through negotiations among the underwriters, us and the selling shareholders and may vary from the market price of our ordinary shares following this offering. If you purchase our ordinary shares in this offering, you may not be able to resell those shares at or above the initial public offering price, or at all. The trading price and volume of our ordinary shares is likely to be volatile and could fluctuate significantly in response to numerous factors, many of which are beyond our control, including but not limited to:

- actual or anticipated fluctuations in our results of operations due to, among other things, changes in customer demand, product life cycles, pricing, ordering patterns, and unforeseen operating costs;

- the financial projections we may provide to the public, any changes in these projections or our failure to meet these projections;
- failure of securities analysts to initiate or maintain coverage of us, changes in financial estimates or ratings by any securities analysts who follow us, or our failure to meet these estimates or the expectations of investors;
- announcements by our significant customers of changes to their product offerings, business plans, or strategies;
- announcements by us or our competitors of significant technical innovations, acquisitions, strategic partnerships, joint ventures, or capital commitments;
- changes in operating performance and stock market valuations of other technology companies generally, or those in the data infrastructure industry;
- timing and seasonality of the end-market demand;
- cyclical fluctuations in the data infrastructure market;
- price and volume fluctuations in the overall stock market from time to time, including as a result of trends in the economy as a whole;
- actual or anticipated developments in our business or our competitors' businesses or the competitive landscape generally;
- new laws or regulations or new interpretations of existing laws, or regulations applicable to our business;
- changes in our management;
- lawsuits threatened or filed against us; and
- other events or factors, including those resulting from war, incidents of terrorism, or responses to these events.

In addition, the market for technology stocks and the stock markets in general have experienced extreme price and volume fluctuations. Stock prices of many technology companies have fluctuated in a manner unrelated or disproportionate to the operating performance of those companies. In the past, shareholders have instituted securities class action litigation following periods of market volatility. If we were to become involved in securities litigation, it could subject us to substantial costs, divert resources and the attention of management from our business and adversely affect our business, financial condition, and results of operations.

Substantial future sales of our ordinary shares could cause the market price of our ordinary shares to decline.

The market price of our ordinary shares could decline as a result of substantial sales of our ordinary shares, particularly sales by our directors, executive officers and significant shareholders, a large number of our ordinary shares becoming available for sale or the perception in the market that holders of a large number of shares intend to sell their shares. Upon completion of this offering, we will have approximately ordinary shares outstanding, assuming no exercise of the underwriters' option to purchase additional shares. All of the ordinary shares sold in this offering will be freely transferable without restriction or additional registration under the Securities Act of 1933, as amended (Securities Act). Subject to the restrictions under Rule 144 and 701 under the Securities Act, ordinary shares outstanding after this offering will be eligible for resale upon the expiration of lock-up agreements or other contractual restrictions.

We, the selling shareholders, all of our directors and executive officers, and the holders of substantially all of our ordinary shares and securities exercisable for or convertible into our ordinary shares outstanding immediately prior to the closing of this offering have agreed, or will agree, with the underwriters, subject to certain exceptions, not to dispose of or hedge any ordinary shares or securities convertible into or exchangeable for ordinary shares during the period from the date of this prospectus continuing through the date 180 days after the date of this prospectus (the restricted period). Notwithstanding the foregoing, (i) our current employees (other than any of our officers, persons referred to as our founders in this prospectus or directors) may sell up to 15% of our equity securities held by such persons as of the date of this prospectus (subject to the satisfaction of any vesting conditions applicable to such equity securities) beginning on the first trading day of our ordinary shares on the Nasdaq; and (ii) such restricted period will end with respect to (A) an additional 15% of the shares subject to each lock-up agreement held by our current employees, officers and directors and holders of our preferred shares as of the date of this prospectus (other than our founders) and (B) 10% of the shares subject to each lock-up agreement held by our founders, if at any time beginning 90 days after the date of this prospectus (1) we have filed at least one quarterly report on Form 10-Q or annual report on Form 10-K and (2) the last reported closing price of our ordinary shares on the Nasdaq is at least 30% greater than the initial public offering price of our ordinary shares set forth on the cover of this prospectus for 10 out of any 15 consecutive trading days, including the last day, ending on or after the 90th day after the date of this prospectus (an early lock-up release); and provided further that, if on the date all such conditions are met, we are in a trading black-out period, then (i) the actual date of the early lock-up release will be delayed until immediately prior to the opening of trading on the second trading day following the date on which we next publicly announce operating results for the previous fiscal quarter and (ii) no early lock-up release will occur unless the last reported closing price of our ordinary shares on the Nasdaq is greater than the initial public offering price of our ordinary shares set forth on the cover of this prospectus on the first trading day following such public announcement. As a result of these contractual lock-up agreements and the provisions of Rules 144 and 701 under the Securities Act, these shares will be available for sale in the public market as follows:

- beginning on the first trading day of our ordinary shares on the Nasdaq, up to _____ ordinary shares held by our current employees (other than any of our officers, founders or directors) will be eligible for sale in the public market from time to time;
- beginning 90 days after the date of this prospectus, up to _____ ordinary shares will be eligible for sale in the public market from time to time in the event of an early lock-up release as described in the following paragraph, subject in some cases to restrictions in award agreements and contractual obligations with us or the volume and other restrictions of Rule 144; and
- beginning 180 days after the date of this prospectus, the remainder of the ordinary shares will be eligible for sale in the public market from time to time thereafter, subject in some cases to restrictions in award agreements and contractual obligations with us or the volume and other restrictions of Rule 144, as described below.

In addition, Goldman Sachs & Co. LLC, on behalf of the underwriters, may in its sole discretion release some or all of the shares subject to the lock-up agreements prior to the expiration of this restricted period. See “Underwriting” and “Shares Eligible for Future Sale” for additional information. As these resale restrictions end, the market price of our ordinary shares could decline if the holders of those shares sell them or are perceived by the market as intending to sell them.

After this offering, subject to the lock-up agreements described above, the holders of an aggregate of _____ of our ordinary shares as of July 31, 2021 will have rights, subject to certain conditions, to require us to file registration statements covering their shares or to include their shares in registration statements that we may file for ourselves or our shareholders. We also intend to register ordinary shares that we may issue under our employee equity incentive plans. Once we register these shares, they will be able to be sold freely in the public market upon issuance, subject to existing market stand-off or lock-up agreements.

If securities analysts or industry analysts downgrade our ordinary shares, publish negative research or reports, or fail to publish reports about our business, our ordinary share price and trading volume could decline.

The market price and trading market for our ordinary shares will be influenced by the research and reports that industry or securities analysts publish about us, our business and our market. If one or more analysts adversely change their recommendation regarding our shares or change their recommendation about our competitors' shares, our share price would likely decline. If one or more analysts cease coverage of us or fail to regularly publish reports on us, we could lose visibility in the financial markets which in turn could cause our share price or trading volume to decline. In addition, if our operating results fail to meet the expectations created by securities analysts' reports, our share price could decline.

Our actual operating results may not meet our guidance and investor expectations, which would likely cause our share price to decline.

From time to time, we may release guidance in our earnings releases, earnings conference calls, or otherwise, regarding our future performance that represent our management's estimates as of the date of release. If given, this guidance, which will include forward-looking statements, will be based on projections prepared by our management. Projections are based upon a number of assumptions and estimates that, while presented with numerical specificity, are inherently subject to significant business, economic, and competitive uncertainties and contingencies, many of which are beyond our control. The principal reason that we expect to release guidance is to provide a basis for our management to discuss our business outlook with analysts and investors. With or without our guidance, analysts, and investors may publish expectations regarding our business, financial condition, and results of operations. We do not accept any responsibility for any projections or reports published by any such third parties. Guidance is necessarily speculative in nature, and it can be expected that some or all of the assumptions of the guidance furnished by us will not materialize or will vary significantly from actual results. If our actual performance does not meet or exceed our guidance or investor expectations, the trading price of our ordinary shares is likely to decline.

If our estimates or judgments relating to our critical accounting policies are based on assumptions that change or prove to be incorrect, our results of operations could fall below expectations of securities analysts and investors, resulting in a decline in the market price of our ordinary shares.

The preparation of financial statements in conformity with generally accepted accounting principles in the United States, or GAAP, requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, as described in the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations," the results of which form the basis for making judgments about the carrying values of assets, liabilities, equity, revenue and expenses that are not readily apparent from other sources. Significant assumptions and estimates used in preparing our consolidated financial statements include those related to revenue recognition, accounts receivable, inventory valuation, income taxes, impairment of long-lived assets, share-based compensation, accrued liabilities and fair value of ordinary shares. If our assumptions change or if actual circumstances differ from those in our assumptions, our results of operations may be adversely affected and may fall below the expectations of securities analysts and investors, resulting in a decline in the market price of our ordinary shares.

We will incur increased costs and become subject to additional regulations and requirements as a result of becoming a public company, which could have a material adverse effect on our business, results of operation and financial position, and make it more difficult to run our business or divert management's attention from our business.

As a public company, we will be required to commit significant resources and management time and attention to the requirements of being a public company, which will cause us to incur significant legal,

accounting and other expenses that we have not incurred as a private company, including costs associated with public company reporting requirements. We also will incur costs associated with the Sarbanes-Oxley Act and related rules implemented by the SEC and the Nasdaq, and compliance with these requirements will place significant demands on our legal, accounting and finance staff and on our accounting, financial and information systems. In addition, we might not be successful in implementing these requirements. The expenses incurred by public companies generally for reporting and corporate governance purposes have been increasing. We expect these rules and regulations to increase our legal and financial compliance costs and to make some activities more time consuming and costly, although we are currently unable to estimate these costs with any degree of certainty. These laws and regulations also could make it more difficult or costly for us to obtain certain types of insurance, including director and officer liability insurance, and we may be forced to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. These laws and regulations could also make it more difficult for us to attract and retain qualified persons to serve on our board of directors, our board committees or as our executive officers. Furthermore, if we are unable to satisfy our obligations as a public company, we could be subject to delisting of our ordinary shares, fines, sanctions and other regulatory action and potentially civil litigation, any of which could have a material adverse effect on our business, results of operation and financial position.

We may invest or spend the proceeds of this offering in ways with which you may not agree or in ways which may not yield a return.

Our management will have considerable discretion in the application of the net proceeds of this offering, and you will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately. The net proceeds may be used for corporate purposes that do not increase the value of our business, which could cause our share price to decline.

We do not expect to declare or pay any dividends on our ordinary shares for the foreseeable future.

We do not intend to pay cash dividends on our ordinary shares for the foreseeable future. Consequently, investors must rely on sales of their shares after price appreciation, which may never occur, as the only way to realize any future gains on their investment. Investors seeking dividends should not purchase our ordinary shares. Any future determination to pay dividends will be at the discretion of our board of directors and subject to, among other things, our compliance with applicable law, and depending on, among other things, our business prospects, financial condition, results of operations, cash requirements and availability, capital expenditure needs, the terms of any preferred equity securities we may issue in the future, covenants in the agreements governing any future indebtedness, other contractual restrictions, industry trends, and any other factors or considerations our board of directors may regard as relevant. Furthermore, because we are a holding company, our ability to pay dividends on our ordinary shares will depend on our receipt of cash distributions and dividends from our direct and indirect wholly owned subsidiaries, which may be similarly impacted by, among other things, the terms of any preferred equity securities these subsidiaries may issue in the future, debt agreements, other contractual restrictions and provisions of applicable law.

As a new investor, you will experience immediate and substantial dilution in the book value of the shares that you purchase in this offering.

The initial public offering price is expected to be substantially higher than the pro forma as adjusted net tangible book value per share of our ordinary shares immediately following this offering based on the total value of our tangible assets less our total liabilities. Therefore, if you purchase our ordinary shares in this offering, at the assumed initial public offering price of \$ per share (the midpoint of the range set forth on the cover page of this prospectus), you will experience an immediate dilution of \$ per share, representing the difference between the assumed initial public offering price per share you pay for our ordinary shares and our pro forma as adjusted net tangible book value per share as of , 2021, after giving effect to the automatic conversion of all our outstanding preferred shares into ordinary shares

immediately prior to the completion of this offering, and the issuance by us of _____ of our ordinary shares in this offering. See “Dilution.”

After this offering, our executive officers, directors and principal shareholders, if they choose to act together, will continue to have the ability to control or significantly influence all matters submitted to shareholders for approval.

Following the completion of this offering, our executive officers, directors and greater than 5% shareholders, in the aggregate, will beneficially own approximately _____ % of our outstanding ordinary shares (assuming no exercise of the underwriters’ option to purchase additional shares and no exercise of outstanding options). As a result, such persons, acting together, will have the ability to control or significantly influence all matters submitted to our board of directors or shareholders for approval, including the appointment of our management, the election and removal of directors and approval of any significant transaction, as well as our management and business affairs. In addition, if any of our executive officers, directors and greater than 5% shareholders were to purchase shares in this offering, or if any of our other current investors were to purchase shares in this offering and become greater than 5% shareholders as a result, the ability of such persons, acting together, to control or significantly influence such matters will increase. This concentration of ownership may have the effect of delaying, deferring or preventing a change in control, impeding a merger, consolidation, takeover or other business combination involving us, or discouraging a potential acquiror from making a tender offer or otherwise attempting to obtain control of our business, even if such a transaction would benefit other shareholders.

We are an emerging growth company and a smaller reporting company, and any decision on our part to comply only with certain reduced reporting and disclosure requirements applicable to emerging growth companies and smaller reporting companies could make our ordinary shares less attractive to investors.

We are an “emerging growth company,” as defined in the JOBS Act, and, for as long as we continue to be an emerging growth company, we may choose to take advantage of exemptions from various reporting requirements applicable to other public companies but not to emerging growth companies, including:

- not being required to have our independent registered public accounting firm audit our internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act;
- reduced disclosure obligations regarding executive compensation in our periodic reports and annual report on Form 10-K; and
- exemptions from the requirements of holding non-binding advisory votes on executive compensation and shareholder approval of any golden parachute payments not previously approved.

We could be an emerging growth company for up to five years following the completion of this offering. Our status as an emerging growth company will end as soon as any of the following takes place:

- the last day of the fiscal year in which we have more than \$1.07 billion in annual revenue;
- the date we qualify as a “large accelerated filer,” with at least \$700 million of equity securities held by non-affiliates;
- the date on which we have issued, in any three-year period, more than \$1.0 billion in non-convertible debt securities; or
- the last day of the fiscal year ending after the fifth anniversary of the completion of this offering.

We cannot predict if investors will find our ordinary shares less attractive if we choose to rely on any of the exemptions afforded emerging growth companies. If some investors find our ordinary shares less

attractive because we rely on any of these exemptions, there may be a less active trading market for our ordinary shares and the market price of our ordinary shares may be more volatile.

Under the JOBS Act, emerging growth companies can also delay adopting new or revised accounting standards until such time as those standards apply to private companies. We have elected to avail ourselves of this provision of the JOBS Act. As a result, we will not be subject to new or revised accounting standards at the same time as other public companies that are not emerging growth companies. Therefore, our consolidated financial statements may not be comparable to those of companies that comply with new or revised accounting pronouncements as of public company effective dates. In addition, for as long as we are an “emerging growth company” under the JOBS Act, our independent registered public accounting firm will not be required to attest to the effectiveness of our internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act. Even if our management concludes that our internal controls over financial reporting are effective, however, our independent registered public accounting firm may still issue a report that is qualified if it is not satisfied with our controls or the level at which our controls are documented, designed, operated or reviewed, or if it interprets the relevant requirements differently from us.

We are also a “smaller reporting company” as defined in the Exchange Act. We may continue to be a smaller reporting company even after we are no longer an emerging growth company. We may take advantage of certain of the scaled disclosures available to smaller reporting companies and will be able to take advantage of these scaled disclosures for so long as our ordinary shares held by non-affiliates is less than \$250.0 million measured on the last business day of our second fiscal quarter, or our annual revenue is less than \$100.0 million during the most recently completed fiscal year and our ordinary shares held by non-affiliates is less than \$700.0 million measured on the last business day of our second fiscal quarter.

Anti-takeover provisions in our organizational documents may discourage our acquisition by a third party, which could limit shareholders’ opportunity to sell their ordinary shares at a premium.

Our amended and restated memorandum and articles of association that will be effective upon the completion of this offering will include provisions that could limit the ability of others to acquire control of us, modify our structure or cause us to engage in change of control transactions. These provisions include, among other things:

- a classified board of directors with staggered three-year terms;
- the authorization of the issuance of “blank check” preferred shares that our board of directors could use to implement a shareholder rights plan;
- restrictions on the ability of our shareholders to call meetings or make shareholder proposals;
- our amended and restated memorandum and articles of association may only be amended by a vote of shareholders representing at least two-thirds of the outstanding ordinary shares or by a unanimous written consent;
- shareholders will not be permitted to increase the size of our board, fill vacancies on our board or remove directors without cause; and
- the ability of our board of directors, without action by our shareholders, to issue 50,000,000 preferred shares and to issue additional ordinary shares that could have the effect of impeding the success of an attempt to acquire us or otherwise effect a change in control.

These provisions could deter, delay or prevent a third party from acquiring control of us in a tender offer or similar transactions, even if such transaction would benefit our shareholders. Even in the absence of a takeover attempt, the existence of these provisions may adversely affect the prevailing market price of our ordinary shares if they are viewed as discouraging future takeover attempts.

General Risk Factors

We may acquire businesses, enter into licensing arrangements or make investments in other companies or technologies that disrupt our business, are difficult to integrate, impair our operating results, dilute our shareholders' ownership, result in the incurrence of debt, divert management resources or cause us to incur significant expense.

We may pursue in the future acquisitions of businesses and assets, as well as technology licensing arrangements, that we believe will complement our products, solutions or technologies. We also may pursue strategic alliances that leverage our core technology and industry experience to expand our product offerings or distribution, or make investments in other companies. Any acquisition involves a number of risks, many of which could harm our business, including:

- difficulty in integrating the operations, technologies, products, existing contracts, accounting and personnel of the acquired company or business;
- not realizing the anticipated benefits of any acquisition;
- difficulty in transitioning and supporting customers of the acquired company;
- difficulty in transitioning and collaborating with suppliers of the acquired company;
- diversion of financial and management resources from existing operations;
- the risk that the price we pay or other resources that we devote to the acquisition may exceed the value we realize, or the value we could have realized if we had allocated the purchase price or other resources to another opportunity;
- potential loss of key employees, customers and strategic alliances from either our current business or the acquired company's business;
- inability to successfully bring newly acquired products to market or achieve design wins with such products;
- fluctuations in industry trends that change the demand or purchasing volume of newly acquired products;
- assumption of unanticipated problems or latent liabilities, such as problems with the quality of the acquired products;
- inability to generate sufficient revenue to offset acquisition costs;
- the dilutive effect on our ordinary shares as a result of any acquisitions financed through the issuance of equity;
- inability to successfully complete transactions with a suitable acquisition candidate; and
- in the event of international acquisitions, risks associated with accounting and business practices or regulatory requirements that are different from applicable U.S. practices and requirements.

Acquisitions also frequently result in the recording of goodwill and other intangible assets that are subject to potential impairments, which could harm our financial results. If we fail to properly evaluate acquisitions or investments, it may impair our ability to achieve the anticipated benefits of any such acquisitions or investments, and we may incur costs in excess of what we anticipate. The failure to successfully evaluate and execute acquisitions or investments or otherwise adequately address these risks could materially harm our business, financial condition and results of operations.

To finance any acquisitions or investments, we may choose to issue equity or equity-linked securities as consideration, which could dilute the ownership of our shareholders. If the price of our ordinary shares is low or volatile, we may not be able to acquire other companies for equity or equity-linked consideration. In addition, newly-issued securities may have rights, preferences or privileges senior to those of existing shareholders. If we raise additional funds by obtaining loans from third parties, the terms of those financing arrangements may include negative covenants or other restrictions on our business that could impair our operating flexibility, and would also require us to incur interest expense. Additional funds for acquisitions also may not be available on terms that are favorable to us, or at all.

We depend on our executive officers and other key employees, and the loss of one or more of these employees or an inability to attract or retain highly skilled employees could adversely affect our business.

Our success depends largely upon the continued services of our executive officers and other key employees, including our engineering and sales and marketing personnel. From time to time, there may be changes in our executive management team or other key personnel, which could disrupt our business. We do not have employment agreements with our executive officers or other key personnel that require them to continue to work for us for any specified period and, therefore, they could terminate their employment with us at any time and with little or no notice. The loss of one or more of our executive officers or other key employees could have an adverse effect on our business, financial condition and results of operations.

In addition, to execute our growth plan, we must attract and retain highly qualified personnel. Competition for these personnel in the San Francisco Bay Area, where our headquarters is located, and in other locations where we maintain offices, is intense, especially for engineers with applications, or analog circuit technology design expertise. We have from time to time experienced, and we expect to continue to experience, difficulty in hiring and retaining employees with appropriate qualifications. Many of the companies with which we compete for experienced personnel have greater resources than we have. If we hire employees from competitors or other companies, their former employers may attempt to assert that these employees or we have breached legal obligations, resulting in a diversion of our time and resources. In addition, job candidates and existing employees often consider the value of the equity awards they receive in connection with their employment. If the perceived value of our equity awards declines, it may adversely affect our ability to recruit and retain highly skilled employees. Further, changes in immigration policies may negatively impact our ability to attract and retain personnel, including personnel with specialized technical expertise. If we fail to attract new personnel or fail to retain or motivate our current personnel, our business, financial condition and results of operations could be adversely affected.

Catastrophic events may disrupt our business.

Our corporate headquarters, our foundry vendor and some of our suppliers are located in areas that are in active earthquake zones or are subject to power outages, natural disasters, political, social or economic unrest, and other potentially catastrophic events. In the event of a major earthquake, hurricane, flooding or other catastrophic event such as fire, power loss, telecommunications failure, cyber-attack, war, terrorist attack, political, social or economic unrest or disease outbreak, we may be unable to continue our operations and may endure system interruptions, reputational harm, delays in our product development, breaches of data security or loss of critical data, any of which could have an adverse effect on our business, financial condition or results of operations.

Litigation and other legal proceedings may adversely affect our business.

From time to time we may become involved in legal proceedings relating to patent and other intellectual property matters, product liability claims, employee claims, tort or contract claims, federal regulatory investigations, securities class action and other legal proceedings or investigations, which could have an adverse impact on our business, financial condition and results of operations and divert the

attention of our management from the operation of our business. Litigation is inherently unpredictable and can result in excessive or unanticipated verdicts and/or injunctive relief that affect how we operate our business. We could incur judgments or enter into settlements of claims for monetary damages or for agreements to change the way we operate our business, or both. There may be an increase in the scope of these matters or there may be additional lawsuits, claims, proceedings or investigations in the future, which could have a material adverse effect on our business, financial condition and results of operations. Adverse publicity about regulatory or legal action against us could damage our reputation and brand image, undermine our customers' confidence and reduce long-term demand for our products, even if the regulatory or legal action is unfounded or not material to our operations.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

We have made statements under the captions “Prospectus Summary,” “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” “Business” and in other sections of this prospectus that are forward-looking statements. In some cases, you can identify these statements by forward-looking words such as “may,” “might,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential” or “continue,” the negative of these terms and other comparable terminology. These forward-looking statements, which are subject to risks, uncertainties and assumptions about us, may include projections of our future financial performance, our anticipated growth strategies and anticipated trends in our business and in the industry in which we operate. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements, including those factors discussed under the caption entitled “Risk Factors.” You should specifically consider the numerous risks outlined under “Risk Factors.”

You should not rely upon forward-looking statements as predictions of future events. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee that the future results, levels of activity, performance or events and circumstances reflected in the forward-looking statements will be achieved or occur. These forward-looking statements speak only as of the date of this prospectus. We undertake no obligation to update publicly any forward-looking statements for any reason after the date of this prospectus to conform these statements to actual results or to changes in our expectations, except as required by applicable law.

You should read this prospectus and the documents that we reference in this prospectus and have filed with the SEC as exhibits to the registration statement of which this prospectus is a part with the understanding that our actual future results, levels of activity, performance and events and circumstances may be materially different from what we expect.

MARKET, INDUSTRY AND OTHER DATA

This prospectus contains estimates and information concerning our industry, including market size and growth rates of the markets in which we participate, that are based on industry publications and reports. We relied on industry data, market data and independent third-party sources, as well as publicly available data and other sources. We also rely on our own research and estimates in this prospectus. In some cases, we do not expressly refer to the sources from which this data is derived. This information involves a number of assumptions and limitations, and you are cautioned not to give undue weight to these estimates. We have not independently verified the data contained in any third-party information, and cannot assure you of its accuracy or completeness.

Although we believe the market position, market opportunity, market size and other information included in this prospectus is reliable, such information is inherently imprecise. In addition, projections, assumptions and estimates of our future performance and the future performance of the industry in which we operate are necessarily subject to a high degree of uncertainty and risk due to a variety of factors, including those described in the section titled "Risk Factors." These and other factors could cause results to differ materially from those expressed in these publications and reports.

The following industry reports are sources of certain of the statistical data estimates and forecasts set forth in the prospectus:

- *Gartner, Inc., Semiconductor Forecast Database, Worldwide, 2Q21 Update - June 2021;

(Gartner) and are not representations of fact. The Gartner Content speaks as of its original publication date (and not as of the date of this prospectus), and the opinions expressed in the Gartner Content are subject to change without notice.

USE OF PROCEEDS

We estimate that the net proceeds to us from this offering will be approximately \$ million, or approximately \$ million if the underwriters exercise their option to purchase additional shares from us in full, assuming an initial public offering price of \$ per share (the midpoint of the range set forth on the cover page of this prospectus), after deducting estimated underwriting discounts and commissions and estimated offering expenses. We will not receive any of the proceeds from the sale of ordinary shares by the selling shareholders.

Each \$1.00 increase (decrease) in the public offering price per share would increase (decrease) our net proceeds, after deducting estimated underwriting discounts and commissions, by \$ million (assuming no exercise of the underwriters' option to purchase additional shares from us). Similarly, each increase (decrease) of 1.0 million shares in the number of shares offered by us would increase (decrease) the net proceeds to us from this offering by \$ million, assuming that the assumed initial public offering price remains the same, and after deducting estimated underwriting discounts and commissions and estimated offering expenses. We do not expect that a change in the initial public offering price or the number of shares by these amounts would have a material effect on our uses of the proceeds from this offering.

We intend to use the net proceeds we receive from this offering for working capital and other general corporate purposes. We may also use a portion of the net proceeds we receive from this offering for acquisitions or strategic transactions, though we have not entered into any agreements or commitments with respect to any specific material transactions and have no understandings or agreements with respect to any such transactions at this time.

Our management will have broad discretion over the use of the net proceeds we receive from this offering. The amounts and timing of our expenditures will depend upon numerous factors, including cash flows from operations, the extent and results of our research and development efforts and the anticipated growth of our business. Pending their uses, we plan to invest the net proceeds we receive from this offering in short-term, interest-bearing, investment-grade instruments, certificates of deposit or direct or guaranteed obligations of the U.S. government.

DIVIDEND POLICY

We have never declared or paid cash dividends on our shares. We do not anticipate declaring or paying, in the foreseeable future, any cash dividends on our shares. We currently intend to retain all available funds and any future earnings to support our operations and finance the growth and development of our business. Any future determination related to our dividend policy will be made at the discretion of our board of directors and will depend upon, among other factors, our results of operations, financial condition, capital requirements, contractual restrictions, business prospects and other factors our board of directors may deem relevant.

CAPITALIZATION

The following table sets forth our cash and cash equivalents and capitalization as of July 31, 2021 on:

- an actual basis;
- a pro forma basis to give effect to (i) the automatic conversion of all of our outstanding convertible preferred shares into an aggregate of 52,059,826 ordinary shares immediately prior to the completion of this offering, as if such conversion had occurred on July 31, 2021; and (ii) the filing and effectiveness of our amended and restated memorandum and articles of association, which will occur prior to the closing of this offering; and
- a pro forma as adjusted basis to reflect (i) the pro forma adjustments described above and (ii) the sale by us of ordinary shares in this offering, at an assumed initial public offering price of \$ per share (the midpoint of the range set forth on the cover page of this prospectus), after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us.

This table should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and the consolidated financial statements and notes thereto appearing elsewhere in this prospectus.

| (in thousands, except share and per share data) | July 31, 2021 | | |
|---|---------------|-----------|-----------------------|
| | Actual | Pro Forma | Pro Forma as Adjusted |
| Cash and cash equivalents | \$ 100,221 | \$ | \$ |
| Convertible preferred shares, \$0.00005 par value per share, 52,059,826 shares authorized, 52,059,826 shares issued and outstanding, actual; no shares authorized issued or outstanding, pro forma and pro forma as adjusted | 205,210 | | |
| Shareholders' equity: | | | |
| Preferred shares, \$0.00005 par value per share, no shares authorized, issued or outstanding, actual; 50,000,000 shares authorized, no shares issued and outstanding, pro forma and pro forma as adjusted | — | | |
| Ordinary shares, \$0.00005 par value per share, 137,908,458 shares authorized, 68,836,181 shares issued and outstanding, actual; 1,000,000,000 shares authorized, shares issued and outstanding, pro forma; 1,000,000,000 shares authorized, shares issued and outstanding, pro forma as adjusted | 3 | | |
| Additional paid-in capital | 14,128 | | |
| Accumulated other comprehensive income | 222 | | |
| Accumulated deficit | (80,830) | | |
| Total shareholders' equity (deficit) | (66,477) | | |
| Total capitalization | \$ 138,733 | \$ | \$ |

The pro forma as adjusted information discussed above is illustrative only and will be adjusted based on the actual public offering price and other terms of this offering determined at pricing. Each \$1.00 increase (decrease) in the assumed initial public offering price of \$ per share (the midpoint of the range set forth on the cover page of this prospectus) would increase (decrease) each of our pro forma as adjusted cash and cash equivalents, additional paid-in capital, total shareholders' equity (deficit) and total capitalization by \$ million, assuming that the number of ordinary shares offered by us, as set forth on the cover page of this prospectus, remains the same, and after deducting the estimated underwriting

discounts and commissions and estimated offering expenses. Similarly, each increase (decrease) of 1.0 million shares in the number of ordinary shares offered by us would increase (decrease) each of our pro forma as adjusted cash and cash equivalents, additional paid-in capital, total shareholders' equity (deficit) and total capitalization by \$ million, assuming the assumed initial public offering price of \$ per share remains the same, and after deducting the estimated underwriting discounts and commissions and estimated offering expenses.

If the underwriters' option to purchase additional shares from us is exercised in full, our pro forma as adjusted cash and cash equivalents, additional paid-in capital, total shareholders' equity (deficit), total capitalization and shares outstanding as of July 31, 2021 would be \$ million, \$ million, \$ million, \$ million and shares, respectively.

The number of ordinary shares that will be outstanding after this offering is based on 120,896,007 ordinary shares (including all of our convertible preferred shares on an as-converted basis) outstanding as of July 31, 2021, and excludes:

- 13,430,207 ordinary shares issuable upon the exercise of options to purchase our ordinary shares outstanding as of July 31, 2021, with a weighted-average exercise price \$1.77 per share;
- ordinary shares issuable upon the exercise of options to purchase our ordinary shares granted after July 31, 2021, with a weighted-average exercise price of \$ per share;
- 714,546 ordinary shares outstanding as of July 31, 2021 issued upon the early exercise of share options and subject to repurchase;
- ordinary shares issuable upon the exercise of that we expect to grant under our 2021 Equity Incentive Plan upon the pricing of this offering to our directors, executive officers and certain other employees at an exercise price equal to the initial public offering price of this offering;
- an estimated additional ordinary shares reserved for future issuance under our 2021 Equity Incentive Plan, which will become effective immediately prior to the completion of this offering, as well as any automatic increases in the number of ordinary shares reserved for future issuance pursuant to this plan; and
- an estimated ordinary shares initially reserved for issuance under our ESPP, which will become effective immediately prior to the completion of this offering, as well as any automatic increases in the number of ordinary shares reserved for future issuance pursuant to this plan.

DILUTION

If you invest in our ordinary shares in this offering, your ownership interest will be diluted immediately to the extent of the difference between the initial public offering price per share of our ordinary shares and the pro forma as adjusted net tangible book value per share of our ordinary shares immediately after this offering.

Our pro forma net tangible book value as of July 31, 2021 was \$ million, or \$ per ordinary share. Pro forma net tangible book value represents the amount of our total tangible assets less our total liabilities, after giving effect to the automatic conversion of all outstanding preferred shares into an aggregate of 52,059,826 ordinary shares immediately prior to the completion of this offering. Pro forma net tangible book value per share represents pro forma net tangible book value divided by the total number of ordinary shares outstanding as of July 31, 2021, after giving effect to the automatic conversion of all outstanding convertible preferred shares immediately prior to the completion of this offering.

After giving further effect to our sale of ordinary shares in this offering at the assumed initial public offering price of \$ per share (the midpoint of the range set forth on the cover page of this prospectus) and after deducting the estimated underwriting discounts and commissions and estimated offering expenses, our pro forma as adjusted net tangible book value as of July 31, 2021 would have been approximately \$ million, or approximately \$ per share. This represents an immediate increase in pro forma as adjusted net tangible book value per share of \$ to our existing shareholders and an immediate dilution in pro forma as adjusted net tangible book value per share of approximately \$ to new investors purchasing ordinary shares in this offering. Dilution per share to new investors purchasing ordinary shares in this offering is determined by subtracting pro forma as adjusted net tangible book value per share after this offering from the assumed initial public offering price per share paid by new investors.

The following table illustrates this per share dilution:

| | |
|---|-----------------------------|
| Assumed initial public offering price per share | \$ |
| Historical net tangible book value per share as of July 31, 2021 | \$ |
| Pro forma increase in net tangible book value per share as of July 31, 2021 | <u> </u> |
| Pro forma net tangible book value per share as of July 31, 2021 | |
| Increase in pro forma net tangible book value per share attributable to new investors purchasing ordinary shares in this offering | <u> </u> |
| Pro forma as adjusted net tangible book value per share after this offering | |
| Dilution per share to new investors participating in this offering | <u><u>\$</u></u> |

The dilution information discussed above is illustrative only and may change based on the actual initial public offering price and other terms of this offering. Each \$1.00 increase in the assumed initial public offering price of \$ per share (the midpoint of the price range set forth on the cover page of this prospectus) would increase our pro forma as adjusted net tangible book value by \$ per share and the dilution per share to new investors in this offering by \$ per share, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same, and after deducting the estimated underwriting discounts and commissions and estimated offering expenses. Similarly, each \$1.00 decrease in the assumed initial public offering price of \$ per share would decrease our pro forma as adjusted net tangible book value by \$ per share and the dilution per share to new investors in this offering by \$ per share, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same, and after deducting the estimated underwriting discounts and commissions and estimated offering expenses.

Each increase of 1.0 million in the number of ordinary shares offered by us would increase our pro forma as adjusted net tangible book value by \$ per share and decrease the dilution per share to

new investors in this offering by \$ per share, assuming the assumed initial public offering price remains the same, and after deducting the estimated underwriting discounts and commissions and estimated offering expenses. Similarly, each decrease of 1.0 million in the number of ordinary shares offered by us would decrease our pro forma as adjusted net tangible book value by \$ per share and increase the dilution per share to new investors in this offering by \$ per share, assuming the assumed initial public offering price remains the same, and after deducting the estimated underwriting discounts and commissions and estimated offering expenses.

The following table summarizes, as of July 31, 2021, on a pro forma as adjusted basis as described above, the difference between existing shareholders and investors purchasing shares in this offering with respect to the number of ordinary shares purchased from us, the total consideration paid to us, and the weighted-average price per share paid, before deducting the underwriting discounts and commissions and estimated offering expenses:

| | Shares Purchased | | Total Consideration | | Average Price Per Share |
|-----------------------|------------------|---------|---------------------|---------|-------------------------|
| | Number | Percent | Amount | Percent | |
| Existing shareholders | | % | \$ | % | \$ |
| New investors | | | | | \$ |
| Total | | 100 % | \$ | 100 % | |

Sales by the selling shareholders identified in this prospectus will reduce the number of ordinary shares held by existing shareholders to , or approximately % of the total number of ordinary shares outstanding following the completion of this offering, and will increase the number of ordinary shares held by new investors to , or approximately % of the total number of ordinary shares outstanding following the completion of this offering.

The table above assumes no exercise of the underwriters' option to purchase additional shares in this offering from us or the selling shareholders. If the underwriters' option to purchase additional shares from us and the selling shareholders is exercised in full, the number of ordinary shares held by existing shareholders would be reduced to % of the total number of ordinary shares outstanding after this offering, and the number of ordinary shares held by new investors participating in the offering would be increased to % of the total number of shares outstanding after this offering.

Each \$1.00 increase (decrease) in the assumed initial public offering price of \$ per share (the midpoint of the estimated price range set forth on the cover page of this prospectus) would increase (decrease) the total consideration paid by new investors by \$ million, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same. Similarly, each increase (decrease) of 1.0 million shares in the number of shares offered by us would increase (decrease) the total consideration paid by new investors by \$ million, assuming no change in the assumed initial public offering price.

The foregoing tables and calculations are based on 120,896,007 ordinary shares (including all of our convertible preferred shares on an as-converted basis) outstanding as of July 31, 2021, and excludes:

- 13,430,207 ordinary shares issuable upon the exercise of options to purchase our ordinary shares outstanding as of July 31, 2021, with a weighted-average exercise price of \$1.77 per share;
- ordinary shares issuable upon the exercise of options to purchase our ordinary shares granted after July 31, 2021, with a weighted-average exercise price of \$ per share;
- 714,546 ordinary shares outstanding as of July 31, 2021 issued upon the early exercise of share options and subject to repurchase;

- ordinary shares issuable upon the exercise of that we expect to grant under our 2021 Equity Incentive Plan upon the pricing of this offering to our directors, executive officers and certain other employees at an exercise price equal to the initial public offering price of this offering;
- an estimated additional ordinary shares reserved for future issuance under our 2021 Equity Incentive Plan, which will become effective immediately prior to the completion of this offering, as well as any automatic increases in the number of ordinary shares reserved for future issuance pursuant to this plan; and
- an estimated ordinary shares initially reserved for issuance under our ESPP, which will become effective immediately prior to the completion of this offering, as well as any automatic increases in the number of ordinary shares reserved for future issuance pursuant to this plan.

To the extent that any outstanding options to purchase ordinary shares are exercised or new awards are granted under our equity compensation plans, or we issue additional ordinary shares or other securities convertible into or exercisable or exchangeable for our ordinary shares in the future, there will be further dilution to investors participating in this offering.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the consolidated financial statements and related notes included elsewhere in this prospectus. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those discussed in those forward-looking statements. Factors that could cause or contribute to such differences include those identified below and those discussed in the section titled "Risk Factors" and other parts of this prospectus. Our historical results are not necessarily indicative of the results that may be expected for any period in the future. The last day of our fiscal year is April 30, 2021. Our fiscal quarters end on July 31, October 31, January 31 and April 30.

Overview

Credo is an innovator in providing secure, high-speed connectivity solutions that deliver improved power and cost efficiency as data rates and corresponding bandwidth requirements increase exponentially throughout the data infrastructure market. Our connectivity solutions are optimized for optical and electrical Ethernet applications, including the emerging 100G, 200G, 400G and 800G port markets. Our products are based on our proprietary SerDes and DSP technology. Our product families include ICs, AECs and SerDes Chiplets. Our IP solutions primarily are comprised of SerDes IP development and licensing.

Data generation has increased dramatically over the past ten years, creating new and complicated challenges in both circuit and system design. Our proprietary SerDes and DSP technologies enable us to disrupt competition in existing markets, lead the way into emerging markets, and innovate to create new market opportunities. While many others in the data infrastructure industry struggle to meet customers' increasing performance and energy efficiency requirements, we continue to innovate to deliver groundbreaking solutions. A recent example is the announcement of our HiWire Switch cable and open-source implementation with Microsoft that helps realize Microsoft's vision for a network-managed dual-ToR architecture, overcoming complex and slow legacy enterprise approaches, simplifying deployment, and improving connection reliability in the datacenter.

The multi-billion dollar data infrastructure market that we serve is driven largely by hyperscalers, HPC and 5G infrastructure. The demands for increased bandwidth, improved power and cost efficiency, and heightened security have simultaneously and dramatically expanded as work, education, and entertainment have rapidly digitized across billions of end-point users.

Since our founding in 2008, we have achieved several significant milestones:

- From 2008 to 2012, we developed our proprietary, low-power, mixed-signal SerDes architecture which could scale from 25Gbps/lane to 50Gbps/lane and ultimately to 100Gbps/lane.
- In 2013, we began commercializing our core SerDes technology by providing connectivity solutions for the electrical and optical links in data centers.
- In 2014, we signed our first product contract with Non-Recurring Engineering (NRE) services as well as our first IP licensing contract.
- In 2016, we commenced production shipments of our Line Card PHY products.
- In 2017, we developed a 3.2Tbps chiplet for high bandwidth 12.8Tbps switches. This chiplet included 64 lanes of 50Gbps SerDes and was built in 28nm using Chip-on-Wafer-on-Substrate (CoWoS) packaging technology from TSMC.
- In 2018, we created AECs, a new category of datacenter system products, beginning with developing 400G DDC solutions up to seven meters in length.

- In 2019, we developed new DSP SerDes architectures optimizing the performance and power trade-offs for 400G and 800G solutions targeting Line Card PHYs, Optical PAM4 DSPs, and AECs.
- In 2020, we demonstrated the industry's first 40Gbps PAM3 SerDes in silicon. In addition, we engineered breakthrough Line Card PHYs and Optical PAM4 DSPs with leading performance and power for 50G/lane and 100G/lane solutions.
- In 2021, we launched new AEC solutions targeting ToR-to-NIC connections. Our solutions enabled dual-ToR server racks to seamlessly “switch” data traffic to the redundant ToR if a ToR port failed.

We design, market and sell both product and IP solutions. We help define industry conventions and standards within the markets we target by collaborating with technology leaders and standards bodies. We contract with a variety of manufacturing partners to build our products based on our proprietary SerDes and DSP technologies. We develop standard solutions we can sell broadly to our end markets and also develop tailored solutions designed to address specific customer needs. Once developed, these tailored solutions can generally be broadly leveraged across our portfolio and we are able to sell the product or license the IP into the broader market.

During the three months ended July 31, 2020 and 2021, we generated \$11.0 million and \$10.7 million in total revenue, respectively. Product sales and product engineering services revenue comprised 60% and 80% of our total revenue in the three months ended July 31, 2020 and 2021, respectively, and IP license and IP license engineering services revenue represented 40% and 20% of our total revenue in the three months ended July 31, 2020 and 2021, respectively. Geographically, 58% and 40% of our total revenue in the three months ended July 31, 2020 and 2021, respectively, was generated from revenue in North America, and 42% and 60% of our total revenue in the three months ended July 31, 2020 and 2021, respectively, was generated from revenue in the rest of the world, primarily in Asia. During the three months ended July 31, 2020 and 2021, we generated \$4.8 million and \$12.6 million in net loss, respectively, and \$4.6 million and \$12.1 million in adjusted net loss, respectively.

During fiscal 2020 and 2021, we generated \$53.8 million and \$58.7 million in total revenue, respectively. Product sales and product engineering services revenue comprised 31% and 63% of our total revenue in fiscal 2020 and 2021, respectively, and IP license and IP license engineering services revenue represented 69% and 37% of our total revenue in fiscal 2020 and 2021, respectively. Geographically, 67% and 75% of our total revenue in fiscal 2020 and fiscal 2021, respectively, was generated from customers in North America, and 33% and 25% of our total revenue in fiscal 2020 and fiscal 2021, respectively, was generated from customers in the rest of the world, primarily in Asia. During fiscal 2020 and 2021, we generated \$1.3 million in net income and a \$27.5 million in net loss, and \$2.5

million in adjusted net income and \$13.9 million in adjusted net loss, respectively. See “—Non-GAAP Financial Measure” for a definition of adjusted net income and a reconciliation between adjusted net income (loss) and net income (loss).

We derive the substantial majority of our revenue from a limited number of customers, and we anticipate we will continue to derive a significant portion of our revenue from a limited number of customers for the foreseeable future. We expect that as our products are more widely adopted and as our number of customers increase, customer concentration will decrease.

Our Business Model

We are a product-focused business with a strong foundation in IP, pioneering comprehensive connectivity solutions that deliver bandwidth, scalability, and end-to-end signal integrity for next-generation platforms. Product sales comprised 22% and 47% of our total revenue in fiscal 2020 and 2021, respectively. Product sales comprised 51% and 68% of our total revenue in the three months ended July 31, 2020 and 2021, respectively. We also develop IP solutions to address the specific and complex needs of our customers. We earn revenue from these IP solutions primarily through licensing fees and royalties. IP license revenue comprised 63% and 29% of our total revenue in fiscal 2020 and 2021, respectively. IP license revenue comprised 31% and 10% of our total revenue in the three months ended July 31, 2020 and 2021, respectively. In addition to product sales and IP license revenue, we also generated revenue from providing engineering services as part of our product and license arrangements with certain customers. Over time, we expect to generate an increased proportion of our revenue from sales of our products. We expect to see a long-term benefit from improvements in our operating leverage as our business continues to gain scale.

We utilize a fabless business model, working with a network of third parties to manufacture, assemble and test our connectivity products. This approach allows us to focus our engineering and design resources on our core competencies and to control our fixed costs and capital expenditures.

We employ a two-pronged sales strategy targeting both the end users of our products, as well as the suppliers of our end users. By engaging directly with the end user, we are able to better understand the needs of our customers and cater our solutions to their most pressing connectivity requirements.

This strategy has enabled us to become the preferred vendor to a number of our customers who, in turn, in some cases, require their suppliers, OEMs, ODMs and optical module manufacturers to utilize our solutions.

Revenue Mix and Associated Gross Margins

We are a product-focused business with a strong foundation in IP and, as such, our customers engage with us through the purchase of our products or the licensing of our IP. In some instances, customers will engage us to develop tailored products or IP licenses to meet their specific application requirements. We charge these customers incremental fees for this tailored development which are in addition to product sales or IP license revenue, and we recognize these additional fees as product engineering or IP license engineering services revenue.

By providing tailored engineering services to our customers, we believe we strengthen our customer relationships, enable additional sales and establish ourselves for potential long-term revenue opportunities from associated product sales or IP license revenue.

A summary of our revenue and associated gross margin by these revenue sources is presented below (in thousands, except percentages):

| | Year Ended April 30, | | Three Months Ended July 31, | |
|--|----------------------|------------------|-----------------------------|------------------|
| | 2020 | 2021 | 2020 | 2021 |
| Revenue: | | | | |
| Product sales | \$ 11,617 | \$ 27,477 | \$ 5,672 | \$ 7,263 |
| Product engineering services | 5,311 | 9,579 | 978 | 1,319 |
| Total product sales and product engineering services | 16,928 | 37,056 | 6,650 | 8,582 |
| IP license | 33,671 | 17,273 | 3,455 | 1,030 |
| IP license engineering services | 3,236 | 4,368 | 933 | 1,112 |
| Total IP license and IP license engineering services | 36,907 | 21,641 | 4,388 | 2,142 |
| Total revenue | \$ 53,835 | \$ 58,697 | \$ 11,038 | \$ 10,724 |
| Gross margin: | | | | |
| Product sales | 42.2 % | 41.5 % | 52.1 % | 40.0 % |
| Product engineering services | 85.7 % | 66.9 % | 57.5 % | 34.4 % |
| Total product sales and product engineering services | 55.9 % | 48.1 % | 52.9 % | 39.2 % |
| IP license | 100.0 % | 100.0 % | 100.0 % | 100.0 % |
| IP license engineering services | 92.0 % | 73.0 % | 78.5 % | 71.0 % |
| Total IP license and IP license engineering services | 99.3 % | 94.5 % | 95.4 % | 85.0 % |
| Total gross margin | 85.6 % | 65.2 % | 69.8 % | 48.3 % |

Over time, we anticipate that our revenues from product sales and IP license will become a larger proportion of total revenue relative to engineering services.

We incur certain costs associated with introducing new products to market which impact the gross margin associated with product sales. Over time, as revenue from our product sales increases, we expect these product introduction costs to decrease as a percentage of product sales revenue resulting in a higher gross margin on product sales revenue.

Non-GAAP Financial Measure

Adjusted Net Income (Loss)

We monitor adjusted net income (loss) for planning and performance measurement purposes. We define adjusted net income (loss) as net income (loss) reported on our consolidated statements of operations, excluding the impact of share-based compensation expenses, including recurring non-cash charges and the one-time cash charge related to the fiscal year 2021 share repurchase, and the related tax effect adjustment to the provision for income taxes. We have presented adjusted net income (loss) because we believe that the exclusion of these charges allows for a more relevant comparison of our results of operations to other companies in our industry and facilitates period-to-period comparisons as it eliminates the effect of certain factors unrelated to our overall operating performance.

The information in the table below sets forth our adjusted net income (loss) for the periods presented .

| | Year Ended April 30, | | Three Months Ended July 31, | |
|----------------------------|----------------------|-------------|-----------------------------|-------------|
| | 2020 | 2021 | 2020 | 2021 |
| | (in thousands) | | | |
| Adjusted net income (loss) | \$ 2,470 | \$ (13,905) | \$ (4,600) | \$ (12,102) |

We use adjusted net income (loss), a non-GAAP financial measure, to help us make strategic decisions, establish budgets and operational goals for managing our business, analyze our financial results, and evaluate our performance. We present the non-GAAP financial measure adjusted net income (loss) in this prospectus because we believe this non-GAAP financial measure provides an additional tool for investors to use in comparing our core business and results of operations over multiple periods with other companies in our industry, many of which present similar non-GAAP financial measures to investors. However, our presentation of adjusted net income (loss) may not be comparable to similarly titled measures reported by other companies due to differences in the way that these measures are calculated. In addition adjusted net income (loss) excludes share-based compensation expense, although equity compensation has been, and will continue to be, an important part of our compensation strategy and our future expenses. Adjusted net income (loss) should not be considered as the sole measure of our performance and should not be considered in isolation from, or as a substitute for, net income (loss) calculated in accordance with GAAP.

A reconciliation of our adjusted net income (loss) to our net income (loss) is presented below.

| | Year Ended April 30, | | Three Months Ended July 31, | |
|----------------------------------|----------------------|-------------|-----------------------------|-------------|
| | 2020 | 2021 | 2020 | 2021 |
| | (in thousands) | | | |
| Net income (loss) | \$ 1,329 | \$ (27,511) | \$ (4,840) | \$ (12,577) |
| Share-based compensation expense | 1,247 | 13,906 | 391 | 1,075 |
| Related tax effect adjustment | (106) | (300) | (151) | (600) |
| Adjusted net income (loss) | \$ 2,470 | \$ (13,905) | \$ (4,600) | \$ (12,102) |

Factors Affecting Our Performance

Our results of operations and financial condition have been, and will continue to be, affected by a number of factors including the following:

Design Wins With New and Existing Customers

Our solutions enable our end customers to differentiate their product offerings and position themselves to meet the demands of increasingly advanced networks. We work closely with our end customers to understand their product roadmaps and strategies and help them develop new products. Our goal is to develop solutions that support their product roadmap and development. If an end customer has tested our product, verified that it meets their requirements and the customer has informed us that the end customer intends to have our customer build it into their product, we consider it a design win. We consider design wins important to our future success. The selection process is typically lengthy and may require us to incur significant design and development expenditures in pursuit of a design win with no assurance that our solutions will be selected. In addition, some design wins result in significant revenue and some do not, and the timing of such revenue is difficult to predict as it depends on the success of the end customer's product that uses our solutions. Thus, some design wins result in orders and significant revenue shortly after the design win is awarded and other design wins do not result in significant orders and revenue for several months or longer after the initial design win (if at all). As a result, the degree to which we are successful in achieving design wins and the speed and level at which end customers ramp

volume production of the products into which our product is designed will impact our success and financial results in future periods.

Customer Demand and Pipeline

Demand for our products is dependent on conditions in the markets in which our customers operate, which are subject to cyclical and competitive conditions. We believe our relationships with the end customers of our products and the long-term implications of decisions to adopt our solutions, provide us with valuable visibility into customer demand. Furthermore, our customers generally provide us with periodic forecasts of their requirements. This provides an opportunity for us to monitor and refine our business operations and plans. The majority of our product sales are made pursuant to standard purchase orders. Changes in customer forecasts or the timing of orders from customers expose us to the risks of inventory shortages or excess inventory. Cancellations of orders could result in the loss of anticipated sales without allowing us sufficient time to reduce and manage our operating expenses.

Pricing and Product Gross Margins

Our revenue is also impacted by changes in the number and average selling prices of our products. Our products are typically characterized by a life cycle that begins with higher average selling prices and lower volumes, followed by broader market adoption, leading to higher volumes, and average selling prices lower than initial levels. Our product gross margins will be affected by the extent to which these declines are paired with improvements in manufacturing yields and lower wafer, assembly and test costs that offset some of the margin reduction that results from lower average selling prices as well as the extent to which we introduce new products with higher initial average selling prices and achieve market acceptance. Our gross margins may also be affected by changes in the price of silicon wafers, copper cables, printed circuit boards (PCBs), testing costs and commodities, and the extent to which we are able to offset any increases in our costs through increases prices to our customers, productivity actions or other means. In August 2021, TSMC, on which we rely as the foundry for all our semiconductor products, began informing its customers that it plans to increase the prices of its most advanced chips by roughly 10% and its less advanced chips by up to 20%, effective in late 2021 or early 2022 as a result of a global supply shortage that began in 2020. If we are unable to offset the increased costs associated with this price increase through pricing increases on our products, our gross margins may decrease. Our product gross margins may also fluctuate from period to period as a result of changes in average selling prices due to new product introductions or existing product transitions into larger scale commercial volumes and manufacturing costs as well as our product and customer mix.

Product Adoption

We develop and sell leading-edge connectivity solutions for digital infrastructure which are intended to replace existing legacy solutions and support our customers' future applications and needs. Our success is dependent on customers adopting our new technology and preferring our solutions over competing offerings or other current or future technologies.

Technology Development

We operate in industries characterized by rapidly changing technologies, industry standards and technological obsolescence. We work closely with our customers to understand their product roadmaps and strategies to forecast their future needs. This helps inform our technology roadmap and development priorities. We also monitor forecasts by industry analysts and the adoption curve of technology as well as potential competing forces which could hinder adoption of our solutions. Our revenue growth is dependent on our ability to continually develop and introduce new products to meet the changing technology and performance requirements of our customers, diversify our revenue base and generate new revenue to replace, or build upon, the success of previously introduced products which may be rapidly maturing. As a result, our revenue is impacted, to a more significant extent, by product life cycles for a variety of products and to a much lesser extent, if any, by any single product. In order to remain competitive, we have made, and expect to continue to make, significant expenses in research and

development, and our research and development expenses in a particular period may be significantly impacted by specific product or engineering initiatives that we undertake to maintain our competitiveness and expand our product portfolio. If we fail to anticipate or respond appropriately to new developments in technology, or to timely develop competitive new or enhanced products or technologies, our revenue could decrease and we could lose design wins to our competitors.

Industry Trends and Cyclicalty

We continue to evaluate trends within the industry that affect our business performance. We design and develop high-speed connectivity solutions that deliver improved power and cost efficiency for the data infrastructure market. This market is driven by hyperscalers, HPC and 5G infrastructure. Accordingly, our revenue and business performance are influenced by the deployment and timing of broader market adoption of next generation technologies in data centers, particularly by hyperscalers, and in the HPC and 5G markets. The semiconductor industry is cyclical and is characterized by rapid technological change, evolving standards, product obsolescence, price erosion, and fluctuations in product supply and demand. Any prolonged or significant downturn in our industry generally could adversely affect our business and reduce demand for our products and otherwise harm our financial condition and results of operations.

Impact of COVID-19

The ongoing COVID-19 pandemic has significantly impacted global economic activity and caused business disruption worldwide. It has prompted governments and businesses to take unprecedented measures, including restrictions on travel, temporary business closures, quarantines and shelter-in-place orders.

Since the onset of the pandemic in March 2020, most of our employees have transitioned to remote work, and we have temporarily prohibited most business travel. We have complied with the recommendations of government health agencies in each jurisdiction in which we operate throughout the pandemic. We formed a task force to track the spread of COVID-19 and other relevant metrics to stay informed and took several precautions to operate safely.

We are very proud of the response of our employees, suppliers and customers to the demands of the pandemic. Our collective response meant that the impact to our business was significantly mitigated, and we believe the overall impact was relatively limited as a result. However, there has inevitably been some impact on our end customers – potentially delaying or scaling down purchasing decisions – that may have reduced our sales. Stay at home orders may have reduced our ability to most effectively market and sell our products and solutions while our research and development functions may have been impacted from being off-site.

Over the longer term, we may see some positive impacts on our business as a result of the COVID-19 pandemic. We believe the COVID-19 pandemic accelerated requirements for increased bandwidth and lower latency, reduced power, and heightened the need for effective security as previously centralized work, school, and entertainment connections have disseminated across myriad end-point users.

Although we are optimistic that the global response to the pandemic will continue to support an improvement in conditions, we are actively monitoring the impact of the COVID-19 pandemic on our financial condition, liquidity, operations, customers, suppliers, industry and workforce.

The extent and nature of the impact of the COVID-19 pandemic on our business and financial performance will be influenced by a variety of factors, including the duration and spread of the pandemic, as well as future spikes of COVID-19 infections or the emergence of additional COVID-19 variants that may result in additional preventative and mitigative measures. These factors may affect the timing and magnitude of demand from customers and the availability of portions of the supply chain, logistical services and component supply and may have a material net negative impact on our business and

financial results. For additional information regarding the potential impact of the COVID-19 pandemic on our business, see “Risk Factors—Risks Related to Our Business—The ongoing COVID-19 pandemic has disrupted and will likely continue to disrupt normal business activity and may adversely impact our operations and financial results.”

Components of Our Operating Results

Revenue

Our revenues consist of sale of our products, licensing of our IP and providing product engineering and IP license engineering services. Product sales primarily consists of shipment of our ICs and AEC products. IP license revenue includes fees from licensing of our SerDes IP and related support and royalties. Product engineering and IP license engineering services revenue consists of engineering fees associated with integration of our technology solutions into our customers' products and IP, respectively. Our customers are primarily OEMs who design and manufacture end market devices for the communications and enterprise networks markets. Our revenue is driven by various trends in these markets. Our revenue is also impacted by changes in the number and average selling prices of our IC products.

We recognize revenue upon transfer of control of promised goods and services in an amount that reflects the consideration we expect to receive in exchange for those goods and services. Where an arrangement includes multiple performance obligations, the transaction price is allocated to these on a relative standalone selling price (SSP) basis. We determine the SSP based on an observable standalone selling price when it is available, as well as other factors, including the price charged to customers and our overall pricing objectives, while maximizing observable inputs. Our policy is to record revenue net of any applicable sales, use or excise taxes. Changes in our contract assets and contract liabilities primarily result from the timing difference between our performance and the customer's payment. We fulfill our obligations under a contract with a customer by transferring products or services in exchange for consideration from the customer. We recognize a contract asset when we transfer products or services to a customer and the right to consideration is conditional on something other than the passage of time. Accounts receivable are recorded when the customer has been billed or the right to consideration is unconditional. We recognize deferred revenue when we have received consideration or an amount of consideration is due from the customer and we have a future obligation to transfer products or services.

Product Sales - We transact with customers primarily pursuant to standard purchase orders for delivery of products and generally allow customers to cancel or change purchase orders within limited notice periods prior to the scheduled shipment date. We offer standard performance warranties of twelve months after product delivery and do not allow returns, other than returns due to warranty issues. We recognize product sales when we transfer control of promised goods in an amount that reflects the consideration to which we expect to be entitled to in exchange for those goods, net of accruals for estimated sales returns. As of April 30, 2020 and 2021, there was no sales returns reserve and the warranty reserve was not material.

IP License Revenue - Our licensing revenue consists of a perpetual license, support and maintenance, and royalties. Our license arrangements do not typically grant the customer the right to terminate for convenience and where such rights exist, termination is prospective, with no refund of fees already paid by the customer. In connection with the license arrangements, we offer support and maintenance to assist customers in bringing up and qualifying the final product. Revenue from customer support is deferred and earned over the support period, which is typically one year.

In certain cases, we also charge licensees royalties related to the distribution or sale of products that use our technologies. Such royalties are reported to us on a quarterly basis. We estimate the sales-based royalties earned each quarter primarily based on our customers' reporting of sales activity incurred in that quarter. We recognize the estimated royalty revenue when it is probable that reversal of such amounts

will not occur. Any differences between actual royalties owed by a customer and the quarterly estimates are recognized when updated information becomes available.

Product Engineering and IP License Engineering Services Revenue - Some product and IP license revenue contracts includes non-recurring engineering services deliverables. We recognize revenue from these agreements over time as services are provided or at a point in time upon completion and acceptance by the customer of contract deliverables, depending on the terms of the arrangement. Revenue is deferred for any amounts billed or received prior to delivery of services. We believe the input method, based on time spent by our engineers, best depicts the efforts expended to transfer services to the customers.

Certain contracts may include multiple performance obligations for which we allocate revenue to each performance obligation based on relative SSP. We determine SSPs based on observable evidence. When SSPs are not directly observable, we use the adjusted market assessment approach or residual approach, if applicable. We also consider the constraint on estimates of variable consideration when estimating the total transaction price. We record liabilities for amounts that are collected in advance of the satisfaction of performance obligations under deferred revenue.

Cost of Revenue

Cost of revenue includes cost of materials, such as wafers processed by third-party foundries, cost associated with packaging and assembly, testing and shipping, cost of personnel, including stock-based compensation, depreciation of equipment associated with manufacturing support, logistics and quality assurance, warranty cost, amortization of intellectual property purchased from third parties, write-down of inventories, and amortization of production mask costs. Costs of revenue includes cost of product sales revenue, cost of product engineering services revenue and cost of IP license engineering services revenue. Cost of revenue relating to IP license revenue was not material for fiscal years 2020 and 2021, or for the three months ended July 31, 2020 and 2021.

Research and Development Expenses

Research and development expense consists of costs incurred in performing research and development activities and includes salaries, share-based compensation, employee benefits, occupancy costs, pre-production engineering mask costs, overhead costs and prototype wafer, packaging and test costs. Research and development costs are expensed as incurred.

We believe that continued investments in our products are important to our future growth and, as a result, we expect our research and development expenses to continue to increase in absolute dollars.

Sales and Marketing Expenses

Sales and marketing expenses consist of personnel costs including salaries, benefits, and share-based compensation expense, field application engineering support, samples to customers, shipping costs, and travel & entertainment costs.

We expect sales and marketing expenses to increase in absolute dollars as we increase our sales and marketing personnel and continue to expand our customer engagement.

General and Administrative Expenses

General and administrative expenses consist primarily of personnel costs including salaries, benefits, and share-based compensation, related to corporate, finance, legal and human resource functions, contractor and professional services fees, audit and compliance expenses, insurance costs, and general corporate expenses including allocated facilities expenses.

We expect general and administrative expenses to increase in absolute dollars as we grow our operations and incur additional expenses associated with operating as a public company. These

expenses as a result of operating as a public company include expenses necessary to comply with the rules and regulations applicable to companies listed on a national securities exchange and related compliance and reporting obligations pursuant to the rules and regulations of the SEC, as well as higher expenses for general and director and officer insurance, investor relations and other professional services.

Other Income and Expense, Net

Other income and expense, net consists primarily of interest income from significant financing components related to IP license revenue contracts, and foreign exchange gains and losses.

Provision for Income Taxes

Current income tax expense or benefit represents the amount of income taxes expected to be payable or refundable for the current year. Under this method, deferred income tax assets and liabilities are determined based on differences between the financial statement reporting and tax bases of assets and liabilities and net operating loss and credit carryforward. Deferred tax assets and liabilities are measured using enacted tax rates applied to taxable income in the years in which those temporary differences are expected to be recovered or settled. A valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized.

We account for uncertain tax positions in accordance with ASC 740-10, *Accounting for Uncertainty in Income Taxes*. We recognize the tax effects of an uncertain tax position only if it is more likely than not to be sustained based solely on its technical merits as of the reporting date and only in an amount more likely than not to be sustained upon review by the tax authorities. Interest and penalties related to uncertain tax positions are classified in the consolidated financial statements as income tax expense.

Results of Operations

Years Ended April 30, 2020 and 2021 and Three Months Ended July 31, 2020 and 2021

The following table sets forth information derived from our consolidated statements of operations expressed as a percentage of total revenue:

| | Year Ended April 30, | | Three Months Ended July 31, | |
|---|----------------------|---------|-----------------------------|----------|
| | 2020 | 2021 | 2020 | 2021 |
| Revenue: | | | | |
| Product sales | 21.6 % | 46.8 % | 51.4 % | 67.7 % |
| Product engineering services | 9.9 % | 16.4 % | 8.9 % | 12.3 % |
| IP license | 62.5 % | 29.4 % | 31.2 % | 9.6 % |
| IP license engineering services | 6.0 % | 7.4 % | 8.5 % | 10.4 % |
| Total revenue | 100.0 % | 100.0 % | 100.0 % | 100.0 % |
| Cost of revenue: | | | | |
| Cost of product sales revenue | 12.5 % | 27.4 % | 24.6 % | 40.6 % |
| Cost of product engineering services revenue | 1.4 % | 5.4 % | 3.8 % | 8.1 % |
| Cost of IP license engineering services revenue | 0.5 % | 2.0 % | 1.8 % | 3.0 % |
| Total cost of revenue | 14.4 % | 34.8 % | 30.2 % | 51.7 % |
| Gross margin | 85.6 % | 65.2 % | 69.8 % | 48.3 % |
| Operating expenses: | | | | |
| Research and development | 51.2 % | 59.4 % | 62.7 % | 90.4 % |
| Sales and marketing | 17.9 % | 29.8 % | 33.4 % | 45.3 % |
| General and administrative | 12.7 % | 19.0 % | 15.4 % | 21.1 % |
| Total operating expenses | 81.8 % | 108.2 % | 111.5 % | 156.8 % |
| Operating profit (loss) | 3.8 % | (43.0)% | (41.7)% | (108.5)% |
| Other income (expense), net | 0.1 % | (0.1)% | 0.2 % | (0.4)% |
| Income (loss) before income taxes | 3.9 % | (43.1)% | (41.5)% | (108.9)% |
| Provision for income taxes | 1.4 % | 3.8 % | 2.3 % | 8.4 % |
| Net income (loss) | 2.5 % | (46.9)% | (43.8)% | (117.3)% |

Comparison of Three Months Ended July 31, 2020 and 2021

Revenue

| | Three Months Ended July 31, | | % Change |
|---------------------------------|------------------------------------|-----------|----------|
| | 2020 | 2021 | |
| | (in thousands, except percentages) | | |
| Product sales | \$ 5,672 | \$ 7,263 | 28.1 % |
| Product engineering services | 978 | 1,319 | 34.9 % |
| IP license | 3,455 | 1,030 | (70.2)% |
| IP license engineering services | 933 | 1,112 | 19.2 % |
| Total revenue | \$ 11,038 | \$ 10,724 | (2.8)% |

Revenue for the three months ended July 31, 2021 decreased by \$0.3 million primarily due to a decrease in IP license revenue of \$2.4 million, offset by increases in product sales, product engineering

services, and IP license engineering services revenues which increased by \$1.6 million, \$0.3 million and \$0.2 million, respectively.

The decrease in IP license revenue was consistent with the transition in our focus from being an IP company to a product-focused company. The increase in product sales was primarily due to an increase in the number of IC units sold and revenue relating to AEC cables that were introduced in fiscal 2021. The number of IC units sold increased by 15% for the three months ended July 31, 2021 compared to the same period in the prior year. Revenue from product sales comprised 51% and 68% of our total revenue for the three months ended July 31, 2020 and 2021, respectively. The increase in product and IP license engineering services revenues was driven by additional services provided to customers relating to revenue contracts.

Cost of Revenue

| | Three Months Ended July 31, | | |
|---|------------------------------------|----------|----------|
| | 2020 | 2021 | % Change |
| | (in thousands, except percentages) | | |
| Cost of product sales revenue | \$ 2,718 | \$ 4,357 | 60.3 % |
| Cost of product engineering services revenue | 416 | 865 | (107.9)% |
| Cost of IP license engineering services revenue | 201 | 322 | 60.2 % |
| Total cost of revenue | \$ 3,335 | \$ 5,544 | 66.2 % |

Cost of product sales increased by \$1.6 million in the three months ended July 31, 2021, compared to the three months ended July 31, 2020, primarily due to increased product sales during the same period as discussed above.

Cost of product and IP license engineering services revenue increased by \$0.4 million and \$0.1 million, respectively, in the three months ended July 31, 2021, compared to the three months ended July 31, 2020, primarily due to increased revenue during the same period as discussed above.

Gross Profit and Gross Margin

| | Three Months Ended July 31, | | |
|--------------|------------------------------------|----------|----------|
| | 2020 | 2021 | % Change |
| | (in thousands, except percentages) | | |
| Gross profit | \$ 7,703 | \$ 5,180 | (32.8)% |
| Gross margin | 69.8 % | 48.3 % | |

Gross margin decreased by 21.5 percentage points in three months ended July 31, 2021, compared to the three months ended July 31, 2020, primarily driven by an increase in our product sales as a percentage of overall revenue as noted above and the increased sales of lower margin products. We expect to see a long-term benefit from improvements in our operating leverage as our business continues to gain scale.

Research and Development

| | Three Months Ended July 31, | | |
|--------------------------|------------------------------------|----------|----------|
| | 2020 | 2021 | % Change |
| | (in thousands, except percentages) | | |
| Research and development | \$ 6,922 | \$ 9,693 | 40.0 % |
| % of total revenue | 62.7 % | 90.4 % | |

Research and development expense for three months ended July 31, 2021 increased by \$2.8 million compared to the three months ended July 31, 2020. The increase was due primarily to a \$1.4 million increase in personnel costs as a result of new hires for product development, \$0.4 million increase in share-based compensation expense driven by increased amortization expense from new equity awards granted to employees, and \$0.8 million increase in design activities and higher engineering activities relating to testing and laboratory supplies for new product development.

Sales and Marketing

| | Three Months Ended July 31, | | % Change |
|---------------------|------------------------------------|----------|----------|
| | 2020 | 2021 | |
| | (in thousands, except percentages) | | |
| Sales and marketing | \$ 3,687 | \$ 4,855 | 31.7 % |
| % of total revenue | 33.4 % | 45.3 % | |

Sales and marketing expense for the three months ended July 31, 2021 increased by \$1.2 million compared to the three months ended July 31, 2020. The increase was due primarily to a \$0.6 million increase in personnel costs as a result of higher sales and marketing headcount, and a \$0.2 million increase in share-based compensation expense driven by increased amortization expense from new equity awards granted to employees.

General and Administrative

| | Three Months Ended July 31, | | % Change |
|----------------------------|------------------------------------|----------|----------|
| | 2020 | 2021 | |
| | (in thousands, except percentages) | | |
| General and administrative | \$ 1,703 | \$ 2,262 | 32.8 % |
| % of total revenue | 15.4 % | 21.1 % | |

General and administrative expense for the three months ended July 31, 2021 increased by \$0.6 million compared to the three months ended July 31, 2020. The increase was due primarily to a \$0.3 million increase in personnel costs as a result of higher general and administrative headcount, and a \$0.1 million increase in share-based compensation expense driven by increased amortization expense from new equity awards granted to employees.

Provision for Income Taxes

| | Three Months Ended July 31, | | % Change |
|----------------------------|------------------------------------|--------|----------|
| | 2020 | 2021 | |
| | (in thousands, except percentages) | | |
| Provision for income taxes | \$ 253 | \$ 902 | 256.5 % |
| % of total revenue | 2.3 % | 8.4 % | |

Provision for income taxes increased by \$0.6 million in the three months ended July 31, 2021 compared to the same period in prior fiscal year. The increase was due primarily to a decrease in non-U.S. earnings that are taxed at substantially lower tax rates.

Comparison of Years Ended April 30, 2020 and 2021

Revenue

| | Year Ended April 30, | | |
|---------------------------------|------------------------------------|-----------|----------|
| | 2020 | 2021 | % Change |
| | (in thousands, except percentages) | | |
| Product sales | \$ 11,617 | \$ 27,477 | 136.5 % |
| Product engineering services | 5,311 | 9,579 | 80.4 % |
| IP license | 33,671 | 17,273 | (48.7)% |
| IP license engineering services | 3,236 | 4,368 | 35.0 % |
| Total revenue | \$ 53,835 | \$ 58,697 | 9.0 % |

Revenue for fiscal 2021 increased by \$4.9 million primarily due to increases in product sales and product engineering service revenues which increased by \$15.9 million and \$4.3 million, respectively, offset by a decrease in IP license revenue of \$16.4 million.

The increase in product sales was primarily due to increase in the number of IC units sold and revenue relating to AEC cables that were introduced in fiscal 2021. The number of IC units sold increased by 36% in the year ended April 30, 2021. Revenue from product sales comprised 22% and 47% of our total revenue in fiscal 2020 and 2021, respectively. The decrease in IP license revenue was consistent with the transition in our focus from being an IP company to a product-focused company in fiscal 2021. The increase in product and IP license engineering services revenue was driven by additional services provided to customers relating to new revenue contracts signed in fiscal 2021.

Cost of Revenue

| | Year Ended April 30, | | |
|---|------------------------------------|-----------|----------|
| | 2020 | 2021 | % Change |
| | (in thousands, except percentages) | | |
| Cost of product sales revenue | \$ 6,713 | \$ 16,071 | 139.4 % |
| Cost of product engineering services revenue | 757 | 3,168 | 318.4 % |
| Cost of IP license engineering services revenue | 259 | 1,180 | 354.8 % |
| Total cost of revenue | \$ 7,729 | \$ 20,419 | 164.2 % |

Cost of product sales increased by \$9.4 million in fiscal 2021 primarily due to higher product sales during the same period as discussed above and a \$1.5 million increase in write-offs for excess and obsolete inventory in fiscal 2021.

Cost of product and IP license engineering services revenue increased by \$2.4 million and \$0.9 million, respectively, in fiscal 2021 primarily due to increased revenue during the same period as discussed above.

Gross Profit and Gross Margin

| | Year Ended April 30, | | |
|--------------|------------------------------------|-----------|----------|
| | 2020 | 2021 | % Change |
| | (in thousands, except percentages) | | |
| Gross profit | \$ 46,106 | \$ 38,278 | (17.0)% |
| Gross margin | 85.6 % | 65.2 % | |

Gross margin decreased by 20 percentage points in fiscal 2021 primarily driven by an increase in our product sales as a percentage of overall revenue as noted above. We expect to see a long-term benefit from improvements in our operating leverage as our business continues to gain scale.

Research and Development

| | Year Ended April 30, | | % Change |
|--------------------------|------------------------------------|-----------|----------|
| | 2020 | 2021 | |
| | (in thousands, except percentages) | | |
| Research and development | \$ 27,564 | \$ 34,845 | 26.4 % |
| % of total revenue | 51.2 % | 59.4 % | |

Research and development expense for fiscal 2021 increased by \$7.3 million. The increase was due primarily to a \$7.2 million increase in share-based compensation expense in fiscal 2021 driven by a share repurchase from employees in July 2020 and increased amortization expense from new equity awards granted to employees, and higher personnel costs due to new hires for product development. In addition, foundry and allocated expenses also increased in fiscal 2021 due to increased design activities and higher engineering activities relating to testing, laboratory supplies, packaging and pre-production engineering mask costs for new product development.

Sales and Marketing

| | Year Ended April 30, | | % Change |
|---------------------|------------------------------------|-----------|----------|
| | 2020 | 2021 | |
| | (in thousands, except percentages) | | |
| Sales and marketing | \$ 9,630 | \$ 17,520 | 81.9 % |
| % of total revenue | 17.9 % | 29.8 % | |

Sales and marketing expense for fiscal 2021 increased by \$7.9 million. The increase was due primarily to a \$1.5 million increase in share-based compensation expense in fiscal 2021 driven by a share repurchase from employees in July 2020, \$0.5 million of higher rent expense, and increased amortization from new equity awards granted to employees and a \$4.7 million increase in personnel costs due to higher sales and marketing headcounts.

General and Administrative

| | Year Ended April 30, | | % Change |
|----------------------------|------------------------------------|-----------|----------|
| | 2020 | 2021 | |
| | (in thousands, except percentages) | | |
| General and administrative | \$ 6,841 | \$ 11,147 | 62.9 % |
| % of total revenue | 12.7 % | 19.0 % | |

General and administrative expense for fiscal 2021 increased by \$4.3 million. The increase was due primarily to a \$3.9 million increase in share-based compensation expense in fiscal 2021 driven by a share repurchase from employees in July 2020 and increased amortization from new equity awards granted to employees. Professional service fees also increased by \$0.6 million in fiscal 2021 due to accounting and public company readiness expenses.

Provision for Income Taxes

| | Year Ended April 30, | | % Change |
|----------------------------|------------------------------------|----------|----------|
| | 2020 | 2021 | |
| | (in thousands, except percentages) | | |
| Provision for income taxes | \$ 766 | \$ 2,215 | 189.2 % |
| % of total revenue | 1.4 % | 3.8 % | |

Provision for income taxes in fiscal 2021 increased by \$1.4 million. The increase was due primarily to the increase in valuation allowance associated with U.S. research and development credits in fiscal 2021. The impact of the U.S. tax reform act of 2017 was not material to our provision for income taxes for fiscal 2020 and 2021.

Quarterly Results of Operations

The following table sets forth selected unaudited quarterly consolidated statements of operations data for each of the five quarters ended July 31, 2021. The information for each of these quarters has been prepared on the same basis as our audited consolidated financial statements and reflect, in the opinion of management, all adjustments, consisting only of normal, recurring adjustments that are necessary for a fair presentation of this information. These quarterly operating results are not necessarily indicative of the results that may be expected for a full year or any other fiscal period. This information should be read in

conjunction with our audited consolidated financial statements and related notes included elsewhere in the prospectus.

| | Three Months Ended | | | | |

| Net loss | (43.8)% | (100.1)% | (38.0)% | (15.6)% | (117.3)% |

Quarterly Revenue Trends

Our quarterly product sales revenue generally increased in each of the periods presented primarily due to increase in the number of IC units sold and revenue relating to AEC cables that were introduced in fiscal 2021, subject to some variations due to timing of product shipments. This is also consistent with the transition in our focus from being an IP company to a product-focused company in fiscal 2021. We expect the trend to continue in near future.

Our engineering services revenue is recognized either over time as services are provided or at point in time upon completion and acceptance by the customer of contract deliverables, depending on the terms of the arrangement. The increase in product engineering services revenue in each of the three months ended January 31, 2021 and April 30, 2021 was primarily due to two revenue contracts which were recognized at point in time upon completion of contract deliverables.

Our IP license revenue generally fluctuated on a quarterly basis, largely due to the timing of the signing of new contracts and delivery of perpetual licenses.

Quarterly Gross Margin Trends

Our quarterly gross margin fluctuated generally on a quarterly basis, largely due to changes in the revenue mix from quarter to quarter as our relative costs and gross margins differ from one revenue stream to another. The lower gross margin in the three months ended July 31, 2021 was primarily due to our product revenue as a percentage of total revenue being higher than other quarters. We expect to see a long-term benefit from improvements in our operating leverage as our business continues to gain scale.

Quarterly Operating Expenses Trends

Total operating expenses have generally increased in each of the periods presented, primarily due to increases in personnel-related costs associated with increased headcount and fees for professional services associated with external legal, accounting and other consulting services to support our growth and public company readiness initiatives. The significant increase of operating expense in the three months ended October 31, 2020 was primarily due to an one-time \$11.3 million share-based compensation expense recorded resulting from a share repurchase transaction from employees in August 2020.

Quarterly Non-GAAP Financial Measure

Adjusted Net Loss

The following table sets forth our adjusted net loss non-GAAP financial measure for each of the periods presented. See the section titled “Non-GAAP Financial Measure” for the details of how we calculate adjusted net loss.

| | Three Months Ended | | | | |
|----------------------------------|--------------------|---------------------|---------------------|-------------------|--------------------|
| | July 31, 2020 | October 31, 2020 | January 31, 2021 | April 30, 2021 | July 31, 2021 |
| | (in thousands) | | | | |
| Net loss | \$ (4,840) | \$ (14,468) | \$ (5,117) | \$ (3,086) | \$ (12,577) |
| Share-based compensation expense | 391 | 11,751 | 847 | 917 | 1,075 |
| Related tax effect adjustment | (151) | 152 | (180) | (121) | (600) |
| Adjusted net loss | <u>\$ (4,600)</u> | <u>\$ (2,565)</u> | <u>\$ (4,450)</u> | <u>\$ (2,290)</u> | <u>\$ (12,102)</u> |

Liquidity and Capital Resources

Our activities consist primarily of selling our products, licensing our IP, providing IP customization services and conducting research and development of our products and technology. Since our inception through April 30, 2021, our operations have been financed primarily by the sale of convertible preferred shares and ordinary shares, and cash generated from our customers. As of April 30, 2021 and July 31, 2021, we had \$103.8 million and \$100.2 million in cash and cash equivalents, respectively, and working capital of \$125.3 million and \$117.8 million, respectively. Our principal use of cash is to fund our operations and invest in research and development to support our growth.

We believe our existing cash and cash equivalents and other components of working capital will be sufficient to meet our needs for at least the next 12 months. Our future capital requirements will depend on many factors including our growth rate, the timing and extent of our sales and marketing and research and development expenditures, and the continuing market acceptance of our solutions. In the event that we need to borrow funds or issue additional equity, we cannot assure you that any such additional financing will be available on terms acceptable to us, if at all. If we are unable to raise additional capital when we need it, our business, results of operations and financial condition would be adversely affected.

The following table summarizes our cash flows for the periods indicated.

| | Years Ended April 30, | | Three Months Ended July 31, | |
|---|-----------------------|-------------|-----------------------------|------------|
| | 2020 | 2021 | 2020 | 2021 |
| | (in thousands) | | | |
| Net cash used in operating activities | \$ (10,253) | \$ (42,361) | \$ (4,823) | \$ (8,949) |
| Net cash used in investing activities | \$ (8,832) | \$ (6,056) | \$ (585) | \$ (1,339) |
| Net cash provided by financing activities | \$ 61,206 | \$ 77,888 | \$ 49,718 | \$ 6,758 |

Cash Flows Used in Operating Activities

Net cash used in operating activities was \$4.8 million for the three months ended July 31, 2020. The cash outflows from operating activities for the three months ended July 31, 2020 were primarily due to \$4.8 million of net loss and \$0.8 million of cash outflows from working capital, partially offset by \$0.9 million of non-cash items. The cash outflows from working capital for the three months ended July 31, 2020 were primarily driven by a decrease in accrued expenses and other liabilities and a decrease in deferred revenue, partially offset by a decrease in accounts receivable and an increase in accounts payable.

Net cash used in operating activities was \$8.9 million for the three months ended July 31, 2021. The cash outflows from operating activities for the three months ended July 31, 2021 were primarily due to \$12.6 million of net loss, partially offset by \$1.7 million of cash inflows from working capital and \$2.0 million of non-cash items. The cash inflows from working capital for the three months ended July 31, 2021 were primarily driven by a decrease in accounts receivable and an increase in accounts payable, partially offset by increases in inventories, prepaid and other current assets and other long-term assets and a decrease in deferred revenue.

Net cash used in operating activities was \$10.3 million for fiscal 2020. The cash outflows from operating activities for fiscal 2020 were primarily due to \$14.6 million of cash outflow from an increase in working capital, partially offset by \$1.3 million of net income and \$3.1 million of non-cash items. The cash outflows from working capital for fiscal 2020 were primarily driven by increases in accounts receivable and a decrease of deferred revenue, net of contract assets, partially offset by an increase in accrued expenses and other liabilities.

Net cash used in operating activities was \$42.4 million for fiscal 2021. The cash outflows from operating activities for fiscal 2021 were primarily due to \$27.5 million of net loss and \$19.6 million of cash outflows from working capital, partially offset by \$4.8 million of non-cash items. The cash outflows from working capital for fiscal 2021 were primarily driven by increases in inventories, prepaid and other current assets, and other long-term assets, as well as a decrease in accrued expenses and other liabilities.

Cash Flows Used in Investing Activities

Net cash used in investing activities of \$0.6 million in the three months ended July 31, 2020 was attributable to purchases of property and equipment.

Net cash used in investing activities of \$1.3 million in the three months ended July 31, 2021 was attributable to purchases of property and equipment.

Net cash used in investing activities of \$8.8 million in fiscal 2020 was attributable to purchases of property and equipment. Purchases of property and equipment primarily related to mask sets purchases for new products introduced or in process of being introduced and laboratory equipment used for research and development purposes.

Net cash used in investing activities of \$6.1 million in fiscal 2021 was attributable to purchases of property and equipment. Purchases of property and equipment primarily related to mask sets purchases

for new products introduced or in process of being introduced and laboratory equipment used for research and development purposes.

Cash Flows from Financing Activities

Net cash provided by financing activities of \$49.7 million for the three months ended July 31, 2020 was primarily attributable to \$0.2 million in proceeds from exercises of share options and \$49.5 million in proceeds from the issuance of convertible preferred shares, net of issuance costs.

Net cash provided by financing activities of \$6.8 million for the three months ended July 31, 2021 was primarily attributable to \$0.5 million in proceeds from exercises of share options and \$7.2 million in proceeds from the issuance of convertible preferred shares, net of issuance costs, offset by \$0.9 million in payments of deferred offering costs.

Net cash provided by financing activities of \$61.2 million in fiscal 2020 was primarily attributable to \$0.7 million in proceeds from exercises of share options and \$60.5 million in proceeds from the issuance of convertible preferred shares, net of issuance costs.

Net cash provided by financing activities of \$77.9 million in fiscal 2021 was primarily attributable to \$1.4 million in proceeds from exercises of share options and \$99.3 million in proceeds from the issuance of convertible preferred shares, net of issuance costs. This cash inflow was partially offset by \$22.9 million in payments for repurchases of ordinary shares.

Critical Accounting Estimates

We prepare our financial statements in conformity with GAAP. The preparation of financial statements in accordance with GAAP requires certain estimates, assumptions and judgments to be made that may affect our consolidated financial statements. Accounting policies that have a significant impact on our results are described in Note 2 to our consolidated financial statements included elsewhere in this prospectus. The accounting policies discussed in this section are those that we consider to be the most critical. We consider an accounting policy to be critical if the policy is subject to a material level of judgment and if changes in those judgments are reasonably likely to materially impact our results.

We base our estimates and judgments on our historical experience, knowledge of current conditions, and our beliefs of what could occur in the future, given the available information. Estimates are used for, but not limited to, write-down for excess and obsolete inventories, the SSP for each distinct performance obligation included in customer contracts with multiple performance obligations, variable consideration from revenue contracts, determination of the fair value of share awards, valuation of ordinary shares and the realization of tax assets and estimates of tax reserves. Actual results may differ from those estimates and such differences may be material to the financial statements.

We continue to monitor and assess our critical estimates in light of developments, and as events continue to evolve and additional information becomes available, our estimates may change materially in future periods.

Revenue Recognition

Our revenues consist of sale of our products, licensing of our IP and providing product engineering and IP license engineering services. Product sales primarily consists of shipment of our ICs and AEC products. IP license revenue includes fees from licensing of our SerDes IP and related support and royalties. Product engineering and IP license engineering services revenue consists of engineering fees associated with integration of our technology solutions into our customers' products and IP, respectively. Our customers are primarily OEMs who design and manufacture end market devices for the communications and enterprise networks markets. Our revenue is driven by various trends in these markets. Our revenue is also impacted by changes in the number and average selling prices of our IC products.

We recognize revenue upon transfer of control of promised goods and services in an amount that reflects the consideration we expect to receive in exchange for those goods and services. Where an arrangement includes multiple performance obligations, the transaction price is allocated to these on a relative standalone selling price (SSP) basis. We determine the SSP based on an observable standalone selling price when it is available, as well as other factors, including the price charged to customers and our overall pricing objectives, while maximizing observable inputs. Our policy is to record revenue net of any applicable sales, use or excise taxes. Changes in our contract assets and contract liabilities primarily result from the timing difference between our performance and the customer's payment. We fulfill our obligations under a contract with a customer by transferring products or services in exchange for consideration from the customer. We recognize a contract asset when we transfer products or services to a customer and the right to consideration is conditional on something other than the passage of time. Accounts receivable are recorded when the customer has been billed or the right to consideration is unconditional. We recognize deferred revenue when we have received consideration or an amount of consideration is due from the customer and we have a future obligation to transfer products or services.

Product Sales - We transact with customers primarily pursuant to standard purchase orders for delivery of products and generally allow customers to cancel or change purchase orders within limited notice periods prior to the scheduled shipment date. We offer standard performance warranties of twelve months after product delivery and do not allow returns, other than returns due to warranty issues. We recognize product sales when we transfer control of promised goods in an amount that reflects the consideration to which we expect to be entitled to in exchange for those goods, net of accruals for estimated sales returns. As of April 30, 2020 and 2021, there was no sales returns reserve and the warranty reserve was not material.

IP License Revenue - Our licensing revenue consists of a perpetual license, support and maintenance, and royalties. Our license arrangements do not typically grant the customer the right to terminate for convenience and where such rights exist, termination is prospective, with no refund of fees already paid by the customer. In connection with the license arrangements, we offer support and maintenance to assist customers in bringing up and qualifying the final product. Revenue from customer support is deferred and earned over the support period, which is typically one year.

In certain cases, we also charge licensees royalties related to the distribution or sale of products that use our technologies. Such royalties are reported to us on a quarterly basis. We estimate the sales-based royalties earned each quarter primarily based on our customers' reporting of sales activity incurred in that quarter. We recognize the estimated royalty revenue when it is probable that reversal of such amounts will not occur. Any differences between actual royalties owed by a customer and the quarterly estimates are recognized when updated information becomes available.

Product Engineering and IP License Engineering Services Revenue - Some product and IP license revenue contracts includes non-recurring engineering services deliverables. We recognize revenue from these agreements over time as services are provided or at a point in time upon completion and acceptance by the customer of contract deliverables, depending on the terms of the arrangement. Revenue is deferred for any amounts billed or received prior to delivery of services. We believe the input method, based on time spent by our engineers, best depicts the efforts expended to transfer services to the customers.

Certain contracts may include multiple performance obligations for which we allocate revenue to each performance obligation based on relative SSP. We determine SSPs based on observable evidence. When SSPs are not directly observable, we use the adjusted market assessment approach or residual approach, if applicable. We also consider the constraint on estimates of variable consideration when estimating the total transaction price. We record liabilities for amounts that are collected in advance of the satisfaction of performance obligations under deferred revenue.

Inventory Valuation

We value our inventory, which include raw materials, assembly and test, and other manufacturing costs, at the lower of cost and net realizable value. Cost is computed using standard cost, which approximates actual cost, on a first-in, first-out basis. Net realizable value is the estimated selling price of our products in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. We regularly review inventory quantities on hand and record write-downs for excess and obsolete inventory based primarily on the shipment history and our estimated forecast of product demand. These factors are impacted by market and economic conditions, technology changes, new product introductions and changes in strategic direction. If the future demand for our products is less favorable than our forecasts, the value of the inventories may be required to be reduced, which could result in additional expense to us and affect our results of operations. We do not believe there is a reasonable likelihood that there will be a material change in the future estimates or assumptions that we use to calculate our inventory reserve. However, if estimates regarding customer demand are inaccurate or changes in technology affect demand for certain products in an unforeseen manner, we may be exposed to losses or gains that could be material.

Share-Based Compensation

We record compensation expense in connection with ordinary share options granted to employees and non-employees in accordance with guidance related to share-based payments. This guidance requires that all share-based compensation be recognized as an expense in the consolidated financial statements and that such cost be measured at the fair value of the award. We amortize share-based compensation expense under the straight-line attribution method over the vesting period of the share-based award. We have elected to use the Black-Scholes option pricing model to determine the fair value of share options on the dates of grant. Calculating the fair value of share options using the Black-Scholes model requires inputs and assumptions, including the fair value of our ordinary shares, the expected term of share options and share price volatility. We estimate the expected life of options granted based on the simplified method. We estimate the volatility of our ordinary shares on the date of grant based on the average historical share price volatility of comparable publicly traded companies in our industry group. We have not paid and do not expect to pay dividends. We account for forfeitures as they occur.

We do not believe there is a reasonable likelihood that there will be material changes in the estimates and assumptions we use to determine share-based compensation expense. In the future, if we determine that other valuation models are more reasonable, the share-based compensation expense that we record in the future may differ significantly from what we have recorded using the Black-Scholes option pricing model.

Ordinary Share Valuation

As there has been no public market for our equity instruments to date, the estimated fair value of our ordinary shares has been determined by members of our board of directors as of the grant date, with input from management, considering our most recently available independent third-party valuation of our ordinary shares and our directors' assessment of additional objective and subjective factors that it believed were relevant and which may have changed between the effective date of the most recent valuation and the date of the grant. Following the consummation of this offering, the fair market value of our ordinary shares will be determined based on the quoted market price of our ordinary shares. The independent third-party valuations have generally been performed quarterly in accordance with the guidance outlined in the AICPA Practice Aid, Valuation of Privately-Held Company Equity Securities Issued as Compensation (AICPA's Practice Aid). In conducting the valuations, the independent third-party valuation specialist considered all objective and subjective factors that it believed to be relevant for each valuation conducted in accordance with AICPA's Practice Aid, including management's best estimate of

our business condition, prospects and operating performance at each valuation date. Other significant factors included:

- the rights, preferences and privileges of our preferred shares as compared to those of our ordinary shares, including the liquidation preferences of our preferred shares;
- our results of operations, financial position and the status of research and development efforts;
- arms-length transactions involving recent rounds of preferred share financings;
- the composition of, and changes to, our management team and board of directors;
- the lack of liquidity of our ordinary shares;
- our stage of development and business strategy and the material risks related to our business and industry;
- the valuation of publicly traded companies in relevant industry sectors, as well as recently completed mergers and acquisitions of peer companies;
- any external market conditions affecting relevant industry sectors;
- the likelihood of achieving a liquidity event, such as an initial public offering (IPO) or a sale of our company, given prevailing market conditions; and
- the state of the IPO market for similarly situated privately held comparable companies.

In valuing our ordinary shares, the fair value of our business was determined using various valuation methods, including combinations of the income approach (discounted cash flow method) and the market approach (public company market multiple method) with input from management. The income approach involves applying an appropriate risk-adjusted discount rate to projected cash flows based on forecasted revenue and costs. The market approach estimates value based on a comparison of the subject company to comparable public companies in a similar line of business. From the comparable companies, a representative market value multiple was determined, which was applied to our operating results to estimate the enterprise value of our company.

Once the enterprise value was determined under the market approach, we derived the equity value of our company and used the option pricing model to allocate that value among the various classes of securities to arrive at the fair value of the ordinary shares.

Upon the listing of our ordinary shares on the Nasdaq, our ordinary shares will be publicly traded, and we will use that market price to value our ordinary shares. Increases and decreases in the market price of our ordinary shares will also increase and decrease the fair value of our share-based awards granted in future periods.

Recent Accounting Pronouncements

For more information, see Note 2 to our consolidated financial statements included elsewhere in this prospectus.

JOBS Act Accounting Election

We are an “emerging growth company,” as defined in the JOBS Act. The JOBS Act provides that an “emerging growth company” can take advantage of an extended transition period for complying with new or revised accounting standards. This provision allows an “emerging growth company” to delay the adoption of some accounting standards until those standards would otherwise apply to private companies. We have elected to use the extended transition period under the JOBS Act until the earlier of the date we (i) are no longer an “emerging growth company” or (ii) affirmatively and irrevocably opt out of

the extended transition period provided in the JOBS Act. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Quantitative and Qualitative Disclosures about Market Risk

Foreign Currency Exchange Risk. The majority of our sales and expenses are denominated in U.S. dollars. Since we operate in many countries, a portion of our international operational expenses is denominated in foreign currencies and exchange volatility could positively or negatively impact those operating expenses. Increases in the value of the U.S. dollar relative to other currencies could make our products more expensive, which could negatively impact our ability to compete. Conversely, decreases in the value of the U.S. dollar relative to other currencies could result in our suppliers raising their prices to continue doing business with us. Additionally, we may hold certain assets and liabilities, including potential tax liabilities, in local currency on our consolidated balance sheet. These tax liabilities would be settled in local currency. Foreign exchange gains and losses from remeasuring the tax liabilities are recorded to interest and other income, net. We do not believe that foreign exchange volatility has had a material impact on our current business or results of operations. However, fluctuations in currency exchange rates could have a greater effect on our business or results of operations in the future to the extent our expenses increasingly become denominated in foreign currencies.

Although we have not entered into foreign currency derivatives to hedge our foreign currency exposure to date, in the future, we may enter into foreign currency forward and option contracts with financial institutions to protect against foreign exchange risks associated with certain existing assets and liabilities, certain firmly committed transactions, forecasted future cash flows and net investments in foreign subsidiaries. However, we may choose not to hedge certain foreign exchange exposures for a variety of reasons, including, but not limited to, accounting considerations and the prohibitive economic cost of hedging particular exposures.

To provide an assessment of the foreign currency exchange risk associated with our foreign currency exposures within operating expense, we performed a sensitivity analysis to determine the impact that a hypothetical adverse change in exchange rates would have had on our financial statements, with all other variables held constant. If the U.S. dollar weakened by 10%, our operating expense in fiscal 2021 and three months ended July 31, 2021 would have increased by approximately 2% and 3%, respectively.

BUSINESS

Mission Statement

Our mission is to deliver high-speed solutions to break bandwidth barriers on every wired connection in the data infrastructure market.

Company Overview

Credo is an innovator in providing secure, high-speed connectivity solutions that deliver improved power and cost efficiency as data generation and corresponding bandwidth requirements increase exponentially throughout the data infrastructure market.

Our innovations ease system bandwidth bottlenecks while simultaneously improving on power, security and reliability. Our connectivity solutions are optimized for optical and electrical Ethernet applications, including the emerging 100G (or Gigabits per second), 200G, 400G and 800G markets. Our products are based on our Serializer/Deserializer (SerDes) and Digital Signal Processor (DSP) technologies. Our product families include integrated circuits (ICs), Active Electrical Cables (AECs) and SerDes Chiplets. Our IP solutions consist primarily of SerDes IP licensing.

Data generation has increased dramatically over the past ten years, creating new and complicated challenges in both circuit and system design. Our proprietary SerDes and DSP technologies enable us to disrupt competition in existing markets, lead the way into emerging markets and innovate to create new market opportunities. While many others in the data infrastructure industry struggle to meet customers' increasing performance and energy efficiency requirements, we continue to innovate to deliver groundbreaking solutions. A recent example is the announcement of our HiWire Switch AEC and open-source implementation with Microsoft that helps realize Microsoft's vision for a highly reliable network-managed dual-Top-of-Rack (ToR) architecture (a network architecture design in which computing equipment located within the same or an adjacent rack are, for redundancy, connected to two in-rack network switches, which are, in turn, connected to aggregation switches via fiber optic cables), overcoming complex and slow legacy enterprise approaches, simplifying deployment and improving connection reliability in the datacenter.

The multibillion dollar data infrastructure market that we serve is driven largely by hyperscale data centers (hyperscalers), high performance computing (HPC) and 5G infrastructure. The demands for increased bandwidth, improved power and cost efficiency and heightened security have simultaneously and dramatically expanded as work, education and entertainment have rapidly digitized across myriad endpoint users.

Within the data infrastructure ecosystem, we target the wired connectivity market as it relates to communication electronics, which Gartner forecasts will grow from \$12 billion in 2020 to \$17 billion in 2025.* 650 Group forecasts that within this market, hyperscalers will be one of the primary drivers of growth for connectivity solutions and that higher speed 400G and 800G ports in the datacenter in particular will grow at a 49% compound annual growth rate (CAGR) from 2020 to 2025. Additionally, we estimate that the market for high-speed connectivity products will grow from \$2 billion in 2022 to \$5 billion in 2025. Our core technology is standard-agnostic, and any high-speed connectivity environment, such as the enterprise, HPC or consumer environment, could be a target for our disruptive solutions. We believe our market opportunity will continue to grow as the technical challenges of delivering higher speeds create increasingly challenging technical or cost hurdles for incumbent providers.

We design, market and sell both product and IP solutions. We help define industry conventions and standards within the markets we target by collaborating with technology leaders and standards bodies. We contract with a variety of manufacturing partners to build our products based on our proprietary SerDes and DSP technologies. We develop standard solutions we can sell broadly to our end markets and also develop tailored solutions designed to address specific customer needs. Once developed, these

tailored solutions can generally be broadly leveraged across our portfolio and we are able to sell the part or license the IP into the broader market.

We have global sales, marketing and business development teams responsible for identifying and building our customer relationships. We sell our products to hyperscalers and cloud infrastructure providers, as well as 5G wireless, enterprise networking and HPC customers. We are engaged with five of the top seven hyperscalers (measured by their total capital expenditures across all vendors for the twelve months ended March 31, 2021, and our customer base includes over 20 blue chip clients, including more than 10 original equipment manufacturers (OEMs) and original design manufacturers (ODMs), over 10 optical module manufacturers and other leading enterprises.

During the three months ended July 31, 2020 and 2021, we generated \$11.0 million and \$10.7 million in total revenue, respectively. Product sales and product engineering services revenue comprised 60% and 80% of our total revenue in the three months ended July 31, 2020 and 2021, respectively, and IP license and IP license engineering services revenue represented 40% and 20% of our total revenue in the three months ended July 31, 2020 and 2021, respectively. Geographically, 58% and 40% of our total revenue in the three months ended July 31, 2020 and 2021, respectively, was generated from revenue in North America, and 42% and 60% of our total revenue in the three months ended July 31, 2020 and 2021, respectively, was generated from revenue in the rest of the world, primarily in Asia. During the three months ended July 31, 2020 and 2021, we generated \$4.8 million and \$12.6 million in net loss, respectively, and \$4.6 million and \$12.1 million in adjusted net loss, respectively.

During fiscal 2020 and 2021, we generated \$53.8 million and \$58.7 million in total revenue, respectively. Product sales and product engineering services revenue comprised 31% and 63% of our total revenue in fiscal 2020 and 2021, respectively, and IP license and IP license engineering services revenue represented 69% and 37% of our total revenue in fiscal 2020 and 2021, respectively. Geographically, 67% and 75% of our total revenue in fiscal 2020 and fiscal 2021, respectively, was generated from customers in North America, and 33% and 25% of our total revenue in fiscal 2020 and fiscal 2021, respectively, was generated from customers in the rest of the world, primarily in Asia. During fiscal 2020 and 2021, we generated \$1.3 million in net income and a \$27.5 million in net loss, and \$2.5 million in adjusted net income and \$13.9 million in adjusted net loss, respectively. See “Management’s Discussion and Analysis—Non-GAAP Financial Measure” for a definition of adjusted net income and a reconciliation between adjusted net income (loss) and net income (loss).

Founded in 2008, Credo has an international footprint with offices in North America and Asia. Our registered mailing address is c/o Maples Corporate Services Limited, PO Box 309, Ugland House, Grand Cayman, KY1-1104, Cayman Islands.

Industry Overview

We believe we are well positioned to benefit from the strong secular tailwinds driving the data infrastructure market, which is being driven by several factors, including:

Explosion of Data Generation and Network Traffic: Cloud workloads, already vast and expanding, the proliferation of streaming video, 5G wireless deployment, expansion of the Internet of Things (IoT) and growing adoption of artificial intelligence are creating an explosion of data, which is straining existing data infrastructure and forcing paradigm shifts from transistor to system level. According to International Data Corporation, the amount of data created, captured, copied and consumed in the world is expected to increase by approximately 2.8 times, from 64 Zettabytes (ZB)² in 2020 to more than 179ZB in 2025, reflecting a projected CAGR of 23%. This rapid growth in data and the related data traffic across networks is leading to bandwidth barriers and bottlenecks, creating the need for solutions that can enable faster connectivity speeds while addressing power constraints and security requirements.

² One Zettabyte is equal to one trillion Gigabytes.

Demand from All Corners of Digital Infrastructure: Increased data traffic requires increased data bandwidth. Participants across the data infrastructure ecosystem require higher performance connectivity solutions. We see this demand led by hyperscalers, whose position at the nexus of data infrastructure aggregates the incremental increases at the network edge, quickly followed by demand from 5G carriers. Furthermore, as the industry develops and bandwidth requirements proliferate, we expect to see these same dynamics extend more broadly, driving increased adoption in enterprise, HPC and consumer applications.

Hyperscalers, which are companies with the ability to seamlessly provision and add compute, memory, networking, and storage resources to a given node or set of nodes that make up a larger computing, distributed computing or grid computing environment, are one of the primary drivers of demand for high speed, low power connectivity solutions. By 2025, 650 Group forecasts that hyperscalers will purchase 39% of the Ethernet switches sold to the data center market, up from approximately 25% today. We expect hyperscalers to increase their bandwidth requirements as technological advances enable single-lane data rates to accelerate from 25G to 50G to 100G and beyond, powering link speeds of 100G, 200G/400G and 800G+. 650 Group estimates that total Ethernet ports in the datacenter will grow at a 6% CAGR from 2020 to 2025 with higher speed switches capturing a greater share of overall ports. 650 Group further estimates that 400G and 800G switches together are expected to grow at a 49% CAGR over the same period.

The following chart from the industry research group LightCounting illustrates the projected Ethernet IC chipset shipments by speed, illustrating the evolution of data transmission rates and the resulting bandwidth. According to LightCounting, shipments of 50G or slower Ethernet IC chipsets is expected to decline from 36.2 million shipments in 2020 to 23.9 million shipments in 2025, a CAGR of (8%), while shipments of 100G Ethernet IC chipsets is expected to grow from 11.5 million shipments in 2020 to 25.6 million shipments in 2025, a CAGR of 17%. Projected growth for the fastest chips is even higher.

LightCounting projects that shipments of 200G or faster Ethernet IC chipsets will grow from 1.1 million in 2020 to 20.2 million in 2025, a CAGR of 78%.

As data transfer speeds increase, there are other implications for hyperscaler infrastructure. To achieve the benefits of higher bandwidth, every link in the hyperscaler data infrastructure must be accelerated, from the electrical connections on the switch ICs and packages, to the electrical connections on the switch and server printed circuit boards (PCBs) and ultimately to the electrical and optical connections in the cables and transceivers. In addition, given limited power budgets, there is a strong need for better power efficiency per bit transferred.

Similarly, with the global deployment of 5G networks, wireless carriers are also increasingly seeking higher performance connectivity solutions. According to Qualcomm, 5G is designed to support a 100x increase in traffic capacity and network efficiency. 5G basebands require ICs that support higher volumes of data traffic as compared to previous generations, causing 5G carriers to demand high-speed connectivity. The deployment of 5G networks will immediately require 50G ports for the infrastructure. We expect to address such demand with our 50G per lane and 100G per lane solutions. Coupled with the growth in data traffic and the desire to minimize latency and maximize uptime, we expect that 5G expansion will drive increased demand for faster connectivity.

Beyond hyperscalers and 5G networking, the evolution of connectivity standards for servers such as Peripheral Component Interconnect Express and consumer devices such as Universal Serial Bus (USB) present an additional long-term opportunity. As these connectivity standards move to higher-speed data rates and higher order modulation, innovation in power efficiency and cost efficiency will be required to deliver competitive connectivity solutions. We expect that demand for increasingly sophisticated connectivity solutions will grow alongside the evolution of these standards. We estimate that the combined PCIe and USB markets will increase from \$1 billion in 2022 to almost \$3 billion in 2025.

Increasing Shift to DDC: Hyperscalers and 5G network operators are rapidly evolving their network topology architectures as they move towards higher speeds. Increasingly, these customers are looking to Distributed, Disaggregated Chassis (DDCs), which separate the traditional, proprietary chassis used for

switching and routing into its building blocks so it can more efficiently scale. The move to DDCs enables the use of standards-based hardware, a choice in software and the ability to avoid vendor lock-in. However, legacy connectivity options are poorly suited to address this evolution. Optical transceivers and Active Optical Cables (AOCs) suffer from high power consumption, high costs and poor longevity, and passive DACs are too thick and short-reaching to route at the required densities. This is leading to increasing interest in AEC technology as a key enabling technology for DDC architectures, as AECs reduce DDC power consumption, improve reliability and enable density levels not achievable with legacy solution.

Historically, the connection between server Network Interface Cards (NICs) and ToR ports has been dominated by passive Direct Attach Cables (DAC) technology. For example, according to estimates by 650 Group, 94% of ToR Ports in U.S. and China-based hyperscalers were connected to NICs by DACs in 2020. However, hyperscalers are increasingly looking to active cables, such as AECs, because, at higher data rates, DACs cannot attain the reach necessary for certain datacenter layouts. But AECs also augment ToR and NIC functions by integrating additional system-level features into the cables. Unlike DACs, they are active components in the network, but unlike most other components of the network they can be integrated at any time, without significant downtime. This enables, for example, upgrades to dual-ToR redundancy, or extended life for older servers through in-cable speed shifting. 650 Group believes that active cables for U.S. and Chinese hyperscalers will grow from 3% of NIC-ToR connections in 2021 to 49% of NIC-ToR by 2025, as illustrated in the table below.

Our Market Opportunity

We believe we are in the early stages of penetrating a massive opportunity. We benefit from the strong secular tailwinds in the data infrastructure market. Within the large and growing data infrastructure ecosystem, our offerings target the wired connectivity market as it relates to communication electronics. According to Gartner, the wired connectivity market for communication electronics is expected to grow from \$12 billion in 2020 to \$17 billion in 2025.* 650 Group forecasts that within this market, hyperscalers will be one of the primary drivers of growth for connectivity solutions and that higher speed 400G and 800G switches in the datacenter in particular will grow at a 49% CAGR from 2020 to 2025. Additionally, we estimate that the market for high-speed connectivity products will grow from \$2 billion in 2022 to \$5 billion in 2025. We specialize in providing high-performance, energy-efficient and cost-effective connectivity solutions. With the continued exponential growth of data traffic, we expect rising demand for our products as speed requirements increase over time. Additionally, we intend to continue to develop

new offerings that will expand the capabilities of our portfolio and address a broader section of the total wired connectivity market.

Our Competitive Strengths

We believe our key competitive strengths include the following:

Foundational Intellectual Property: We believe our technology leadership is based on our strong SerDes IP portfolio. Our purpose-built mixed-signal and DSP architectures are the foundation of our high-performance, power-efficient and cost-effective connectivity solutions. We believe this IP portfolio provides us with a significant competitive advantage.

Proven Demand from Tier 1 Customer Base: We are engaged with five of the top seven hyperscalers (measured by their total capital expenditures across all vendors for the twelve months ended March 31, 2021), and our customer base includes over 20 blue chip clients, including more than 10 OEMs and ODMs, over 10 optical module manufacturers and other leading technology companies. Our engagements with hyperscalers to date include design wins, as well as other commercial arrangements entered into in the ordinary course of our business, such as development and/or supply agreements. We consider a design win to occur when a customer notifies us that it has selected our products or technology to be incorporated into a product or system under development, often as part of a competitive technology review and bid process. While not legally enforceable contractual obligations, we believe design wins are an important step towards the adoption of our products or technologies by a customer, as competition for design wins is a highly selective process and generally results in the customer devoting substantial resources in partnering with us in development. The demand for our products and solutions by these leading technology companies demonstrates the strong demand for the enterprise-grade functionality, scalability, reliability and security that we offer.

Comprehensive Family of Connectivity Solutions: Our extensive solutions portfolio includes HiWire AECs, Optical PAM4 DSPs, Line Card PHYs, SerDes Chiplets for Multi-Chip Module (MCM) package integration and SerDes IP licensing. Our suite of products and technologies address our customers' various bandwidth, power, cost, security, reliability and end-to-end signal integrity requirements. We believe we can provide superior service to our customers by serving as a single point of contact. Furthermore, our extensive knowledge and experience across a range of connectivity offerings better enables us to identify potential bottlenecks and design solutions to address them, differentiating us from competitors focused on point solutions.

Best-in-Class Technology: We believe we are at the forefront of the high performance connectivity market. Our architectural approach enables us to design in mature fabrication processes yet still deliver leading edge performance and power at a significantly lower cost. Our optimized SerDes architectures achieve industry-leading power efficiency on small die areas in cost-effective mature processes.

Culture of Continuous Innovation: We have a history of innovation and pioneering new technologies including:

- Early demonstration and productization of 112G SerDes for Optical and Electrical links
- Pioneer in 100G, 200G and 400G AEC market, establishing a new product category
- Industry-leading low power gearbox for 56G and 112G per lane applications
- Delivering 112G XSR IP for MCM solutions
- Production shipments of SerDes Chiplets, including two versions of 3.2Tbps Chiplets
- Shipping industrial temperature (iTemp) PAM4 DSP for 5G market
- First to deliver 40G PAM3 SerDes
- Created HiWire Switch cable and open-sourced implementation with Microsoft in order to help realize their vision for a highly reliable network-managed dual-ToR architecture

We believe our culture of continuous innovation positions us as a market leader with best-in-class products and IP solutions.

Top Industry Talent and Experienced Leadership Team: We employ an engineering-focused workforce as well as a highly technical management team with deep industry experience and connectivity expertise. Our global team included 293 engineers as of September 30, 2021, while our international footprint allows us to continue attracting talent needed to support our business. We are led by a team of seasoned semiconductor and connectivity experts. Many of our executives have more than 20 years of semiconductor innovation experience and an extensive track record of successful leadership across multiple semiconductor companies.

Our Growth Strategy

To further our mission of providing secure, high-speed connectivity solutions, we intend to focus on the following strategic areas:

- **Extend our leadership in SerDes technologies.** Our proprietary SerDes architectures have underpinned our products and IP solutions since our inception. We intend to continue investing in research and development in our SerDes design to expand our technology leadership.
- **Broaden our portfolio of products and IP solutions.** We intend to continue to broaden our portfolio of offerings by developing new products and IP solutions to meet the evolving needs of the data infrastructure ecosystem as well as expand into adjacent markets we do not serve today.
- **Attract and acquire new customers.** We believe that we have a substantial opportunity to continue to grow our customer base. We intend to accelerate new customer acquisition across the markets that we serve as well as enter into new market segments by scaling our sales and marketing capabilities.
- **Extend and deepen relationships with existing customers.** We have demonstrated our ability to sell multiple of our connectivity solutions to several of our Tier 1 customers, and we will continue to seek to extend and deepen our relationships with existing customers. These relationships with leading hyperscalers, OEMs, ODMs and optical module manufacturers give us insight and extensive visibility into product designs, design specifications, development, production timeline, product implementation and product innovation. Our direct relationships enable us to better anticipate our customer needs and will facilitate our ability to sell multiple connectivity solutions to our customers over time.

Our Products and Solutions

We are pioneering comprehensive Ethernet connectivity solutions that deliver high bandwidth, scalability and end-to-end signal integrity for next-generation platforms. Today, we offer the following products and solutions: HiWire AECs, Optical PAM4 DSPs, Line Card PHYs, SerDes Chiplets and SerDes IP.

HiWire AECs: HiWire AECs are copper interconnect cables designed for affordable, low power operation at 100G, 200G, 400G, and 800G data speeds. HiWire AECs enable hyperscalers and 5G architects to accelerate the transition to DDC by offering a high-performance alternative to short, thick DACs and high power, high-cost AOCs. DDCs allow providers to pair hardware from ODMs with open source and third-party software to address issues surrounding operating expenses, flexibility and cost in traditional chassis applications. Our ToR to NIC AEC solutions enable hardware architects to pair commodity NIC and ToR hardware with value-added AECs to address needs related to redundancy and racking plans. Our HiWire AEC solutions include SWITCH, SPAN, SHIFT and CLOS AECs:

- Credo HiWire SWITCH AEC enables a NIC to connect to two ToRs in an Active/Standby configuration for sub-millisecond failover that is fully network operating system managed. This

enables the simplicity of a single NIC-ToR connector for the server and user with reliability and convergence times that are superior to legacy link aggregation structures.

- Credo HiWire SPAN AECs are a plug and play replacement of AOC for high-speed interconnects. Intended for rack-to-rack connectivity, these cables support up to 7-meter reach, consume up to 50% less power than AOCs, cost up to 50% less than AOCs and offer a 10-year service life.
- Credo's HiWire SHIFT AECs are a lower power, lower cost replacement to optical transceivers for high speed interconnects that provides connectivity between PAM4 (a modulation scheme that doubles a network's data rate by combining two bits into a single symbol with four amplitude levels) and non-return-to-zero (NRZ) ports with speed shifting and forward error correction (FEC) termination in-cable.
- Credo HiWire CLOS AECs are specifically designed for high density in-rack or HPC rack-to-rack interconnect to support CLOS architectures, a type of non-blocking, multistage switching architecture that reduces the number of ports required in an interconnected fabric. With up to 50% less power than optical solutions and up to 75% less volume than DACs, these AECs enable CLOS cabling densities up to 1,000 cables per rack.

Optical DSPs: We provide high-performance, low-power and cost-effective 50G to 400G PAM4 optical DSPs across a broad spectrum of use cases, speeds and bandwidths. The DSPs enable optical interconnect for cloud-scale, hyperscale and enterprise data center build-outs with 100G to 800G PAM4 optical modules and build-outs for 5G wireless service providers with 50G optical modules. These full-featured DSPs utilize our industry-leading transmitters and low bit error rate (BER) receivers, and are optimized for cost-effective production.

Our extensive optical product portfolio comprising our Dove and Seagull product families includes PAM4 DSPs for 50G, 100G, 200G, 400G and 800G PAM4 optical interconnects. Our proprietary DSP technology and equalization techniques help compensate for optical impairments to achieve optimal overall system performance, signal integrity and power efficiency. We introduced 50G PAM4 DSPs to operate over the full industrial temperature range of -40°C to +85°C module case and that are ideal for use in 5G wireless / enhanced Common Public Radio Interface front-, mid- and back-haul applications. The integrated DSP technology is critical in 5G wireless applications where cost-effective solutions are required, enabling wider use of Directly Modulated Lasers and un-cooled optics.

Line Card PHYs: We are enabling data connectivity and security in hyperscale and enterprise data centers with leading edge, low-power line card PHY solutions. Our Retimers, Gearboxes and MACsec / IPSEC devices support PAM4 / NRZ backplane and line card connectivity up to 112G per lane, supporting platforms up to 25.6 Terabits per second (Tbps) with 800G ports. Dedicated and multi-mode Retimers, Gearboxes and MACsecs, built around our low power, high performance SerDes IP, enable our customers to meet performance, power and price objectives.

Our Line Card PHY product families include our Black Hawk and Bald Eagle products for Retimers and Gearboxes, as well as our Owl series for MACsec / IPSEC applications.

SerDes Chiplets: SerDes technology enables data transmission at high rates while minimizing the number of interconnects required. As the bandwidth of interconnects increase, the complexity of the design for signal transmission increases. Our SerDes architecture has made it possible to deliver cost- and power-effective SerDes solutions in mature process nodes and make them available in chiplet form (multiple SerDes lanes in a single die) for integration with MCM System-on-Chips (SoCs), overcoming the need for matching core logic and SerDes IP in the same process node. Our SerDes Chiplets are designed for high performance and low power from mature processes, allowing customers to fabricate their core logic in advanced processes and combine them in their MCM SoC.

SerDes IP: SerDes IP is designed for the easy SoC integration of tens to hundreds of SerDes lanes. We designed our SerDes IP to optimally balance performance, power and manufacturing process costs and risks. Our patented mixed signal and DSP architectures are the foundation of our high-performance

and low-power SerDes technology. Our architectural approach enables design in a mature fabrication process while delivering leading-edge performance and power efficiency, which has led to our more than 20 IP licensing customers. Nevertheless, as part of our commitment to long-term innovation, we continuously develop technology in cutting-edge fabrication processes such as 5nm in order to enhance our competitive position, and to serve the market of IP licensing customers whose logic requires cutting-edge fabrication processes.

Our Customers

We sell our products to hyperscalers, OEMs, ODMs and optical module manufacturers as well as into the enterprise and HPC markets. We work closely and have engagements with industry-leading companies across these segments.

We currently rely and expect to continue to rely on a limited number of customers for a significant part of our revenue. In fiscal year 2021, we had three customers that each accounted for 10% or more of our total revenue. Customer A, Customer D and Customer F accounted for 32%, 12%, and 10%, respectively, of our fiscal 2021 revenue. In fiscal year 2021, 75% of our revenue was derived from customers based in North America, 24% from customers based in Asia, and 1% from other regions.

Sales and Marketing

We employ a two-pronged sales strategy targeting both the end users of our products, as well as the suppliers of our end users. By engaging directly with the end user, we are able to better understand the needs of our customers and cater our solutions to their most pressing connectivity requirements.

This strategy has enabled us to become the preferred vendor to a number of our customers across the world who, in turn, require their suppliers, OEMs, ODMs and optical module manufacturers, to utilize our solutions. For example, five optical suppliers are currently designing products with our 200G Optical DSPs, and multiple optical suppliers are designing products with us for unrelated platforms due to performance, power and price advantages.

We sell our solutions worldwide through our direct sales force. We have a sales presence in North America, Asia and Europe. Our direct sales force is supported by marketing, business development and Field Application Engineer teams across our regions. These teams are organized to align with our product verticals.

Manufacturing & Suppliers

We utilize a fabless business model, working with a network of third parties to manufacture, assemble, and test our connectivity products. This approach allows us to focus our engineering and design resources on our core competencies and to control and reduce our fixed costs and capital expenditures.

We subject our third-party manufacturing contractors to qualification requirements to meet the high quality and reliability standards required of our products. We qualify our contractors and their processes before applying technology to our products. Our engineers work closely with our third-party foundry vendor and other contractors to increase yield, lower manufacturing costs and improve product quality.

- **Wafer Fabrication:** We currently utilize a wide range of semiconductor process generations to develop and manufacture our products. For all of our products, we use TSMC for semiconductor wafer production.
- **Package, Assembly and Testing:** Upon the completion of processing at the foundry, we use third-party contractors for packaging, assembly and testing, including Amkor and ASE for packaging our IC products, KYEC and TeraPower for testing our IC products and BizLink and Foxlink for manufacturing our AEC products.

Research and Development

We view our technology as a competitive advantage and devote substantial resources to the research and development of new products and improvement of existing products. We have committed, and plan to continue to commit significant resources to technology and product innovation and development. We have assembled a team of highly skilled engineers with deep signal processing expertise who are located in San Jose, California, mainland China and Taiwan. As of September 30, 2021, we employed 261 engineers. Research and development expenses for fiscal 2020 and 2021 were \$27.6 million and \$34.8 million, respectively.

Intellectual Property

Our commercial success depends in part on our ability to obtain and maintain intellectual property protection for our brand and technology, defend and enforce our intellectual property rights, preserve the confidentiality of our trade secrets, operate our business without infringing, misappropriating or otherwise violating the intellectual property or proprietary rights of third parties and prevent third parties from infringing, misappropriating or otherwise violating our intellectual property rights. We rely on a combination of intellectual property rights, including patents, trade secrets, copyrights and trademarks, and contractual protections, to protect our core technology.

As of September 30, 2021, we owned 42 issued patents and 22 pending patent applications in the United States, and 8 issued patents and 42 pending patent applications in mainland China. Our patent and patent application portfolio primarily relates to four main areas: Ethernet standard, network cable technology, chip manufacturing and MCM and SerDes cores. These issued patents, and any patents granted from such applications, are expected to expire between 2029 and 2041, without taking potential patent term extensions or adjustments into account. We continually review our development efforts to assess the existence and patentability of new intellectual property.

The term of individual patents depends upon the legal term for patents in the countries in which they are granted. In most countries, including the United States, the patent term is 20 years from the earliest claimed filing date of a non-provisional patent application in the applicable country. In the United States, a patent's term may, in certain cases, be lengthened by patent term adjustment, which compensates a patentee for administrative delays by the United States Patent and Trademark Office in examining and granting a patent. It may also be shortened if a patent is terminally disclaimed over a commonly owned patent or a patent naming a common inventor and having an earlier expiration date. We cannot be sure that our pending patent applications that we have filed or may file in the future will result in issued patents, and we can give no assurance that any patents that have issued or might issue in the future will protect our current or future products, will provide us with any competitive advantage, and will not be challenged, invalidated or circumvented.

Moreover, we rely, in part, on trade secrets to protect aspects of our business that are not amenable to, or that we do not consider appropriate for, patent protection. However, trade secrets can be difficult to protect. While we take steps to protect and preserve our trade secrets, including by entering into confidentiality agreements with our employees, consultants and contractors and by maintaining physical security of our premises and physical and electronic security of our information technology systems, such measures can be breached, and we may not have adequate remedies for any such breach. In addition, our trade secrets may otherwise become known or be independently discovered by competitors.

Competition

We believe we are the only company in our industry offering a complete suite of high performance connectivity solutions. Our competitors typically compete with us with respect to some, but not all, of our solutions. Our principal competitors with respect to our products include Broadcom and Marvell, as well

as various DAC suppliers. Our principal competitors with respect to IP licensing include Synopsys, Cadence and Alphawave. The principal competitive factors in our market include:

- success in identifying new and emerging markets, applications and technologies;
- products' performance, power efficiency and cost-effectiveness;
- ability to provide a broad range of connectivity products and solutions;
- ability to deliver products in large volume on a timely basis at a competitive price;
- ability to offer products and features previously not available in the marketplace; and
- extent of IP protection and enforcement of rights.

We believe competition will increase as our market grows and connectivity technology advances. New entrants could enter our market, creating additional competition in the future. Although we believe we compete favorably with respect to the above factors, our future competitiveness will depend upon our ability to continue to design, develop and market compelling solutions.

Employees

As of September 30, 2021, approximately 83% of our 351 full-time equivalent employees were engineers. Of our employees, 133 are located in North America and 216 are located in Asia. None of our employees are represented by a labor union or subject to a collective bargaining agreement, and we have never experienced a labor-related work stoppage. Additionally, we believe we maintain strong employee relations and consider our relationship with our employees to be good.

Employee Relations

Our success has been built on attracting, motivating and retaining a talented and driven workforce, particularly on our design and technical teams, but also our senior management and support personnel. Our teams of engineers are our most valuable assets. Our core philosophy is that our employees are our most important backers, investing their time and professional reputations in the company. We have a diverse workforce that represents many cultures and we celebrate our diversity by fostering inclusion across our multinational organization. We consider our global employee relations to be good.

Our objective is to attract and retain talented and experienced employees, advisors and consultants. Our team members often leverage their professional networks, and we also use online search tools, specialized recruiting firms, internships and university hires to ensure a varied outreach approach for candidates. We offer a combination of competitive base salary, time-based equity incentives and discretionary bonuses, which have generally been linked to financial performance that are designed to motivate and reward personnel with annual grants of share-based incentive compensation awards to our employees, some of which vest over a period of four years, plus other benefits, in order to increase member value and the success of our company by motivating our team to perform to the best of their abilities and achieve both our short- and long-term objectives. We offer competitive benefits tailored to local markets and laws and designed to support employee health, welfare and retirement; examples of such benefits may include paid time off; 401(k), pension or other retirement plans; basic and voluntary life, disability and supplemental insurance; medical, dental and vision insurance; and flexible spending accounts. Our global training and development program focuses on harassment-free workplace and diversity topics, as well as ethics and compliance.

Our company-wide compensation structure is intended to align incentives with the success of Credo. This includes our executives, whose incentives are generally the same as the rest of our employees. We believe that this fosters harmony within the company, as all teams are working together towards the same goals. For more details regarding our executive compensation, refer to the section titled "Executive Compensation" elsewhere in this prospectus.

Our ongoing focus on workplace safety and compliance to applicable regulations has enabled us to preserve business continuity while ensuring a safe work environment during the COVID-19 pandemic, including work-from-home arrangements for a substantial portion of our workforce and reduced capacity for those that have returned to the office, adhering to local health authority guidelines. We also comply with applicable laws and regulations regarding workplace safety and are subject to audits by entities such as the Occupational Safety and Health Administration in the United States. We rely on third parties to manufacture our products and require our suppliers to maintain a safe work environment, as described in further detail under “—Manufacturing & Suppliers.”

Facilities

We lease 51,740 square feet of office space in San Jose, California under a lease expiring February 28, 2022. We are under contract to lease 87,608 square feet of office space in San Jose, California. Under the terms of that lease we will have access to the space no later than February 1, 2022. The lease expires on October 31, 2030. We also lease approximately 45,600 square feet of office space in Shanghai under leases expiring November 30, 2024 (with an option to extend), and approximately 12,300 square feet of office space in Zhubei City, Taiwan, under a lease expiring June 30, 2023. We lease additional small spaces in mainland China and the United States to support local staff.

We believe that our existing facilities are sufficient for our current needs. We intend to add new facilities and expand our existing facilities as we continue to add employees and grow our business. We believe that new spaces will be available at reasonable terms in the future in order to meet our needs.

Permissions to Operate Business in the PRC and Hong Kong

Under the current effective PRC laws, our PRC subsidiaries are required to obtain or complete the following primary permissions, filings or procedures for their operations: (i) business license for each of our PRC subsidiaries, (ii) foreign investment reporting; (iii) foreign exchange registration and (iv) customs filings. Our PRC subsidiaries have received all requisite permissions as listed above, and none of those permissions have been denied as of the date of this prospectus.

Under the current effective Hong Kong laws, our Hong Kong subsidiaries are required to obtain or complete the following primary permissions, filings or procedures for their operations: (i) Certificate of Incorporation for each of our Hong Kong subsidiaries; and (ii) Business Registration Certificate for each of our Hong Kong Subsidiaries. Our Hong Kong subsidiaries have received all requisite permissions as listed above, and none of those permissions have been denied as of the date of this prospectus.

Legal Proceedings

From time to time, we are involved in various legal proceedings arising in the ordinary course of our business. We are not presently a party to any litigation the outcome of which, we believe, if determined adversely to us, would individually or taken together have a material adverse effect on us. The results of any current or future litigation cannot be predicted with certainty, and regardless of the outcome, litigation can have an adverse impact on us because of defense and settlement costs, diversion of management resources and other factors.

MANAGEMENT

Executive Officers and Directors

The following table sets forth information regarding our directors and executive officers as of the date of this prospectus:

| Name | Age | Position |
|------------------------------------|-----|---|
| Executive Officers | | |
| William (Bill) Brennan | 57 | President, Chief Executive Officer and Director |
| Daniel Fleming | 55 | Chief Financial Officer |
| Adam Thorngate-Gottlund | 40 | General Counsel and Secretary |
| Chi Fung Cheng | 53 | Chief Technology Officer and Director |
| Yat Tung Lam | 55 | Chief Operating Officer and Director |
| Non-employee Directors | | |
| Pantas Sutardja ⁽³⁾ | 58 | Director |
| Lip-Bu Tan ⁽¹⁾⁽²⁾ | 61 | Director |
| David Zinsner ⁽¹⁾⁽²⁾⁽³⁾ | 52 | Director |
| Manpreet Khaira ⁽¹⁾ | 55 | Director |

(1) Member of the audit committee.

(2) Member of the compensation committee.

(3) Member of the nominating and corporate governance committee.

Executive Officers

Bill Brennan has served as our Chief Executive Officer and a member of our board of directors since September 2014 and previously served as the Chief Executive Officer and a member of the board of directors of our predecessor entity from December 2013 to September 2014. Prior to joining Credo, Mr. Brennan served as Executive Vice President of Vital Connect, Inc., a biosensor technology company, where he was responsible for business strategy and partner development, from August 2011 to November 2013. Mr. Brennan also served as Vice President in the storage business unit of Marvell, which develops and produces semiconductors and related technology, from May 2000 to August 2011. Prior to joining Marvell, Mr. Brennan served as an Account Manager with Texas Instruments Incorporated, a technology company that designs and manufactures semiconductors and various ICs, from June 1986 to January 1993. Mr. Brennan received his B.S. in Electrical Engineering and Computer Science from the University of Colorado.

We believe Mr. Brennan's career in the semiconductor industry, including his experience at Marvell, qualify him to serve on our board of directors.

Dan Fleming has served as our Chief Financial Officer since August 2015. Prior to joining Credo, Mr. Fleming served as Vice President of finance at Siva Power, Inc., a thin-film solar power company, where he was responsible for Siva Power's finance, accounting and administration functions from January 2012 to July 2015. Prior to joining Siva Power, Mr. Fleming held various financial management positions at SunPower Corporation, a solar power company, Marvell, Prism Solutions, Inc. and Xilinx, Inc., a semiconductor manufacturing company. Mr. Fleming began his professional career as a circuit design engineer at AT&T. Mr. Fleming received a B.S. in Electrical Engineering from the Pennsylvania State University and an M.B.A in Finance from the Kelley School of Business at Indiana University.

Adam Thorngate-Gottlund has served as our General Counsel since November 2016. Prior to joining Credo, Mr. Thorngate-Gottlund was an associate attorney at the Royse Law Firm PC from

September 2014 to November 2016 and at Hudson Martin Ferrante Street Witten & June PC from October 2013 to September 2014. Mr. Thorngate-Gottlund received a B.A. in History and Drama from Vassar College, and a J.D. from the University of Minnesota Law School.

Chi Fung (Lawrence) Cheng has served as our Chief Technology Officer and a member of our board of directors since September 2014 and previously served as the Chief Technology Officer and a member of the board of directors of our predecessor entity from September 2008 to September 2014. Prior to co-founding Credo, Mr. Cheng served as an Engineering Director of analog design for Marvell from November 1997 to August 2008. From 1994 to 1997, Mr. Cheng served as Staff Engineer at Actel Corporation, a manufacturer of ICs. Mr. Cheng received an M.S. in Electrical Engineering from Purdue University.

We believe Mr. Cheng's technical expertise and his experience at Marvell qualify him to serve on our board of directors.

Yat Tung (Job) Lam has served as our Chief Operating Officer and a member of our board of directors since September 2014. Mr. Lam served as Chief Executive Officer, Chief Operating Officer and a member of the board of directors of our predecessor entity from August 2008 to November 2013, November 2013 to September 2014 and 2008 to September 2014, respectively. Prior to founding Credo, Mr. Lam served in various roles for Marvell, from Senior Design Engineer when he started in June 1997 to Senior Design Engineering Director by the time he left in August 2008. Mr. Lam also served as a member of the technical staff at Amlogic, Inc., a fabless manufacturing company, from May 1996 to June 1997, and as a Senior Design Engineer at Integrated Device Technology, Inc., which designs, manufactures and markets semiconductor solutions, from May 1993 to June 1996. Mr. Lam holds a B.S. in Electrical Engineering from Oklahoma State University and an M.S. in Electrical Engineering from University of Minnesota.

We believe Mr. Lam's experience at Marvell qualifies him to serve on our board of directors.

Non-employee Directors

Pantas Sutardja has served as a member of our board of directors since August 2015. Mr. Sutardja is the founder and has served as Chief Executive Officer of LatticeWork, a consumer electronics company, since 2013. Prior to Credo, Mr. Sutardja co-founded Marvell and served in various positions from January 1995 to February 2014, starting as VP of Engineering and finishing as Chief Technology Officer. He also served on the board of directors at Marvell from January 1995 to February 2013. He received his PhD degree in Electrical Engineering and Computer Science from the University of California, Berkeley.

We believe Mr. Sutardja's prior experience at Marvell, his service on its board of directors and his service as the Chief Executive Officer of LatticeWork qualify him to serve on our board of directors.

Lip-Bu Tan has served as a member of our board of directors since October 2019. Mr. Tan has served as Chief Executive Officer of Cadence, a multinational computational software company, since 2009. From January 2009 to November 2017, Mr. Tan also served as President of Cadence. In 1987, Mr. Tan founded Walden International, an international venture capital firm, and has served as its Chairman since its founding. Mr. Tan also serves as a director of Schneider Electric SE, a multinational energy company, and SoftBank Group Corp., a multinational holding company. Mr. Tan also previously served as a director of Hewlett Packard Enterprise Company, a technology company, from November 2015 to April 2021. Mr. Tan served as a director of Flextronics International Ltd. from 2003 to 2012, Inphi Corporation, a semiconductor component company, from 2002 to 2012, SINA Corporation, a Chinese technology company, from 1999 to 2015, Ambarella, Inc., a fabless semiconductor design company, from 2004 to 2017, Quantenna Communications, Inc., a communication device company, from 2015 to 2018, Semiconductor Manufacturing International Corporation, a semiconductor manufacturing company, from 2001 to 2018, Aquantia Corp., a manufacturer of high-speed transceivers, from 2015 to 2019 and

Advanced Micro-Fabrication Equipment Inc. China, a China-based global semiconductor microfabrication equipment company, from 2005 to 2020.

We believe Mr. Tan's extensive experience serving on public company boards of directors, and his experience as Chief Executive Officer of Cadence, qualify him to serve on our board of directors.

David Zinsner has served as a member of our board of directors since October 2019. Mr. Zinsner has served as Chief Financial Officer and Senior Vice President at Micron Technology Inc., a publicly-traded semiconductor company, since February 2018. Mr. Zinsner served as the President and Chief Operating Officer of Affirmed Networks, a software company, from April 2017 to February 2018. From January 2009 to April 2017, Mr. Zinsner served as the Senior Vice President of Finance and Chief Financial Officer of Analog Devices, Inc., a multinational semiconductor company. From July 2005 to January 2009, Mr. Zinsner served as the Senior Vice President and Chief Financial Officer of Intersil Corporation, a semiconductor company. Mr. Zinsner holds an M.B.A., Finance and Accounting from Vanderbilt University and a B.S. in Industrial Management from Carnegie Mellon University.

We believe Mr. Zinsner's financial expertise, and his experience as Chief Financial Officer of Micron, qualify him to serve on our board of directors.

Manpreet Khaira has served as a member of our board of directors since September 2021. Mr. Khaira has served as Vice President and General Manager of Skyworks Solutions, Inc., a publicly-traded innovator of high-performance analog semiconductors connecting people, places and things, since August 2018, when it acquired Avnera Corporation, a manufacturer of low-power analog systems-on-chip technology for audio, voice, speech and sensor applications, which Mr. Khaira co-founded and where he has served as Chairman, President and Chief Executive Officer since November 2003. Previously, Mr. Khaira co-founded and served as Chairman, President and Chief Executive Officer of Mobilian Corporation, a wireless systems company, from February 1999 to November 2003, when it was acquired by Intel. He received his M.S. in Computer Science from Carnegie Mellon University and his B.S. in Computer Science and Engineering from the Indian Institute of Technology, Kharagpur, India.

We believe Mr. Khaira's experience as a founder and executive of high-growth semiconductor companies qualify him to serve on our board of directors.

Board Structure and Compensation of Directors

Upon completion of the offering, our board of directors will consist of _____ members. Our board has determined that each of Pantas Sutardja, Lip-Bu Tan, David Zinsner and Manpreet Khaira is independent under applicable Nasdaq rules.

Upon completion of the offering, our directors will be divided into three classes serving staggered three-year terms. Class I, Class II and Class III directors will serve until our annual meetings of shareholders in 2022, 2023 and 2024, respectively. At each annual meeting of shareholders, directors will be appointed to succeed the class of directors whose terms have expired. This classification of our board of directors could have the effect of increasing the length of time necessary to change the composition of a majority of the board of directors. In general, at least two annual meetings of shareholders will be necessary for shareholders to effect a change in a majority of the members of the board of directors. Upon the completion of this offering, our current directors will be divided among the three classes as follows:

- the Class I directors will be William Brennan, Chi Fung Cheng and Yat-Tung Lam, and their terms will expire at the annual meeting of shareholders to be held in 2022;
- the Class II directors will be Pantas Sutardja and David Zinsner, and their terms will expire at the annual meeting of shareholders to be held in 2023; and

- the Class III directors will be Manpreet Khaira and Lip-Bu Tan, and their terms will expire at the annual meeting of shareholders to be held in 2024.

Director Compensation

None of the members of our board of directors received compensation for their service for fiscal 2021.

As of April 30, 2021, David Zinsner held 100,000 nonstatutory share options under the 2015 Stock Plan to purchase our ordinary shares at an exercise price of \$1.33 per share, of which 37,500 were vested and exercisable and the remaining 62,500 options were unvested and will vest and become exercisable in equal monthly installments through the period ending on October 18, 2023, subject to Mr. Zinsner's continued service as a member of our board of directors through the applicable vesting date.

Upon completion of the offering, directors who are also full-time officers or employees of our company will receive no additional compensation for serving as directors. All non-employee directors will receive an annual retainer of \$40,000. The chairpersons and members of the committees will receive additional annual fees as set forth in the table below:

| Committee | Chairperson | Member |
|-------------------------------------|-------------|----------|
| Audit | \$20,000 | \$10,000 |
| Compensation | \$10,000 | \$5,000 |
| Nominating and Corporate Governance | \$10,000 | \$5,000 |

In connection with, and subject to the closing of, this offering each non-employee director will receive an equity award in the form of 30,000 restricted stock units under our 2021 Incentive Plan and the awards will service vest over a period of four years from the grant date.

Board Committees

Audit Committee

The members of our audit committee are Lip-Bu Tan, David Zinsner and Manpreet Khaira. Mr. Zinsner is the chairman of our audit committee. The composition of our audit committee meets the requirements for independence under the current Nasdaq listing standards and SEC rules and regulations. Each member of our audit committee is financially literate. In addition, our board of directors has determined that each of Mr. Tan, Mr. Zinsner and Mr. Khaira is an "audit committee financial expert" as defined in Item 407(d)(5)(ii) of Regulation S-K promulgated under the Securities Act. This designation does not impose any duties, obligations or liabilities that are greater than are generally imposed on members of our audit committee and our board of directors. Our audit committee is directly responsible for, among other things:

- selecting a firm to serve as the independent registered public accounting firm to audit our financial statements and determining its compensation;
- ensuring the independence of the independent registered public accounting firm;
- discussing the scope and results of the audit with the independent registered public accounting firm and reviewing, with management and that firm, our interim and year-end operating results;
- establishing procedures for employees to anonymously submit concerns about questionable accounting or audit matters;
- considering the adequacy of our internal controls and internal audit function;
- reviewing material related party transactions or those that require disclosure; and

- approving or, as permitted, pre-approving all audit and non-audit services to be performed by the independent registered public accounting firm.

Compensation Committee

The members of our compensation committee are Lip-Bu Tan and David Zinsner. Mr. Tan is the chairman of our compensation committee. Each member of this committee is a non-employee director, as defined by Rule 16b-3 promulgated under the Exchange Act, and an outside director, as defined pursuant to Section 162(m) of the U.S. Internal Revenue Code (Code), and meets the requirements for independence under the current Nasdaq listing standards and SEC rules and regulations. Our compensation committee is responsible for, among other things:

- determining and approving, or recommending that our board of directors approve, the compensation of our executive officers;
- reviewing and approving the terms of any employment agreements, severance arrangements, change in control protections, indemnification agreements and any other material agreements;
- reviewing and approving performance goals and objectives relevant to the compensation of our executive officers and assessing their performance against these goals and objectives;
- reviewing and recommending to our board of directors the compensation of our directors;
- administering our share and equity incentive plans;
- reviewing and approving, or making recommendations to our board of directors with respect to, incentive compensation and equity plans; and
- reviewing our overall compensation philosophy.

Nominating and Corporate Governance Committee

The members of our nominating and corporate governance committee are Pantas Sutardja and David Zinsner. Mr. Zinsner is the chairman of our nominating and corporate governance committee. Mr. Sutardja and Mr. Zinsner meet the requirements for independence under the current Nasdaq listing standards. Our nominating and corporate governance committee is responsible for, among other things:

- identifying and recommending candidates for membership on our board of directors;
- reviewing and recommending our corporate governance guidelines and policies;
- reviewing proposed waivers of the code of conduct for directors and executive officers;
- evaluating the independence of directors and director nominees against the requirements for independence under the current Nasdaq listing standards and SEC rules and regulations;
- overseeing the process of evaluating the performance of our board of directors; and
- assisting our board of directors on corporate governance matters.

Code of Ethics

In connection with this offering, our board of directors will adopt a code of ethics that applies to all of our employees, officers and directors, including our President and Chief Executive Officer, Chief Financial Officer and other executive and senior financial officers. Upon completion of this offering, the full text of our codes of business conduct and ethics will be posted on the investor relations section of our website. We intend to disclose future amendments to our codes of business conduct and ethics, or any waivers of such code, on our website or in public filings.

Compensation Committee Interlocks and Insider Participation

None of our executive officers has served as a member of a compensation committee (or if no committee performs that function, the board of directors) of any other entity that has an executive officer serving as a member of our board of directors.

Indemnification and Insurance

As we are a Cayman Islands exempted company, the laws of the Cayman Islands will be relevant to the provisions relating to indemnification of our directors and officers. Although the Companies Act does not specifically restrict a Cayman Islands exempted company's ability to indemnify its directors or officers, it does not expressly provide for such indemnification either. Certain Commonwealth case law (which is likely to be persuasive in the Cayman Islands), however, indicates that the indemnification is generally permissible, unless there has been actual fraud, willful default, willful neglect, breach of fiduciary duty, unconscionable behavior or behavior which falls within the broad stable of conduct identifiable as "equitable fraud" on the part of the director or officer in question.

Our amended and restated memorandum and articles of association provide that each of our directors, agents or officers shall be indemnified out of our assets against any liability incurred by them as a result of any act or failure to act in carrying out their functions other than such liability, if any, that they may incur by their own actual fraud, willful neglect or default. No such director, agent or officer shall be liable to us for any loss or damage in carrying out their functions unless that liability arises through the actual fraud, willful neglect or default of such director, agent or officer.

We have also entered into indemnification agreements with our directors, executive officers and certain other employees under which we have agreed to indemnify each such person and hold them harmless against expenses, judgments, fines and amounts payable under settlement agreements in connection with any threatened, pending or completed action, suit or proceeding to which they have been made a party or in which they became involved by reason of the fact that they are or were our director or officer. Except with respect to expenses to be reimbursed by us in the event that the indemnified person has been successful on the merits or otherwise in defense of the action, suit or proceeding, our obligations under the indemnification agreements are subject to certain customary restrictions and exceptions.

In addition, we maintain standard policies of insurance under which coverage is provided to our directors and officers against loss rising from claims made by reason of breach of duty or other wrongful act, and to us with respect to payments which may be made by us to such directors and officers pursuant to the above indemnification provision or otherwise as a matter of law.

EXECUTIVE COMPENSATION

We are an emerging growth company as defined in the JOBS Act. As an emerging growth company, we have reduced disclosure obligations regarding executive compensation compared to companies that are not emerging growth companies. Under the JOBS Act, we will remain an emerging growth company for the first five fiscal years after we complete our initial public offering, unless (a) we have total annual gross revenues of \$1.07 billion or more, (b) we issue more than \$1 billion in non-convertible debt over a three-year period, or (c) we are deemed to be a “large accelerated filer” under the Exchange Act.

Summary Compensation Table

The following table sets forth information concerning the compensation paid to our principal executive officer and our two other most highly compensated executive officers (collectively referred to as our named executive officers or NEOs) for fiscal 2021.

Fiscal Year 2021 Summary Compensation Table

| Name and Principal Position | Year | Salary (\$) | Bonus (\$) ⁽¹⁾ | Option Awards (\$) | Total (\$) |
|---|------|-------------|---------------------------|--------------------|------------|
| William Brennan <i>President and Chief Executive Officer</i> | 2021 | \$ 274,006 | \$ 14,061 | — | \$ 288,067 |
| Daniel Fleming <i>Chief Financial Officer</i> | 2021 | \$ 221,320 | \$ 10,816 | 182,224 | \$ 414,360 |
| Adam Thorngate-Gottlund <i>General Counsel and Secretary</i> | 2021 | \$ 194,853 | \$ 10,000 | 145,779 | \$ 350,632 |

(1) The amounts reported reflect discretionary bonuses paid to the NEOs for fiscal 2021 (see “—Fiscal Year 2021 Bonuses” below).

(2) The amounts reported in this column represent the aggregate grant date fair value of incentive share option awards granted to our NEOs during fiscal 2021, as calculated in accordance with FASB ASC Topic 718, excluding the effect of estimated forfeitures. The assumptions used in calculating the grant date fair value of the RSU awards are described in Note 10 to our consolidated financial statements included elsewhere in this prospectus.

Outstanding Equity Awards at Fiscal Year End

The following table sets forth information concerning outstanding equity incentive awards held by our NEOs as of April 30, 2021.

Outstanding Equity Awards at 2021 Fiscal Year End

| Name | Grant Date | Option Awards | | Option Exercise Price (\$) | Option Expiration Date |
|-------------------------|------------|---|---|----------------------------|------------------------|
| | | Numbers of Securities Underlying Unexercised Options Exercisable (#) ⁽¹⁾ | Numbers of Securities Underlying Unexercised Options Unexercisable (#) ⁽¹⁾ | | |
| William Brennan | | | | | |
| Daniel Fleming | 5/10/2016 | 190,000 | | \$ 0.275 | 5/10/2026 |
| | 11/16/2020 | | 100,000 | \$ 2.330 | 11/16/2030 |
| Adam Thorngate-Gottlund | 10/19/2016 | 118,000 | | \$ 0.280 | 10/19/2026 |
| | 11/16/2020 | | 80,000 | \$ 2.330 | 11/16/2030 |

(1) Reflects the grant of incentive share options under the Credo Technology Group Holding Ltd 2015 Stock Plan, as amended (2015 Stock Plan), to purchase our ordinary shares.

(2) Because all options are exercisable immediately subject to a repurchase right in favor of the Company which lapses as the options vest, this column reflects the number of options held by our named executive officers that were unvested as of April 30, 2021. 25% of the options will vest on September 1, 2021 and the remaining 75% will vest in 36 successive equal monthly installments thereafter, in each case, subject to the named executive officer's continuous service through the applicable vesting date.

Base Salary

Each of our NEOs receives an annual base salary, which for fiscal 2021 were as follows: William Brennan - \$274,006; Daniel Fleming - \$221,320; and Adam Thorngate-Gottlund - \$194,853.

Fiscal Year 2021 Bonuses

At the end of fiscal 2021, our board of directors made an assessment of overall company and individual performance for fiscal 2021 and determined that our NEOs would receive discretionary bonuses as follows: William Brennan - \$14,061; Daniel Fleming - \$10,816; and Adam Thorngate-Gottlund - \$10,000.

Fiscal Year 2021 Equity Awards

On November 16, 2020, Messrs. Fleming and Thorngate-Gottlund were granted an award of 100,000 incentive share options and 80,000 incentive share options under the 2015 Stock Plan, respectively. See "—Outstanding Equity Awards at Fiscal Year End" for additional information with respect to such awards.

IPO Equity Awards

In connection with, and subject to the consummation of, this offering, under our 2021 Plan (as defined below), our board of directors approved grants of equity incentive awards to certain of our named executive officers with respect to the number of shares set forth in the table below. The awards will consist of restricted stock units, which will service vest over a period of four years.

| Name | Number of RSUs |
|-------------------------|----------------|
| Daniel Fleming | 50,000 |
| Adam Thorngate-Gottlund | 40,000 |

Additional equity incentive awards with respect to an aggregate of 2,357,500 of our ordinary shares, consisting of RSUs, will be awarded under our 2021 Plan to other employees, subject to the consummation of, this offering.

Severance and Change in Control Benefits

In the event of a change of control of the Company prior to September 1, 2021, any outstanding share options will become vested and exercisable as to 1/48th of such share options for each completed month of continuous service commencing on September 1, 2020 through the date of such change in control. Our NEOs do not have any other contractual rights to severance or change in control benefits, either pursuant to their respective offer letters or otherwise.

Other Elements of Compensation

We maintain a tax-qualified defined contribution 401(k) plan for our employees (including our NEOs), who satisfy certain eligibility requirements. Our named executive officers are eligible to participate in the 401(k) plan on the same terms as other full-time employees. Matching contributions under the 401(k) plan are discretionary. No matching contributions were made for fiscal 2021.

All of our full-time employees are eligible to participate in customary health and welfare plans. Our named executive officers are eligible to participate in these plans on same terms as other full-time employees.

Each NEO has entered into a Proprietary Information and Inventions Agreement that provides for non-disparagement covenants during the term of the NEO's employment, employee and customer non-solicitation covenants during the term of the NEO's employment and 12 months thereafter and perpetual confidentiality provisions.

Restrictive Covenants

Mr. Brennan has entered into a Confidential Information and Invention Assignment Agreement pursuant to which he agreed to be subject to restrictive covenants, including 24-month post-termination restrictions on solicitation of employees and consultants, and perpetual restrictions on using Company confidential information to attempt to negatively influence clients or customers from purchasing Company products or services or to solicit clients, customers or other persons to purchase of products and/or services from a competitor of the Company. Messrs. Fleming and Thorngate-Gottlund have each entered into a Proprietary Information and Inventions Agreement pursuant to which the NEO agreed to be subject to restrictive covenants, including 12-month post-termination restrictions on competition and on solicitation of employees, customers, vendors, suppliers and distributors.

Employee Benefit and Share Plans

Credo Technology Group Holding Ltd 2015 Stock Plan

We maintain the 2015 Stock Plan, which provides for the discretionary grant of equity awards to our employees, non-employee directors and consultants and our subsidiaries' employees and consultants. Effective as of, and contingent on the completion of this offering, the 2015 Stock Plan will be terminated and no further awards will be granted under the 2015 Stock Plan. Any awards outstanding under the 2015 Stock Plan as of such time will remain subject to the terms of the 2015 Stock Plan and the applicable award agreement. There are currently awards of incentive stock options (within the meaning of Section 422 of the Code), nonstatutory share options and restricted share awards (as defined below) outstanding under the 2015 Stock Plan. Only our employees and employees of our subsidiaries are eligible to receive incentive share options under the 2015 Stock Plan.

The following sets forth a summary of certain material features of the 2015 Stock Plan, and is qualified in its entirety by the text of the 2015 Stock Plan, a form of which is filed as Exhibit 10.2 to the registration statement to which this prospectus forms a part.

Plan Administration. Our board of directors or one or more committees appointed by our board of directors administers the 2015 Stock Plan. Subject to the provisions of the 2015 Stock Plan, our board of directors has the full authority and discretion to take any actions it deems necessary or advisable for the administration of the 2015 Stock Plan, and all decisions, interpretations and other actions by our board of directors are final and binding on all participants in the 2015 Stock Plan.

Awards. The 2015 Stock Plan provides for the grant of incentive share options and nonstatutory ordinary share options and the grant and right to purchase our ordinary shares, which may be subject to certain forfeiture conditions, or restricted share awards. The term of an incentive share option may not exceed 10 years, except that with respect to any participant who owns more than 10% of the voting power of all classes of our outstanding ordinary shares, the term must not exceed five years and the exercise price must equal at least 110% of the fair market value on the grant date.

As of April 30, 2021, there were 14,120,179 of our ordinary shares underlying outstanding share options under the 2015 Stock Plan. Upon the completion of this offering, any awards outstanding under the 2015 Stock Plan as of such time will remain subject to the terms of the 2015 Stock Plan and the applicable award agreement, and no further awards will be granted under the 2015 Stock Plan.

Certain Adjustments. In the event of a subdivision of our ordinary shares, a declaration of a dividend payable in shares, a combination or consolidation of outstanding shares into a lesser number of shares, a reclassification or any other increase or decrease in the number of issued shares effected without receipt of consideration by us, proportionate adjustment will automatically be made in the number of shares covered by each outstanding option and the exercise price applicable to such option. In the event of a declaration of an extraordinary dividend payable in a form other than our ordinary shares in an amount that has a material effect on the fair market value of our ordinary shares, a recapitalization, a spin-off, a reclassification or a similar occurrence, our board of directors at its sole discretion may make appropriate adjustments in the number of shares covered by each outstanding option and the exercise price applicable to such option.

Merger, Sale or Consolidation. In the event we are party to a merger, sale or consolidation, all outstanding options under the 2015 Stock Plan will be subject to the agreement of merger, sale or consolidation, which may provide for, without the concept of the optionholder, (i) continuation or assumption of any outstanding options, (ii) substitution by the surviving corporation or its parent of new options for any outstanding options, (iii) full accelerated vesting of any outstanding options or (iv) cancellation of any outstanding share options and a payment to the holder equal to the excess, if any, of the fair market value of our ordinary shares covered by such option over the exercise price.

Amendment, Suspension or Termination. Our board of directors may amend, suspend or terminate the 2015 Stock Plan at any time for any reason; provided that any amendment of the 2015 Stock Plan will be subject to approval by our shareholders if it materially changes the class of persons who are eligible to receive incentive share options under the 2015 Stock Plan.

Credo Technology Group Holding Ltd 2021 Long-Term Incentive Plan

We expect that our new 2021 Long-Term Incentive Plan (2021 Plan) will become effective in connection with this offering. The 2021 Plan provides for the grant of equity-based awards to our employees, consultants, service providers and non-employee directors. The following is a summary of the material terms of the 2021 Plan. This summary is not a complete description of all provisions of the 2021 Plan and is qualified in its entirety by reference to the 2021 Plan, which will be filed as an exhibit to the registration statement of which this prospectus is a part.

Administration. The 2021 Plan will be administered by the compensation committee (Committee) of our Board, unless another committee is designated by our board of directors. The Committee will have the authority to, among other actions, determine eligible participants, the types of awards to be granted, the number of shares covered by any awards, the terms and conditions of any awards (and amend any terms and conditions) and the methods by which awards may be settled, exercised, cancelled, forfeited or

suspended. In addition, the Committee has the authority to waive restrictions or accelerate vesting of any award at any time. The Committee may interpret and administer the 2021 Plan or any award thereunder and make any other determination and take any other action that the Committee deems necessary or desirable for the administration of the 2021 Plan.

Shares Reserve; Adjustments. The maximum number of ordinary shares available for issuance under the 2021 Plan will not exceed a number of shares equal to 11.0% of the total number of ordinary shares outstanding at the time of the completion of this offering (on a fully-diluted basis). The total number of ordinary shares available for issuance under the 2021 Plan will be increased on the first day of each fiscal year following the effective date of the 2021 Plan in an amount equal to the least of (i) the number of shares initially reserved for issuance under the 2021 Plan, (ii) 5.0% of the aggregate number of ordinary shares outstanding (on a fully-diluted basis) on the last day of the immediately preceding fiscal year and (iii) such number of ordinary shares as determined by our board of directors. Any shares underlying substitute awards, shares remaining available for grant under a plan of an acquired company and awards that are forfeited, cancelled, expired, terminated or are otherwise lapsed, in whole or in part, or are settled in cash or withheld by us in respect of taxes (other than with respect to stock options or stock appreciation rights), will become available for future grant under our 2021 Plan.

In the event of certain changes in our corporate structure, including any extraordinary dividend or other distribution, recapitalization, stock split, reorganization, merger, consolidation, spin-off, or other similar corporate transaction or event affecting our ordinary shares, or changes in applicable laws, regulations or accounting principles, the Committee will make appropriate adjustments to prevent undue enrichment or harm to the number and type of ordinary shares subject to awards, and to the grant, purchase, exercise or hurdle price for any award.

Non-Employee Director Limits. Under the 2021 Plan, the maximum number of ordinary shares subject to an award granted during a single fiscal year to any non-employee director, taken together with any cash fees paid during the fiscal year, in respect to the director's service as a member of our board of directors during such year, shall not exceed \$750,000 in total value. The independent directors may make exception to this limit for a non-executive chair of our board of directors, provided that the non-employee director receiving such additional compensation may not participate in the decision to award such compensation.

Stock Options. The 2021 Plan permits the grant of incentive stock options to employees and/or nonstatutory stock options to all eligible participants. The exercise price of stock options may not be less than the fair market value of our ordinary shares on the grant date, provided that if an incentive stock option is granted to a 10% stockholder, the exercise price may not be less than 110% of the fair market value of our ordinary shares. Each stock option agreement will set forth the vesting schedule of the options and the term of the options, which may not exceed 10 years (or five years in the case of an incentive stock option granted to a 10% stockholder). The Committee will determine the method of payment of the exercise price. The Committee may provide in an applicable award agreement that, to the extent a stock option is not previously exercised as to all of the ordinary shares subject thereto, and, if the fair market value of one share of our ordinary shares is greater than the exercise price then in effect, then the stock option shall be deemed automatically exercised immediately before its expiration.

Stock Appreciation Rights. The 2021 Plan permits the grant of stock appreciation rights, which entitle the holder to receive ordinary shares or cash having an aggregate value equal to the appreciation in the fair market value of our ordinary shares between the grant date and the exercise date, times the number of ordinary shares subject to the award. The exercise price of stock appreciation rights may not be less than the fair market value of our ordinary shares on the date of grant. Each stock appreciation rights agreement will set forth the vesting schedule of the stock appreciation rights. The Committee may provide in an applicable award agreement that, to the extent a stock appreciation right is not previously exercised as to all of the ordinary shares subject thereto, and, if the fair market value of one share of our ordinary shares is greater than the exercise price then in effect, then the stock appreciation right shall be deemed automatically exercised immediately before its expiration.

Restricted Stock and Restricted Stock Units. The 2021 Plan permits the grant of restricted stock and restricted stock units. Restricted stock awards are grants of ordinary shares, subject to certain condition and restrictions as specified in the applicable award agreement. Restricted stock units represent the right to receive ordinary shares (or a cash amount equal to the value of our ordinary shares) on future specified dates. The Committee will determine the form or forms in which payment of the amount owing upon settlement of a restricted stock unit may be made.

Performance Awards. The 2021 Plan permits the grant of performance awards which are payable upon the achievement of performance goals determined by the Committee. The Committee may, in its discretion, increase or reduce the amount of a settlement otherwise to be made in connection with a performance award.

Other Cash-Based Awards and Other Stock-Based Awards. The 2021 Plan permits the grant of other cash-based and other stock-based awards, the terms and conditions of which will be determined by the Committee and specified in the applicable award agreement.

Separation from Service. In the event of a participant's separation from service, as defined in the 2021 Plan, the Committee may determine the extent to which an award may be exercised, settled, vested, paid or forfeited prior to the end of a performance period, or the effect of such separation on the vesting, exercise or settlement of an award.

Change in Control. In the event of a change in control, as defined in the 2021 Plan, the Committee may take certain actions with respect to outstanding awards, including the continuation or assumption of awards, substitution or replacement of awards by a successor entity, acceleration of vesting and lapse of restrictions, determination of the attainment of performance conditions for performance awards or cancellation of awards in consideration of a payment.

Dissolution or Liquidation. In the event of the dissolution or liquidation of our company, each award will be terminated immediately prior to the consummation of such action, unless otherwise determined by the Committee.

No Repricing. Except pursuant to an adjustment by the Committee permitted under the 2021 Plan, no action may directly or indirectly reduce the exercise or hurdle price of any award established at the time of grant without stockholder approval.

Plan Amendment or Suspension. The Committee has the authority to amend, suspend, discontinue or terminate the 2021 Plan, provided that no such action may be taken without stockholder approval if the approval is necessary to comply with a tax or regulatory requirement or other applicable law for which the Committee deems it necessary or desirable to comply. No amendment may in general adversely and materially affect a participant's rights under any award without such participant's written consent.

Term of the Plan. No awards may be granted under the 2021 Plan after the earlier of the following events: (i) our board of directors terminates the plan, (ii) the maximum number of shares available for issuance has been issued or (iii) 10 years from the effective date of the 2021 Plan.

Credo Technology Group Holding Ltd Employee Stock Purchase Plan

We have adopted, subject to the approval of our shareholders, the Credo Technology Group Holding, Ltd Employee Stock Purchase Plan (ESPP), which will be effective in connection with the closing of this offering. The ESPP will be administered by our compensation committee unless another committee is designated by our board of directors (in either event, the ESPP Committee).

The maximum number of ordinary shares available for issuance under the ESPP will not exceed a number of shares equal to 2.1% of the total number of ordinary shares outstanding at the time of the completion of this offering (on a fully-diluted basis). The total number of Ordinary Shares available for purchase under the ESPP will increase on the first day of each fiscal year following the effective date of

the ESPP in an amount equal to up to 1% of the ordinary shares issued and outstanding (on a fully-diluted basis) on the last day of the immediately preceding year as determined by the ESPP Committee in its discretion; provided that the maximum number of shares that may be issued under the ESPP in any event will be a maximum of ten times the number of shares initially reserved for issuance under the ESPP. The number of ordinary shares available at any time under the ESPP will be subject to adjustment in the event of a dividend or other distribution (whether in the form of cash, ordinary shares, or other property), recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase or exchange of ordinary shares or other securities of us, or other similar event.

Our employees or employees of certain of our subsidiaries (each, a Participating Subsidiary) may be required to satisfy one or more of the following service requirements before participating in the ESPP, as determined by our ESPP Committee: (i) customary employment with us or a Participating Subsidiary for more than 20 hours per week and more than five months per calendar year, or (ii) continuous employment with us or a Participating Subsidiary for at least six months prior to the first date of an offering. An employee may not be granted options to purchase stock under the ESPP if such employee (a) immediately after the grant would own stock possessing 5% or more of the total combined voting power or value of our ordinary shares, (b) holds rights to purchase stock under the ESPP that would accrue at a rate that exceeds \$25,000 based on the fair market value of our stock for each calendar year that the options remain outstanding or (c) is a member of our board of directors.

Each offering will have one or more purchase dates on which ordinary shares will be purchased for the employees who are participating in the offering. The ESPP Committee, in its discretion, will determine the terms of offerings under the ESPP. The ESPP permits participating employees to purchase ordinary shares through payroll deductions in an amount equal to at least 1%, but not more than 15% of the employee's compensation. The purchase price of the ordinary shares will be not less than 85% (or such greater percentage as designated by the ESPP Committee) of the fair market value of our ordinary shares on the date of purchase.

In the event of a specified corporate transaction, such as a merger, amalgamation or acquisition of stock or property, a successor corporation may assume or substitute each outstanding option. If the successor corporation does not assume or substitute the outstanding options, the offering in progress will be shortened and a new exercise date will be set. Employees' options will be exercised on the new exercise date and such options will terminate immediately thereafter. Notwithstanding the foregoing, in the event of a specified corporate transaction, the ESPP Committee may elect to terminate all outstanding offerings.

The ESPP is intended to qualify as an employee stock purchase plan under Section 423 of the Code. The ESPP will remain in effect for ten years following the effective date of the ESPP unless terminated earlier by the ESPP Committee in accordance with the terms of the ESPP. Our ESPP Committee has the authority to amend, suspend or terminate the ESPP at any time and for any reason.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

We describe below transactions and series of similar transactions, during our last three fiscal years or currently proposed, to which we were a party or will be a party, in which:

- the amounts involved exceeded or will exceed \$120,000; and
- any of our directors, executive officers or beneficial holders of more than 5% of any class of our voting securities had or will have a direct or indirect material interest.

Other than as described below, there have not been, nor are there any currently proposed, transactions or series of similar transactions meeting this criteria to which we have been or will be a party other than compensation arrangements, which are described where required under “Management—Board Structure and Compensation of Directors” and “Executive Compensation.”

Convertible Preferred Share Financings

Series D Convertible Preferred Share Financing

From March 2020 through June 2020, we issued and sold an aggregate of 20,027,628 of our Series D convertible preferred shares in multiple closings at a purchase price of \$4.9931 per share, for aggregate gross proceeds of approximately \$100.0 million.

Series D+ Convertible Preferred Share Financing

In December 2020 and May 2021, we issued and sold an aggregate of 9,880,977 of our Series D+ convertible preferred shares in multiple closings at a purchase price of at \$5.80517 per share, for aggregate gross proceeds of approximately \$57.4 million.

The following table sets forth the aggregate number of our convertible preferred shares acquired by our directors, officers and beneficial owners of more than 5% of our voting securities in the financing transactions described above.

| Investor ⁽¹⁾ | Series D Preferred Shares | Series D+ Preferred Shares |
|---|---------------------------------|----------------------------------|
| Lip-Bu Tan ⁽²⁾ | 1,902,623 | 1,576,815 |
| Entities affiliated with Celesta Capital ⁽³⁾ | 1,742,403 | 982,641 |
| Pin-Nan Tseng ⁽⁴⁾ | 300,414 | 36,258 |

(1) Additional details regarding these participants and their equity holdings are provided in “Principal and Selling Shareholders.”

(2) Consists of the shares purchased by Celesta Capital as described in note (3) below; 500,658 Series D+ convertible preferred shares purchased by China Walden Venture Investments II, L.P.; and 160,220 Series D convertible preferred shares and 93,516 Series D+ convertible preferred shares purchased by A&E Investment LLC. Mr. Tan, a member of our board of directors, is the Managing Director of China Walden Venture Investment II G.P., Ltd, which is the general partner of China Walden Venture Investments II, L.P., and the Manager of A&E Investment LLC, an entity owned by Mr. Tan’s family trust for which Mr. Tan is a joint trustee.

(3) Consists of 200,276 Series D convertible preferred shares and 324,405 Series D+ convertible preferred shares purchased by Celesta Capital II, L.P. and 1,542,127 Series D convertible preferred shares and 658,236 Series D+ convertible preferred shares purchased by Celesta Capital III, L.P (together with Celesta Capital II, L.P., Celesta Capital). Mr. Tan, a member of our board of directors, is the Managing Director of each of Celesta Capital GP II, Ltd., which is the general partner of Celesta Capital II, L.P., and Celesta Capital GP III, LLC, which is the general partner of Celesta Capital III, L.P.

(4) Consists of 200,276 Series D convertible preferred shares and 22,776 Series D+ convertible preferred shares purchased by Capital TEN II, Inc.; 100,138 Series D convertible preferred shares and 11,388 Series D+ convertible preferred shares purchased by Superior Intent Co., Ltd.; and 2,094 Series D+ convertible preferred

shares purchased directly by Mr. Tseng. Mr. Tseng is a Director of each of Capital TEN II, Inc. and Superior Intent Co., Ltd. and was a member of our board of directors at the time of the transactions.

Tender Offer

In July 2020, we conducted a tender offer of an aggregate of 8,032,128 of our ordinary shares and eligible options, at a cash price per ordinary share or eligible option of \$4.98, with our founders and service providers. In August 2020, we purchased an aggregate of 6,875,822 ordinary shares pursuant to the tender offer, for an aggregate purchase price of \$34.2 million.

The following table sets forth the aggregate number of our ordinary shares that we purchased from our directors, officers and beneficial owners of more than 5% of our voting securities in the tender offer:

| Seller ⁽¹⁾ | Ordinary Shares | Aggregate Purchase Price |
|--|-----------------|--------------------------|
| William Brennan ⁽²⁾ | 1,140,000 | \$5,677,200 |
| Daniel Fleming ⁽³⁾ | 160,000 | \$796,800 |
| Adam Thorngate-Gottlund ⁽⁴⁾ | 40,000 | \$199,200 |
| Chi Fung Cheng ⁽⁵⁾ | 1,391,288 | \$6,928,614 |
| Yat Tung Lam ⁽⁶⁾ | 1,300,000 | \$6,474,000 |

(1) Additional details regarding these participants and their equity holdings are provided in “Principal and Selling Shareholders.”

(2) Consists of 1,140,000 ordinary shares sold by The Brennan Family Trust, DTD 09/06/2002. Mr. Brennan is our President, Chief Executive Officer and a member of our board of directors and was our Secretary at the time of the transaction.

(3) Consists of (i) 50,000 ordinary shares and (ii) 110,000 ordinary shares issuable pursuant to eligible options. Mr. Fleming is our Chief Financial Officer.

(4) Consists of 40,000 ordinary shares issuable pursuant to eligible options. Mr. Thorngate-Gottlund is our General Counsel.

(5) Consists of 1,391,288 ordinary shares. Mr. Cheng is our Chief Technology Officer and a member of our board of directors.

(6) Consists of 1,300,000 ordinary shares sold by Mr. Lam's mother. Mr. Lam is our Chief Operating Officer and a member of our board of directors.

Registration Rights

Pursuant to our amended and restated members agreement, certain holders of our voting securities have the right to demand that we file a registration statement or request that their shares be covered by a registration statement that we are otherwise filing. See the section titled “Description of Share Capital—Registration Rights” for additional information regarding these registration rights.

Participation Rights; Information Rights

The amended and restated members agreement provides certain holders of our voting securities pro rata participation rights in sales by us of new securities and rights to receive certain financial information relating to us. No such holder is entitled under our amended and restated members agreement to participate in this offering. In addition, the participation rights set forth in our amended and restated members agreement will terminate effective upon the consummation of this offering, and the rights to receive certain financial information relating to us set forth in our amended and restated members agreement will terminate effective upon the effectiveness of the registration statement of which this prospectus forms a part.

Right of First Refusal

Pursuant to our amended and restated right of first refusal and co-sale agreement, we and certain holders of our securities have a right to purchase ordinary shares proposed to be sold to other parties by our founders, William Brennan, Chi Fung Cheng, Yat Tung Lam and Runsheng He, each of whom is a member of our board of directors, subject to certain exceptions. Our and our holders' rights of first refusal will terminate upon the completion of this offering.

Voting Agreement

We are party to an amended and restated voting agreement under which certain holders of our voting securities, including the holders of more than 5% of our outstanding shares, have agreed as to the manner in which they will vote their shares of our voting securities on certain matters, including with respect to the election of directors. Upon the completion of this offering, the amended and restated voting agreement will terminate, and none of our shareholders will have any special rights regarding the election or designation of members of our board of directors.

Indemnification Agreements

We have also entered into indemnification agreements with our directors and executive officers under which we have agreed to indemnify each such person and hold him harmless against expenses, judgments, fines and amounts payable under settlement agreements in connection with any threatened, pending or completed action, suit or proceeding to which he has been made a party or in which he became involved by reason of the fact that he is or was our director or officer. Except with respect to expenses to be reimbursed by us in the event that the indemnified person has been successful on the merits or otherwise in defense of the action, suit or proceeding, our obligations under the indemnification agreements are subject to certain customary restrictions and exceptions. The indemnification agreements are governed under Cayman Islands law or New York law.

Policies and Procedures for Related Party Transactions

Our board of directors has approved a policy, effective immediately prior to the completion of this offering, that our executive officers, directors, nominees for election as a director, beneficial owners of more than 5% of any class of our voting securities and any members of the immediate family of any of the foregoing persons are not permitted to enter into a related person transaction with us without the prior consent of our audit committee. Any request for us to enter into a transaction with an executive officer, director, nominee for election as a director, beneficial owner of more than 5% of any class of our voting securities or any member of the immediate family of any of the foregoing persons in which the amount involved exceeds \$120,000 and such person would have a direct or indirect interest must first be presented to our audit committee for review, consideration and approval. In approving or rejecting any such proposal, our audit committee is to consider the material facts of the transaction, including, but not limited to, whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related person's interest in the transaction. We did not have a formal review and approval policy for related party transactions at the time of any of the transactions described above. However, all of the transactions described above were entered into after presentation, consideration and approval by our board of directors.

PRINCIPAL AND SELLING SHAREHOLDERS

The following table sets forth information regarding beneficial ownership of our ordinary shares as of September 30, 2021, by:

- each person whom we know to own beneficially more than 5% of our ordinary shares;
- each of the directors and named executive officers individually;
- all directors and executive officers as a group; and
- each of the selling shareholders.

In accordance with the rules of the SEC, beneficial ownership includes voting or investment power with respect to securities and includes the shares issuable pursuant to share options that are exercisable within 60 days of September 30, 2021. Shares issuable pursuant to share options are deemed outstanding for computing the percentage of the person holding such options but are not outstanding for computing the percentage of any other person. The number of ordinary shares outstanding after this offering includes ordinary shares being offered for sale by us in this offering. The percentage of beneficial ownership for the following table is based on 121,196,300 ordinary shares (including all of our convertible preferred shares on an as-converted basis) outstanding as of September 30, 2021, and ordinary shares outstanding after the completion of this offering, assuming no exercise of the underwriters' option to purchase additional shares. Unless otherwise indicated, the address for each listed shareholder is: c/o Credo Technology Group Holding Ltd, 1600 Technology Drive, San Jose, California 95110. To our knowledge, except as indicated in the footnotes to this table and pursuant to applicable community property laws, the persons named in the table have sole voting and investment power with respect to all of their ordinary shares.

| Name and Address of Beneficial Owner | No Exercise of the Option to Purchase Additional Shares | | | Assuming Full Exercise of the Option to Purchase Additional Shares | | |

* Represents beneficial ownership of less than 1%

- (1) Consists of (i) 8,111,890 shares held by Celesta Capital as described in note (3) below; (ii) 4,694,081 shares held by China Walden Venture Investments II, L.P. and (iii) 253,736 shares held by A&E Investment LLC. Mr. Tan, a member of our board of directors, is the Managing Director of China Walden Venture Investment II G.P., Ltd, which is the general partner of China Walden Venture Investments II, L.P., and is the Manager of A&E Investment LLC, an entity owned by Mr. Tan's family trust for which Mr. Tan is a joint trustee. Mr. Tan disclaims beneficial ownership of these indirectly held shares except to the extent of any pecuniary interest therein.
- (2) Consists of (i) 3,248,888 shares held directly by Mr. Lam and (ii) 5,890,000 shares held by Mr. Lam's mother, for whom Mr. Lam has a power of attorney which provides him shared voting and investment power with respect to such shares.
- (3) Consists of (i) 5,911,527 shares held by Celesta Capital II, L.P. and (ii) 2,200,363 shares held by Celesta Capital III, L.P. (together with Celesta Capital II, L.P., Celesta Capital). Mr. Tan, a member of our board of directors, is the Managing Director of each of Celesta Capital GP II, Ltd., which is the general partner of Celesta Capital II, L.P., and Celesta Capital GP III, LLC, which is the general partner of Celesta Capital III, L.P. Mr. Tan disclaims beneficial ownership of these indirectly held shares except to the extent of any pecuniary interest therein. The address for Celesta Capital is One California Street, Suite 1750, San Francisco, California, 94111.
- (4) Consists of (i) 3,844,458 shares held by Capital TEN II, Inc.; (ii) 1,922,227 shares held by Superior Intent Co., Ltd.; and (iii) 364,235 shares held directly by Mr. Tseng. Mr. Tseng is a Director of each of Capital TEN II, Inc. and Superior Intent Co. Ltd.. He holds shared voting and investment power with respect to the shares held by Capital TEN II, Inc. and Superior Intent Co., Ltd. Mr. Tseng disclaims beneficial ownership of these shares except to the extent of any pecuniary interest therein. The address for Capital TEN II Inc. is Rm. 2, 13F., No.76, Sec. 2, Dunhua S. Rd., Da'an Dist., Taipei City 106, Taiwan (R.O.C.).
- (5) Consists of 4,260,000 shares held by The Brennan Family Trust, DTD 09/06/2002 (Brennan Family Trust). Mr. Brennan, in his capacity as joint trustee of the Brennan Family Trust, holds shared voting and investment power with respect to the shares held by the Brennan Family Trust.
- (6) Consists of (i) 450,000 outstanding shares and (ii) 219,166 shares issuable pursuant to options that are vested or will vest within 60 days of September 30, 2021.
- (7) Consists of (i) 242,000 outstanding shares and (ii) 141,333 shares issuable pursuant to options that are vested or will vest within 60 days of September 30, 2021.
- (8) Consists of 52,083 shares issuable pursuant to options that are vested or will vest within 60 days of September 30, 2021.
- (9) Consists of (i) an aggregate of 46,925,566 outstanding shares and (ii) an aggregate of 730,764 issuable pursuant to options that are vested or will vest within 60 days of September 30, 2021.

DESCRIPTION OF SHARE CAPITAL

The following description of our share capital assumes the adoption of our amended and restated memorandum and articles of association, which we will file in connection with this offering. Throughout this description, we summarize the material terms of our share capital as though such amended and restated memorandum and articles of association were presently in effect. Our amended and restated memorandum and articles of association authorize the issuance of up to 1,000,000,000 ordinary shares and 50,000,000 preferred shares. Reference is made to the more detailed provisions of, and the descriptions are qualified in their entirety by reference to, our amended and restated memorandum and articles of association, a copy of which is filed with the SEC as an exhibit to the registration statement of which this prospectus is a part, and applicable law.

As of July 31, 2021, 68,836,181 ordinary shares were issued and outstanding and held of record by 124 shareholders, and 52,059,826 convertible preferred shares (which will automatically convert into 52,059,826 of our ordinary shares immediately prior to the completion of this offering), were issued and outstanding and held of record by 35 shareholders. In addition, as of July 31, 2021, 13,430,207 ordinary shares were issuable upon the exercise of options to purchase our ordinary shares, with a weighted-average exercise price of \$1.77 per share.

We are incorporated as an exempted company with limited liability under Cayman Islands law and our affairs are governed by the provisions of our amended and restated memorandum and articles of association, as amended and restated from time to time, and by the provisions of the Companies Act. A Cayman Islands company qualifies for exempted status if its operations will be conducted mainly outside of the Cayman Islands. Exempted companies are exempted from complying with certain provisions of the Companies Act. An exempted company is not required to obtain prior approval for registration or to hold an annual general meeting, and the annual return that must be filed with the Registrar of Companies in the Cayman Islands is considerably simpler than for non-exempted Cayman Islands companies. Names of shareholders are not required to be filed with the Registrar of Companies in the Cayman Islands. While there are currently no forms of direct taxation, withholding or capital gains tax in the Cayman Islands, an exempted company is entitled to apply for a tax exemption certificate from the Financial Secretary, which provides written confirmation that, among other things, should the laws of the Cayman Islands change, the company will not be subject to taxes for the period during which the certificate is valid (usually 20 years). See "Taxation—Cayman Islands Tax Considerations."

The following is a summary of some of the more important terms of our share capital that we expect will become effective on the consummation of this offering. For a complete description, you should refer to our amended and restated memorandum and articles of association, which are filed as an exhibit to the registration statement of which this prospectus forms a part, and the applicable provisions of the Companies Act.

Ordinary Shares

General

All of our issued and outstanding ordinary shares are fully paid and non-assessable. The ordinary shares are issued in registered form. Our ordinary shares are not entitled to any sinking fund or pre-emptive or redemption rights. Our shareholders may freely hold and vote their shares.

Dividends

The holders of our ordinary shares are entitled to such dividends as may be declared by our board of directors subject to the Companies Act. Dividends may be paid only out of profits, which include net earnings and retained earnings undistributed in prior years, and out of share premium, a concept analogous to paid-in surplus in the United States, subject to a statutory solvency test.

Voting Rights

Each shareholder is entitled to one vote for each ordinary share on all matters upon which the ordinary shares are entitled to vote, including the appointment of directors. Voting at any shareholders' meeting is by way of a poll.

A quorum required for a general meeting of shareholders consists of one or more holders of shares present in person or by proxy (or, if a corporation or other non-natural person, by its duly authorized representative) together holding (or representing by proxy) not less than a majority of the total voting power of all shares outstanding and entitled to vote. General meetings of our shareholders are held annually and may be convened by our board of directors on its own initiative. Extraordinary meetings of our shareholders may be called at any time only by or at the direction of the board of directors or the chairman of the board of directors. Advance notice to shareholders of at least 14 calendar days is required for the convening of any annual general meeting or other shareholders' meetings.

An ordinary resolution to be passed by the shareholders requires a simple majority of votes cast in a general meeting, while a special resolution requires no less than two-thirds of the votes cast. Under the Companies Act, certain matters must be approved by special resolution of the shareholders, including alteration of the memorandum or articles of association, reduction of share capital, change of name, or voluntary winding up the company.

If at any time, our issued share capital is divided into separate classes of shares, the rights attaching to any class may be varied, modified or abrogated with the approval of a resolution passed by a majority of not less than two-thirds of the votes cast at a separate meeting of the holders of the shares of that class at which a quorum is present. The quorum applicable to such separate meeting is at least one person holding or representing by proxy at least one-third of the par value of the issued shares of the class.

Liquidation

On a return of capital on winding up or otherwise (other than on conversion, redemption or purchase of shares), assets available for distribution among the holders of ordinary shares shall be distributed among the holders of the ordinary shares in accordance with the Companies Act and our amended and restated memorandum and articles of association. If our assets available for distribution are insufficient to repay all of the paid-up capital, the assets will be distributed so that the losses are borne by our shareholders proportionately.

Inspection of Books and Records

Holders of our ordinary shares will have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or our corporate records.

Register of Members

Under Cayman Islands law, we must keep a register of members and include the following items:

- the names and addresses of the members, a statement of the shares held by each member, the amount paid or agreed to be considered as paid on the shares of each member and the voting rights of each member;
- the date on which the name of any person was entered on the register as a member; and
- the date on which any person ceased to be a member.

Under Cayman Islands law, the register of members is prima facie evidence of the matters set forth therein (i.e., the register will raise a presumption of fact on the matters referred to above unless rebutted), and a member registered in the register of members shall be deemed as a matter of Cayman Islands law

to have legal title to the shares as set against its name in the register of members. Upon the closing of this offering, the register of members shall be immediately updated to reflect the shares that we will have issued in connection with this offering. Once our register of members has been updated, the shareholders recorded in the register of members shall be deemed to have legal title to the shares set against their names. If the name of any person is incorrectly entered in or omitted from our register of members, or if there is any default or unnecessary delay in updating the register for any person that has ceased to be a member of our company, such aggrieved person or member (or any member of our company or our company itself) may apply to the Cayman Islands Grand Court for an order that the register be rectified, and the Court may either refuse such application or, if satisfied with the justice of the case, order the register be rectified.

Undesignated Preferred Shares

Pursuant to our amended and restated articles of association, our board of directors has the authority, without further action by the shareholders, to issue up to 50,000,000 preferred shares in one or more series and to designate the price, rights, preferences, privileges and restrictions of such preferred shares without any further vote or action by our shareholders, any or all of which may be greater than the rights of the ordinary shares. If an application for an order for rectification of the register of members were made in respect of our ordinary shares, then the validity of such shares may be subject to re-examination by a Cayman Islands court.

Registration Rights

After the completion of this offering, under our amended and restated members agreement, as amended, the holders of of our ordinary shares or their transferees have the right to require us to register the offer and sale of their shares, or to include their shares in any registration statement we file, in each case as described below.

Demand Registration Rights

After the completion of this offering, the holders of these registration rights will be entitled to certain demand registration rights. At any time beginning 180 days after the consummation of this offering, the holders of at least 50% of the shares having registration rights then outstanding can request that we file a registration statement to register the offer and sale of their shares. We are only obligated to effect up to two such registrations. Each such request for registration must cover securities the anticipated aggregate gross proceeds of which is at least \$25.0 million. These demand registration rights are subject to specified conditions and limitations, including the right of the underwriters to limit the number of shares included in any such registration under certain circumstances. If we determine that it would be materially detrimental to us and our shareholders to effect such a demand registration, we have the right to defer such registration, not more than twice in any twelve-month period, for a period of up to 60 days.

Form S-3 Registration Rights

After the completion of this offering, the holders of registration rights will be entitled to certain Form S-3 registration rights. At any time when we are eligible to file a registration statement on Form S-3, the holders of the shares having these rights then outstanding can request that we register the offer and sale of their ordinary shares on a registration statement on Form S-3 so long as the request covers securities the anticipated aggregate public offering price of which is at least \$2.0 million. These shareholders may make an unlimited number of requests for registration on a registration statement on Form S-3. However, we will not be required to effect a registration on Form S-3 if we have effected two such registrations within the twelve-month period preceding the date of the request. These Form S-3 registration rights are subject to specified conditions and limitations, including the right of the underwriters to limit the number of shares included in any such registration under certain circumstances. Additionally, if we determine that it would be seriously detrimental to us and our shareholders to effect such a demand registration, we have the right to defer such registration, not more than twice in any twelve-month period, for a period of up to 60 days.

Piggyback Registration Rights

After the completion of this offering, the holders of registration rights will be entitled to certain “piggyback” registration rights. If we propose to register the offer and sale of our ordinary shares under the Securities Act, all holders of these shares then outstanding can request that we include their shares in such registration, subject to certain marketing and other limitations, including the right of the underwriters to limit the number of shares included in any such registration under certain circumstances. As a result, whenever we propose to file a registration statement under the Securities Act, other than with respect to: (i) a registration related to any employee benefit plan, (ii) a corporate reorganization or other transaction covered by Rule 145 promulgated under the Securities Act or (iii) a registration pursuant to the demand registration rights described above.

Expenses of Registration

We will pay expenses relating to any demand registrations, Form S-3 registrations and piggyback registrations, subject to specified exceptions, of up to \$30,000 for one special counsel for the participating holders.

Termination

The registration rights terminate upon the earliest of: (i) upon the closing of a change of control; (ii) as to a given holder of registration rights, the date after the completion of this offering when such holder of registration rights can sell all of such holder's registrable securities during any three-month period pursuant to Rule 144 promulgated under the Securities Act without limitations; and (iii) the date that is five years after the completion of this offering.

Anti-Takeover Provisions of our Amended and Restated Memorandum and Articles of Association

Some provisions of our amended and restated memorandum and articles of association may discourage, delay or prevent a change of control of our company or management that shareholders might otherwise view as favorable and are intended to enhance the likelihood of continuity and stability in the composition of our board of directors and to discourage certain types of transactions that may involve an actual or threatened acquisition of our company. These provisions are intended to avoid costly takeover battles, reduce our vulnerability to a hostile change in control or other unsolicited acquisition proposal and enhance the ability of our board of directors to maximize shareholder value in connection with any unsolicited offer to acquire us. However, these provisions may have the effect of delaying, deterring or preventing a merger or acquisition of our company by means of a tender offer, a proxy contest or other takeover attempt that a shareholder might consider in its best interest, including attempts that might result in a premium over the prevailing market price for our ordinary shares.

Classified Board of Directors

Our amended and restated memorandum and articles of association provide that our board of directors is classified into three classes of directors with staggered three year terms. A third party may be discouraged from making a tender offer or otherwise attempting to obtain control of us as it is more difficult and time consuming for shareholders to replace a majority of the directors on a classified board of directors. See “Management—Board Structure and Compensation of Directors.”

Breaches of Fiduciary Duty

To the maximum extent permitted under Cayman Islands law, our amended and restated memorandum and articles of association will indemnify our directors against any personal liability of our directors for breaches of fiduciary duty.

Removal of Directors

Our amended and restated memorandum and articles of association provides that directors may be removed by our shareholders only for cause upon a special resolution passed by our shareholders.

Vacancies

In addition, our amended and restated memorandum and articles of association also provides that any newly created directorship on the board of directors that results from an increase in the number of directors and any vacancy occurring in the board of directors may be filled only by a majority of the remaining directors, even if less than a quorum, or by a sole remaining director (and not by the shareholders). Our amended and restated memorandum and articles of association provides that the board of directors may increase the number of directors by the affirmative vote of a majority of the directors.

Board Quorum

Our amended and restated memorandum and articles of association provides that at any meeting of the board of directors, a majority of the total number of authorized directors constitutes a quorum for all purposes.

Shareholder Action by Written Resolution

Our amended and restated memorandum and articles of association will preclude shareholder action by written resolutions except for unanimous written resolutions.

Extraordinary Shareholder Meetings

Our amended and restated memorandum and articles of association limits the ability of shareholders to requisition and convene general meetings of shareholders and provides that extraordinary meetings of our shareholders may be called at any time only by or at the direction of the board of directors or the chairman of the board of directors.

Supermajority Provisions

Cayman Islands law and our amended and restated memorandum and articles of association provide that the affirmative vote of at least two-thirds of our outstanding ordinary shares attending and voting at a general meeting or a unanimous written resolution is required to amend our amended and restated memorandum and articles of association.

The combination of the foregoing provisions will make it more difficult for our existing shareholders to replace our board of directors as well as for another party to obtain control of us by replacing our board of directors. Because our board of directors has the power to retain and discharge our officers, these provisions could also make it more difficult for existing shareholders or another party to effect a change in management. However, under Cayman Islands law, our directors may only exercise the rights and powers granted to them under our amended and restated memorandum and articles of association for a proper purpose and for what they believe in good faith to be in the best interests of our company.

Comparison of Cayman Islands Corporate Law

Cayman Islands companies are governed by the Companies Act. The Companies Act is modeled on English Law but does not follow recent English Law statutory enactments, and differs from laws applicable to United States corporations and their shareholders. Set forth below is a summary of the material differences between the provisions of the Companies Act applicable to us and the laws applicable to companies incorporated in the United States and their shareholders.

Mergers and Similar Arrangements

In certain circumstances the Companies Act allows for mergers or consolidations between two or more Cayman Islands companies, or between one or more Cayman Islands companies and one or more companies incorporated in another jurisdiction (provided that is permitted or not prohibited by the laws of that other jurisdiction).

Where the merger or consolidation is between two Cayman Islands companies, the directors of each company must approve a written plan of merger or consolidation containing certain prescribed information. That plan or merger or consolidation must then be authorized by either (i) a special resolution of the shareholders of each company; or (ii) such other authorization, if any, as may be specified in such constituent company's articles of association. No shareholder resolution is required for a merger between a parent company (i.e., a company that owns at least 90% of the issued shares of each class in a subsidiary company) and its subsidiary company. The consent of each holder of a fixed or floating security interest of a constituent company must be obtained, unless the court waives such requirement. If the Cayman Islands Registrar of Companies is satisfied that the requirements of the Companies Act (which includes certain other formalities) have been complied with, the Registrar of Companies will register the plan of merger or consolidation.

Where the merger or consolidation involves a foreign company, the procedure is similar, save that with respect to the foreign company, the director of the Cayman Islands company is required to make a declaration to the effect that, having made due inquiry, he is of the opinion that the requirements set out below have been met: (i) that the merger or consolidation is permitted or not prohibited by the constitutional documents of the foreign company and by the laws of the jurisdiction in which the foreign company is incorporated, and that those laws and any requirements of those constitutional documents have been or will be complied with; (ii) that no petition or other similar proceeding has been filed and remains outstanding or order made or resolution adopted to wind up or liquidate the foreign company in any jurisdictions; (iii) that no receiver, trustee, administrator or other similar person has been appointed in any jurisdiction and is acting in respect of the foreign company, its affairs or its property or any part thereof; (iv) that no scheme, order, compromise or other similar arrangement has been entered into or made in any jurisdiction whereby the rights of creditors of the foreign company are and continue to be suspended or restricted.

Where the surviving company is the Cayman Islands company, the director of the Cayman Islands company is further required to make a declaration to the effect that, having made due enquiry, he is of the opinion that the requirements set out below have been met: (i) that the foreign company is able to pay its debts as they fall due and that the merger or consolidated is bona fide and not intended to defraud unsecured creditors of the foreign company; (ii) that in respect of the transfer of any security interest granted by the foreign company to the surviving or consolidated company (a) consent or approval to the transfer has been obtained, released or waived; (b) the transfer is permitted by and has been approved in accordance with the constitutional documents of the foreign company; and (c) the laws of the jurisdiction of the foreign company with respect to the transfer have been or will be complied with; (iii) that the foreign company will, upon the merger or consolidation becoming effective, cease to be incorporated, registered or exist under the laws of the relevant foreign jurisdiction; and (iv) that there is no other reason why it would be against the public interest to permit the merger or consolidation.

Where the above procedures are adopted, the Companies Act provides for a right of dissenting shareholders to be paid a payment of the fair value of his shares upon their dissenting to the merger or consolidation if they follow a prescribed procedure. In essence, that procedure is as follows: (i) the shareholder must give his written objection to the merger or consolidation to the constituent company before the vote on the merger or consolidation, including a statement that the shareholder proposes to demand payment for his shares if the merger or consolidation is authorized by the vote; (ii) within 20 days following the date on which the merger or consolidation is approved by the shareholders, the constituent company must give written notice to each shareholder who made a written objection; (iii) a shareholder must within 20 days following receipt of such notice from the constituent company, give the constituent

company a written notice of his intention to dissent including, among other details, a demand for payment of the fair value of his shares; (iv) within seven days following the date of the expiration of the period set out in paragraph (ii) above or seven days following the date on which the plan of merger or consolidation is filed, whichever is later, the constituent company, the surviving company or the consolidated company must make a written offer to each dissenting shareholder to purchase his shares at a price that the company determines is the fair value and if the company and the shareholder agree the price within 30 days following the date on which the offer was made, the company must pay the shareholder such amount; (v) if the company and the shareholder fail to agree a price within such 30-day period, within 20 days following the date on which such 30-day period expires, the company (and any dissenting shareholder) must file a petition with the Cayman Islands Grand Court to determine the fair value and such petition must be accompanied by a list of the names and addresses of the dissenting shareholders with whom agreements as to the fair value of their shares have not been reached by the company. At the hearing of that petition, the court has the power to determine the fair value of the shares together with a fair rate of interest, if any, to be paid by the company upon the amount determined to be the fair value. Any dissenting shareholder whose name appears on the list filed by the company may participate fully in all proceedings until the determination of fair value is reached. These rights of a dissenting shareholder are not available in certain circumstances, for example, to dissenters holding shares of any class in respect of which an open market exists on a recognized stock exchange or recognized interdealer quotation system at the relevant date or where the consideration for such shares to be contributed are shares of any company listed on a national securities exchange or shares of the surviving or consolidated company.

Moreover, Cayman Islands law also has separate statutory provisions that facilitate the reconstruction or amalgamation of companies in certain circumstances, schemes of arrangement will generally be more suited for complex mergers or other transactions involving widely held companies, commonly referred to in the Cayman Islands as a “scheme of arrangement” which may be tantamount to a merger. In the event that a merger was sought pursuant to a scheme of arrangement (the procedure of which are more rigorous and take longer to complete than the procedures typically required to consummate a merger in the United States), the arrangement in question must be approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made and who must in addition represent three-fourths in value of each such class of shareholders or creditors, as the case may be, that are present and voting either in person or by proxy at a meeting, or meeting summoned for that purpose. The convening of the meetings and subsequently the terms of the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder would have the right to express to the court the view that the transaction should not be approved, the court can be expected to approve the arrangement if it satisfies itself that:

- we are not proposing to act illegally or beyond the scope of our corporate authority and the statutory provisions as to majority vote have been complied with;
- the shareholders have been fairly represented at the meeting in question;
- the arrangement is such as a businessman would reasonably approve; and
- the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Act or that would amount to a “fraud on the minority.”

If a scheme of arrangement or takeover offer (as described below) is approved, any dissenting shareholder would have no rights comparable to appraisal rights, which would otherwise ordinarily be available to dissenting shareholders of United States corporations, providing rights to receive payment in cash for the judicially determined value of the shares.

Squeeze-Out Provisions

When a takeover offer is made and accepted by holders of 90% of the shares to whom the offer is made within four months, the offeror may, within a two-month period, require the holders of the remaining

shares to transfer such shares on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands but this is unlikely to succeed unless there is evidence of fraud, bad faith, collusion or inequitable treatment of the shareholders.

Further, transactions similar to a merger, reconstruction and/or an amalgamation may in some circumstances be achieved through other means to these statutory provisions, such as a share capital exchange, asset acquisition or control, through contractual arrangements, of an operating business.

Shareholders' Suits

Our Cayman Islands counsel is not aware of any reported class action having been brought in a Cayman Islands court. Derivative actions have been brought in the Cayman Islands courts, and the Cayman Islands courts have confirmed the availability for such actions. In most cases, we will be the proper plaintiff in any claim based on a breach of duty owed to us, and a claim against (for example) our officers or directors usually may not be brought by a shareholder. However, based on English authorities, which would in all likelihood be of persuasive authority and be applied by a court in the Cayman Islands, exceptions to the foregoing principle apply in circumstances in which:

- a company is acting, or proposing to act, illegally or beyond the scope of its authority;
- the act complained of, although not beyond the scope of the authority, could be effected if duly authorized by more than the number of votes which have actually been obtained; or
- those who control the company are perpetrating a "fraud on the minority."

A shareholder may have a direct right of action against us where the individual rights of that shareholder have been infringed or are about to be infringed.

Enforcement of Civil Liabilities

The Company has been advised by its Cayman Islands legal counsel, Maples and Calder (Cayman) LLP, that the courts of the Cayman Islands are unlikely (i) to recognize or enforce against the Company judgments of courts of the United States predicated upon the civil liability provisions of the securities laws of the United States or any State; and (ii) in original actions brought in the Cayman Islands, to impose liabilities against the Company predicated upon the civil liability provisions of the securities laws of the United States or any State, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be in respect of taxes or a fine or penalty, inconsistent with a Cayman Islands judgment in respect of the same matter, impeachable on the grounds of fraud or obtained in a manner, and/or being of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

Limitations on Liability and Indemnification Matters

See "Management—Indemnification and Insurance."

Anti-Money Laundering—Cayman Islands

If any person in the Cayman Islands knows or suspects, or has reasonable grounds for knowing or suspecting that another person is engaged in criminal conduct or money laundering, or is involved with

terrorism or terrorist financing and property, and the information for that knowledge or suspicion came to their attention in the course of business in the regulated sector, or other trade, profession, business or employment, the person will be required to report such knowledge or suspicion to (i) the Financial Reporting Authority of the Cayman Islands (FRA) pursuant to the Proceeds of Crime Act (As Revised) of the Cayman Islands, if the disclosure relates to criminal conduct or money laundering, or (ii) a police officer of the rank of constable or higher, or the FRA, pursuant to the Terrorism Act (As Revised) of the Cayman Islands, if the disclosure relates to involvement with terrorism or terrorist financing and property.

Cayman Islands Data Protection

We have certain duties under the Data Protection Act (As Revised) of the Cayman Islands (DPA) based on internationally accepted principles of data privacy.

Privacy Notice

Introduction

This privacy notice puts our shareholders on notice that through your investment in the Company you will provide us with certain personal information which constitutes personal data within the meaning of the DPA (personal data).

In the following discussion, the "Company" refers to us and our affiliates and/or delegates, except where the context requires otherwise.

Investor Data

We will collect, use, disclose, retain and secure personal data to the extent reasonably required only and within the parameters that could be reasonably expected during the normal course of business. We will only process, disclose, transfer or retain personal data to the extent legitimately required to conduct our activities on an ongoing basis or to comply with legal and regulatory obligations to which we are subject. We will only transfer personal data in accordance with the requirements of the DPA, and will apply appropriate technical and organizational information security measures designed to protect against unauthorized or unlawful processing of the personal data and against the accidental loss, destruction or damage to the personal data.

In our use of this personal data, we will be characterized as a "data controller" for the purposes of the DPA, while our affiliates and service providers who may receive this personal data from us in the conduct of our activities may either act as our "data processors" for the purposes of the DPA or may process personal information for their own lawful purposes in connection with services provided to us.

We may also obtain personal data from other public sources. Personal data includes, without limitation, the following information relating to a shareholder and/or any individuals connected with a shareholder as an investor: name, residential address, email address, contact details, corporate contact information, signature, nationality, place of birth, date of birth, tax identification, credit history, correspondence records, passport number, bank account details, source of funds details and details relating to the shareholder's investment activity.

Who This Affects

If you are a natural person, this will affect you directly. If you are a corporate investor (including, for these purposes, legal arrangements such as trusts or exempted limited partnerships) that provides us with personal data on individuals connected to you for any reason in relation your investment in the Company, this will be relevant for those individuals and you should transmit the content of this Privacy Notice to such individuals or otherwise advise them of its content.

How the Company May Use a Shareholder's Personal Data

The Company, as the data controller, may collect, store and use personal data for lawful purposes, including, in particular:

- where this is necessary for the performance of our rights and obligations under any purchase agreements;
- where this is necessary for compliance with a legal or regulatory obligation to which we are subject (such as compliance with anti-money laundering and FATCA/CRS requirements); and/or
- where this is necessary for the purposes of our legitimate interests and such interests are not overridden by your interests, fundamental rights or freedoms.

Should we wish to use personal data for other specific purposes (including, if applicable, any purpose that requires your consent), we will contact you.

Why We May Transfer Your Personal Data

In certain circumstances we may be legally obliged to share personal data and other information with respect to your shareholding with the relevant regulatory authorities such as the Cayman Islands Monetary Authority or the Tax Information Authority. They, in turn, may exchange this information with foreign authorities, including tax authorities.

We anticipate disclosing personal data to persons who provide services to us and their respective affiliates (which may include certain entities located outside the US, the Cayman Islands or the European Economic Area), who will process your personal data on our behalf.

The Data Protection Measures We Take

Any transfer of personal data by us or our duly authorized affiliates and/or delegates outside of the Cayman Islands shall be in accordance with the requirements of the DPA.

We and our duly authorized affiliates and/or delegates shall apply appropriate technical and organizational information security measures designed to protect against unauthorized or unlawful processing of personal data, and against accidental loss or destruction of, or damage to, personal data.

We shall notify you of any personal data breach that is reasonably likely to result in a risk to your interests, fundamental rights or freedoms or those data subjects to whom the relevant personal data relates.

Listing

We have applied to list our ordinary shares on The Nasdaq Global Select Market under the symbol "CRDO."

Transfer Agent and Registrar

Computershare Trust Company, N.A. is acting as transfer agent and registrar for our ordinary shares. The transfer agent's address is 150 Royall Street, Canton, Massachusetts 02021.

TAXATION

The following summary contains a description of certain Cayman Islands and U.S. federal income tax consequences of the acquisition, ownership and disposition of our ordinary shares. It does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase our ordinary shares, is not applicable to all categories of investors, some of which may be subject to special rules, and does not address all of the Cayman Islands and U.S. federal income tax considerations applicable to any particular holder. The summary is based upon the tax laws of the Cayman Islands and regulations thereunder and upon the tax laws of the United States and regulations thereunder as of the date hereof, which are subject to change.

Prospective purchasers of our ordinary shares should consult their own tax advisers about the particular Cayman Islands and U.S. federal, state, local and other tax consequences to them of the acquisition, ownership and disposition of our ordinary shares.

Cayman Islands Tax Considerations

The following is a discussion on certain Cayman Islands income tax consequences of an investment in the shares. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances, and does not consider tax consequences other than those arising under Cayman Islands law.

Under Existing Cayman Islands Laws

Payments of dividends and capital in respect of the shares will not be subject to taxation in the Cayman Islands and no withholding will be required on the payment of interest and principal or a dividend or capital to any holder of the shares, as the case may be, nor will gains derived from the disposal of the shares be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax.

No stamp duty is payable in respect of the issue of the Shares or on an instrument of transfer in respect of a Share.

U.S. Federal Income Tax Considerations

The following are material U.S. federal income tax considerations to U.S. Holders (as defined below) of owning and disposing of our ordinary shares, but it does not purport to be a comprehensive description of all tax considerations that may be relevant to a particular person's decision to acquire our ordinary shares. This discussion applies only to a U.S. Holder that acquires ordinary shares in this offering and holds those ordinary shares as capital assets for U.S. federal income tax purposes. This discussion does not address the U.S. federal estate or gift tax or the effects of any state, local or non-U.S. tax laws. In addition, it does not describe all of the tax considerations that may be relevant in light of a U.S. Holder's particular circumstances, including alternative minimum tax considerations, the potential application of the provisions of the Code, known as the Medicare contribution tax and tax considerations applicable to a U.S. Holder subject to special rules, such as:

- one of certain financial institutions;
- a dealer or trader in securities who uses a mark-to-market method of tax accounting;
- a person holding an ordinary share as part of a straddle, wash sale, conversion transaction or integrated transaction or entering into a constructive sale with respect to an ordinary share;
- a person whose functional currency for U.S. federal income tax purposes is not the U.S. dollar;
- an entity classified as a partnership for U.S. federal income tax purposes;

- a tax-exempt entity, including an “individual retirement account” or “Roth IRA”; or
- a person that owns or is deemed to own ten percent or more of our shares (by vote or value).

If a partnership (or other entity or arrangement classified as a partnership for U.S. federal income tax purposes) holds our ordinary shares, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. Partnerships holding ordinary shares and partners in such partnerships should consult their tax advisers as to the particular U.S. federal income tax considerations of owning and disposing of our ordinary shares.

This discussion is based on the Code, administrative pronouncements, judicial decisions, and final, temporary and proposed Treasury regulations, all as of the date hereof, any of which is subject to change, possibly with retroactive effect.

For purposes of this discussion, a “U.S. Holder” is a beneficial owner of ordinary shares that is for U.S. federal income tax purposes:

- a citizen or individual resident of the United States;
- a corporation created or organized in or under the laws of the United States, any state therein or the District of Columbia or otherwise treated as a domestic corporation; or
- an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

Except where otherwise indicated, this discussion assumes that we are not, and will not become, PFIC, as described below.

Taxation of Distributions

In the event that we pay dividends, distributions paid on our ordinary shares will be treated as dividends for U.S. federal income tax purposes to the extent paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles). Because we do not maintain calculations of our earnings and profits under U.S. federal income tax principles, it is expected that distributions generally will be reported to U.S. Holders as dividends. Dividends will be included in a U.S. Holder’s income on the date of receipt. Subject to applicable limitations, dividends paid to a non-corporate U.S. Holder will generally be “qualified dividend income” and therefore may be taxable at rates applicable to long-term capital gains, provided that, in the year that the U.S. Holder receives the dividend, our ordinary shares are readily tradable on an established securities market in the United States. We expect that our ordinary shares will be listed on The Nasdaq Global Select Market, and we therefore expect that dividends on our ordinary shares will generally be qualified dividend income. Subject to the discussion below, the amount of any dividend will generally be treated as foreign-source dividend income, which may be relevant to a U.S. Holder in calculating its foreign tax credit limitation, and will not be eligible for the dividends-received deduction generally available to U.S. corporations under the Code. If, for United States federal income tax purposes, we are (a) classified as a “United States-owned foreign corporation” and (b) at least 10% of our earnings and profits are attributable to sources within the United States, distributions made to a U.S. Holder with respect to ordinary shares that are taxable as dividends generally will be treated for United States foreign tax credit purposes as (1) foreign source income (generally in the “passive category” basket) and (2) United States source income, in proportion to our earnings and profits in the year of such distribution allocable to foreign and United States sources, respectively. For this purpose, we will be treated as a United States-owned foreign corporation so long as shares representing 50% or more of the voting power or value of our shares are owned, directly or indirectly, by United States persons. There can be no assurance that we will not be a United States-owned foreign corporation, which could adversely affect a U.S. Holder’s foreign tax credit limitation.

Sale or Other Disposition of Ordinary Shares

For U.S. federal income tax purposes, gain or loss realized on the sale or other taxable disposition of an ordinary share will be capital gain or loss, and will be long-term capital gain or loss if a U.S. Holder has held the ordinary share for more than one year. The amount of the gain or loss will equal the difference between a U.S. Holder's tax basis in the ordinary share disposed of and the amount realized on the disposition, in each case as determined in U.S. dollars. This gain or loss will generally be U.S.-source gain or loss for foreign tax credit purposes. The deductibility of capital losses is subject to various limitations.

Passive Foreign Investment Company Rules

In general, a non-U.S. corporation is a PFIC for U.S. federal income tax purposes for any taxable year in which (i) 50% or more of the average value of its assets (generally determined on a quarterly basis) consists of assets that produce, or are held for the production of, passive income, or (ii) 75% or more of its gross income consists of passive income. For purposes of the above calculations, a non-U.S. corporation that owns, directly or indirectly, at least 25% by value of the shares of another corporation is treated as if it held its proportionate share of the assets of the other corporation and received directly its proportionate share of the income of the other corporation. Passive income generally includes dividends, interest, rents or royalties (other than certain rents or royalties earned in the conduct of an active business) and investment gains. Cash is generally a passive asset for these purposes. Goodwill is generally characterized as an active asset to the extent it is associated with business activities that produce active income.

Based on the manner in which we currently conduct our business, our current and expected composition of our income and assets and the expected value of our assets (including the value of our goodwill, which is based on the expected price of our ordinary shares), we do not expect to be a PFIC for our current taxable year. However, our PFIC status for any taxable year is an annual determination that can be made only after the end of that year and will depend on the composition of our income and assets and the value of our assets from time to time (which may be determined, in large part, by reference to the market price of our ordinary shares, which could be volatile). Because we will hold a substantial amount of cash following this offering, we may be or become a PFIC if our market capitalization declines. Accordingly, there can be no assurance that we will not be a PFIC for our current or any future taxable year. If we are a PFIC for any year during which a U.S. Holder holds ordinary shares, we would generally continue to be treated as a PFIC with respect to such holder for all succeeding years during which such holder holds ordinary shares, even if we ceased to meet the threshold requirements for PFIC status.

If we were a PFIC for any taxable year and any of our subsidiaries or other companies in which we owned or were treated as owning equity interests were also a PFIC (any such entity, a "Lower-tier PFIC"), a U.S. Holder would be deemed to own a proportionate amount (by value) of the shares of each Lower-tier PFIC and would be subject to U.S. federal income tax according to the rules described in the subsequent paragraph on (i) certain distributions by a Lower-tier PFIC; and (ii) dispositions of shares of Lower-tier PFICs, in each case as if such holder held such shares directly, even though such holder will not have received the proceeds of those distributions or dispositions.

If we were a PFIC for any taxable year during which a U.S. Holder held any of our ordinary shares, such holder would generally be subject to adverse tax consequences. Generally, gain recognized upon a disposition (including, under certain circumstances, a pledge) of ordinary shares would be allocated ratably over a U.S. Holder's holding period for the ordinary shares. The amounts allocated to the taxable year of disposition and to years before we became a PFIC would be taxed as ordinary income. The amount allocated to each other taxable year would be subject to tax at the highest rate in effect for that taxable year for individuals or corporations, as appropriate, and an interest charge would be imposed on the tax on such amount. Further, to the extent that distributions received on a U.S. Holder's ordinary shares during a taxable year, other than the taxable year in which the U.S. Holder's holding period in the ordinary shares began, exceeded 125% of the average of the annual distributions on those shares during

the preceding three years or the portion of such holder's holding period that preceded the taxable year in which it received the distribution, whichever was shorter, those excess distributions would be subject to taxation in the same manner as gain, described immediately above.

Alternatively, if we were a PFIC and if our ordinary shares were "regularly traded" on a "qualified exchange," a U.S. Holder would be eligible to make a mark-to-market election that would result in tax treatment different from the general tax treatment for PFICs described above. The ordinary shares would be treated as "regularly traded" for the year of this offering generally if more than a de minimis quantity of our ordinary shares were traded on a qualified exchange on at least 15 days during each calendar quarter. The Nasdaq Global Select Market, on which our ordinary shares are expected to be listed, is a qualified exchange for this purpose. Once made, the election cannot be revoked without the consent of the IRS unless the shares cease to be regularly traded on a qualified exchange.

If a U.S. Holder makes the mark-to-market election, such holder will generally recognize as ordinary income any excess of the fair market value of such holder's ordinary shares at the end of each taxable year over their adjusted tax basis, and will recognize an ordinary loss in respect of any excess of the adjusted tax basis of the ordinary shares over their fair market value at the end of the taxable year (but only to the extent of the net amount of income previously included as a result of the mark-to-market election). If a U.S. Holder makes the election, such holder's tax basis in its ordinary shares will be adjusted to reflect these income or loss amounts. Any gain recognized on the sale or other disposition of ordinary shares in a year when we are a PFIC will be treated as ordinary income and any loss will be treated as an ordinary loss (but only to the extent of the net amount of income previously included as a result of the mark-to-market election). This election cannot be made with respect to any of our non-U.S. subsidiaries. Accordingly, a U.S. Holder may continue to be subject to tax under the PFIC excess distribution regime with respect to any Lower-tier PFICs notwithstanding a mark-to-market election for our ordinary shares.

In addition, if we were a PFIC for any taxable year in which we paid a dividend or for the prior taxable year, the preferential dividend rates discussed above with respect to dividends paid to certain non-corporate U.S. Holders would not apply.

If a company that is a PFIC provides certain information to U.S. Holders, a U.S. Holder can then avoid certain adverse tax consequences described above by making a "qualified electing fund" election to be taxed currently on its proportionate share of the PFIC's ordinary income and net capital gains. However, because we do not intend to prepare or provide the information necessary for a U.S. Holder to make a qualified electing fund election, such election will not be available to U.S. Holders.

If a U.S. Holder owns ordinary shares during any year in which we are a PFIC, such holder must generally file an annual report on IRS Form 8621 (or any successor form) with respect to us, generally with such holder's federal income tax return for that year.

U.S. Holders should consult their tax advisers regarding whether we are a PFIC and the potential application of the PFIC rules.

Information Reporting and Backup Withholding

Payments of dividends and sales proceeds that are made within the United States or through certain U.S.-related financial intermediaries generally are subject to information reporting, and may be subject to backup withholding, unless a U.S. Holder (i) is a corporation or other exempt recipient; or (ii) in the case of backup withholding, provides a correct taxpayer identification number and certifies that such holder is not subject to backup withholding.

Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle such holder to a refund, provided that the required information is timely furnished to the IRS.

Information with Respect to Foreign Financial Assets

Certain U.S. Holders who are individuals (and certain entities) may be required to report information on their U.S. federal income tax returns relating to an interest in our ordinary shares, subject to certain exceptions (including an exception for ordinary shares held in accounts maintained by certain U.S. financial institutions). A failure to report this information as required may toll the running of the statute of limitations in respect of each taxable year for which such information is required to be reported. As a result, the taxable years with respect to which a U.S. Holder fails to report this information may remain open to assessment by the IRS. U.S. Holders should consult their tax advisers regarding the effect, if any, of this requirement on their ownership and disposition of our ordinary shares.

SHARES ELIGIBLE FOR FUTURE SALE

Prior to this offering, there has been no market for our ordinary shares. Future sales of substantial amounts of our ordinary shares in the public market could adversely affect market prices prevailing from time to time. Furthermore, because only a limited number of shares will be available for sale shortly after this offering due to existing contractual and legal restrictions on resale as described below, there may be sales of substantial amounts of our ordinary shares in the public market after the restrictions lapse. This may adversely affect the prevailing market price and our ability to raise equity capital in the future.

Upon completion of this offering, we will have _____ ordinary shares outstanding, assuming no exercise of the underwriters' option to purchase additional shares, the conversion of all outstanding convertible preferred shares and no exercise of any options outstanding as of _____, 2021. Of these shares, the _____ shares, or _____ shares if the underwriters exercise their option to purchase additional shares in full, sold in this offering will be freely transferable without restriction or registration under the Securities Act, except for any shares purchased by one of our existing "affiliates," as that term is defined in Rule 144 under the Securities Act. The remaining _____ ordinary shares are "restricted shares" as defined in Rule 144. Restricted shares may be sold in the public market only if registered or if they qualify for an exemption from registration under Rules 144 or 701 under the Securities Act. As a result of the contractual lock-up agreements described below and the provisions of Rules 144 and 701, these shares will be available for sale in the public market as follows:

- beginning on the date of this prospectus, all ordinary shares sold in this offering will be immediately available for sale in the public market except to the extent purchased by one of our affiliates;
- beginning on the first trading day of our ordinary shares on the Nasdaq, up to _____ ordinary shares held by our current employees (other than any of our officers, founders or directors) will be eligible for sale in the public market from time to time, subject to the restrictions of Rule 144 and/or Rule 701 as described below;
- beginning 90 days after the date of this prospectus, up to _____ ordinary shares will be eligible for sale in the public market from time to time in the event of an early lock-up release as described under "Lock-Up Agreements" below, subject in some cases to restrictions in award agreements and contractual obligations with us or the volume and other restrictions of Rule 144, as described below; and
- beginning 180 days after the date of this prospectus, the remainder of the ordinary shares will be eligible for sale in the public market from time to time thereafter, subject in some cases to restrictions in award agreements and contractual obligations with us or the volume and other restrictions of Rule 144, as described below.

Rule 144

In general, under Rule 144 as currently in effect, a person who has beneficially owned restricted shares for at least six months would be entitled to sell such securities, provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the 90 days preceding, a sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least 90 days before the sale. If such a person has beneficially owned the shares proposed to be sold for at least one year, including the holding period of any prior owner other than our affiliates, then that person would be entitled to sell those shares without complying with any of the requirements of Rule 144.

Persons who have beneficially owned restricted shares for at least six months but who are our affiliates at the time of, or any time during the 90 days preceding, a sale, would be subject to additional

restrictions, by which such person would be entitled to sell within any three month period only a number of securities that does not exceed the greater of either of the following:

- 1% of the number of our ordinary shares then outstanding, which will equal approximately ordinary shares immediately after this offering, assuming no exercise of the underwriters' option to purchase additional shares; or
- the average weekly trading volume of our ordinary shares on The Nasdaq Global Select Market during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale;

provided, in each case, that we are subject to the Exchange Act periodic reporting requirements for at least 90 days before the sale. Such sales both by affiliates and by non-affiliates must also comply with the manner of sale, current public information and notice provisions of Rule 144 to the extent applicable.

Rule 701

In general, under Rule 701, any of our employees, directors, officers, consultants or advisors who purchases shares from us in connection with a compensatory share or option plan or other written agreement before the effective date of this offering and is not deemed to have been an affiliate of our company is entitled to resell such shares 90 days after the effective date of this offering in reliance on Rule 144.

The SEC has indicated that Rule 701 will apply to typical share options granted by an issuer before it becomes subject to the reporting requirements of the Exchange Act, along with the shares acquired upon exercise of such options, including exercises after the date of this prospectus. Securities issued in reliance on Rule 701 are restricted securities and, subject to the contractual restrictions described above, beginning 90 days after the date of this prospectus, may be sold by persons other than "affiliates," as defined in Rule 144, subject only to the manner of sale provisions of Rule 144 and by "affiliates" under Rule 144 without compliance with its one-year minimum holding period requirement.

Registration Rights

Upon completion of this offering, the holders of of our ordinary shares or their transferees will be entitled to various rights with respect to the registration of these shares under the Securities Act. Registration of these shares under the Securities Act would result in these shares becoming freely tradable without restriction under the Securities Act immediately upon the effectiveness of the registration, except for shares purchased by affiliates. See "Description of Share Capital—Registration Rights."

Lock-Up Agreements

We, the selling shareholders, all of our directors and executive officers and the holders of substantially all of our ordinary shares outstanding immediately prior to the closing of this offering have agreed, or will agree, with the underwriters that, until 180 days after the date of this prospectus, subject to certain exceptions, we and they will not, and will not cause or direct any of our or their respective affiliates to, without the prior written consent of, (i) offer, sell, contract to sell, pledge, grant any option to purchase, lend or otherwise dispose of any of our ordinary shares, any options or warrants to purchase any of our ordinary shares or any securities convertible into or exchangeable for or that represent the right to receive ordinary shares, (ii) engage in any hedging or other transaction or arrangement (including, without limitation, any short sale or the purchase or sale of, or entry into, any put or call option, or combination thereof, forward, swap or any other derivative transaction or instrument, however described or defined) which is designed to or which reasonably could be expected to lead to or result in a sale, loan, pledge or other disposition (whether by such holder or someone other than such holder), or transfer of any of the economic consequences of ownership, in whole or in part, directly or indirectly, of any of our ordinary shares or derivative instruments, whether any such transaction or arrangement (or instrument provided for thereunder) would be settled by delivery of our ordinary shares or other securities, in cash or

otherwise, or (iii) otherwise publicly announce any intention to engage in or cause any action or activity described in clauses (i) or (ii) above may, in their discretion, release any of the securities subject to these lock-up agreements at any time, subject to applicable notice requirements.

Notwithstanding the foregoing, (i) our current employees (other than any of our officers, persons referred to as our founders in this prospectus or directors) may sell up to 15% of our equity securities held by such persons as of the date of this prospectus (subject to the satisfaction of any vesting conditions applicable to such equity securities) beginning on the first trading day of our ordinary shares on the Nasdaq; and (ii) such restricted period will end with respect to (A) an additional 15% of the shares subject to each lock-up agreement held by our current employees, officers and directors and holders of our preferred shares as of the date of this prospectus (other than our founders) and (B) 10% of the shares subject to each lock-up agreement held by our founders, if at any time beginning 90 days after the date of this prospectus (1) we have filed at least one quarterly report on Form 10-Q or annual report on Form 10-K and (2) the last reported closing price of our ordinary shares on the Nasdaq is at least 30% greater than the initial public offering price of our ordinary shares set forth on the cover of this prospectus for 10 out of any 15 consecutive trading days, including the last day, ending on or after the 90th day after the date of this prospectus (an early lock-up release); and provided further that, if on the date all such conditions are met, we are in a trading black-out period, then (i) the actual date of the early lock-up release will be delayed until immediately prior to the opening of trading on the second trading day following the date on which we next publicly announce operating results for the previous fiscal quarter and (ii) no early lock-up release will occur unless the last reported closing price of our ordinary shares on the Nasdaq is greater than the initial public offering price of our ordinary shares set forth on the cover of this prospectus on the first trading day following such public announcement.

In addition to the restrictions contained in the lock-up agreements described above, we have entered into agreements with all of our security holders that contain market stand-off provisions imposing restrictions on the ability of such security holders to offer, sell or transfer our equity securities for a period of up to 180 days following the date of this prospectus. See “Underwriting.”

Registration Statement

We intend to file a registration statement on Form S-8 under the Securities Act promptly after the completion of this offering to register ordinary shares issuable upon exercise of outstanding share options, as well as any ordinary shares reserved for future issuance under our 2021 Equity Incentive Plan and our ESPP. The registration statement on Form S-8 is expected to become effective immediately upon filing, and ordinary shares covered by the registration statement will then become eligible for sale in the public market, subject to the Rule 144 limitations applicable to affiliates, vesting restrictions and any applicable market standoff agreements and lock-up agreements. See the section titled “Executive Compensation—Employee Benefit and Share Plans” for a description of our equity compensation plans.

UNDERWRITING

We, the selling shareholders and the underwriters named below will enter into an underwriting agreement with respect to the shares being offered. Subject to certain conditions, each underwriter will severally agree to purchase the number of shares indicated in the following table. Goldman Sachs & Co. LLC and BofA Securities, Inc. are acting as the representatives of the underwriters.

| Underwriters | Number of Shares |
|-------------------------|---------------------|
| Goldman Sachs & Co. LLC | |
| BofA Securities, Inc. | |
| | |
| | |
| | |
| Total | |

The underwriters will be committed to take and pay for all of the shares being offered, if any are taken, other than the shares covered by the option described below unless and until this option is exercised.

The underwriters will have an option to purchase up to an additional shares from us and up to an additional shares from the selling shareholders. They may exercise that option for 30 days. If any shares are purchased pursuant to this option, the underwriters will severally purchase shares in approximately the same proportion as set forth in the table above.

The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters by us and the selling shareholders in connection with this offering. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional shares.

Paid by Us

| | No Exercise | Full Exercise |
|-----------|-------------|---------------|
| Per Share | \$ | \$ |
| Total | \$ | \$ |

Paid by the Selling Shareholders

| | No Exercise | Full Exercise |
|-----------|-------------|---------------|
| Per Share | \$ | \$ |
| Total | \$ | \$ |

Shares sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ per share from the public offering price. After the offering of the shares, the representatives may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

Prior to this offering, there has been no public market for our ordinary shares. The initial public offering price will be negotiated among the representatives, us and the selling shareholders. Among the factors to be considered in determining the initial public offering price of our ordinary shares, in addition to prevailing market conditions, will be our historical performance, estimates of our business potential and

earnings prospects, an assessment of our management and the consideration of the above factors in relation to market valuation of companies in related businesses.

We, the selling shareholders, all of our directors and executive officers, and the holders of substantially all of our ordinary shares and securities exercisable for or convertible into our ordinary shares outstanding immediately prior to the closing of this offering have agreed, or will agree, with the underwriters, subject to certain exceptions, not to dispose of or hedge any ordinary shares or securities convertible into or exchangeable for ordinary shares during the period from the date of this prospectus continuing through the date 180 days after the date of this prospectus (the restricted period), except with the prior written consent of Goldman Sachs & Co. LLC; provided that, notwithstanding the foregoing:

- if the lock-up party is our current employee (other than any of our officers, founders or directors) as of the date of this prospectus, such person may sell up to 15% of our equity securities held by such person as of the date of this prospectus (subject to the satisfaction of any vesting conditions applicable to such equity securities) beginning on the first trading day of our ordinary shares on the Nasdaq;
- if the lock-up party is our current employee, officer or director or a holder of our preferred shares as of the date of this prospectus (other than any of our founders), the restricted period will end with respect to an additional 15% of our equity securities held by such person as of the date of this prospectus (subject to the satisfaction of any vesting conditions applicable to such equity securities) if at any time beginning 90 days after the date of this prospectus (1) we have filed at least one quarterly report on Form 10-Q or annual report on Form 10-K and (2) the last reported closing price of our ordinary shares on the Nasdaq is at least 30% greater than the initial public offering price of our ordinary shares for 10 out of any 15 consecutive trading days, including the last day, ending on or after the 90th day after the date of this prospectus (an early lock-up release); and provided further that, if on the date all such conditions are met, we are in a trading black-out period, then (i) the actual date of the early lock-up release will be delayed until immediately prior to the opening of trading on the second trading day following the date on which we next publicly announce operating results for the previous fiscal quarter and (ii) no early lock-up release will occur unless the last reported closing price of our ordinary shares on the Nasdaq is greater than the initial public offering price of our ordinary shares on the first trading day following such public announcement; and
- if the lock-up party is William Brennan, Chi Fung Cheng, Yat Tung Lam or Runsheng He (each, a founder), the restricted period will end with respect to 10% of our equity securities held by such person as of the date of this prospectus (subject to the satisfaction of any vesting conditions applicable to such equity securities) if at any time beginning 90 days after the date of this prospectus (1) we have filed at least one quarterly report on Form 10-Q or annual report on Form 10-K and (2) the last reported closing price of our ordinary shares on the Nasdaq is at least 30% greater than the initial public offering price of our ordinary shares for 10 out of any 15 consecutive trading days, including the last day, ending on or after the 90th day after the date of this prospectus (an early lock-up release); and provided further that, if on the date all such conditions are met, we are in a trading black-out period, then (i) the actual date of the early lock-up release will be delayed until immediately prior to the opening of trading on the second trading day following the date on which we next publicly announce operating results for the previous fiscal quarter and (ii) no early lock-up release will occur unless the last reported closing price of our ordinary shares on the Nasdaq is greater than the initial public offering price of our ordinary shares on the first trading day following such public announcement. .

The restrictions described in the paragraph above relating to the Company do not apply to:

- the issuance of ordinary shares or securities convertible into or exercisable for ordinary shares pursuant to the conversion or exchange of convertible or exchangeable securities or the exercise of warrants or options or other equity awards (including net exercise), in each case outstanding

on the date of this prospectus and described herein, provided that such recipients enter into a lock-up agreement with the underwriters of this offering;

- grants of options, share awards, restricted shares or other equity awards and the issuance of ordinary shares or securities convertible into or exercisable or exchangeable for ordinary shares (whether upon the exercise of options or otherwise) to our employees, officers, directors, advisors or consultants pursuant to the terms of an equity compensation plan described herein, provided that such recipients enter into a lock-up agreement with the underwriters of this offering;
- the establishment or amendment of a trading plan pursuant to Rule 10b5-1 under the Exchange Act for the sale of ordinary shares, provided that (i) such plan or amendment does not provide for the sale of ordinary shares during the restricted period and (ii) no public announcement or filing under the Exchange Act shall be required or voluntarily made by us regarding the establishment or amendment of such plan during the restricted period;
- the issuance of up to 10% of the outstanding ordinary shares, or securities convertible into, exercisable for, or which are otherwise exchangeable for, ordinary shares, immediately following the consummation of this offering, in connection with one or more acquisitions of a company or a business, assets or technology of another person or entity, joint ventures, commercial relationships or strategic alliances (including but not limited to marketing or distribution arrangements, collaboration agreements or intellectual property license agreements), provided that such recipients enter into a lock-up agreement with the underwriters of this offering; or
- the filing of any registration statement on Form S-8 relating to securities granted or to be granted pursuant to any equity incentive plan or employee stock purchase plan described herein or any assumed benefit plan pursuant to an acquisition or similar strategic transaction.

The restrictions described in the paragraph above relating to the selling shareholders, our officers and directors, and the holders of our ordinary shares and securities exercisable for or convertible into our ordinary shares do not apply to:

- transfers of our ordinary shares and securities exercisable for or convertible into our ordinary shares:
 - (i) as a bona fide gift or gifts, or for bona fide estate planning purposes;
 - (ii) by will, other testamentary document or intestacy;
 - (iii) to any trust for the direct or indirect benefit of the lock-up party or the immediate family of the lock-up party, or if the lock-up party is a trust, to a trustor or beneficiary of the trust or to the estate of a beneficiary of such trust;
 - (iv) to a partnership, limited liability company or other entity of which the lock-up party and/or the lock-up party's immediate family are the legal and beneficial owner of all of the outstanding equity securities or similar interests;
 - (v) to a nominee or custodian of a person or entity to whom a disposition or transfer would be permissible under clauses (i) through (iv) above;
 - (vi) if the signatory is a corporation, partnership, limited liability company, trust or other business entity, to another corporation, partnership, limited liability company, trust or other business entity that is an affiliate of the lock-up party, or to any investment fund or other entity controlling, controlled by, managing or managed by or under common control with the lock-up party or affiliates of the lock-up party or as part of a distribution to members or shareholders of the lock-up party;

- (vii) by operation of law, such as pursuant to a qualified domestic order, divorce settlement, divorce decree, separation agreement or other similar court order, provided no public filing or announcement shall be made voluntarily during the 180-day lock-up period in connection with such transfer or disposition;
- (viii) to the Company from an employee or other service provider of the Company upon death, disability or termination of employment or services, in each case, of such employee or service provider, provided that if the lock-up party is required to file a report under Section 16(a) of the Exchange Act reporting a change in beneficial ownership of ordinary shares during the restricted period, the lock-up party shall clearly indicate in the footnotes thereto that the filing relates to the circumstances described in this paragraph;
- (ix) as part of a sale of the lock-up party's ordinary shares acquired in this offering (other than any Company-directed securities acquired in this offering by an officer or director of the Company) or in open market transactions after the closing date for this offering;
- (x) to the Company in connection with the vesting, settlement, or exercise of restricted stock units, options, warrants or other rights to purchase our ordinary shares (including, in each case, by way of "net" or "cashless" exercise), including for the payment of exercise price and tax and remittance payments due as a result of the vesting, settlement, or exercise of such restricted stock units, options, warrants or rights, provided that any such shares received upon such exercise, vesting or settlement shall be subject to the terms of a lock-up agreement, and provided further that any such restricted stock units, options, warrants or rights are held pursuant to an agreement or equity awards granted under any stock incentive plan or other equity award plan described herein, and provided further that if the lock-up party is required to file a report under Section 16(a) of the Exchange Act during the restricted period, the lock-up party shall clearly indicate in the footnotes thereto that such transaction relates to the circumstances described in this paragraph; or
- (xi) pursuant to a bona fide third-party tender offer, merger, consolidation or other similar transaction that is approved by our board of directors and made to all holders of our capital stock involving a transfer (whether by tender offer, merger, consolidation or other similar transaction), in one transaction or a series of related transactions, to a person or group of affiliated persons, of shares of capital stock of the Company if, after such transfer, such person or group of affiliated persons would hold more than 50% of the outstanding voting securities of the Company (or the surviving entity); provided that (A) in the event that such tender offer, merger, consolidation or other similar transaction is not completed, the lock-up party's ordinary shares or any security convertible into or exercisable or exchangeable for our ordinary shares shall remain subject to the lock-up agreement and (B) so long as the lock-up party's shares are not transferred, sold or tendered, such shares shall remain subject to the lock-up agreement;

provided that (A) in the case of any transfer or distribution pursuant to clauses (i), (ii), (iii), (iv), (v), (vi) and (vii), such transfer shall not involve a disposition for value and each donee, devisee, transferee or distributee shall execute and deliver to Goldman Sachs & Co. LLC a lock-up agreement substantially in the form of the above-described lock-up agreement and (B) in the case of any transfer or distribution pursuant to clauses (i), (ii), (iii), (iv), (v), (vi), (vii) and (ix), no filing by any party (donor, donee, devisee, transferor, transferee, distributor or distributee) under the Exchange Act, or other public announcement shall be required or shall be made voluntarily in connection with such transfer or distribution;

- the exercise of (i) options to purchase ordinary shares granted under any stock incentive plan or other equity award plan described herein or (ii) warrants to acquire ordinary shares or securities convertible into, exchangeable for or that represent the right to receive ordinary shares described herein, either through cash or cashless exercise;

- the receipt of ordinary shares upon the vesting or settlement of restricted stock units pursuant to any stock incentive plan or other equity award plan described herein; provided that the underlying shares shall continue to be subject to the terms of the lock-up agreement;
- the conversion of outstanding preferred shares into ordinary shares; provided that any such ordinary shares received upon such conversion shall be subject to the terms of the lock-up agreement; and
- the establishment of trading plans pursuant to Rule 10b5-1 under the Exchange Act for the transfer of ordinary shares; provided that (1) such plans do not provide for the transfer of ordinary shares during the restricted period and (2) no filing by any party under the Exchange Act or other public announcement shall be required or made voluntarily in connection with such trading plan.

See “Shares Eligible for Future Sale” for a discussion of certain other transfer restrictions.

We have applied to list our ordinary shares on The Nasdaq Global Select Market under the symbol “CRDO.”

In connection with this offering, the underwriters may purchase and sell our ordinary shares in the open market. These transactions may include short sales, stabilizing transactions, and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in this offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. A “covered short position” is a short position that is not greater than the number of additional shares for which the underwriters’ option described above may be exercised. The underwriters may cover any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to cover the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option described above. “Naked” short sales are any short sales that create a short position greater than the number of additional shares for which the option described above may be exercised. The underwriters must cover any such naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the ordinary shares in the open market after pricing that could adversely affect investors who purchase in this offering. Stabilizing transactions consist of various bids for or purchases of ordinary shares made by the underwriters in the open market prior to the closing of this offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of our ordinary shares, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of our ordinary shares. As a result, the price of our ordinary shares may be higher than the price that otherwise might exist in the open market. The underwriters are not required to engage in these activities and may end any of these activities at any time. These transactions may be effected on The Nasdaq Global Select Market, in the over-the-counter market, or otherwise.

We estimate that our share of the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$ million.

We will also agree to reimburse the underwriters for expenses in an amount not to exceed \$35,000 relating to any applicable state securities filings and to clearance of this offering with the Financial

Industry Regulatory Authority. We and the selling shareholders will also agree to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to us and to persons and entities with relationships with us, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the issuer (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with the issuer. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

European Economic Area

In relation to each Member State of the European Economic Area (each a Member State), no ordinary share has been offered or will be offered pursuant to the offering to the public in that Member State prior to the publication of a prospectus in relation to our ordinary shares which has been approved by the competent authority in that Member State or, where appropriate, approved in another Member State and notified to the competent authority in that Member State, all in accordance with the Prospectus Regulation, except that offers of shares may be made to the public in that Member State at any time under the following exemptions under the Prospectus Regulation:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (b) by the underwriters to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior written consent of the representatives for any such offer; or
- (c) in any other circumstances falling within Article 1(4) of the Prospectus Regulation, provided that no such offer of ordinary shares shall result in a requirement for us or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

Each person in a Member State who initially acquires any ordinary shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed with us and the representatives that it is a qualified investor within the meaning of the Prospectus Regulation.

In the case of any ordinary shares being offered to a financial intermediary as that term is used in Article 5(1) of the Prospectus Regulation, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the ordinary shares acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer to the public other than their offer or resale in a Member State to qualified investors, in circumstances in which the prior written consent of the representatives has been obtained to each such proposed offer or resale.

We, the underwriters and their affiliates will rely upon the truth and accuracy of the foregoing representations, acknowledgments and agreements.

For the purposes of this provision, the expression an “offer to the public” in relation to any ordinary shares in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any ordinary shares to be offered so as to enable an investor to decide to purchase or subscribe for our ordinary shares, and the expression “Prospectus Regulation” means Regulation (EU) 2017/1129.

United Kingdom

No shares have been offered or will be offered pursuant to the offering to the public in the United Kingdom prior to the publication of a prospectus in relation to the shares which has been approved by the Financial Conduct Authority, except that the shares may be offered to the public in the United Kingdom at any time:

- (a) to any legal entity which is a qualified investor as defined under Article 2 of the UK Prospectus Regulation;
- (b) to fewer than 150 natural or legal persons (other than qualified investors as defined under Article 2 of the UK Prospectus Regulation), subject to obtaining the prior consent of the representatives for any such offer; or
- (c) in any other circumstances falling within Section 86 of the FSMA;

provided that no such offer of the shares shall require the us or any underwriter to publish a prospectus pursuant to Section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation. For the purposes of this provision, the expression an “offer to the public” in relation to the shares in the United Kingdom means the communication in any form and by any means of sufficient information on the terms of the offer and any shares to be offered so as to enable an investor to decide to purchase or subscribe for any shares and the expression “UK Prospectus Regulation” means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018.

Canada

The securities may be sold in Canada only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions, and Ongoing Registrant Obligations. Any resale of the securities must be made in accordance with an exemption form, or in a transaction not subject to, the prospectus requirements of applicable securities laws. Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105 Underwriting Conflicts (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Hong Kong

Our ordinary shares may not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies

(Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32 of the Laws of Hong Kong) (Companies (Winding Up and Miscellaneous Provisions) Ordinance) nor an advertisement, invitation or document relating to investments within the meaning of section 103 of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong) (Securities and Futures Ordinance), or (ii) to “professional investors” as defined in the Securities and Futures Ordinance and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance, and no advertisement, invitation or document relating to our ordinary shares may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to shares which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” in Hong Kong as defined in the Securities and Futures Ordinance and any rules made thereunder.

Singapore

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of our ordinary shares may not be circulated or distributed, nor may our ordinary shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor (as defined under Section 4A of the Securities and Futures Act, Chapter 289 of Singapore (SFA)) under Section 274 of the SFA, (ii) to a relevant person (as defined in Section 275(2) of the SFA) pursuant to Section 275(1) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA, in each case subject to conditions set forth in the SFA.

Where our ordinary shares are subscribed or purchased under Section 275 of the SFA by a relevant person which is a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor, the securities (as defined in Section 239(1) of the SFA) of that corporation shall not be transferable for 6 months after that corporation has acquired our ordinary shares under Section 275 of the SFA except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person (as defined in Section 275(2) of the SFA), (2) where such transfer arises from an offer in that corporation's securities pursuant to Section 275(1A) of the SFA, (3) where no consideration is or will be given for the transfer, (4) where the transfer is by operation of law, (5) as specified in Section 276(7) of the SFA, or (6) as specified in Regulation 32 of the Securities and Futures (Offers of Investments) (Shares and Debentures) Regulations 2005 of Singapore (Regulation 32).

Where our ordinary shares are subscribed or purchased under Section 275 of the SFA by a relevant person which is a trust (where the trustee is not an accredited investor (as defined in Section 4A of the SFA)) whose sole purpose is to hold investments and each beneficiary of the trust is an accredited investor, the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferable for 6 months after that trust has acquired our ordinary shares under Section 275 of the SFA except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person (as defined in Section 275(2) of the SFA), (2) where such transfer arises from an offer that is made on terms that such rights or interest are acquired at a consideration of not less than \$200,000 (or its equivalent in a foreign currency) for each transaction (whether such amount is to be paid for in cash or by exchange of securities or other assets), (3) where no consideration is or will be given for the transfer, (4) where the transfer is by operation of law, (5) as specified in Section 276(7) of the SFA, or (6) as specified in Regulation 32.

Japan

The securities have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended), or the FIEA. The securities may not be offered or sold, directly or indirectly, in Japan or to or for the benefit of any resident of Japan (including any person resident in Japan or any corporation or other entity organized under the laws of Japan) or to others for reoffering or resale, directly or indirectly, in Japan or to or for the benefit of any resident of Japan, except pursuant to an exemption from the registration requirements of the FIEA and otherwise in compliance with any relevant laws and regulations of Japan.

Dubai International Financial Centre

This prospectus relates to an Exempt Offer in accordance with the Offered Securities Rules of the Dubai Financial Services Authority (DFSA). This prospectus is intended for distribution only to persons of a type specified in the Offered Securities Rules of the DFSA. It must not be delivered to, or relied on by, any other person. The DFSA has no responsibility for reviewing or verifying any documents in connection with Exempt Offers. The DFSA has not approved this prospectus nor taken steps to verify the information set forth herein and has no responsibility for the prospectus. The ordinary shares to which this prospectus relates may be illiquid and/or subject to restrictions on their resale. Prospective purchasers of our ordinary shares should conduct their own due diligence on such shares. If you do not understand the contents of this prospectus, you should consult an authorized financial advisor.

Switzerland

The ordinary shares may not be publicly offered in Switzerland and will not be listed on the SIX Swiss Exchange (SIX) or on any other stock exchange or regulated trading facility in Switzerland. This document does not constitute a prospectus within the meaning of, and has been prepared without regard to the disclosure standards for issuance prospectuses under art. 652a or art. 1156 of the Swiss Code of Obligations or the disclosure standards for listing prospectuses under art. 27 ff. of the SIX Listing Rules or the listing rules of any other stock exchange or regulated trading facility in Switzerland. Neither this document nor any other offering or marketing material relating to the ordinary shares or the offering may be publicly distributed or otherwise made publicly available in Switzerland.

Neither this document nor any other offering or marketing material relating to the offering, our company or our ordinary shares has been or will be filed with or approved by any Swiss regulatory authority. In particular, this document will not be filed with, and the offer of ordinary shares will not be supervised by, the Swiss Financial Market Supervisory Authority and the offer of ordinary shares has not been and will not be authorized under the Swiss Federal Act on Collective Investment Schemes (CISA). The investor protection afforded to acquirers of interests in collective investment schemes under the CISA does not extend to acquirers of ordinary shares.

Australia

No placement document, prospectus, product disclosure statement or other disclosure document has been lodged with the Australian Securities and Investments Commission (ASIC), in relation to the offering. This prospectus does not constitute a prospectus, product disclosure statement or other disclosure document under the Corporations Act 2001 (Corporations Act), and does not purport to include the information required for a prospectus, product disclosure statement or other disclosure document under the Corporations Act.

Any offer in Australia of our ordinary shares may only be made to persons, or Exempt Investors, who are "sophisticated investors" (within the meaning of section 708(8) of the Corporations Act), "professional investors" (within the meaning of section 708(11) of the Corporations Act) or otherwise pursuant to one or more exemptions contained in section 708 of the Corporations Act so that it is lawful to offer our ordinary shares without disclosure to investors under Chapter 6D of the Corporations Act.

The ordinary shares applied for by Exempt Investors in Australia must not be offered for sale in Australia in the period of 12 months after the date of allotment under the offering, except in circumstances where disclosure to investors under Chapter 6D of the Corporations Act would not be required pursuant to an exemption under section 708 of the Corporations Act or otherwise or where the offer is pursuant to a disclosure document which complies with Chapter 6D of the Corporations Act. Any person acquiring our ordinary shares must observe such Australian on-sale restrictions. This prospectus contains general information only and does not take account of the investment objectives, financial situation or particular needs of any particular person. It does not contain any securities recommendations or financial product advice. Before making an investment decision, investors need to consider whether the information in this prospectus is appropriate to their needs, objectives and circumstances, and, if necessary, seek expert advice on those matters.

LEGAL MATTERS

The validity of the ordinary shares and certain other matters of Cayman Island law will be passed upon for us by Maples and Calder (Cayman) LLP, Cayman Islands. Certain matters of U.S. federal and New York State law will be passed upon for us by Davis Polk & Wardwell LLP, Menlo Park, California, and for the underwriters by Sullivan & Cromwell LLP, Palo Alto, California.

EXPERTS

Ernst & Young LLP, independent registered public accounting firm, has audited our consolidated financial statements at April 30, 2020 and 2021, and for each of the two years in the period ended April 30, 2021, as set forth in their report. We've included our financial statements in the prospectus and elsewhere in the registration statement in reliance on Ernst & Young LLP's report, given on their authority as experts in accounting and auditing.

ENFORCEMENT OF JUDGMENTS

We are an exempted company under the laws of the Cayman Islands, and certain of the board members of each of our subsidiaries and certain of the experts named herein reside outside the United States. Certain of our assets and the assets of such other persons are located outside the United States.

We have been advised by Maples and Calder (Cayman) LLP, Cayman Islands, our Cayman Islands legal counsel, that the courts of the Cayman Islands are unlikely (i) to recognize or enforce against the Company, its directors or officers judgments of courts of the United States predicated upon the civil liability provisions of the securities laws of the United States or any State; and (ii) in original actions brought in the Cayman Islands, to impose liabilities against the Company, its directors or officers predicated upon the civil liability provisions of the securities laws of the United States or any State, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final, conclusive, for a liquidated sum and must not be in respect of taxes, fines or penalties, inconsistent with a Cayman Islands judgment in respect of the same matter, impeachable on the grounds of fraud or obtained in a manner, or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands Court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

In relation to a foreign bankruptcy/insolvency related money judgment (broadly a judgment that is commenced by a foreign insolvency officeholder and is based on laws which only apply once the relevant insolvency proceedings have been commenced) there is Privy Council authority (on appeal from the Courts of Bermuda) holding that foreign bankruptcy/insolvency related money judgments should be enforced by applying the principles set out above. There is no reason to believe that the Cayman Islands Court would not follow the Privy Council authority and apply the principles set out above in relation to a request to enforce a foreign bankruptcy/insolvency related money judgment.

There can be no assurance that investors will be able to enforce against us, our board members or the experts named herein, any judgments in civil and commercial matters, including judgments under the securities laws of the United States or any state. In addition, it is uncertain whether a court in the Cayman Islands would impose civil liability on us or such other persons in an original action predicated upon the securities laws of the United States or any state brought in a court of competent jurisdiction in the Cayman Islands against us or such persons.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the ordinary shares offered hereby. This prospectus does not contain all of the information set forth in the registration statement and the exhibits and schedules thereto. For further information with respect to the company and its ordinary shares, reference is made to the registration statement and the exhibits and any schedules filed therewith. Statements contained in this prospectus as to the contents of any contract or other document referred to are not necessarily complete and in each instance, if such contract or document is filed as an exhibit, reference is made to the copy of such contract or other document filed as an exhibit to the registration statement, each statement being qualified in all respects by such reference. The SEC maintains an Internet site at www.sec.gov that contains reports, proxy and information statements we have filed electronically with the SEC.

As a result of the offering, we will be required to file periodic reports and other information with the SEC. We also maintain an Internet site at www.credosemi.com at which, following completion of this offering, you may access these materials free of charge as soon as reasonably practicable after they are electronically filed with, or furnished to, the SEC. Our website and the information contained therein or connected thereto shall not be deemed to be incorporated into this prospectus or the registration statement of which it forms a part.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of Credo Technology Group Holding Ltd

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Credo Technology Group Holding Ltd (the "Company") as of April 30, 2020 and 2021, and the related consolidated statements of operations, comprehensive income (loss), convertible preferred shares and shareholders' deficit and cash flows for the years then ended, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at April 30, 2020 and 2021, and the results of its operations and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB and in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 2018.

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

1. Description of Business

Credo Technology Group Holding Ltd was formed under the laws of the Cayman Islands in September 2014. Credo Technology Group Holding Ltd directly owns Credo Technology Group Ltd., which owns, directly and indirectly, all of the shares of its subsidiaries in mainland China, Hong Kong, and the United States ("U.S."). References to the "Company" in these notes refer to Credo Technology Group Holding Ltd and its subsidiaries on a consolidated basis, unless otherwise specified.

The Company is an innovator in providing secure, high-speed connectivity solutions that deliver improved power and cost efficiency. The Company's connectivity solutions are optimized for optical and electrical Ethernet applications, including the emerging 100G, 200G, 400G and 800G markets. The Company's products are based on its Serializer/Deserializer ("SerDes") and Digital Signal Processor ("DSP") technologies. The Company's product families include integrated circuits ("ICs"), Active Electrical Cables ("AECs") and SerDes Chiplets. The Company's intellectual property ("IP") solutions consist primarily of SerDes IP licensing.

The ongoing COVID-19 pandemic has significantly impacted global economic activity and caused business disruption worldwide. The extent and nature of the impact of the COVID-19 pandemic on the Company's business and financial performance will be influenced by a variety of factors, including the duration and spread of the pandemic, as well as future spikes of COVID-19 infections or the emergence of additional COVID-19 variants that may result in additional preventative and mitigative measures. These factors may affect the timing and magnitude of demand from customers and the availability of portions of the supply chain, logistical services and component supply and may have a material net negative impact on the Company's business and financial results.

2. Significant Accounting Policies

Basis of Presentation

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States ("GAAP"). The consolidated financial statements include the results of Credo Technology Group Holding Ltd and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of these consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the Company's consolidated financial statements and accompanying notes.

The Company bases its estimates and judgments on historical experience, knowledge of current conditions and beliefs of what could occur in the future, given the available information. Estimates are used for, but not limited to, write-down for excess and obsolete inventories, asset lives for property and equipment, accrued liabilities, allowance for doubtful accounts, the standalone selling price for each distinct performance obligation included in customer contracts with multiple performance obligations, variable consideration from revenue contracts, determination of the fair value of share-based awards, valuation of ordinary shares, and the realization of tax assets and estimates of tax reserves. Actual results may differ from those estimates and such differences may be material to the financial statements. In the current macroeconomic environment affected by COVID-19, these estimates require increased judgment and carry a higher degree of variability and volatility. As events continue to evolve and additional information becomes available, these estimates may change materially in future periods.

Foreign Currency

All of the Company's subsidiaries use U.S. dollars as their functional currency, except for its entities located in Taiwan and mainland China. The functional currencies of these entities are their respective

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

local currency. Foreign currency assets and liabilities are remeasured into the functional currencies at the end-of-period exchange rates except for non-monetary assets and liabilities, which are remeasured at historical exchange rates. Revenue and expenses are remeasured at the exchange rates in effect during the period the transactions occurred, except for those expenses related to balance sheet amounts, which are remeasured at historical exchange rates. Gains or losses from foreign currency transactions are included in the consolidated statements of income (loss) as part of 'other income (expense)'. Translation gains and losses are recorded in accumulated other comprehensive income (loss) as a component of shareholders' equity.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash balances in the Company's bank checking and savings accounts. As of April 30, 2020 and 2021, the Company did not have any cash equivalents.

Accounts Receivable

Accounts receivable are recorded at the invoiced amount, net of allowance for doubtful accounts. The Company performs periodic credit evaluations of its customers' financial condition and does not require collateral from them. Receivables considered uncollectible are charged against the allowance account in the year they are deemed uncollectible. Management does not believe that an allowance for doubtful accounts is needed as of April 30, 2020 or 2021 based on review of credit worthiness of the customers and their payment histories.

Inventory

The Company values its inventory, which includes raw materials, assembly and test, and other manufacturing costs, at the lower of cost and net realizable value. Cost is computed using standard cost, which approximates actual cost, on a first-in, first-out basis. Net realizable value is the estimated selling price of the Company's products in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. The Company regularly reviews inventory quantities on hand and records write-downs for excess and obsolete inventory based primarily on the shipment history and its estimated forecast of product demand. These factors are impacted by market and economic conditions, technology changes, new product introductions and changes in strategic direction. If the future demand for the Company's services and products is less favorable than the Company's forecasts, the value of the inventories may be required to be reduced, which could result in additional expense to the Company and affect its results of operations. Once inventory is written down, its new value is maintained until it is sold, scrapped, or written down for further valuation losses.

Property and Equipment, Net

Property and equipment are stated at cost, net of accumulated depreciation and amortization. Additions, improvements and major renewals are capitalized, and maintenance, repairs and minor renewals are expensed as incurred. Assets are held in construction in progress until placed in service, upon which date, the Company begins to depreciate these assets. When assets are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in the consolidated statements of income in the period realized. Depreciation and amortization is computed using the straight-line method over the estimated useful lives of the assets.

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

Leasehold improvements are amortized over the shorter of the lease term or the estimated useful life of the assets. Useful lives by asset category are as follows:

| Asset Category | Useful Life (in years) |
|---------------------------------|---------------------------|
| Computer equipment and software | 3 |
| Furniture and fixtures | 3 |
| Laboratory equipment | 5 |
| Production equipment | 5 |
| Transportation equipment | 4 |

Leases

Leases are evaluated and recorded as capital leases if one of the following is true at inception: (a) the present value of minimum lease payments meets or exceeds 90% of the fair value of the asset, (b) the lease term is greater than or equal to 75% of the economic life of the asset, (c) the lease arrangement contains a bargain purchase option, or (d) title to the property transfers to the Company at the end of the lease. The Company has an immaterial capital lease for the fiscal year ended April 30, 2020. The Company does not have any capital leases for the fiscal year ended April 30, 2021.

Leases that are not classified as capital leases are accounted for as operating leases. Operating lease agreements that have tenant improvement allowances are evaluated for lease incentives. For leases that contain rent or escalating rent payments, the Company recognizes rent expense on a straight-line basis over the lease term, with any lease incentives amortized as a reduction of rent expense over the lease term.

Impairment of Long-lived Assets

The Company assesses the impairment of long-lived assets, which consist primarily of property and equipment, whenever events or changes in circumstances indicate that such assets might be impaired and the carrying value may not be recoverable. Events or changes in circumstances that may indicate that an asset is impaired include significant decreases in the market value of an asset, significant underperformance relative to expected historical or projected future results of operations, a change in the extent or manner in which an asset is utilized, significant declines in the estimated fair value of the overall Company for a sustained period, shifts in technology, loss of key management or personnel, changes in the Company's operating model or strategy and competitive forces.

If events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable and the expected undiscounted future cash flows attributable to the asset are less than the carrying amount of the asset, an impairment loss equal to the excess of the asset's carrying value over its fair value is recorded. Fair value is determined based on the present value of estimated expected future cash flows using a discount rate commensurate with the risk involved, quoted market prices or appraised values, depending on the nature of the asset. There were no impairment charges of long-lived assets for the years ended April 30, 2020 and 2021.

Revenue Recognition

The Company's revenues consist of sale of its products, licensing of its IP and providing product and IP license engineering services. Product sales consists of shipment of its ICs and AEC products. IP license revenue includes fees from licensing of the Company's SerDes IP and related support and royalties. Product and IP license engineering services revenue consists of engineering fees associated with integration of the Company's technology solutions into its customers' products and IP, respectively. The Company's customers are primarily original equipment manufacturers who design and manufacture end market devices for the communications and enterprise networks markets. The Company's revenue is

driven by various trends in these markets. The Company's revenue is also impacted by changes in the number and average selling prices of its IC products.

The Company recognizes revenue upon transfer of control of promised goods and services in an amount that reflects the consideration it expects to receive in exchange for those goods and services. Where an arrangement includes multiple performance obligations, the transaction price is allocated to these on a relative standalone selling price ("SSP") basis. The Company determines the SSP based on an observable standalone selling price when it is available, as well as other factors, including the price charged to customers and the Company's overall pricing objectives, while maximizing observable inputs. The Company's policy is to record revenue net of any applicable sales, use or excise taxes. Changes in the Company's contract assets and contract liabilities primarily result from the timing difference between the Company's performance and the customer's payment. The Company fulfills its obligations under a contract with a customer by transferring products or services in exchange for consideration from the customer. The Company recognizes a contract asset when it transfers products or services to a customer and the right to consideration is conditional on something other than the passage of time. Accounts receivable are recorded when the customer has been billed or the right to consideration is unconditional. The Company recognizes deferred revenue when it has received consideration or an amount of consideration is due from the customer and it has a future obligation to transfer products or services.

Product Sales - The Company transacts with customers primarily pursuant to standard purchase orders for delivery of products and generally allows customers to cancel or change purchase orders within limited notice periods prior to the scheduled shipment date. The Company offers standard performance warranties of twelve months after product delivery and does not allow returns, other than returns due to warranty issues. The Company recognizes product sales when it transfers control of promised goods in an amount that reflects the consideration to which it expects to be entitled to in exchange for those goods, net of accruals for estimated sales returns. As of April 30, 2020 and 2021, there was no sales returns reserve and the warranty reserve was not material.

IP License Revenue - The Company's IP license revenue consists of a perpetual license, support and maintenance, and royalties. The Company's license arrangements do not typically grant the customer the right to terminate for convenience, and where such rights exist, termination is prospective, with no refund of fees already paid by the customer. In connection with the license arrangements, the Company offers support and maintenance to assist customers in bringing up and qualifying the final product. Revenue from customer support is deferred and recognized ratably over the support period, which is typically one year.

In certain cases, the Company also charges licensees royalties related to the distribution or sale of products that use its technologies. Such royalties are reported to us on a quarterly basis. The Company estimates the sales-based royalties earned each quarter primarily based on its customers' reporting of sales activity incurred in that quarter. The Company recognizes the estimated royalty revenue when it is probable that reversal of such amounts will not occur. Any differences between actual royalties owed by a customer and the quarterly estimates are recognized when updated information becomes available.

Product and IP License Engineering Services Revenue - Some product and IP revenue contracts include non-recurring engineering services deliverables. The Company recognizes revenue from these agreements over time as services are provided or at point in time upon completion and acceptance by the customer of contract deliverables, depending on the terms of the arrangement. Revenue is deferred for any amounts billed or received prior to delivery of services. The Company believes the input method, based on time spent by its engineers, best depicts the efforts expended to transfer services to the customers.

Certain contracts may include multiple performance obligations for which the Company allocates revenue to each performance obligation based on relative SSP. The Company determines SSPs based on observable evidence. When SSPs are not directly observable, the Company uses the adjusted market assessment approach or residual approach, if applicable. The Company also considers the constraint on

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

estimates of variable consideration when estimating the total transaction price. The Company records liabilities for amounts that are collected in advance of the satisfaction of performance obligations under deferred revenue.

Cost of Revenue

Cost of revenue includes cost of materials, including wafers processed by third-party foundries, cost associated with packaging and assembly, testing and shipping, cost of personnel, including share-based compensation, depreciation of equipment associated with manufacturing support, logistics and quality assurance, warranty cost, amortization of intellectual property purchased from third-parties, write-down of inventories, and amortization of production mask costs. Cost of revenue includes cost of product sales revenue, cost of product engineering services revenue and cost of IP license engineering services revenue. Cost of revenue relating to IP license revenue was not material for fiscal years 2020 and 2021.

Shipping and Handling Costs

Shipping and handling costs incurred for delivery to customers are expensed as incurred and are included in selling and marketing expenses in the Company's Consolidated Statements of Operations.

Research and Development

Research and development expense consists of costs incurred in performing research and development activities and includes salaries, share-based compensation, employee benefits, occupancy costs, pre-production engineering mask costs, overhead costs and prototype wafer, packaging and test costs. Research and development costs are expensed as incurred.

Convertible Preferred Shares

The Company records all shares of convertible preferred shares at their respective fair values less issuance costs on the dates of issuance. The convertible preferred shares are recorded outside of shareholders' deficit because, in the event of certain liquidation events considered not solely within the Company's control, such as a change in control event and sale of all or substantially all of the Company's assets, the convertible preferred shares will become redeemable at the option of the holders. If it becomes probable that the shares will become redeemable, the Company will remeasure the carrying value of the shares to the redemption value to the redemption date. As of April 30, 2020 and 2021, no remeasurements were required, as management determined that the shares were not probable of becoming redeemable.

Share-based Compensation

The Company records compensation expense in connection with ordinary share options granted to employees and non-employees in accordance with guidance related to share-based payments. This guidance requires that all share-based compensation be recognized as an expense in the consolidated financial statements and that such cost be measured at the fair value of the award. The Company amortizes share-based compensation expense under the straight-line attribution method over the vesting period of the share-based award. The Company has elected to use the Black-Scholes option pricing model to determine the fair value of share options on the dates of grant. Calculating the fair value of share options using the Black-Scholes model requires inputs and assumptions, including the fair value of the Company's ordinary shares, the expected term of share options and share price volatility. The Company estimates the expected life of options granted based on the simplified method. The Company estimates the volatility of its ordinary shares on the date of grant based on the average historical share price volatility of comparable publicly traded companies in the Company's industry group. The Company has not paid and does not expect to pay dividends. The Company accounts for forfeitures as they occur.

The absence of an active market for the Company's ordinary shares also requires its board of directors, the members of which the Company believes have extensive business, finance and venture

capital experience, to determine the fair value of its ordinary shares for purposes of granting options and for calculating share-based compensation expense for the periods presented. The Company obtained contemporaneous third-party valuations to assist the board of directors in determining fair value. These contemporaneous third-party valuations used the methodologies, approaches and assumptions consistent with the American Institute of Certified Public Accountants Practice Guide, Valuation of Privately-Held-Company Equity Securities Issued as Compensation. All options granted were intended to be exercisable at a price per share not less than the fair value of the shares underlying those options on their respective dates of grant.

Deferred Offering Costs

Deferred offering costs, consisting of legal, accounting and other fees and costs relating to the Company's planned initial public offering are capitalized within other long-term assets on the consolidated balance sheets. The deferred offering costs will be offset against the proceeds received by the Company upon the closing of the planned initial public offering. In the event the planned initial public offering is terminated, all of the deferred offering costs will be expensed within operating loss. There were no deferred offering costs incurred for the year ended April 30, 2020. As of April 30, 2021, the deferred offering costs recorded as other long-term assets on the consolidated balance sheet were not material.

Income Taxes

The Company is subject to income taxes in the United States and certain foreign jurisdictions. Significant judgment is required in determining the Company's provision for income taxes and income tax assets and liabilities, including evaluating uncertainties in the application of accounting principles and complex tax laws.

The Company uses the asset and liability method to account for income taxes. Current income tax expense or benefit represents the amount of income taxes expected to be payable or refundable for the current year. Under this method, deferred income tax assets and liabilities are determined based on differences between the financial statement reporting and tax bases of assets and liabilities and net operating loss and credit carryforward. Deferred tax assets and liabilities are measured using enacted tax rates applied to taxable income in the years in which those temporary differences are expected to be recovered or settled. A valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized.

The Company accounts for uncertain tax positions in accordance with ASC 740-10, *Accounting for Uncertainty in Income Taxes*. The Company recognizes the tax effects of an uncertain tax position only if such position is more likely than not to be sustained based solely on its technical merits as of the reporting date and only in an amount more likely than not to be sustained upon review by the tax authorities. Interest and penalties related to uncertain tax positions are classified in the consolidated financial statements as income tax expense.

Net Loss Per Share

The Company follows the two-class method when computing net income (loss) per ordinary share when shares are issued that meet the definition of participating securities. The two-class method determines net income (loss) per ordinary share for each class of ordinary shares and participating securities according to dividends declared or accumulated and participation rights in undistributed earnings. The two-class method requires income available to ordinary shareholders for the period to be allocated between ordinary share and participating securities based upon their respective rights to receive dividends as if all income for the period had been distributed. The Company's convertible preferred share is the Company's only participating security and contractually entitles the holders of such shares to participate in dividends but does not contractually require the holders of such shares to participate in the Company's losses.

The holders of convertible preferred share are entitled to participate in non cumulative dividends on ordinary share at the rate of 8% of the applicable original issue price per share per annum based on the number of shares of ordinary share held on an as-converted basis. No dividends on convertible preferred share or ordinary share have been declared by the Company's board of directors for the fiscal years ended April 30, 2020 and April 30, 2021. In accordance with ASC 260, *Earnings Per Share*, undistributed earnings allocated to holders of convertible preferred share are subtracted from net income in determining net income attributable to ordinary shareholders. Basic net income (loss) per share is computed by dividing net income attributable to ordinary shareholders by the weighted-average number of shares of ordinary shares outstanding. For periods in which the Company reported net losses, diluted net loss per ordinary share attributable to ordinary shareholders is the same as basic net loss per ordinary share attributable to ordinary shareholders because potentially dilutive shares of ordinary share are not assumed to have been issued if their effect is anti-dilutive.

Segment Information

Operating segments are identified as components of an enterprise about which discrete financial information is available for evaluation by the chief operating decision-maker ("CODM") in deciding resource allocation and assessing performance. The Company's Chief Executive Officer is its CODM. The Company's CODM reviews financial information presented on a consolidated basis for the purposes of making operating decisions, allocating resources and evaluating financial performance. Consequently, the Company has determined it operates and manages its business in one operating and one reportable segment. See Note 13 for the Company's revenue by country and location of long-lived assets.

Accounting Pronouncement Recently Adopted

In August 2018, the FASB issued guidance (ASU 2018-15) requiring a customer in a cloud computing arrangement that is a service contract to follow the internal use software guidance in ASC 350-40 to determine which implementation costs to capitalize as assets. Capitalized implementation costs are expensed over the term of the hosting arrangement beginning when the module or component of the hosting arrangement is ready for its intended use. The Company adopted this authoritative guidance in fiscal year 2021 and the impact of the adoption was not material to the Company's consolidated financial statements.

Recent Accounting Pronouncements Not Yet Adopted

In February 2016, the FASB issued Accounting Standards Update ("ASU") 2016-02, *Leases (Topic 842)*, which requires lessees to record most leases on their balance sheets and disclosing key information about lease arrangements. In July 2018, the FASB issued ASU 2018-10, *Codification Improvements to Topic 842, Leases*. The ASU makes 16 technical corrections to the new lease standard and other accounting topics, alleviating unintended consequences from applying the new standard. It does not make any substantive changes to the core provisions or principles of the new standard. In July 2018, the FASB also issued ASU 2018-11, *Leases (Topic 842): Targeted Improvements*. The ASU provides (1) an optional transition method that entities can use when adopting the standard and (2) a practical expedient that permits lessors to not separate non-lease components from the associated lease component if certain conditions are met. In March 2019, the FASB also issued ASU 2019-01, *Leases (Topic 842): Codification Improvements*, which impacts transition disclosures related to the new guidance. The new guidance is effective for the Company for its fiscal year beginning May 1, 2022 and interim periods within its fiscal year beginning May 1, 2023 and is required to be applied using a modified retrospective approach. Early adoption is permitted. The Company plans to early adopt this new guidance on May 1, 2021, using the modified retrospective approach by applying the new standard to leases existing at the date of initial application and not restating comparative periods. The Company expects that the adoption of the new leasing standard will result in recognition of approximately \$4.2 million in lease related right-of-use assets and liabilities on the Company's consolidated balance sheet.

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, which requires a financial asset measured at amortized cost basis to be presented at the net amount expected to be collected, with further clarifications made more recently. For trade receivables, loans and other financial instruments, the Company will be required to use a forward-looking expected loss model rather than the incurred loss model for recognizing credit losses which reflects losses that are probable. Credit losses relating to available-for-sale debt securities are required to be recorded through an allowance for credit losses rather than as a reduction in the amortized cost basis of the securities. This guidance is effective for the Company for its fiscal year beginning May 1, 2023 and interim periods within its fiscal year beginning May 1, 2024. The Company is currently evaluating the impact of the adoption of this guidance on its consolidated financial statements.

In August 2018, the FASB issued ASU 2018-15, *Intangibles—Goodwill and Other—Internal-Use Software*, which aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. The new guidance is effective for the Company for its fiscal year beginning May 1, 2021 and interim periods within its fiscal year beginning May 1, 2022. The Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

In December 2019, the FASB issued ASU 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*, which simplifies the accounting for income taxes by eliminating some exceptions to the general approach in Topic 740 in order to reduce cost and complexity of its application. This new guidance is effective for the Company for its fiscal year beginning May 1, 2022 and interim periods within its fiscal year beginning May 1, 2023. Early adoption is permitted. The Company is currently evaluating the impact of the adoption of this guidance on its consolidated financial statements.

3. Concentrations

Financial instruments that subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents, and accounts receivable. Cash is placed in major financial institutions around the world. The Company's cash deposits exceed insured limits.

Historically, a relatively small number of customers have accounted for a significant portion of the Company's revenue. The particular customers which account for revenue concentration have varied from period-to-period as a result of the addition of new contracts, completion of existing contracts, and the volumes and prices at which the customers have recently bought the Company's products. These variations are expected to continue in the foreseeable future.

The following table summarizes the significant customers' accounts receivable and revenue as a percentage of total accounts receivable and total revenue, respectively:

| Accounts Receivable | April 30, 2020 | April 30, 2021 |
|---------------------|----------------|----------------|
| Customer A | 26 % | 35 % |
| Customer B | 21 % | 11 % |
| Customer C | - | 15 % |
| Customer D | 20 % | - |
| Customer E | - | 11 % |

| Revenue | Year ended April 30, 2020 | Year ended April 30, 2021 |
|------------|---------------------------|---------------------------|
| Customer A | 28 % | 32 % |
| Customer D | - | 12 % |
| Customer F | 16 % | 10 % |

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

* Less than 10% of total accounts receivable or total revenue.

Customer A and Customer D participated in the Company's Series B preferred share financing. As of April 30, 2020 and 2021, these two customers each own less than 2% of the Company's fully diluted shares.

The Company believes that the concentration of credit risk in its trade receivables is substantially mitigated by the high level of credit worthiness of its customers and the relatively short collection terms. The Company performs ongoing credit evaluations of its customers' financial conditions and limit the amount of credit extended when deemed necessary based upon payment history and the customer's current credit worthiness, but generally require no collateral.

The Company operates in markets that are highly competitive and rapidly changing. Significant technological changes, shifting customer needs, the emergence of competitive products with new capabilities, general economic conditions worldwide, the ability to safeguard patents and other intellectual property in a rapidly evolving market and reliance on assembly and test subcontractors, third-party wafer fabricators and other factors could affect the Company's financial results.

The Company currently outsources all of its integrated circuit manufacturing to Taiwan Semiconductor Manufacturing Company with the remaining assembly and testing processes outsourced to other subcontractors primarily in Asia. Any disruption of or interference with the Company's access to the goods or services from these subcontractors would impact the Company's operations.

4. Revenue Recognition

Contract Balances

The contract assets are primarily related to the Company's fixed fee IP licensing arrangements and rights to consideration for performance obligations delivered but not billed as of April 30, 2020 and 2021.

During the year ended April 30, 2020, the Company recognized \$16.9 million of revenue that was included in the deferred revenue balance as of April 30, 2019. During the year ended April 30, 2021, the Company recognized \$4.5 million of revenue that was included in the deferred revenue balance as of April 30, 2020.

Remaining Performance Obligations

Revenue allocated to remaining performance obligations represents the transaction price allocated to the performance obligations that are unsatisfied, or partially unsatisfied, which includes unearned revenue and amounts that will be invoiced and recognized as revenue in future periods. Contracted but unsatisfied performance obligations were approximately \$9.3 million as of April 30, 2021, which the Company expects to recognize over the next three years.

5. Fair Value Measurements

The carrying amount of the Company's financial instruments, including cash equivalents, accounts receivable, and accounts payable, approximate their respective fair values because of their short maturities.

6. Supplemental Financial Information

Inventories

Inventories consisted of the following (in thousands):

| | April 30, 2020 | April 30, 2021 |
|-----------------|-----------------|-----------------|
| Raw materials | \$ 748 | \$ 2,177 |
| Work in process | 312 | 1,844 |
| Finished goods | 1,216 | 3,083 |
| | <u>\$ 2,276</u> | <u>\$ 7,104</u> |

Prepaid Expenses and Other Current Assets

Prepaid expenses and other current assets consisted of the following (in thousands):

| | April 30, 2020 | April 30, 2021 |
|-----------------------|-----------------|-----------------|
| Prepaid expenses | \$ 1,255 | \$ 1,313 |
| Advances to suppliers | 117 | 6,276 |
| Other current assets | 248 | 1,142 |
| | <u>\$ 1,620</u> | <u>\$ 8,731</u> |

Property and Equipment, Net

Property and equipment consisted of the following (in thousands):

| | April 30, 2020 | April 30, 2021 |
|---|------------------|------------------|
| Construction in progress | \$ 2,988 | \$ 4,698 |
| Computer equipment and software | 1,988 | 1,606 |
| Furniture and fixtures | 141 | 215 |
| Laboratory equipment | 5,664 | 6,603 |
| Production equipment | 2,137 | 5,680 |
| Leasehold improvements | 1,219 | 1,349 |
| Transportation equipment | 205 | 224 |
| | <u>\$ 14,342</u> | <u>\$ 20,375</u> |
| Less: accumulated depreciation and amortization | <u>(3,655)</u> | <u>(6,144)</u> |
| | <u>\$ 10,687</u> | <u>\$ 14,231</u> |

Depreciation and amortization expense for the years ended April 30, 2021 and 2020 was \$2.2 million and \$1.8 million, respectively. Construction in progress and production equipment primarily includes mask set costs capitalized relating to the Company's new products already introduced or to be introduced.

Other Long-term Assets

Other long-term assets consisted of the following (in thousands):

| | April 30, 2020 | April 30, 2021 |
|---------------------------|----------------|-----------------|
| Long-term contract assets | \$ — | \$ 1,819 |
| Other long-term assets | 533 | 1,607 |
| | <u>\$ 533</u> | <u>\$ 3,426</u> |

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

Accrued Expenses and Other Current Liabilities

Accrued expenses and other current liabilities consisted of the following (in thousands):

| | April 30, 2020 | April 30, 2021 |
|--|------------------|-----------------|
| Accrued expenses | \$ 1,393 | \$ 2,652 |
| Cash proceeds for preferred shares yet to be issued ⁽¹⁾ | 8,900 | — |
| | \$ 10,293 | \$ 2,652 |

(1) The Company received \$8.9 million in April 2020 for the Series D convertible preferred shares, which were subsequently issued in FY21.

7. Commitments and Contingencies

Leases

The Company leases office space in the United States and other international locations. The leases are non-cancelable with expiration dates through fiscal year 2025.

The Company also has non-cancelable service agreements, including software licenses used in research and development activities expiring in various years through 2024.

Future minimum payments under non-cancelable operating leases and service agreements having initial terms in excess of one year as of April 30, 2021 are as follows (in thousands):

| | 2022 | 2023 | 2024 | 2025 | Total |
|--------------------------------|-----------------|-----------------|---------------|---------------|-----------------|
| Operating leases | \$ 2,421 | \$ 866 | \$ 846 | \$ 397 | \$ 4,530 |
| Technology license obligations | 141 | 134 | 85 | — | 360 |
| | \$ 2,562 | \$ 1,000 | \$ 931 | \$ 397 | \$ 4,890 |

For the years ended April 30, 2020 and 2021, the Company's rent expense was \$2.0 million and \$2.2 million, respectively.

Non-cancelable Purchase Obligations

The Company depends upon third party subcontractors to manufacture wafers and other inventory parts. The Company's subcontractor relationships typically allow for the cancellation of outstanding purchase orders, but require payment of all expenses incurred through the date of cancellation. As of April 30, 2021, the total value of open purchase orders payable within the next one year, that were committed with the Company's third party subcontractors was approximately \$10.4 million.

Warranty Obligations

The Company has contractual commitments to various customers, which could require the Company to incur costs to repair an epidemic defect with respect to its products outside of the normal warranty period if such defect were to occur. The Company's products carry a standard one-year warranty. The Company's warranty expense has not been material in the periods presented.

Indemnifications

In the ordinary course of business, the Company may provide indemnifications of varying scope and terms to customers, vendors, lessors, investors, directors, officers, employees and other parties with respect to certain matters, including, but not limited to, losses arising out of the Company's breach of such agreements, services to be provided by the Company or from intellectual property infringement claims made by third-parties. These indemnifications may survive termination of the underlying agreement and the maximum potential amount of future payments the Company could be required to

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

make under these indemnification provisions may not be subject to maximum loss clauses. The Company has not incurred material costs to defend lawsuits or settle claims related to these indemnifications. Accordingly, the Company has no liabilities recorded for these agreements as of April 30, 2020 and 2021.

Legal Proceedings

From time to time, the Company may be a party to various litigation claims in the normal course of business. Legal fees and other costs associated with such actions are expensed as incurred. The Company assesses, in conjunction with legal counsel, the need to record a liability for litigation and contingencies. Accrual estimates are recorded when and if it is determined that such a liability for litigation and contingencies are both probable and reasonably estimable. As of the date of issuance of the consolidated financial statements, the Company was not subject to any litigation. No accruals for loss contingencies or recognition of actual losses have been recorded in any of the periods presented.

8. Convertible Preferred Shares

In July 2015, the Company sold 8,313,334 Series A convertible preferred shares to investors for proceeds of \$8.0 million, net of issuance costs of \$0.1 million, at \$1.00 per share.

In December 2017 and January through May 2018, the Company sold 7,017,326 and 1,575,318 Series B convertible preferred shares to new and existing investors for proceeds of \$17.9 million, net of issuance costs of \$0.1 million, at \$2.095 per share.

In January through May 2019, the Company sold 5,245,243 Series C convertible preferred shares to new investors for proceeds of \$22.5 million, net of issuance costs of \$38 thousand, at \$4.290 per share.

In March and April 2020, the Company sold 10,093,925 Series D convertible preferred shares to new and existing investors for proceeds of \$50.0 million, net of issuance costs of \$0.4 million, at \$4.993 per share.

In May and June 2020, the Company sold 9,933,703 Series D convertible preferred shares to new and existing investors for proceeds of \$49.5 million, net of issuance costs of \$0.1 million, at \$4.993 per share.

In December 2020, the Company sold 8,630,146 Series D+ convertible preferred shares to new and existing investors for proceeds of \$49.9 million, net of issuance costs of \$0.2 million, at \$5.805 per share.

A summary at April 30, 2021 consists of the following:

| Series | Shares Authorized | Shares Issued and Outstanding | Per Share Liquidation Preference | Aggregate Liquidation Preference (in thousands) |
|-----------|-------------------|-------------------------------|----------------------------------|---|
| Series A | 8,313,334 | 8,313,334 | \$ 1.000 | \$ 8,313 |
| Series B | 8,592,644 | 8,592,644 | \$ 2.095 | 18,000 |
| Series C | 5,245,243 | 5,245,243 | \$ 4.290 | 22,500 |
| Series D | 20,027,628 | 20,027,628 | \$ 4.993 | 100,000 |
| Series D+ | 8,630,146 | 8,630,146 | \$ 5.805 | 50,099 |
| | 50,808,995 | 50,808,995 | | \$ 198,912 |

The rights, privileges, and preferences of the Series A, Series B, Series C, Series D, and Series D+ convertible preferred shares are as follows:

Conversion Rights - Each preferred share is convertible, at the option of the holder, at any time, and without the payment of any additional consideration, into such number of fully paid ordinary share as is determined by dividing the applicable original issue price for each such series of preferred shares by the

applicable conversion price in effect at the time of the conversion. The conversion price per share for each series of preferred share shall initially be equal to the original issue price of such series, which means \$1.00 per share for Series A, \$2.095 per share for Series B, \$4.290 per share for Series C, \$4.993 per share for Series D and \$5.805 per share for Series D+. The conversion price shall be subject to adjustment in order to adjust the number of ordinary shares into which the preferred shares are convertible.

Each share of Series A, B, C, D and D+ convertible preferred share automatically converts into the number of ordinary shares at the conversion rate at the time in effect upon the closing of a public offering of ordinary shares which results in at least \$25.0 million of proceeds to the Company at a per share price not less than \$9.986 or with the vote or written consent of the holders of a majority of the then outstanding preferred shares, voting as a separate class, to convert their preferred shares at the then-effective Conversion Price.

Dividends - The holders of preferred shares are entitled to receive noncumulative dividends when and if declared by the Company's board of directors. The holders of preferred shares are entitled to receive dividends prior and in preference to any payment of any dividend on ordinary shares in an amount equal to 8% of the original issue price per share of such preferred share. After payment of such dividends, any additional dividends shall be distributed among all holders of ordinary shares and preferred shares in proportion to the number of ordinary shares that would be held by each such holder if all preferred shares were converted to ordinary shares at the then effective conversion rate. No dividends have been declared by the board of directors from inception through April 30, 2021.

Liquidation Rights - In the event of any sale, lease, conveyance or other disposition of all or substantially all of the assets of the Company or the exclusive license of all or substantially all of the Company's intellectual property used in generating all or substantially all of the Company's revenues, reorganization, consolidation, acquisition, merger, liquidation, dissolution or winding up of the Company, either voluntary or involuntary, the holders of preferred shares shall be entitled to receive in preference to the holders of ordinary shares, an amount per share equal to the liquidation preference, plus any declared but unpaid dividends. After payment of the liquidation preference to holders of preferred shares, the remaining assets of the Company are available for distribution on a pro rata basis to the holders of ordinary shares.

Voting Rights - The holders of the convertible preferred shares are entitled to the number of votes equal to the number of ordinary shares into which such convertible preferred shares could be converted on the record date.

9. Ordinary Shares

The Company's Articles of Association, as amended in March 2021, authorizes the Company to issue 136,657,627 ordinary shares, par value \$0.00005 per share. Each ordinary share is entitled to one vote per share. The holders of ordinary shares are also entitled to receive dividends whenever funds are legally available and when declared by the Company's board of directors, subject to the prior rights of holders of all other classes of shares outstanding.

Share Issuances Subject to Repurchase

The Company has issued ordinary shares to certain employees that are subject to vesting periods pursuant to the respective share purchase agreements (Restricted Share Award or "RSA"). In addition, the Company allows early exercise for unvested ordinary share options under its 2015 Stock Plan. In regard to the ordinary shares purchased, but not vested, the Company has the right to repurchase shares at the original issue price in the event of termination of services. As of April 30, 2020, 941,795 such ordinary shares, consisting of 260,417 shares from RSA and 681,378 from share option early exercises, remain subject to the Company's repurchase rights. As of April 30, 2021, 630,379 such ordinary shares, consisting of 116,667 shares from RSA and 513,712 from share option early exercises, remain subject to the Company's repurchase rights. These shares are excluded from ordinary shares outstanding. The

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

proceeds recorded as accrued expenses and other current liabilities were \$0.7 million and \$0.6 million as of April 30, 2020 and 2021, respectively.

Share Repurchase Transaction

In July 2020, the Company offered to purchase up to an aggregate of 8,032,128 of its ordinary shares and options from certain ordinary shareholders, primarily initial investors, founders and current employees of the Company, at a cash price of \$4.98 per share. The transaction was completed in August 2020. The total ordinary shares and options the Company repurchased was 6,875,822 at a total purchase price of \$34.2 million. The excess of the repurchase price over the fair value of ordinary shares and options, which were originally issued to founders and current employees, was recorded as share-based compensation expense of \$11.3 million for the year ended April 30, 2021.

For the excess of the fair value of ordinary shares and options over the par value of shares, the Company allocated the amount to both accumulated deficit and additional paid in capital. The portion allocated to additional paid in capital is determined by applying a percentage, determined by dividing the number of shares repurchased by the number of shares issued and outstanding, to the balance of additional paid in capital as of the date of share repurchase. In connection with the transaction, \$0.9 million was allocated to additional paid in capital and \$22.0 million was allocated to accumulated deficit.

As of April 30, 2021, the Company had ordinary shares reserved for issuance as follows:

| | April 30, 2021 |
|---|-------------------|
| For conversion of preferred shares: | |
| Series A | 8,313,334 |
| Series B | 8,592,644 |
| Series C | 5,245,243 |
| Series D | 20,027,628 |
| Series D+ | 8,630,146 |
| Total for conversion of preferred shares | 50,808,995 |
| For ordinary share options issued and outstanding ⁽¹⁾ | 13,606,467 |
| For ordinary shares available for future grant under 2015 Stock Plan ⁽²⁾ | 3,329,614 |
| | <u>67,745,076</u> |

(1) These numbers include options early exercised

(2) These numbers exclude the shares subject to repurchase

10. Share Incentive Plan

The Company adopted the 2015 Stock Plan (the "Plan") in February 2015. The Plan is an equity incentive program under which employees of the Company or its subsidiary corporations (including officers), non-employee members of the Board, and consultants to the Company or its subsidiary corporations may be offered an opportunity to acquire the Company's ordinary shares. The Plan provides both for the direct award or sale of ordinary share ("RSAs") and for the grant of options to purchase ordinary shares. Options granted under the Plan may be Incentive share options ("ISOs") intended to qualify under Code Section 422 or Nonstatutory Options ("NSOs") which are not intended to so qualify. Only employees, outside directors and consultants of either the Company or a subsidiary of the Company, are eligible for the grant of NSO or the direct award or sale of ordinary shares. Only employees of either the Company or of a subsidiary of the Company, are eligible for the grant of ISOs.

As of April 30, 2020 and 2021, 22,000,000 and 26,000,000 ordinary shares, respectively, were authorized for issuance under the Plan. Options under the Plan may be granted for periods of up to ten

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

years and at prices no less than 100% of the estimated fair value of the shares on the date of grant as determined by the Board of Directors. Both RSAs and options granted generally vest over four years and vest at a rate of 25% upon the first anniversary of the issuance date and 1/48th per month thereafter.

A summary of information related to share option activity during the year is as follows:

| | Shares available for grant | Options Outstanding | | | |
|---|----------------------------|---------------------------|---------------------------------|---|--|
| | | Outstanding Share Options | Weighted-Average Exercise Price | Weighted-Average Remaining Contractual Term | Aggregate Intrinsic Value (in thousands) |
| Balance as of April 30, 2019 | 6,155,626 | 10,327,872 | \$0.51 | 7.99 | \$ 8,494 |
| Options granted | (2,349,000) | 2,349,000 | \$1.33 | | |
| Options exercised and vested | | (1,289,367) | \$0.47 | | |
| Options canceled/ forfeited | 611,317 | (611,317) | \$0.83 | | |
| Balance as of April 30, 2020 | 4,417,943 | 10,776,188 | \$0.67 | 7.53 | \$ 15,592 |
| Additional shares authorized | 4,000,000 | | | | |
| Options repurchased | 724,454 | | | | |
| Options granted | (6,325,510) | 6,325,510 | \$2.70 | | |
| Options exercised and vested | | (2,468,792) | \$0.56 | | |
| Options canceled/ forfeited | 512,727 | (512,727) | \$1.72 | | |
| Balance as of April 30, 2021 | 3,329,614 | 14,120,179 | \$1.57 | 7.87 | \$ 62,613 |
| Vested as of April 30, 2021 | | 5,815,379 | \$0.60 | 6.13 | \$ 31,381 |
| Exercisable as of April 30, 2021 | | 13,606,467 | \$1.59 | 7.87 | \$ 60,060 |

During the years ended April 30, 2020 and 2021, the total intrinsic value of options exercised, including options early exercised, was \$1.4 million and \$4.7 million, respectively. The weighted-average grant date fair value of options granted and vested was \$0.99 per share and \$0.39 per share, respectively, for the year ended April 30, 2020. The weighted-average grant date fair value of options granted and vested was \$1.86 per share and \$0.65 per share, respectively, for the year ended April 30, 2021.

During the year ended April 30, 2020, no RSAs were granted and 562,044 RSAs were vested. The weighted-average grant date fair value of RSAs vested was \$0.14 per share as of April 30, 2020. During the year ended April 30, 2021, no RSAs were granted and 143,750 RSAs were vested. The weighted-average grant date fair value of RSAs vested was \$0.27 per share. As of April 30, 2020 and 2021, the RSAs unvested were 260,417 and 116,667, respectively. As of April 30, 2020 and 2021, the weighted-average grant date fair value of RSAs unvested was \$0.33 per share and \$0.39 per share, respectively.

Share-based Compensation Associated with Awards to Employees

The total grant date fair value of share options that vested was \$1.2 million and \$2.1 million as of April 30, 2020 and 2021, respectively. As of April 30, 2021, the total unrecognized compensation cost was \$11.9 million related to share options, which are expected to be recognized over a weighted-average period of 2.9 years. There was no unrecognized compensation cost related to RSAs as of April 30, 2021.

The Company estimated the fair value of share options using the Black-Scholes option-pricing model. The fair value of employee share options is being amortized on a straight-line basis over the requisite

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

service period of the awards. The fair values of the employee share options granted in the year ended April 30, 2020 and 2021 were estimated using the following weighted-average assumptions:

| | 2020 | 2021 |
|--|-----------------|-----------------|
| Expected volatility | 36.55% - 36.89% | 40.12% - 42.84% |
| Weighted-average expected term (in years) | 5.91 | 5.97 |
| Risk-free interest rate | 1.68% - 1.75% | 0.32% - 1.19% |
| Dividend yield | —% | —% |
| Weighted-average grant date fair value per share | \$0.99 | \$1.86 |

The following table summarizes share-based compensation cost included in the consolidated statements of operations for the year ended April 30, 2020 and 2021 (in thousands).

| | 2020 | 2021 ⁽¹⁾ |
|----------------------------|-----------------|---------------------|
| Cost of revenue | \$ 33 | \$ 183 |
| Research and development | 584 | 7,737 |
| Sales and marketing | 480 | 1,970 |
| General and administrative | 150 | 4,016 |
| | \$ 1,247 | \$ 13,906 |

(1) The amounts include share-based compensation cost recorded from the Company's share repurchase transaction in fiscal year 2021. Refer to Note 9, "Ordinary Shares" for further details.

11. Income Taxes

Income (loss) before provision for income taxes consists of the following (in thousands):

| | April 30, 2020 | April 30, 2021 |
|---------------|-----------------|--------------------|
| United States | \$ 1,751 | \$ 2,011 |
| International | 344 | (27,307) |
| | \$ 2,095 | \$ (25,296) |

The components of income tax expenses are summarized as follows (in thousands):

| | April 30, 2020 | April 30, 2021 |
|-----------------------------------|----------------|-----------------|
| Current | | |
| Federal | \$ 102 | \$ 274 |
| State | 1 | 28 |
| International | 947 | 544 |
| Total current tax expense | 1,050 | 846 |
| Deferred | | |
| Federal | (535) | 1,219 |
| State | 159 | 6 |
| International | 92 | 144 |
| Total deferred tax benefit | (284) | 1,369 |
| Total tax expense | \$ 766 | \$ 2,215 |

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

The tax effects of significant items comprising the Company's deferred taxes are as follows (in thousands):

| | April 30, 2020 | April 30, 2021 |
|----------------------------------|----------------|-----------------|
| Deferred tax assets: | | |
| Accrued Expense | \$ 30 | \$ 144 |
| Deferred rent | 98 | 58 |
| Foreign tax credit | 186 | — |
| Net operating losses | 56 | 19 |
| Research and development credits | 2,771 | 4,011 |
| Others | 28 | — |
| Total deferred tax assets | 3,169 | 4,232 |
| Deferred tax liabilities | | |
| Property and equipment basis | (907) | (900) |
| Others | — | (16) |
| Total deferred tax liabilities | (907) | (916) |
| Valuation allowance | (1,286) | (3,706) |
| Net deferred taxes | \$ 976 | \$ (390) |

A valuation allowance is established when the Company believes that it is more likely than not that some portion of its deferred tax assets will not be realized. The valuation allowance increased \$2.4 million from fiscal year 2020. As of April 30, 2021, the Company had federal and state research credits of \$2.9 million and \$2.8 million, respectively. The federal research credits will begin to expire in 2039. The state research credits have no expiration date. As it is not more likely than not that the Company will be able to utilize the federal and state research credits, the Company recorded \$3.7 million of valuation allowance. As of April 30, 2021, the Company had no foreign tax credit carryover.

The Company consists of a Cayman parent holding company with various international and U.S. subsidiaries. The applicable statutory rate in Cayman is zero for the Company for fiscal years 2020 and 2021. For purposes of the reconciliation between the provision for income taxes at the statutory rate and the effective tax rate, a U.S. statutory tax rate of 21% for fiscal years 2020 and 2021 is applied as follows:

| | April 30, 2020 | April 30, 2021 |
|------------------------------------|----------------|----------------|
| Statutory federal tax expense rate | 21 % | 21 % |
| State tax, net of federal benefit | 8 % | — % |
| Research tax credits | (34)% | 3 % |
| Permanent adjustment | 1 % | 1 % |
| Other | (2)% | — % |
| Foreign rate differential | 25 % | (25)% |
| Change in valuation allowance | — % | (8)% |
| Withholding Taxes | 21 % | (2)% |
| Foreign tax credit | (4)% | — % |
| Effective tax rate | 36 % | (10)% |

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

A reconciliation of the beginning and ending amounts of unrecognized tax benefits is as follows (in thousands):

| | 2020 | 2021 |
|--|---------------|-----------------|
| Beginning gross unrecognized tax benefits | \$ 546 | \$ 953 |
| Additions for tax positions taken in the current year | 407 | 364 |
| Subtractions for tax positions taken in the prior year | — | (83) |
| Ending gross unrecognized tax benefits | \$ 953 | \$ 1,234 |

The Company recognizes the tax effects of an uncertain tax position only if it is more likely than not to be sustained based solely on such position's technical merits as of the reporting date and only in an amount more likely than not to be sustained upon review by the tax authorities.

Included in the balance of unrecognized tax benefits as of April 30, 2020 and 2021 were potential benefits of \$1.0 million and \$1.2 million, respectively, which if recognized, would affect the effective tax rate. Unrecognized tax benefits are not expected to significantly increase or decrease within the next 12 months.

The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. For the years ended April 30, 2020 and 2021 the Company's current tax provision was not impacted by interest and penalties.

The Company files U.S. state and foreign jurisdictions income tax returns with varying statutes of limitations. The Company does not have any tax years under income tax examination by taxing authorities. The Company's tax returns continue to remain subject to examination by U.S. federal authorities for fiscal years 2017 through 2020 and by state authorities for fiscal years 2017 through 2020. For the Company's international subsidiaries, the tax years that remain open to examination vary based on the year that each entity began operating.

12. Earnings (Loss) Per Share

Net earnings (loss) per share was determined as follows for the years ended April 30 (in thousands, except share and per share data):

| | 2020 | 2021 |
|---|------------|-------------|
| Numerator: | | |
| Net income (loss) | \$ 1,329 | \$ (27,511) |
| Less: Undistributed earnings attributed to participating securities | (1,329) | — |
| Net loss attributable to ordinary shareholders | \$ — | \$ (27,511) |
| Denominators: | | |
| Weighted-average shares outstanding used in basic and diluted calculation | 71,727,881 | 69,098,799 |
| Net loss per share attributable to ordinary shareholders | | |
| Basic and diluted | \$ — | \$ (0.40) |

Credo Technology Group Holding Ltd
Notes to Consolidated Financial Statements

The following potentially dilutive securities outstanding have been excluded from the computations of diluted weighted average shares outstanding for the year ended April 30, 2020 and 2021 because such securities have an anti-dilutive impact due to losses reported:

| | 2020 | 2021 |
|------------------------------|-------------------|-------------------|
| Convertible preferred shares | 23,092,076 | 44,802,985 |
| Options and RSAs | 4,789,052 | 6,039,780 |
| | <u>27,881,128</u> | <u>50,842,766</u> |

13. Segment and Geographic Information

As discussed in Note 2 to the consolidated financial statements, the Company operates in one reportable segment.

The following table summarizes revenue disaggregated by primary geographical market based on destination of shipment and location of contracting entity, which may differ from the customer's principal offices (in thousands):

| | April 30, | |
|-------------------|------------------|------------------|
| | 2020 | 2021 |
| United States | \$ 33,710 | \$ 35,655 |
| Mexico | 2,149 | 8,118 |
| Malaysia | 6,456 | 5,788 |
| Hong Kong | 7,488 | 4,492 |
| Rest of the World | 4,032 | 4,644 |
| | <u>\$ 53,835</u> | <u>\$ 58,697</u> |

The following table presents long-lived assets information based on the physical location of the assets by geographic region (in thousands):

| | April 30, | |
|------------------------------|------------------|------------------|
| | 2020 | 2021 |
| Property and equipment, net: | | |
| United States | \$ 3,142 | \$ 2,118 |
| Taiwan | 5,123 | 8,375 |
| Mainland China | 2,207 | 2,161 |
| Hong Kong | 215 | 1,577 |
| | <u>\$ 10,687</u> | <u>\$ 14,231</u> |

14. Subsequent Events

The Company evaluates events occurring subsequent to the date of the consolidated financial statements in determining the accounting or disclosure of transactions and events that affect the consolidated financial statements. Subsequent events have been evaluated through August 12, 2021, which is the date that the consolidated financial statements were issued.

In May 2021, the Company issued 1,250,831 Series D+ convertible preferred shares, generating cash proceeds of \$7.3 million, at \$5.805 per share.

In June 2021, the Company entered into a sublease agreement whereby the Company will lease an office space located in San Jose, California (the "Lease"). The office space will serve as the Company's corporate headquarters and include engineering, marketing and administrative functions. The Lease has

a term of 103 months from the commencement date in April 2022. Total future minimum lease payments under the lease is approximately \$19.2 million.

1. Description of Business and Basis of Presentation

Credo Technology Group Holding Ltd was formed under the laws of the Cayman Islands in September 2014. Credo Technology Group Holding Ltd directly owns Credo Technology Group Ltd., which owns, directly and indirectly, all of the shares of its subsidiaries in mainland China, Hong Kong, and the United States ("U.S."). References to the "Company" in these notes refer to Credo Technology Group Holding Ltd and its subsidiaries on a consolidated basis, unless otherwise specified.

The Company is an innovator in providing secure, high-speed connectivity solutions that deliver improved power and cost efficiency. The Company's connectivity solutions are optimized for optical and electrical Ethernet applications, including the emerging 100G, 200G, 400G and 800G markets. The Company's products are based on its Serializer/Deserializer ("SerDes") and Digital Signal Processor ("DSP") technologies. The Company's product families include integrated circuits ("ICs"), Active Electrical Cables ("AECs") and SerDes Chiplets. The Company's intellectual property ("IP") solutions consist primarily of SerDes IP licensing.

The ongoing COVID-19 pandemic has significantly impacted global economic activity and caused business disruption worldwide. The extent and nature of the impact of the COVID-19 pandemic on the Company's business and financial performance will be influenced by a variety of factors, including the duration and spread of the pandemic, as well as future spikes of COVID-19 infections or the emergence of additional COVID-19 variants that may result in additional preventative and mitigative measures. These factors may affect the timing and magnitude of demand from customers and the availability of portions of the supply chain, logistical services and component supply and may have a material net negative impact on the Company's business and financial results.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements are presented in accordance with the rules and regulations of the U.S. Securities and Exchange Commission (the "SEC") and do not include all disclosures normally required in annual consolidated financial statements prepared in accordance with generally accepted accounting principles in the United States ("GAAP"). These unaudited condensed consolidated financial statements and related notes should be read in conjunction with the Company's audited consolidated financial statements as of and for the years ended April 30, 2021 and 2020 that are included elsewhere in this prospectus. The unaudited condensed consolidated financial statements include all adjustments, including normal recurring adjustments and other adjustments, that are considered necessary for fair presentation of the Company's financial position and results of operations. All inter-company accounts and transactions have been eliminated. Operating results for the periods presented herein are not necessarily indicative of the results that may be expected for the entire year.

2. Significant Accounting Policies

The Company believes that other than the adoption of new accounting pronouncements as described below, there have been no significant changes during the three months ended July 31, 2020 and 2021 to the items disclosed in Note 2, "Significant Accounting Policies," included in the audited financial statements for the years ended April 30, 2020 and 2021.

Use of Estimates

The preparation of these condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the Company's condensed consolidated financial statements and accompanying notes.

The Company bases its estimates and judgments on historical experience, knowledge of current conditions and beliefs of what could occur in the future, given the available information. Estimates are used for, but not limited to, write-down for excess and obsolete inventories, asset lives for property and

equipment, accrued liabilities, allowance for doubtful accounts, the standalone selling price for each distinct performance obligation included in customer contracts with multiple performance obligations, variable consideration from revenue contracts, incremental borrowing rate used in the Company's operating lease calculations, determination of the fair value of share-based awards, valuation of ordinary shares, and the realization of tax assets and estimates of tax reserves. Actual results may differ from those estimates and such differences may be material to the financial statements. In the current macroeconomic environment affected by COVID-19, these estimates require increased judgment and carry a higher degree of variability and volatility. As events continue to evolve and additional information becomes available, these estimates may change materially in future periods.

Deferred Offering Costs

Deferred offering costs, consisting of legal, accounting and other fees and costs relating to the Company's planned initial public offering are capitalized within other long-term assets on the consolidated balance sheets. The deferred offering costs will be offset against the proceeds received by the Company upon the closing of the planned initial public offering. In the event the planned initial public offering is terminated, all of the deferred offering costs will be expensed within operating loss. As of April 30 and July 31, 2021, the deferred offering costs recorded as other long-term assets on the unaudited condensed consolidated balance sheet were not material and \$0.9 million, respectively.

Accounting Pronouncement Recently Adopted

In February 2016, the FASB issued Accounting Standards Update ("ASU") 2016-02, *Leases (Topic 842)*, which requires lessees to record most leases on their balance sheets and disclosing key information about lease arrangements. In July 2018, the FASB issued ASU 2018-10, *Codification Improvements to Topic 842, Leases*. The ASU makes 16 technical corrections to the new lease standard and other accounting topics, alleviating unintended consequences from applying the new standard. It does not make any substantive changes to the core provisions or principles of the new standard. In July 2018, the FASB also issued ASU 2018-11, *Leases (Topic 842): Targeted Improvements*. The ASU provides (1) an optional transition method that entities can use when adopting the standard and (2) a practical expedient that permits lessors to not separate non-lease components from the associated lease component if certain conditions are met. In March 2019, the FASB also issued ASU 2019-01, *Leases (Topic 842): Codification Improvements*, which impacts transition disclosures related to the new guidance. The Company adopted the new lease accounting standard on May 1, 2021, using the modified retrospective approach by applying the new standard to leases existing at the date of initial application and not restating comparative periods. See "Note 9 - Leases" for additional information.

Recent Accounting Pronouncements Not Yet Adopted

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, which requires a financial asset measured at amortized cost basis to be presented at the net amount expected to be collected, with further clarifications made more recently. For trade receivables, loans and other financial instruments, the Company will be required to use a forward-looking expected loss model rather than the incurred loss model for recognizing credit losses which reflects losses that are probable. Credit losses relating to available-for-sale debt securities are required to be recorded through an allowance for credit losses rather than as a reduction in the amortized cost basis of the securities. This guidance is effective for the Company for its fiscal year beginning May 1, 2023 and interim periods within its fiscal year beginning May 1, 2024. The Company is currently evaluating the impact of the adoption of this guidance on its consolidated financial statements.

In August 2018, the FASB issued ASU 2018-15, *Intangibles—Goodwill and Other—Internal-Use Software*, which aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. The new guidance is effective for the Company for its fiscal year beginning May 1, 2021 and interim periods within its fiscal year beginning May 1, 2022. The

Credo Technology Group Holding Ltd
Notes to Unaudited Condensed Consolidated Financial Statements

Company does not expect the adoption of this guidance to have a material impact on its consolidated financial statements.

In December 2019, the FASB issued ASU 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*, which simplifies the accounting for income taxes by eliminating some exceptions to the general approach in Topic 740 in order to reduce cost and complexity of its application. This new guidance is effective for the Company for its fiscal year beginning May 1, 2022 and interim periods within its fiscal year beginning May 1, 2023. Early adoption is permitted. The Company is currently evaluating the impact of the adoption of this guidance on its consolidated financial statements.

3. Concentrations

Financial instruments that subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents, and accounts receivable. Cash is placed in major financial institutions around the world. The Company's cash deposits exceed insured limits.

Historically, a relatively small number of customers have accounted for a significant portion of the Company's revenue. The particular customers which account for revenue concentration have varied from period-to-period as a result of the addition of new contracts, completion of existing contracts, and the volumes and prices at which the customers have recently bought the Company's products. These variations are expected to continue in the foreseeable future.

The following table summarizes the significant customers' accounts receivable and revenue as a percentage of total accounts receivable and total revenue, respectively:

| Accounts Receivable | As of | |
|---------------------|----------------|---------------|
| | April 30, 2021 | July 31, 2021 |
| Customer A | 35 % | 23 % |
| Customer B | * | 28 % |
| Customer C | 11 % | * |
| Customer D | 15 % | * |
| Customer E | 11 % | * |
| Customer F | * | 15 % |

| Revenue | Three Months Ended | |
|------------|--------------------|---------------|
| | July 31, 2020 | July 31, 2021 |
| Customer A | 44 % | 32 % |
| Customer G | 36 % | * |
| Customer H | * | 17 % |

* Less than 10% of total accounts receivable or total revenue.

4. Revenue Recognition

The following table summarizes revenue disaggregated by primary geographical market based on destination of shipment and location of contracting entity, which may differ from the customer's principal offices (in thousands):

| | Three Months Ended | |
|-------------------|--------------------|------------------|
| | July 31, 2020 | July 31, 2021 |
| United States | \$ 6,375 | \$ 4,294 |
| Mexico | 1,959 | 2,552 |
| Malaysia | 1,976 | 806 |
| Hong Kong | 301 | 1,322 |
| Taiwan | 347 | 1,630 |
| Rest of the World | 80 | 120 |
| | <u>\$ 11,038</u> | <u>\$ 10,724</u> |

Contract Balances

The contract assets are primarily related to the Company's fixed fee IP licensing arrangements and rights to consideration for performance obligations delivered but not billed as of April 30, 2021 and July 31, 2021.

During the three months ended July 31, 2020, the Company recognized \$1.2 million of revenue that was included in the deferred revenue balance as of April 30, 2020. During the three months ended July 31, 2021, the Company recognized \$2.0 million of revenue that was included in the deferred revenue balance as of April 30, 2021.

Remaining Performance Obligations

Revenue allocated to remaining performance obligations represents the transaction price allocated to the performance obligations that are unsatisfied, or partially unsatisfied, which includes unearned revenue and amounts that will be invoiced and recognized as revenue in future periods. Contracted but unsatisfied performance obligations were approximately \$6.2 million as of July 31, 2021, which the Company expects to recognize over the next three years.

5. Fair Value Measurements

The carrying amount of the Company's financial instruments, including cash equivalents, accounts receivable, and accounts payable, approximate their respective fair values because of their short maturities.

6. Supplemental Financial Information

Inventories

Inventories consisted of the following (in thousands):

| | April 30, 2021 | July 31, 2021 |
|-----------------|-----------------|------------------|
| Raw materials | \$ 2,177 | \$ 6,423 |
| Work in process | 1,844 | 4,319 |
| Finished goods | 3,083 | 2,606 |
| | <u>\$ 7,104</u> | <u>\$ 13,348</u> |

Credo Technology Group Holding Ltd
Notes to Unaudited Condensed Consolidated Financial Statements

Prepaid Expenses and Other Current Assets

Prepaid expenses and other current assets consisted of the following (in thousands):

| | April 30, 2021 | July 31, 2021 |
|-----------------------|-----------------|-----------------|
| Prepaid expenses | \$ 1,313 | \$ 2,108 |
| Advances to suppliers | 6,276 | 5,840 |
| Other current assets | 1,142 | 1,279 |
| | <u>\$ 8,731</u> | <u>\$ 9,227</u> |

Property and Equipment, Net

Property and equipment consisted of the following (in thousands):

| | April 30, 2021 | July 31, 2021 |
|---|------------------|------------------|
| Computer equipment and software | \$ 1,606 | \$ 1,648 |
| Furniture and fixtures | 215 | 215 |
| Laboratory equipment | 6,603 | 7,452 |
| Production equipment | 5,680 | 8,439 |
| Transportation equipment | 224 | 224 |
| Leasehold improvements | 1,349 | 1,349 |
| Construction in progress | 4,698 | 2,299 |
| | <u>20,375</u> | <u>21,626</u> |
| Less: accumulated depreciation and amortization | (6,144) | (7,010) |
| | <u>\$ 14,231</u> | <u>\$ 14,616</u> |

Depreciation and amortization expense for the three months ended July 31, 2020 and 2021 was \$0.5 million and \$0.9 million, respectively. Construction in progress and production equipment primarily includes mask set costs capitalized relating to the Company's new products already introduced or to be introduced.

Other Long-term Assets

Other long-term assets consisted of the following (in thousands):

| | April 30, 2021 | July 31, 2021 |
|---------------------------|-----------------|-----------------|
| Long-term contract assets | \$ 1,819 | \$ 1,858 |
| Deferred offering costs | — | 947 |
| Other long-term assets | 1,607 | 2,021 |
| | <u>\$ 3,426</u> | <u>\$ 4,826</u> |

Accrued Expenses and Other Current Liabilities

Accrued expenses and other current liabilities consisted of the following (in thousands):

| | April 30, 2021 | July 31, 2021 |
|--|-----------------|-----------------|
| Accrued expenses | \$ 2,652 | \$ 2,994 |
| Current portion of operating lease liabilities | — | 1,787 |
| Income tax payable | 625 | 1,485 |
| | <u>\$ 3,277</u> | <u>\$ 6,266</u> |

7. Commitments and Contingencies

Non-cancelable Purchase Obligations

The Company depends upon third party subcontractors to manufacture wafers and other inventory parts. The Company's subcontractor relationships typically allow for the cancellation of outstanding purchase orders, but require payment of all expenses incurred through the date of cancellation. As of July 31, 2021, the total value of open purchase orders, that were committed with the Company's third party subcontractors was approximately \$14.7 million.

Warranty Obligations

The Company has contractual commitments to various customers, which could require the Company to incur costs to repair an epidemic defect with respect to its products outside of the normal warranty period if such defect were to occur. The Company's products carry a standard one-year warranty. The Company's warranty expense has not been material in the periods presented.

Indemnifications

In the ordinary course of business, the Company may provide indemnifications of varying scope and terms to customers, vendors, lessors, investors, directors, officers, employees and other parties with respect to certain matters, including, but not limited to, losses arising out of the Company's breach of such agreements, services to be provided by the Company or from intellectual property infringement claims made by third-parties. These indemnifications may survive termination of the underlying agreement and the maximum potential amount of future payments the Company could be required to make under these indemnification provisions may not be subject to maximum loss clauses. The Company has not incurred material costs to defend lawsuits or settle claims related to these indemnifications. Accordingly, the Company has no liabilities recorded for these agreements as of April 30, 2021 and July 31, 2021.

Legal Proceedings

From time to time, the Company may be a party to various litigation claims in the normal course of business. Legal fees and other costs associated with such actions are expensed as incurred. The Company assesses, in conjunction with legal counsel, the need to record a liability for litigation and contingencies. Accrual estimates are recorded when and if it is determined that such a liability for litigation and contingencies are both probable and reasonably estimable. As of the date of issuance of the condensed consolidated financial statements, the Company was not subject to any litigation. No accruals for loss contingencies or recognition of actual losses have been recorded in any of the periods presented.

8. Convertible Preferred Shares

During the three months ended July 31, 2020, the Company issued 9,933,703 Series D convertible preferred shares for proceeds of \$49.5 million, net of issuance costs of \$0.1 million, at \$4.993 per share.

During the three months ended July 31, 2021, the Company issued 1,250,831 Series D+ convertible preferred shares for proceeds of \$7.3 million, at \$5.805 per share. The Company had previously issued 8,630,146 Series D+ convertible preferred shares for proceeds of \$50.0 million, net of issuance costs of \$0.1 million, at \$5.805 per share during the three months ended January 31, 2021.

Credo Technology Group Holding Ltd
Notes to Unaudited Condensed Consolidated Financial Statements

A summary as at July 31, 2021 consists of the following:

| Series | Shares Authorized | Shares Issued and Outstanding | Per Share Liquidation Preference | Aggregate Liquidation Preference (in thousands) |
|-----------|-------------------|-------------------------------|----------------------------------|---|
| Series A | 8,313,334 | 8,313,334 | \$ 1.000 | \$ 8,313 |
| Series B | 8,592,644 | 8,592,644 | \$ 2.095 | 18,000 |
| Series C | 5,245,243 | 5,245,243 | \$ 4.290 | 22,500 |
| Series D | 20,027,628 | 20,027,628 | \$ 4.993 | 100,000 |
| Series D+ | 9,880,977 | 9,880,977 | \$ 5.805 | 57,361 |
| | 52,059,826 | 52,059,826 | | \$ 206,174 |

9. Leases

Effective May 1, 2021, the Company adopted the new lease accounting standard using the modified retrospective approach. The Company elected the package of practical expedients permitted under the transition guidance within the new standard, which among other things, allows the Company to carry forward the historical lease classification. The Company elected to apply the short-term lease measurement and recognition exemption in which right-of use assets ("ROU") and lease liabilities are not recognized for short-term leases. Adoption of this standard resulted in the recording of operating lease ROU assets of \$4.0 million and corresponding operating lease liabilities of \$4.0 million. The standard did not materially affect the condensed consolidated statements of operations and had no impact on cash flows.

The Company determines if an arrangement is a lease at inception. Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. Operating lease ROU assets also include any initial direct costs and prepayments less lease incentives. Lease terms may include options to extend or terminate the lease when it is reasonably certain that the Company will exercise such options. As the Company's leases generally do not provide an implicit rate, the Company uses its collateralized incremental borrowing rate based on the information available at the lease commencement date, including lease term, in determining the present value of lease payments. Lease expense for these leases is recognized on a straight line basis over the lease term. The Company's leases include office space located in the United States and other international locations, which are all classified as operating leases.

During the three months ended July 31, 2021, the Company entered into a sublease agreement whereby the Company will lease an office space located in San Jose, California (the "Lease"). The office space will serve as the Company's corporate headquarters and include engineering, marketing and administrative functions. The Lease has a term of 103 months from the commencement date in April 2022. Total future minimum lease payments under the lease is approximately \$19.2 million. The Lease is excluded from the Company's right of use assets and operating lease liabilities as of July 31, 2021 as the commencement date does not start until Spring 2022.

Lease expense and supplemental cash flow information are as follows (in thousands):

| | Three Months Ended July 31, 2021 |
|--|----------------------------------|
| Operating lease expenses | \$ 679 |
| Cash paid for amounts included in the measurement of operating lease liabilities | \$ 647 |
| Right-of-use assets obtained in exchange for lease obligation | \$ 259 |

Credo Technology Group Holding Ltd
Notes to Unaudited Condensed Consolidated Financial Statements

The aggregate future lease payments for operating leases as of July 31, 2021 are as follows (in thousands):

| Fiscal Year | Operating leases |
|------------------------------------|-------------------------|
| Remainder of 2022 | \$ 1,700 |
| 2023 | 975 |
| 2024 | 865 |
| 2025 | 407 |
| Total lease payments | 3,947 |
| Less: Interest | 286 |
| Present value of lease liabilities | \$ 3,661 |

The aggregate future lease payments for operating leases as of April 30, 2021 are as follows (in thousands):

| Fiscal Year | Operating leases |
|----------------------|-------------------------|
| 2022 | \$ 2,421 |
| 2021 | 866 |
| 2024 | 846 |
| 2025 | 397 |
| Total lease payments | \$ 4,530 |

As of July 31, 2021, the weighted average remaining lease term for the Company's operating leases is 1.8 years and the weighted average discount rate used to determine the present value of the Company's operating leases is 6.0%.

10. Share Incentive Plan

A summary of information related to share option activity during the three months ended July 31, 2021 is as follows:

| | | Options Outstanding | | | |
|--|-----------------------------------|----------------------------------|--|--|---|
| | Shares available for grant | Outstanding Share Options | Weighted-Average Exercise Price | Weighted-Average Remaining Contractual Term | Aggregate Intrinsic Value (in thousands) |
| Balance as of April 30, 2021 | 3,329,614 | 14,120,179 | \$1.57 | 7.87 | \$ 62,613 |
| Options granted | (587,500) | 587,500 | \$5.17 | | |
| Options exercised and vested | | (529,009) | \$0.83 | | |
| Options canceled/ forfeited | 125,584 | (125,584) | \$0.92 | | |
| Balance as of July 31, 2021 | 2,867,698 | 14,053,086 | \$1.75 | 7.75 | \$ 122,191 |
| Vested as of July 31, 2021 | | 5,905,249 | \$0.67 | 6.00 | \$ 57,733 |
| Exercisable as of July 31, 2021 | | 13,430,207 | \$1.77 | 7.74 | \$ 116,564 |

During the three months ended July 31, 2020 and 2021, the total intrinsic value of options exercised, including options early exercised, was \$0.5 million and \$6.9 million, respectively.

As of July 31, 2021, the total unrecognized compensation cost was \$13.7 million related to share options, which are expected to be recognized over a weighted-average period of 2.8 years.

Credo Technology Group Holding Ltd
Notes to Unaudited Condensed Consolidated Financial Statements

The Company estimated the fair value of share options using the Black-Scholes option-pricing model. The fair value of employee share options is being amortized on a straight-line basis over the requisite service period of the awards. The fair values of the employee share options granted in the three months July 31, 2020 and 2021 were estimated using the following weighted-average assumptions:

| | Three Months Ended July 31, | |
|--|-----------------------------|-----------------|
| | 2020 | 2021 |
| Expected volatility | 40.12% - 41.09% | 42.12% - 42.57% |
| Weighted-average expected term (in years) | 5.93 | 6.01 |
| Risk-free interest rate | 0.32% - 0.40% | 0.69% - 0.86% |
| Dividend yield | —% | —% |
| Weighted-average grant date fair value per share | \$0.95 | \$6.49 |

The following table summarizes share-based compensation cost included in the condensed consolidated statements of operations for the three months ended July 31, 2020 and 2021 (in thousands):

| | July 31, 2020 | July 31, 2021 |
|----------------------------|---------------|-----------------|
| Cost of revenue | \$ 46 | \$ 87 |
| Research and development | 119 | 482 |
| Sales and marketing | 182 | 390 |
| General and administrative | 44 | 116 |
| | \$ 391 | \$ 1,075 |

11. Income Taxes

The Company's tax provision for interim periods is determined using an estimate of its annual effective tax rate, adjusted for discrete items, if any, that arise during the period. Each quarter, the Company updates its estimate of the annual effective tax rate, and if the estimated annual effective tax rate changes, the Company makes a cumulative adjustment in such period. The Company's quarterly tax provision, and estimate of its annual effective tax rate, is subject to variation due to several factors, including variability in accurately predicting our pre-tax income or loss and the mix of jurisdictions to which they relate, intercompany transactions, changes in tax laws, the applicability of special tax regimes, changes in how we do business, and discrete items.

Provisions for income taxes for the three months ended July 31, 2020 and 2021 were as follows (in thousands):

| | Three months ended July 31, 2020 | Effective Tax Rate | Three months ended July 31, 2021 | Effective Tax Rate |
|----------------------------|-------------------------------------|--------------------|-------------------------------------|--------------------|
| Provision for income taxes | \$ 253 | (5.51)% | \$ 902 | (7.72)% |

Our effective tax rate for the three months ended July 31, 2021 differs from the same period in the prior year primarily due to an decrease in non-U.S. earning that are taxed at a substantially lower tax rate.

12. Loss Per Share

Net loss per share was determined as follows for the three months ended July 31 (in thousands, except share and per share data):

| | 2020 | 2021 |
|---|------------------|------------------|
| Numerator: | | |
| Net loss | \$ (4,840) | \$ (12,577) |
| Denominator: | | |
| Weighted-average shares outstanding used in basic and diluted calculation | 72,680,026 | 68,409,095 |
| Net loss per share | | |
| Basic and diluted | <u>\$ (0.07)</u> | <u>\$ (0.18)</u> |

The following potentially dilutive securities outstanding have been excluded from the computations of diluted weighted average shares outstanding for the three months ended July 31, 2020 and 2021 because such securities have an anti-dilutive impact due to losses reported:

| | 2020 | 2021 |
|------------------------------|-------------------|-------------------|
| Convertible preferred shares | 40,395,052 | 51,991,846 |
| Options and RSAs | 5,768,446 | 9,150,451 |
| | <u>46,163,498</u> | <u>61,142,297</u> |

Item 13. Other Expenses of Issuance and Distribution

| | Amount to Be Paid |
|---------------------------------|-------------------|
| SEC registration fee | \$ * |
| FINRA filing fee | * |
| Nasdaq listing fee | * |
| Transfer agent's fees | * |
| Printing and engraving expenses | * |
| Legal fees and expenses | * |
| Accounting fees and expenses | * |
| Miscellaneous | * |
| Total | \$ * |

* To be completed by amendment.

Each of the amounts set forth above, other than the registration fee and the FINRA filing fee, is an estimate.

Item 14. Indemnification of Directors and Officers

As we are a Cayman Islands exempted company, the laws of the Cayman Islands will be relevant to the provisions relating to indemnification of our directors and officers. Although the Companies Act does not specifically restrict a Cayman Islands exempted company's ability to indemnify its directors or officers, it does not expressly provide for such indemnification either. Certain Commonwealth case law (which is likely to be persuasive in the Cayman Islands), however, indicates that the indemnification is generally permissible, unless there has been willful default, willful neglect, breach of fiduciary duty, unconscionable behavior or behavior which falls within the broad stable of conduct identifiable as "equitable fraud" on the part of the director or officer in question.

Our amended and restated memorandum and articles of association provide that each of our directors, agents or officers shall be indemnified out of our assets against any liability incurred by him as a result of any act or failure to act in carrying out his functions other than such liability, if any, that he may incur by his own actual fraud or willful neglect or default. No such director, agent or officer shall be liable to us for any loss or damage in carrying out his functions unless that liability arises through the actual fraud or willful neglect or default of such director, agent or officer.

We have also entered into indemnification agreements with certain of our directors and executive officers under which we have agreed to indemnify each such person and hold him harmless against expenses, judgments, fines and amounts payable under settlement agreements in connection with any threatened, pending or completed action, suit or proceeding to which he has been made a party or in which he became involved by reason of the fact that he is or was our director or officer. Except with respect to expenses to be reimbursed by us in the event that the indemnified person has been successful on the merits or otherwise in defense of the action, suit or proceeding, our obligations under the indemnification agreements are subject to certain customary restrictions and exceptions. The indemnification agreements are governed under Cayman Islands law or New York law. Prior to the completion of this offering, we expect to enter into new indemnification agreements with each of our directors and executive officers, which will contain similar provisions.

In addition, we maintain standard policies of insurance under which coverage is provided to our directors and officers against loss rising from claims made by reason of breach of duty or other wrongful act, and to us with respect to payments which may be made by us to such directors and officers pursuant to the above indemnification provision or otherwise as a matter of law.

The proposed form of Underwriting Agreement, to be filed as Exhibit 1.1 to this Registration Statement, provides for indemnification of directors and officers of the Registrant by the underwriters against certain liabilities.

Item 15. Recent Sales of Unregistered Securities

Since three years before the date of the initial filing of this Registration Statement, the Registrant has sold the following securities without registration under the Securities Act:

- (1) From January 2019 through May 2019, we issued and sold an aggregate of 5,245,243 of our Series C convertible preferred shares to four accredited investors in multiple closings at a purchase price of \$4.2896 per share, for aggregate gross proceeds of approximately \$22.5 million.
- (2) From March 2020 through June 2020, we issued and sold an aggregate of 20,027,628 of our Series D convertible preferred shares in multiple closings to 19 accredited investors at a purchase price of \$4.9931 per share, for aggregate gross proceeds of approximately \$100.0 million.
- (3) In December 2020, we issued and sold an aggregate of 8,630,146 of our Series D+ convertible preferred shares to 12 accredited investors at a purchase price of \$5.80517 per share, for aggregate gross proceeds of approximately \$50.1 million.
- (4) In May 2021, we issued an additional 1,250,831 of our Series D+ convertible preferred shares to 12 accredited investors at a purchase price of \$5.80517 per share, for aggregate gross proceeds of approximately \$7.3 million.
- (5) From July 31, 2018 through July 30, 2021, we granted to certain employees, consultants and directors options to purchase an aggregate of 11,743,510 of our ordinary shares under our 2015 Stock Plan, at exercise prices ranging from \$0.62 to \$4.25 per share.
- (6) From July 31, 2018 through July 30, 2021, we issued an aggregate of 5,900,549 of our ordinary shares to certain employees, consultants and directors upon the exercise of options granted under our 2015 Stock Plan, at exercise prices ranging from \$0.20 to \$2.33 per share, for an aggregate exercise price of \$3.7 million.

None of the foregoing transactions involved any underwriters, underwriting discounts or commissions or any public offering. The sales of the above securities were deemed to be exempt from registration under the Securities Act in reliance on Section 4(a)(2) of the Securities Act (and Regulation D or Regulation S promulgated thereunder), or Rule 701 promulgated under Section 3(b) of the Securities Act as transactions by an issuer not involving a public offering or transactions pursuant to compensatory benefit plans and contracts relating to compensation as provided under such Rule 701. The recipients of securities in each such transaction represented their intention to acquire the securities for investment only and not with a view to or for sale in connection with any distribution thereof and appropriate legends were affixed to the share certificates and warrants issued in such transactions. All recipients had adequate access, through their relationships with us, to information about us.

Item 16. Exhibits and Financial Statement Schedules

(a) Exhibits.

See the Exhibit Index immediately preceding the signature page hereto for a list of exhibits filed as part of this registration statement on Form S-1, which Exhibit Index is incorporated herein by reference.

(b) Financial Statement Schedules.

All other schedules have been omitted because the information required to be set forth therein is not applicable or is shown in the consolidated financial statements or related notes.

Item 17. Undertakings

The undersigned registrant hereby undertakes:

- (a) The undersigned registrant hereby undertakes to provide to the underwriter at the closing specified in the underwriting agreement certificates in such denominations and registered in such names as required by the underwriter to permit prompt delivery to each purchaser.
- (b) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions referenced in Item 14 of this registration statement, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered hereunder, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
- (c) The undersigned registrant hereby undertakes that:
 - (1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.
 - (2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

- 3 The objects for which the Company is established are unrestricted and the Company shall have full power and authority to carry out any object not prohibited by the laws of the Cayman Islands.
- 4 The liability of each Member is limited to the amount unpaid on such Member's shares.
- 5 The authorised share capital of the Company is US\$52,500.00 divided into 1,000,000,000 Ordinary Shares of a nominal or par value of US\$0.00005 each and 50,000,000 Preferred Shares of a nominal or par value of US\$0.00005 each with the power for the Company.
- 6 The Company has the power to register by way of continuation as a body corporate limited by shares under the laws of any jurisdiction outside the Cayman Islands and to be deregistered in the Cayman Islands.
- 7 Capitalised terms that are not defined in this Amended and Restated Memorandum of Association bear the same meaning as those given in the Amended and Restated Articles of Association of the Company.

**THE COMPANIES ACT (AS REVISED)
OF THE CAYMAN ISLANDS
COMPANY LIMITED BY SHARES**

**AMENDED AND RESTATED
ARTICLES OF ASSOCIATION
OF
CREDO TECHNOLOGY GROUP HOLDING LTD
(ADOPTED BY SPECIAL RESOLUTION DATED [*] AND EFFECTIVE ON [*])**

1 Interpretation

1.1 In these Articles, unless otherwise defined, the defined terms shall have the meanings assigned to them as follows:

| | |
|--------------------------|--|
| "Affiliate" | means (i) in the case of a natural person, such person's parents, parents-in-law, spouse, children or grandchildren, a trust for the benefit of any of the foregoing, a company, partnership or any natural person or entity wholly or jointly owned by such person or any of the foregoing, and (ii) in the case of a corporation, partnership or other entity or any natural person or entity which directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, such entity. The term "control" shall mean the ownership, directly or indirectly, of shares possessing more than fifty per cent (50%) of the voting power of the corporation, or the partnership or other entity (other than, in the case of a corporation, shares having such power only by reason of the happening of a contingency), or having the power to control the management or elect a majority of members to the board of directors or equivalent decision-making body of such corporation, partnership or other entity. |
| "Applicable Law" | means, with respect to any person, all provisions of laws, statutes, ordinances, rules, regulations, permits, certificates, judgments, decisions, decrees or orders of any governmental authority applicable to such person. |
| "Articles" | means the Amended and Restated Articles of Association of the Company, as from time to time altered or added to in accordance with the Statute and these Articles. |
| "Audit Committee" | means the audit committee of the board of directors of the Company established pursuant to the Articles, or any successor committee. |
| "Auditor" | means the person for the time being performing the duties of auditor of the Company (if any). |
| "Business Day" | means any day other than a Saturday, a Sunday or a legal holiday or a day on which banking institutions or trust companies are authorised or obligated by law to close in New York City. |

| | |
|--|---|
| "Clearing House" | means a clearing house recognised by the laws of the jurisdiction in which the Shares (or depositary receipts therefor) are listed or quoted on a stock exchange or interdealer quotation system in such jurisdiction. |
| "Company" | means the above named company. |
| "Company's Website" | means the website of the Company, the address or domain name of which has been notified to Members. |
| "Compensation Committee" | means the compensation committee of the board of directors of the Company established pursuant to the Articles, or any successor committee. |
| "Designated Stock Exchange" | means any United States national securities exchange on which the securities of the Company are listed for trading, including The Nasdaq Stock Market, LLC. |
| "Directors" | means the directors for the time being of the Company. |
| "Dividend" | means any dividend (whether interim or final) resolved to be paid on shares pursuant to these Articles. |
| "electronic communication" | means a communication sent by electronic means, including electronic posting to the Company's Website, transmission to any number, address or internet website (including the website of the Securities and Exchange Commission) or other electronic delivery methods as otherwise decided and approved by the Directors. |
| "electronic record" | has the same meaning as in the Electronic Transactions Act. |
| "Electronic Transactions Act" | means the Electronic Transactions Act (As Revised) of the Cayman Islands. |
| "Exchange Act" | means the United States Securities Exchange Act of 1934, as amended, or any similar federal statute and the rules and regulations of the Securities and Exchange Commission thereunder, all as the same shall be in effect at the time. |
| "Independent Director" | has the same meaning as in the rules and regulations of the Designated Stock Exchange or in Rule 10A-3 under the Exchange Act, as the case may be. |
| "IPO" | means the Company's initial public offering of securities. |
| "Member" | has the same meaning as in the Statute. |
| "Memorandum of Association" | means the amended and restated memorandum of association of the Company. |
| "Nominating and Corporate Governance Committee" | means the nominating and corporate governance committee of the board of directors of the Company established pursuant to the Articles, or any successor committee. |
| "Officer" | means a person appointed to hold an office in the Company. |

| | |
|---|--|
| "Ordinary Resolution" | means (i) a resolution passed by a simple majority of votes cast by such Members as, being entitled to do so, vote in person or, in the case of any Member being an organisation, by its duly authorised representative or, where proxies are allowed, by proxy at a general meeting of the Company or (ii) a unanimous written resolution. |
| "Ordinary Share" | means an ordinary share in the share capital of the Company of USD 0.00005 nominal or par value designated as Ordinary Shares, and having the rights provided for in these Articles. |
| "Preferred Share" | means a preferred share in the share capital of the Company of USD 0.00005 nominal or par value designated as Preferred Shares, and having the rights provided for in these Articles. |
| "Register of Members" | means the register of Members maintained in accordance with the Statute and includes (except where otherwise stated) any branch or duplicate register of Members. |
| "Registered Office" | means the registered office for the time being of the Company. |
| "Seal" | means the common seal of the Company including any facsimile thereof. |
| "Securities and Exchange Commission" | means the United States Securities and Exchange Commission. |
| "Securities Act" | means the Securities Act of 1933 of the United States of America, as amended, or any similar federal statute and the rules and regulations of the Securities and Exchange Commission thereunder, all as the same shall be in effect at the time. |
| "Share" | means any share in the capital of the Company, including the Ordinary Shares, Preferred Shares and shares of other classes. |
| "signed" | means a signature or representation of a signature affixed by mechanical means or an electronic symbol or process attached to or logically associated with an electronic communication and executed or adopted by a person with the intent to sign the electronic communication. |
| "Special Resolution" | means (i) a resolution passed by not less than two-thirds of votes cast by such Members as, being entitled to do so, vote in person or, where proxies are allowed, by proxy at a general meeting of which notice specifying the intention to propose the resolution as a special resolution, has been duly given or (ii) a unanimous written resolution. |
| "Statute" | means the Companies Act (As Revised) of the Cayman Islands. |
| "Treasury Share" | means a share held in the name of the Company as a treasury share in accordance with the Statute. |

1.2 In these Articles, save where the context requires otherwise:

- (a) words importing the singular number include the plural number and vice versa;
- (b) words importing the masculine gender include the feminine gender;
- (c) words importing persons include corporations as well as any other legal or natural person;
- (d) "written" and "in writing" include all modes of representing or reproducing words in visible form, including in the form of an Electronic Record;
- (e) "shall" shall be construed as imperative and "may" shall be construed as permissive;
- (f) references to provisions of any law or regulation shall be construed as references to those provisions as amended, modified, re-enacted or replaced;
- (g) any phrase introduced by the terms "including", "include", "in particular" or any similar expression shall be construed as illustrative and shall not limit the sense of the words preceding those terms;
- (h) the term "and/or" is used herein to mean both "and" as well as "or." The use of "and/or" in certain contexts in no respects qualifies or modifies the use of the terms "and" or "or" in others. The term "or" shall not be interpreted to be exclusive and the term "and" shall not be interpreted to require the conjunctive (in each case, unless the context otherwise requires);
- (i) headings are inserted for reference only and shall be ignored in construing the Articles;
- (j) any requirements as to delivery under the Articles include delivery in the form of an Electronic Record;
- (k) any requirements as to execution or signature under the Articles including the execution of the Articles themselves can be satisfied in the form of an electronic signature as defined in the Electronic Transactions Act;
- (l) sections 8 and 19(3) of the Electronic Transactions Act shall not apply;
- (m) the term "clear days" in relation to the period of a notice means that period excluding the day when the notice is received or deemed to be received and the day for which it is given or on which it is to take effect; and
- (n) the term "holder" in relation to a Share means a person whose name is entered in the Register of Members as the holder of such Share.

2 Commencement of Business

2.1 The business of the Company may be commenced as soon after incorporation of the Company as the Directors shall see fit.

2.2 The Directors may pay, out of the capital or any other monies of the Company, all expenses incurred in or about the formation and establishment of the Company, including the expenses of registration.

3 Issue of Shares and other Securities

- 3.1 Subject to the provisions, if any, in the Memorandum (and to any direction that may be given by the Company in general meeting) and, where applicable, the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law, and without prejudice to any rights attached to any existing Shares, the Directors may, in their absolute discretion and without approval of the Members, allot, issue, grant options over or otherwise dispose of shares (including fractions of a share) with or without preferred, deferred or other rights or restrictions, whether in regard to Dividend or other distribution, voting, return of capital or otherwise, any or all of which may be greater than the powers and rights associated with the Ordinary Shares, to such persons, at such times and on such other terms as they think proper, which shall be conclusively evidenced by their approval of the terms thereof, and may also (subject to the Statute and these Articles) vary such rights.
- 3.2 The Company may issue rights, options, warrants or convertible securities or securities of similar nature conferring the right upon the holders thereof to subscribe for, purchase or receive any class of Shares or other securities in the Company on such terms as the Directors may from time to time determine.
- 3.3 The Company shall not issue shares in bearer form and shall only issue shares as fully paid.

4 Ordinary Shares

- 4.1 The holders of the Ordinary Shares shall be:
- (a) entitled to dividends in accordance with the relevant provisions of these Articles;
 - (b) entitled to and are subject to the provisions in relation to winding up of the Company provided for in these Articles;
 - (c) entitled to attend general meetings of the Company and shall be entitled to one vote for each Ordinary Share registered in his name in the Register of Members, both in accordance with the relevant provisions of these Articles.
- 4.2 All Ordinary Shares shall rank *pari passu* with each other in all respects.

5 Preferred Shares¹

- 5.1 Preferred Shares may be issued from time to time in one or more series, each of such series to have such voting powers (full or limited or without voting powers), designations, preferences and relative, participating, optional or other special rights and qualifications, limitations or restrictions thereof as are stated and expressed, or in any resolution or resolutions providing for the issue of such series adopted by the Directors as hereinafter provided.
- 5.2 Authority is hereby granted to the Directors, subject to the provisions of the Memorandum, these Articles and applicable law, to create one or more series of Preferred Shares and, with respect to each such series, to fix by resolution or resolutions, without any further vote or action by the Members of the Company providing for the issue of such series:
- (a) the number of Preferred Shares to constitute such series and the distinctive designation thereof;

¹ Drafting note: Client to confirm terms of Pref issuance or restrictions on issue

- (b) the dividend rate on the Preferred Shares of such series, the dividend payment dates, the periods in respect of which dividends are payable ("**Dividend Periods**"), whether such dividends shall be cumulative and, if cumulative, the date or dates from which dividends shall accumulate;
 - (c) whether the Preferred Shares of such series shall be convertible into, or exchangeable for, Shares of any other class or classes or any other series of the same or any other class or classes of Shares and the conversion price or prices or rate or rates, or the rate or rates at which such exchange may be made, with such adjustments, if any, as shall be stated and expressed or provided in such resolution or resolutions;
 - (d) the preferences, if any, and the amounts thereof, which the Preferred Shares of such series shall be entitled to receive upon the winding up of the Company;
 - (e) the voting power, if any, of the Preferred Shares of such series;
 - (f) transfer restrictions and rights of first refusal with respect to the Preferred Shares of such series; and
 - (g) such other terms, conditions, special rights and provisions as may seem advisable to the Directors.
- 5.3 Notwithstanding the fixing of the number of Preferred Shares constituting a particular series upon the issuance thereof, the Directors at any time thereafter may authorise the issuance of additional Preferred Shares of the same series subject always to the Statute and the Memorandum of Association.
- 5.4 No dividend shall be declared and set apart for payment on any series of Preferred Shares in respect of any Dividend Period unless there shall likewise be or have been paid, or declared and set apart for payment, on all Preferred Shares of each other series entitled to cumulative dividends at the time outstanding which rank senior or equally as to dividends with the series in question, dividends rateably in accordance with the sums which would be payable on the said Preferred Shares through the end of the last preceding Dividend Period if all dividends were declared and paid in full.
- 5.5 If, upon the winding up of the Company, the assets of the Company distributable among the holders of any one or more series of Preferred Shares which (a) are entitled to a preference over the holders of the Ordinary Shares upon such winding up; and (b) rank equally in connection with any such distribution, shall be insufficient to pay in full the preferential amount to which the holders of such Preferred Shares shall be entitled, then such assets, or the proceeds thereof, shall be distributed among the holders of each such series of the Preferred Shares rateably in accordance with the sums which would be payable on such distribution if all sums payable were discharged in full.

6 Register of Members

- 6.1 The Company shall maintain or cause to be maintained the Register of Members in accordance with the Statute, provided that for so long as the securities of the Company are listed for trading on the Designated Stock Exchange, title to such securities may be evidenced and transferred in accordance with the laws applicable to and the rules and regulations of the Designated Stock Exchange.

- 6.2 The Directors may determine that the Company shall maintain one or more branch registers of Members in accordance with the Statute. The Directors may also determine which register of Members shall constitute the principal register and which shall constitute the branch register or registers, and to vary such determination from time to time.

7 Closing Register of Members or Fixing Record Date

- 7.1 For the purpose of determining Members entitled to notice of, or to vote at any meeting of Members or any adjournment thereof, or Members entitled to receive payment of any Dividend or other distribution, or in order to make a determination of Members for any other purpose, the Directors may, after notice has been given by advertisement in an appointed newspaper or any other newspaper or by any other means in accordance with the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law, provide that the Register of Members shall be closed for transfers for a stated period which shall not in any case exceed forty days.
- 7.2 In lieu of, or apart from, closing the Register of Members, the Directors may fix in advance or arrears a date as the record date for any such determination of Members entitled to notice of, or to vote at any meeting of the Members or any adjournment thereof, or for the purpose of determining the Members entitled to receive payment of any Dividend or other distribution, or in order to make a determination of Members for any other purpose.
- 7.3 If the Register of Members is not so closed and no record date is fixed for the determination of Members entitled to notice of, or to vote at, a meeting of Members or Members entitled to receive payment of a Dividend or other distribution, the date on which notice of the meeting is sent or the date on which the resolution of the Directors resolving to pay such Dividend or other distribution is passed, as the case may be, shall be the record date for such determination of Members. When a determination of Members entitled to vote at any meeting of Members has been made as provided in this Article, such determination shall apply to any adjournment thereof.

8 Certificates for Shares

- 8.1 A Member shall only be entitled to a share certificate if the Directors resolve that share certificates shall be issued. Share certificates representing Shares, if any, shall be in such form as the Directors may determine. Share certificates shall be signed by one or more Directors or other person authorised by the Directors. The Directors may authorise certificates to be issued with the authorised signature(s) affixed by mechanical process. All certificates for Shares shall be consecutively numbered or otherwise identified and shall specify the Shares to which they relate. All certificates surrendered to the Company for transfer shall be cancelled and, subject to the Articles, no new certificate shall be issued until the former certificate representing a like number of relevant Shares shall have been surrendered and cancelled.
- 8.2 The Company shall not be bound to issue more than one certificate for Shares held jointly by more than one person and delivery of a certificate to one joint holder shall be a sufficient delivery to all of them.
- 8.3 If a share certificate is defaced, worn out, lost or destroyed, it may be renewed on such terms (if any) as to evidence and indemnity and on the payment of such expenses reasonably incurred by the Company in investigating evidence, as the Directors may prescribe, and (in the case of defacement or wearing out) upon delivery of the old certificate.

- 8.4 Every share certificate sent in accordance with the Articles will be sent at the risk of the Member or other person entitled to the certificate. The Company will not be responsible for any share certificate lost or delayed in the course of delivery.
- 8.5 Share certificates shall be issued within the relevant time limit as prescribed by the Statute, if applicable, or as the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law may from time to time determine, whichever is shorter, after the allotment or, except in the case of a Share transfer which the Company is for the time being entitled to refuse to register and does not register, after lodgement of a Share transfer with the Company.

9 Transfer of Shares

- 9.1 Subject to the terms of the Articles, any Member may transfer all or any of his Shares by an instrument of transfer provided that such transfer complies with the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law. If the Shares in question were issued in conjunction with rights, options or warrants issued pursuant to the Articles on terms that one cannot be transferred without the other, the Directors shall refuse to register the transfer of any such Share without evidence satisfactory to them of the like transfer of such option or warrant.
- 9.2 The instrument of transfer of any Share shall be in writing in the usual or common form or in a form prescribed by the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law or in any other form approved by the Directors and shall be executed by or on behalf of the transferor (and if the Directors so require, signed by or on behalf of the transferee) and may be under hand or, if the transferor or transferee is a Clearing House or its nominee(s), by hand or by machine imprinted signature or by such other manner of execution as the Directors may approve from time to time. The transferor shall be deemed to remain the holder of a Share until the name of the transferee is entered in the Register of Members.
- 9.3 The Directors may, in their absolute discretion, decline to register any transfer of Shares, subject to any applicable requirements imposed from time to time by the Commission and the Designated Stock Exchange.

10 Redemption, Purchase and Surrender of Shares, Treasury Shares

- 10.1 Subject to the provisions, if any, in these Articles, the Memorandum, applicable law, including the Statute, and the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law, the Company may:
- (a) issue shares on terms that they are to be redeemed or are liable to be redeemed at the option of the Company or the Member on such terms and in such manner as the Directors may, before the issue of such shares, determine; and
 - (b) purchase its own shares (including any redeemable shares) in such manner and on such other terms as the Directors may agree with the relevant Member, provided that the manner of purchase is in accordance with any applicable requirements imposed from time to time by the Designated Stock Exchange, the Securities and Exchange

Commission and/or any other competent regulatory authority or otherwise under Applicable Law;

- 10.2 For the avoidance of doubt, redemptions, repurchases and surrenders of Shares in the circumstances described in the Article above shall not require further approval of the Members.
- 10.3 The Company may make a payment in respect of the redemption or purchase of its own shares in any manner permitted by the Statute, including out of capital.
- 10.4 The Directors may accept the surrender for no consideration of any fully paid share.
- 10.5 The Directors may, prior to the purchase, redemption or surrender of any Share, determine that such Share shall be held as a Treasury Share.
- 10.6 The Directors may determine to cancel a Treasury Share or transfer a Treasury Share on such terms as they think proper (including, without limitation, for nil consideration).

11 Variation of Rights Attaching to Shares

- 11.1 Subject to Article 3.1, if at any time the share capital of the Company is divided into different classes of shares, all or any of the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may, whether or not the Company is being wound up, be varied without the consent of the holders of the issued shares of that class where such variation is considered by the Directors not to have a material adverse effect upon such rights; otherwise, any such variation shall be made only with the consent in writing of the holders of not less than two thirds of the issued shares of that class, or with the sanction of a resolution passed by a majority of not less than two thirds of the votes cast at a separate meeting of the holders of the shares of that class. For the avoidance of doubt, the Directors reserve the right, notwithstanding that any such variation may not have a material adverse effect, to obtain consent from the holders of shares of the relevant class. To any such meeting all the provisions of these Articles relating to general meetings shall apply *mutatis mutandis*, except that the necessary quorum shall be one person holding or representing by proxy at least one third of the issued shares of the class and that any holder of shares of the class present in person or by proxy may demand a poll.
- 11.2 For the purposes of a separate class meeting, the Directors may treat two or more or all the classes of Shares as forming one class of shares if the Directors consider that such class of Shares would be affected in the same way by the proposals under consideration, but in any other case shall treat them as separate classes of shares.
- 11.3 The rights conferred upon the holders of the shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking in priority to or *pari passu* therewith.

12 Commission on Sale of Shares

The Company may, in so far as the Statute permits, pay a commission to any person in consideration of his subscribing or agreeing to subscribe (whether absolutely or conditionally) or procuring or agreeing to procure subscriptions (whether absolutely or conditionally) for any shares. Such commissions may be satisfied by the payment of cash and/or the issue of fully or partly paid-up shares. The Company may also on any issue of shares pay such brokerage as may be lawful.

13 Non-Recognition of Trusts

The Company shall not be bound by or compelled to recognise in any way (even when notified) any equitable, contingent, future or partial interest in any share, or (except only as is otherwise provided by these Articles or the Statute) any other rights in respect of any share other than an absolute right to the entirety thereof in the holder.

14 Lien on Shares

- 14.1 The Company shall have a first and paramount lien on all Shares (whether fully paid-up or not) registered in the name of a Member (whether solely or jointly with others) for all debts, liabilities or engagements to or with the Company (whether presently payable or not) by such Member or his estate, either alone or jointly with any other person, whether a Member or not, but the Directors may at any time declare any Share to be wholly or in part exempt from the provisions of this Article. The registration of a transfer of any such Share shall operate as a waiver of the Company's lien thereon. The Company's lien on a Share shall also extend to any amount payable in respect of that Share.
- 14.2 The Company may sell, in such manner as the Directors think fit, any Shares on which the Company has a lien, if a sum in respect of which the lien exists is presently payable, and is not paid within fourteen clear days after notice has been received or deemed to have been received by the holder of the Shares, or to the person entitled to it in consequence of the death or bankruptcy of the holder, demanding payment and stating that if the notice is not complied with the Shares may be sold.
- 14.3 To give effect to any such sale the Directors may authorise any person to execute an instrument of transfer of the Shares sold to, or in accordance with the directions of, the purchaser. The purchaser or his nominee shall be registered as the holder of the Shares comprised in any such transfer, and he shall not be bound to see to the application of the purchase money, nor shall his title to the Shares be affected by any irregularity or invalidity in the sale or the exercise of the Company's power of sale under the Articles.
- 14.4 The net proceeds of such sale after payment of costs, shall be applied in payment of such part of the amount in respect of which the lien exists as is presently payable and any balance shall (subject to a like lien for sums not presently payable as existed upon the Shares before the sale) be paid to the person entitled to the Shares at the date of the sale.

15 Call on Shares

- 15.1 Subject to the terms of the allotment and issue of any Shares, the Directors may make calls upon the Members in respect of any monies unpaid on their Shares (whether in respect of par value or premium), and each Member shall (subject to receiving at least fourteen clear days' notice specifying the time or times of payment) pay to the Company at the time or times so specified the amount called on the Shares. A call may be revoked or postponed, in whole or in part, as the Directors may determine. A call may be required to be paid by instalments. A person upon whom a call is made shall remain liable for calls made upon him notwithstanding the subsequent transfer of the Shares in respect of which the call was made.
- 15.2 A call shall be deemed to have been made at the time when the resolution of the Directors authorising such call was passed.
- 15.3 The joint holders of a Share shall be jointly and severally liable to pay all calls in respect thereof.

- 15.4 If a call remains unpaid after it has become due and payable, the person from whom it is due shall pay interest on the amount unpaid from the day it became due and payable until it is paid at such rate as the Directors may determine (and in addition all expenses that have been incurred by the Company by reason of such non-payment), but the Directors may waive payment of the interest or expenses wholly or in part.
- 15.5 An amount payable in respect of a Share on issue or allotment or at any fixed date, whether on account of the par value of the Share or premium or otherwise, shall be deemed to be a call and if it is not paid all the provisions of the Articles shall apply as if that amount had become due and payable by virtue of a call.
- 15.6 The Directors may issue Shares with different terms as to the amount and times of payment of calls, or the interest to be paid.
- 15.7 The Directors may, if they think fit, receive an amount from any Member willing to advance all or any part of the monies uncalled and unpaid upon any Shares held by him, and may (until the amount would otherwise become payable) pay interest at such rate as may be agreed upon between the Directors and the Member paying such amount in advance.
- 15.8 No such amount paid in advance of calls shall entitle the Member paying such amount to any portion of a Dividend or other distribution payable in respect of any period prior to the date upon which such amount would, but for such payment, become payable.

16 Forfeiture of Shares

- 16.1 If a call or instalment of a call remains unpaid after it has become due and payable the Directors may give to the person from whom it is due not less than fourteen clear days' notice requiring payment of the amount unpaid together with any interest which may have accrued and any expenses incurred by the Company by reason of such non-payment. The notice shall specify where payment is to be made and shall state that if the notice is not complied with the Shares in respect of which the call was made will be liable to be forfeited.
- 16.2 If the notice is not complied with, any Share in respect of which it was given may, before the payment required by the notice has been made, be forfeited by a resolution of the Directors. Such forfeiture shall include all Dividends, other distributions or other monies payable in respect of the forfeited Share and not paid before the forfeiture.
- 16.3 A forfeited Share may be sold, re-allotted or otherwise disposed of on such terms and in such manner as the Directors think fit and at any time before a sale, re-allotment or disposition the forfeiture may be cancelled on such terms as the Directors think fit. Where for the purposes of its disposal a forfeited Share is to be transferred to any person the Directors may authorise some person to execute an instrument of transfer of the Share in favour of that person.
- 16.4 A person any of whose Shares have been forfeited shall cease to be a Member in respect of them and shall surrender to the Company for cancellation the certificate for the Shares forfeited and shall remain liable to pay to the Company all monies which at the date of forfeiture were payable by him to the Company in respect of those Shares together with interest at such rate as the Directors may determine, but his liability shall cease if and when the Company shall have received payment in full of all monies due and payable by him in respect of those Shares.
- 16.5 A certificate in writing under the hand of one Director or Officer that a Share has been forfeited on a specified date shall be conclusive evidence of the facts stated in it as against all persons claiming to be entitled to the Share. The certificate shall (subject to the execution

of an instrument of transfer) constitute a good title to the Share and the person to whom the Share is sold or otherwise disposed of shall not be bound to see to the application of the purchase money, if any, nor shall his title to the Share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the Share.

- 16.6 The provisions of the Articles as to forfeiture shall apply in the case of non payment of any sum which, by the terms of issue of a Share, becomes payable at a fixed time, whether on account of the par value of the Share or by way of premium as if it had been payable by virtue of a call duly made and notified.

17 Transmission of Shares

- 17.1 If a Member dies, the survivor or survivors (where he was a joint holder) or his legal personal representatives (where he was a sole holder), shall be the only persons recognised by the Company as having any title to his shares. The estate of a deceased Member is not thereby released from any liability in respect of any share, for which he was a joint or sole holder.
- 17.2 Any person becoming entitled to a share in consequence of the death or bankruptcy, liquidation or dissolution of a Member (or in any other way than by transfer) may, upon such evidence being produced as may be required by the Directors, elect, by a notice in writing sent by him to the Company, either to become the holder of such share or to have some person nominated by him registered as the holder of such share. If he elects to have another person registered as the holder of such share he shall sign an instrument of transfer of that share to that person. The Directors shall, in either case, have the same right to decline or suspend registration as they would have had in the case of a transfer of the share by the relevant Member before his death or bankruptcy, liquidation or dissolution, as the case may be.
- 17.3 A person becoming entitled to a share by reason of the death or bankruptcy or liquidation or dissolution of a Member (or in any other case than by transfer) shall be entitled to the same Dividends, other distributions and other advantages to which he would be entitled if he were the holder of such share. However, he shall not, before becoming a Member in respect of a share, be entitled in respect of it to exercise any right conferred by membership in relation to general meetings of the Company and the Directors may at any time give notice requiring any such person to elect either to be registered himself or to have some person nominated by him be registered as the holder of the share (but the Directors shall, in either case, have the same right to decline or suspend registration as they would have had in the case of a transfer of the share by the relevant Member before his death or bankruptcy or liquidation or dissolution or any other case than by transfer, as the case may be). If the notice is not complied with within ninety days of being received or deemed to be received (as determined pursuant to these Articles) the Directors may thereafter withhold payment of all Dividends, other distributions, bonuses or other monies payable in respect of the share until the requirements of the notice have been complied with.

18 Alteration of Capital

- 18.1 Subject to these Articles, the Company may from time to time by Ordinary Resolution increase the share capital by such sum, to be divided into shares of such classes and amount, as the resolution shall prescribe.
- 18.2 Subject to these Articles, the Company may by Ordinary Resolution:
- (a) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares, provided that any fractions of a share that result from such a

consolidation or division of its share capital shall be automatically repurchased by the Company at (i) the market price on the date of such consolidation or division, in the case of any shares listed on a Designated Stock Exchange and (ii) a price to be agreed between the Company and the applicable Member in the case of any shares not listed on a Designated Stock Exchange;

- (b) sub-divide its existing shares, or any of them into shares of a smaller amount provided that in the subdivision the proportion between the amount paid and the amount, if any, unpaid on each reduced share shall be the same as it was in case of the share from which the reduced share is derived;
- (c) divide shares into multiple classes; or
- (d) cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the shares so cancelled.

18.3 All new shares created hereunder shall be subject to the same provisions with reference to the payment of calls, liens, transfer, transmission, forfeiture and otherwise as the shares in the original share capital.

18.4 Subject to these Articles, the Company may by Special Resolution:

- (a) change its name;
- (b) alter or add to these Articles;
- (c) alter or add to the Memorandum of Association with respect to any objects, powers or other matters specified therein; or
- (d) reduce its share capital and any capital redemption reserve in any manner authorised by law.

19 Offices and Places of Business

Subject to the provisions of the Statute, the Company may by resolution of the Directors change the location of its Registered Office. The Company may, in addition to its Registered Office, maintain such other offices or places of business as the Directors determine.

20 General Meetings

20.1 All general meetings of the Company other than annual general meetings shall be called extraordinary general meetings.

20.2 For so long as the Company's securities are traded on a Designated Stock Exchange, the Company shall in each year hold a general meeting as its annual general meeting at such time and place as may be determined by the Directors.

20.3 Extraordinary general meetings may be called by a majority of the Directors or by the chairman of the board of Directors. If an extraordinary general meeting is called by the Directors, such extraordinary general meeting shall be held at such time and place as may be determined by the Directors, and if an extraordinary general meeting is called by the chairman of the board of Directors, such extraordinary general meeting shall be held at such time and place as may be determined by the chairman of the board of Directors.

- 20.4 A person may participate at a general meeting by conference telephone or other communications equipment by means of which all the persons participating in the meeting can communicate with each other. Participation by a person in a general meeting in this manner is treated as presence in person at that meeting.

21 Notice of General Meetings

- 21.1 At least ten (10) calendar days' notice (but not more than sixty (60) calendar days' notice) shall be given for any general meeting. Every notice shall be exclusive of the day on which it is given or deemed to be given and of the day for which it is given and shall specify the place, the day and the hour of the meeting, the matters that are intended to be presented, and, in the case of annual general meetings, the name of any nominee who the Directors intend to present for election, and shall be given in the manner hereinafter mentioned or in such other manner if any as may be prescribed by the Company, provided that a general meeting of the Company shall, whether or not the notice specified in this regulation has been given and whether or not the provisions of Articles regarding general meetings have been complied with, be deemed to have been duly convened if it is so agreed:
- (a) in the case of an annual general meeting, by all the Members (or their proxies) entitled to attend and vote thereat; and
 - (b) in the case of an extraordinary general meeting, by the Members (or their proxies) having a right to attend and vote at the meeting, together holding not less than a majority of the shares giving that right.
- 21.2 The notice convening an annual general meeting shall specify the meeting as such, and the notice convening a meeting to pass a Special Resolution shall specify the intention to propose the resolution as a Special Resolution. Notice of every general meeting shall be given to all Members other than such as, under the provisions hereof or the terms of issue of the shares they hold, are not entitled to receive such notice from the Company.
- 21.3 In cases where instruments of proxy are sent out with a notice of general meeting, the accidental omission to send such instrument of proxy to, or the non-receipt of any such instrument of proxy by, any person entitled to receive notice shall not invalidate any resolution passed or any proceeding at any such meeting.
- 21.4 No business may be transacted at any general meeting, other than business that is either (A) specified in the notice of meeting (or any supplement thereto) given by or at the direction of the Directors (or any duly authorised committee thereof), (B) otherwise properly brought before an annual general meeting by or at the direction of the Directors (or any duly authorised committee thereof), or (C) otherwise properly brought before an annual general meeting by any Member of the Company who (1) is a Member of record on both (x) the date of the giving of the notice by such Member provided for in this Article and (y) the record date for the determination of Members entitled to vote at such annual general meeting and (2) complies with the notice procedures set forth in this Article
- (a) In addition to any other applicable requirements, for business to be brought properly before an annual general meeting by a Member, such Member must have given timely notice thereof in proper written form to the Secretary of the Company and comply with Article 21.4(c) and (f).
 - (b) All notices of general meetings shall be sent or otherwise given in accordance with this Article not less than ten (10) nor more than sixty (60) days before the date of the meeting. The notice shall specify the place, date and hour of the meeting and (i) in

the case of an extraordinary general meeting, the purpose or purposes for which the meeting is called (no business other than that specified in the notice may be transacted) or (ii) in the case of the annual general meeting, those matters which the Directors, at the time of giving the notice, intends to present for action by the members (but any proper matter may be presented at the meeting for such action). The notice of any meeting at which Directors are to be elected shall include the name of any nominee or nominees who, at the time of the notice, the Directors intend to present for election.

- (c) For matters other than for the nomination for election of a Director to be made by a Member, to be timely, such Member's notice shall be delivered to the Company at the principal executive offices of the Company not less than ninety (90) days and not more than one hundred twenty (120) days prior to the one-year anniversary of the preceding year's annual general meeting; provided, however, that if the Company's annual general meeting occurs on a date more than thirty (30) days earlier or later than the Company's prior year's annual general meeting, then the Directors shall determine a date a reasonable period prior to the Company's annual general meeting by which date the Members notice must be delivered and publicise such date in a filing pursuant to the Exchange Act, or via press release. Such publication shall occur at least ten (10) days prior to the date set by the Directors.
- (d) To be in proper written form, a Member's notice to the Company must set forth as to such matter such Member proposes to bring before the annual general meeting:
 - (i) a reasonably brief description of the business desired to be brought before the annual general meeting, including the text of the proposal or business, and the reasons for conducting such business at the annual general meeting;
 - (ii) the name and address, as they appear on the Company's Register of Members, of the Member proposing such business and any Member Associated Person (as defined below);
 - (iii) the class or series and number of shares of the Company that are held of record or are beneficially owned by such Member or any Member Associated Person and any derivative positions held or beneficially held by the Member or any Member Associated Person;
 - (iv) whether and the extent to which any hedging or other transaction or series of transactions has been entered into by or on behalf of such Member or any Member Associated Person with respect to any securities of the Company, and a description of any other agreement, arrangement or understanding (including any short position or any borrowing or lending of shares), the effect or intent of which is to mitigate loss to, or to manage the risk or benefit from share price changes for, or to increase or decrease the voting power of, such Member or any Member Associated Person with respect to any securities of the Company;
 - (v) any material interest of the Member or a Member Associated Person in such business, including a reasonably detailed description of all agreements, arrangements and understandings between or among any of such Members or between or among any proposing Members and any other person or entity (including their names) in connection with the proposal of such business by such Member; and

- (vi) a statement as to whether such Member or any Member Associated Person will deliver a proxy statement and form of proxy to holders of at least the percentage of the Company's voting shares required under rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law to carry the proposal.

For purposes of this Article 21.4(d), a "**Member Associated Person**" of any Member shall mean (x) any Affiliate; or person acting in concert with, such Member, (y) any beneficial owner of shares of the Company owned of record or beneficially by such Member and on whose behalf the proposal or nomination, as the case may be, is being made, or (z) any person controlling, controlled by or under common control with such person referred to in the preceding clauses (x) and (y).

- (e) In addition to any other applicable requirements, for a nomination for election of a Director to be made by a Member of the Company, such Member must (A) be a Member of record on both (x) the date of the giving of the notice by such Member provided for in this Article and (y) the record date for the determination of Members entitled to vote at such annual general meeting, and on each such date beneficially own more than 15% of the issued Ordinary Shares (unless otherwise provided in the Exchange Act or the rules and regulations of the Securities and Exchange Commission) and (B) have given timely notice thereof in proper written form to the Secretary of the Company. If a Member is entitled to vote only for a specific class or category of directors at a meeting of the Members, such Member's right to nominate one or more persons for election as a director at the meeting shall be limited to such class or category of directors.
- (f) To be timely for purposes of Article 21.4(e), a Member's notice shall be delivered to or mailed and received at the principal executive offices of the Company not less than ninety (90) nor more than one hundred twenty (120) days prior to the meeting; provided, however, that in the event less than one hundred thirty (130) days' notice or prior public disclosure of the date of the meeting is given or made to Members, notice by the Member to be timely must be so received not later than the close of business on the tenth (10th) day following the earlier of the day on which such notice of the date of the meeting was mailed or such public disclosure was made.
- (g) To be in proper written form for purposes of Article 21.4(f), a Nominating Member's notice to the Secretary must be set forth:
 - (i) as to each Nominating Member:
 - (A) the information that is requested in Article 21.4(d)(ii)-(vi); and
 - (B) any other information relating to such Member that would be required to be disclosed pursuant to the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law.
 - (ii) as to each person whom the Member proposes to nominate for election as a director:
 - (A) all information that would be required by Article 21.4(d)(ii)-(vi) if such nominee was a Nominating Member, except such information shall

also include the business address and residence address of the person;

- (B) the principal occupation or employment of the person;
- (C) all information relating to such person that is required to be disclosed in solicitations of proxies for appointment of directors in an election contest, or is otherwise required, in each case pursuant to Regulation 14A under the Exchange Act or any successor provisions thereto, and any other information relating to the person that would be required to be disclosed pursuant to the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law; and
- (D) a description of all direct and indirect compensation and other material monetary arrangements and understandings during the past three years, and any other material relationship, between or among any Nominating Member and his Affiliates and associates, on the one hand, and each proposed nominee, his respective Affiliates and associates, on the other hand, including, without limitation, all information that would be required to be disclosed pursuant to Item 404 under Regulation S-K of the Exchange Act if such Nominating Member were the "registrant" for purposes of such rule and the proposed nominee were a director or executive officer of such registrant.

Such notice must be accompanied by a written consent of each proposed nominee to being named as a nominee and to serve as a director if elected. The Company may require any proposed nominee to furnish such other information as may be reasonably required by the Company to determine the eligibility of such proposed nominee to serve as an independent director of the Company in accordance with the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law.

- (h) Unless otherwise provided by the terms of these Articles, any series of Preferred Shares or any agreement among Members or other agreement approved by the Directors, only persons who are nominated in accordance with the procedures set forth above shall be eligible to serve as Directors. If the chairman of a general meeting determines that a proposed nomination was not made in compliance with these Articles, he or she shall declare to the general meeting that nomination is defective and such defective nomination shall be disregarded. Notwithstanding the foregoing provisions of these Articles, if the Nominating Member (or a qualified representative of the Nominating Member) does not appear at the general meeting to present the nomination, such nomination shall be disregarded.

21.5 The Directors shall have power at any time and from time to time to appoint any person to be a Director, either as a result of a casual vacancy or as an additional Director, subject to the maximum number (if any) imposed by the Directors.

21.6 [RESERVED]

21.7 [RESERVED]

21.8 The Company may by Ordinary Resolution appoint any person to be a Director.

21.9 A Director shall hold office until the expiry of his or her term as contemplated by Article 27.2 or, until such time as he or she vacates office in accordance with Article 30.

21.10 No person shall be eligible for election as a director of the Company unless nominated in accordance with the procedures set forth in this Article. If the chairman of an annual general meeting determines that a nomination was not made in accordance with the foregoing procedures, the chairman shall declare to the meeting that the nomination was defective and such defective nomination shall be disregarded. This Article 21 shall not apply to any nomination of a director in an election in which only the holders of one or more series of Preferred Shares of the Company are entitled to vote (unless otherwise provided in the terms of such series of Preferred Shares).

21.11 The accidental omission to give notice of a meeting to or the non receipt of a notice of a meeting by any Member shall not invalidate the proceedings at any meeting.

22 Proceedings at General Meetings

22.1 No business shall be transacted at any general meeting unless a quorum of Members is present at the time when the meeting proceeds to business. Members holding in aggregate not less than a simple majority of all voting share capital of the Company in issue present in person or by proxy and entitled to vote shall be a quorum. A person may participate at a general meeting by conference telephone or other communications equipment by means of which all the persons participating in the meeting can communicate with each other. Participation by a person in a general meeting in this manner is treated as presence in person at that meeting. If, however, such quorum is not present or represented at any general meeting, then either (i) the chairman of the meeting or (ii) the Members entitled to vote thereat, present in person or represented by proxy, shall have power to adjourn the meeting.

22.2 When a meeting is adjourned to another time and place, unless these Articles otherwise require, notice need not be given of the adjourned meeting if the time and place thereof are announced at the meeting at which the adjournment is taken. At the adjourned meeting the Company may transact any business that might have been transacted at the original meeting. If the adjournment is for more than thirty (30) days, or if after the adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting shall be given to each Member of record entitled to vote at the meeting.

22.3 A determination of the Members of record entitled to notice of or to vote at a general meeting shall apply to any adjournment of such meeting unless the Directors fix a new record date for the adjourned meeting, but the Directors shall fix a new record date if the meeting is adjourned for more than thirty (30) days from the date set for the original meeting.

22.4 The chairman of the board of Directors shall preside as chairman at every general meeting of the Company. If at any meeting the chairman of the board of Directors is not present within fifteen minutes after the time appointed for holding the meeting or is unwilling to act as chairman, the Directors present shall elect one of their number as chairman of the meeting or if all the Directors present decline to take the chair, the Members present shall choose one of their own number to be the chairman of the meeting.

22.5 At any general meeting a resolution put to the vote of the meeting shall be decided on a poll.

- 22.6 A poll shall be taken in such manner as the chairman directs, and the result of the poll shall be deemed to be the resolution of the meeting.
- 22.7 In the case of an equality of votes, the chairman of the meeting shall not be entitled to a second or casting vote.

23 Votes of Members

- 23.1 Subject to any rights and restrictions for the time being attached to any class or classes of shares, every Member present in person and every person representing a Member by proxy at a general meeting of the Company shall have one vote for each share registered in such Member's name in the Register of Members. No cumulative voting shall be allowed.
- 23.2 In the case of joint holders the vote of the senior who tenders a vote whether in person or by proxy shall be accepted to the exclusion of the votes of the joint holders and for this purpose seniority shall be determined by the order in which the names stand in the Register of Members.
- 23.3 A Member of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, may vote on a poll by his committee, or other person in the nature of a committee appointed by that court, and any such committee or other person, may on a poll, vote by proxy.
- 23.4 No Member shall be entitled to vote at any general meeting unless all sums presently payable by him in respect of shares in the Company have been paid.
- 23.5 On a poll, votes may be given either personally or by proxy.
- 23.6 The instrument appointing a proxy shall be in writing (whether by manual signature, typewriting, telegraphic transmission, telefacsimile or otherwise) under the hand of the appointor or of his attorney duly authorised in writing or, if the appointor is an entity, either under seal or under the hand of an officer or attorney duly authorised in that behalf provided however, that a Member may also authorise the casting of a vote by proxy pursuant to telephonic or electronically transmitted instructions (including, without limitation, instructions transmitted over the internet) obtained pursuant to procedures approved by the Directors which are reasonably designed to verify that such instructions have been authorised by such Member. A proxy need not be a Member of the Company. Notwithstanding the foregoing, no proxy shall be voted or acted upon after three (3) years from its date unless the proxy provides for a longer period.
- 23.7 An instrument appointing a proxy may be in any usual or common form or such other form as the Directors may approve.
- 23.8 The instrument appointing a proxy shall be deemed to confer authority to demand or join in demanding a poll.
- 23.9 Shares that are beneficially owned by the Company shall not be voted, directly or indirectly, at any general meeting and shall not be counted in determining the total number of issued Shares at any given time.

24 Corporations Acting by Representatives at Meeting

Any corporation or other entity which is a Member may, by resolution of its directors, other governing body or authorised individual(s), authorise such person as it thinks fit to act as its representative at any general meeting of the Company or of any class of Members, and the

person so authorised shall be entitled to exercise the same powers on behalf of the corporation which he represents as that corporation could exercise if it were an individual Member.

25 Clearing Houses

If a clearing house or depository (or its nominee) is a Member it may, by resolution of its directors, other governing body or authorised individual(s) or by power of attorney, authorise such person or persons as it thinks fit to act as its representative or representatives at any general meeting of the Company or at any general meeting of any class of Members; provided that, if more than one person is so authorised, the authorisation shall specify the number and class of shares in respect of which each such person is so authorised. A person so authorised pursuant to this provision shall be entitled to exercise the same powers on behalf of the clearing house (or its nominee) which he represents as that clearing house (or its nominee) could exercise if it were an individual member of the Company holding the number and class of shares specified in such authorisation.

26 Shares that May Not be Voted

Shares in the Company that are beneficially owned by the Company shall not be voted, directly or indirectly, at any meeting and shall not be counted in determining the total number of outstanding Shares at any given time.

27 Directors

- 27.1 There shall be a board of Directors consisting of such number of Directors as fixed by the Directors from time to time (but no less than one Director), unless increased or decreased from time to time by the Directors or the Company in general meeting. So long as Shares are listed on the Designated Stock Exchange, the board of Directors shall include such number of "independent directors" as the relevant rules applicable to the listing of any Shares on the Designated Stock Exchange require.
- 27.2 The Directors shall be divided into three (3) classes designated as Class I, Class II and Class III, respectively. Directors shall be assigned to each class in accordance with a resolution or resolutions adopted by the Directors. At the 2022 annual general meeting of Members, the term of office of the Class I Directors shall expire and Class I Directors shall be elected for a full term of three (3) years. At the 2023 annual general meeting of Members, the term of office of the Class II Directors shall expire and Class II Directors shall be elected for a full term of three (3) years. At the 2024 annual general meeting of Members, the term of office of the Class III Directors shall expire and Class III Directors shall be elected for a full term of three (3) years. At each succeeding annual general meeting of Members, Directors shall be elected for a full term of three (3) years to succeed the Directors of the class whose terms expire at such annual general meeting. Notwithstanding the foregoing provisions of this Article, each Director shall hold office until the expiration of his term, until his successor shall have been duly elected and qualified or until his earlier death, resignation or removal. No decrease in the number of Directors constituting the Directors shall shorten the term of any incumbent Director.
- 27.3 The Directors by the affirmative vote of a simple majority of the remaining Directors present and voting at a meeting of the Directors, even if less than a quorum, shall have the power from time to time and at any time to appoint any person as a Director to fill a casual vacancy on the board of Directors or as an addition to the existing board of Directors, subject to these Articles (including Articles 21.6), the rules and regulations of the Designated Stock

Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law; provided that any vacancy not filled by the Directors may be filled by the Members by Ordinary Resolution at the next annual general meeting or extraordinary general meeting called for that purpose; provided further, that whenever the holders of any class or classes of stock or series thereof are entitled to elect one or more Directors by the provisions of these Articles, vacancies and newly created directorships of such class or classes or series may be filled by a majority of the Directors elected by such class or classes or series thereof then in office, or by a sole remaining Director so elected or by the Members holding such class or classes of shares or series thereof in accordance with these Articles. Any Director so appointed shall hold office until the expiration of the term of such class of Directors or until his earlier death, resignation or removal.

- 27.4 A director may be removed from office by the Members by Special Resolution only for cause ("cause" for removal of a Director shall be deemed to exist only if (a) the Director whose removal is proposed has been convicted of a felony by a court of competent jurisdiction and such conviction is no longer subject to direct appeal; (b) such Director has been found by the affirmative vote of a majority of the Directors then in office at any regular or special meeting of the board of Directors called for that purpose, or by a court of competent jurisdiction, to have been guilty of wilful misconduct in the performance of such Director's duties to the Company in a matter of substantial importance to the Company; or (c) such Director has been adjudicated by a court of competent jurisdiction to be mentally incompetent, which mental incompetency directly affects such director's ability to perform his or her obligations as a Director) at any time before the expiration of his term notwithstanding anything in these Articles or in any agreement between the Company and such Director (but without prejudice to any claim for damages under such agreement). If the board of Directors makes a determination that removal of a Director by the Members by Special Resolution is in the best interests of the Company the above definition of "cause" shall not apply. A vacancy on the board of Directors created by the removal of a Director under the provisions of these Articles may be filled by the election or appointment by Ordinary Resolution at the general meeting at which such Director is removed or by the affirmative vote of a simple majority of the remaining Directors present and voting at a meeting of the Directors, subject to these Articles, the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law. A Director appointed to fill a vacancy in accordance with this Article shall be of the same Class of Director as the Director he or she replaced and the term of such appointment shall terminate in accordance with that Class of Director.
- 27.5 The Directors may, from time to time, and except as required by the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law, adopt, institute, amend, modify or revoke the corporate governance policies or initiatives, which shall be intended to set forth the policies of the Company and the Directors on various corporate governance related matters, as the Directors shall determine by resolution from time to time.
- 27.6 A Director shall not be required to hold any shares in the Company by way of qualification. A Director who is not a member of the Company shall nevertheless be entitled to receive notice of and to attend and speak at general meetings of the Company and all classes of shares of the Company.

28 Directors' Fees and Expenses

- 28.1 The Directors may receive such remuneration as the Directors may from time to time determine. The Directors may be entitled to be repaid all traveling, hotel and incidental expenses reasonably incurred or expected to be incurred by him in attending meetings of the Directors or committees of the Directors or general meetings or separate meetings of any class of securities of the Company or otherwise in connection with the discharge of his duties as a Director.
- 28.2 Any Director who performs services which in the opinion of the Directors go beyond the ordinary duties of a Director may be paid such extra remuneration (whether by way of salary, commission, participation in profits or otherwise) as the Directors may determine and such extra remuneration shall be in addition to or in substitution for any ordinary remuneration provided for, by or pursuant to any other Article.

29 Powers and Duties of Directors

- 29.1 Subject to the provisions of the Statute, these Articles and to any resolutions made in a general meeting, the business of the Company shall be managed by the Directors, who may pay all expenses incurred in setting up and registering the Company and may exercise all powers of the Company. No resolution made by the Company in a general meeting shall invalidate any prior act of the Directors that would have been valid if that resolution had not been made.
- 29.2 The Directors may delegate any of their powers, authorities and discretions, including the power to sub-delegate, to any committees consisting of such member or members of their body as they think fit (including, without limitation, the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee (provided that the Compensation Committee and the Nominating and Corporate Governance Committee may be combined into a single committee)), subject to Article 29.3; provided that any committee so formed shall include amongst its members at least two Directors unless otherwise required by the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law; provided further that no committee shall have the power of authority to (a) recommend to the Members an amendment of these Articles (except that a committee may, to the extent authorised in the resolution or resolutions providing for the issuance of shares adopted by the Directors as provided under the laws of the Cayman Islands, fix the designations and any of the preferences or rights of such shares relating to dividends, redemption, dissolution, any distribution of assets of the Company or the conversion into, or the exchange of such shares for, shares of any other class or classes or any other series of the same or any other class or classes of shares of the Company); (b) adopt an agreement of merger or consolidation; (c) recommend to the Members the sale, lease or exchange of all or substantially all of the Company's property and assets; (d) recommend to the Members a dissolution of the Company or a revocation of a dissolution; (e) recommend to the Members an amendment of the Memorandum of Association of the Company; or (f) declare a dividend or authorise the issuance of shares unless the resolution establishing such committee (or the charter of such committee approved by the Directors) or the Memorandum of Association or these Articles so provide. Any committee so formed shall in the exercise of the powers so delegated conform to any regulations that may be imposed on it by the Directors. The Directors may also delegate to any Director holding any executive office such of their powers as they consider desirable to be exercised by him or her. Any such delegation may be made

subject to any conditions the Directors may impose, and either collaterally with or to the exclusion of their own powers, and may be revoked or altered.

29.3 [RESERVED]

- 29.4 The Directors may from time to time and at any time by power of attorney or otherwise appoint any company, firm or person or body of persons, whether nominated directly or indirectly by the Directors, to be the attorney or attorneys of the Company for such purposes and with such powers, authorities and discretion (not exceeding those vested in or exercisable by the Directors under these Articles) and for such period and subject to such conditions as they may think fit, and any such power of attorney may contain such provisions for the protection and convenience of persons dealing with any such attorney as the Directors may think fit, and may also authorise any such attorney to delegate all or any of the powers, authorities and discretion vested in him.
- 29.5 The Directors may from time to time provide for the management of the affairs of the Company in such manner as they shall think fit and the provisions contained in the following paragraphs shall be without prejudice to the general powers conferred by this paragraph.
- 29.6 The Directors from time to time and at any time may establish any advisory committees, local boards or agencies for managing any of the affairs of the Company and may appoint any persons to be members of such advisory committees or local boards and may appoint any managers or agents of the Company and may fix the remuneration of any of the aforesaid.
- 29.7 The Directors from time to time and at any time may delegate to any such advisory committee, local board, manager or agent any of the powers, authorities and discretions for the time being vested in the Directors and may authorise the members for the time being of any such local board, or any of them to fill up any vacancies therein and to act notwithstanding vacancies and any such appointment or delegation may be made on such terms and subject to such conditions as the Directors may think fit and the Directors may at any time remove any person so appointed and may annul or vary any such delegation, but no person dealing in good faith and without notice of any such annulment or variation shall be affected thereby.
- 29.8 The Directors may adopt formal written charters for committees and, if so adopted, shall review and assess the adequacy of such formal written charters on an annual basis. Each of these committees shall be empowered to do all things necessary to exercise the rights of such committee set forth in the Articles and shall have such powers as the Directors may delegate pursuant to the Articles and as required by the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law. Each of the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee, if established, shall, subject to 29.3, consist of such number of Directors as the Directors shall from time to time determine (or such minimum number as may be required from time to time by the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law). For so long as any class of Shares is listed on the Designated Stock Exchange, the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee shall be made up of such number of Independent Directors as is required from time to time by the rules and regulations of the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law.

- 29.9 Any such delegates as aforesaid may be authorised by the Directors to sub-delegate all or any of the powers, authorities, and discretions for the time being vested to them.
- 29.10 The Directors may elect, by the affirmative vote of a majority of the Directors then in office, a chairman. The chairman of the board of Directors may be a director or an officer of the Company. Subject to the provisions of these Articles and the direction of the Directors, the chairman of the board of Directors shall perform all duties and have all powers which are commonly incident to the position of chairman of a board or which are delegated to him or her by the Directors, preside at all general meetings and meetings of the Directors at which he or she is present and have such powers and perform such duties as the Directors may from time to time prescribe.

30 Disqualification of Directors

Subject to these Articles, the office of Director shall be vacated, if the Director:

- (a) becomes bankrupt or makes any arrangement or composition with his creditors;
- (b) dies or is found to be or becomes of unsound mind;
- (c) resigns his office by notice in writing to the Company;
- (d) is prohibited by applicable law or the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law from being a director;
- (e) without special leave of absence from the Directors, is absent from meetings of the Directors for six consecutive months and the Directors resolve that his office be vacated; or
- (f) if he or she shall be removed from office pursuant to these Articles.

31 Proceedings of Directors

- 31.1 Subject to these Articles, the Directors may meet together for the dispatch of business, adjourn, and otherwise regulate their meetings and proceedings as they think fit. Such meetings may be held at any place within or outside the Cayman Islands that has been designated by the Directors. In the absence of such a designation, meetings of the Directors shall be held at the principal executive office of the Company. Questions arising at any meeting of the Directors shall be decided by the method set forth in Article 31.4.
- 31.2 The chairman of the board of Directors or the Secretary on request of a Director, may, at any time summon a meeting of the Directors by twenty-four (24) hour notice to each Director in person, by telephone, facsimile, electronic email, or in such other manner as the Directors may from time to time determine, which notice shall set forth the general nature of the business to be considered unless notice is waived by all the Directors either at, before or after the meeting is held. Notice of a meeting need not be given to any Director (i) who signs a waiver of notice or a consent to holding the meeting or an approval of the minutes thereof, whether before or after the meeting, or (ii) who attends the meeting without protesting, prior thereto or at its commencement, the lack of notice to such Directors. All such waivers, consents, and approvals shall be filed with the corporate records or made part of the minutes of the meeting. A waiver of notice need not specify the purpose of any regular or special meeting of the Directors.

- 31.3 A Director or Directors may participate in any meeting of the Directors, or of any committee appointed by the Directors of which such Director or Directors are members, by means of telephone or similar communication equipment by way of which all persons participating in such meeting can hear each other and such participation shall be deemed to constitute presence in person at the meeting.
- 31.4 The quorum necessary for the transaction of the business of the Directors shall be a majority of the authorised number of Directors. If at any time there is only a sole Director, the quorum shall be one (1) Director. Every act or decision done or made by a majority of the Directors present at a duly held meeting at which a quorum is present shall be regarded as the act of the Directors, subject to the provisions of these Articles, and other applicable law. In the case of an equality of votes, the chairman shall not have an additional tie-breaking vote.
- 31.5 A meeting of the Directors may be held by means of telephone or teleconferencing or any other telecommunications facility provided that all participants are thereby able to communicate immediately by voice with all other participants.
- 31.6 Subject to these Articles, a Director who is in any way, whether directly or indirectly, interested in a contract or proposed contract with the Company shall declare the nature of his interest at a meeting of the Directors. A general notice given to the Directors by any Director to the effect that he is a member of any specified company or firm and is to be regarded as interested in any contract which may thereafter be made with that company or firm shall be deemed a sufficient declaration of interest in regard to any contract so made. A Director may vote in respect of any contract or proposed contract or arrangement notwithstanding that he may be interested therein and if he does so his vote shall be counted and he may be counted in the quorum at any meeting of the Directors at which any such contract or proposed contract or arrangement shall come before the meeting for consideration.
- 31.7 A Director may hold any other office or place of profit under the Company (other than the office of auditor) in conjunction with his office of Director for such period and on such terms (as to remuneration and otherwise) as the Directors may determine and no Director or intending Director shall be disqualified by his office from contracting with the Company either with regard to his tenure of any such other office or place of profit or as vendor, purchaser or otherwise, nor shall any such contract or arrangement entered into by or on behalf of the Company in which any Director is in any way interested, be liable to be avoided, nor shall any Director so contracting or being so interested be liable to account to the Company for any profit realised by any such contract or arrangement by reason of such Director holding that office or of the fiduciary relation thereby established. A Director, notwithstanding his interest, may be counted in the quorum present at any meeting whereat he or any other Director is appointed to hold any such office or place of profit under the Company or whereat the terms of any such appointment are arranged and he may vote on any such appointment or arrangement. Any Director who enters into a contract or arrangement or has a relationship that is reasonably likely to be implicated under this Article 31.7 or that would reasonably be likely to affect a Director's status as an "Independent Director" under the rules and regulations of the Designated Stock Exchange, Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law shall disclose the nature of his or her interest in any such contract or arrangement in which he is interested or any such relationship.
- 31.8 Any Director may act by himself or his firm in a professional capacity for the Company, and he or his firm shall be entitled to reasonable expense reimbursement consistent with the Company's policies in connection with such Directors service in his official capacity; provided

that nothing herein contained shall authorise a Director or his firm to act as auditor to the Company.

- 31.9 The Directors shall cause minutes to be made in books or loose-leaf folders provided for the purpose of recording:
- (a) all appointments of officers made by the Directors;
 - (b) the names of the Directors present at each meeting of the Directors and of any committee of the Directors; and
 - (c) all resolutions and proceedings at all meetings of the Company, and of the Directors and of committees of Directors.
- 31.10 When the chairman of a meeting of the Directors signs the minutes of such meeting the same shall be deemed to have been duly held notwithstanding that all the Directors have not actually come together or that there may have been a technical defect in the proceedings.
- 31.11 A resolution signed by all the Directors shall be as valid and effectual as if it had been passed at a meeting of the Directors duly called and constituted. When signed, a resolution may consist of several documents each signed by one or more of the Directors.
- 31.12 The continuing Directors may act notwithstanding any vacancy in their body but if and so long as their number is reduced below the number fixed by or pursuant to these Articles as the necessary quorum of Directors, the continuing Directors may act for the purpose of increasing the number, or of summoning a general meeting of the Company, but for no other purpose.
- 31.13 A committee appointed by the Directors may elect a chairman of its meetings. If no such chairman is elected, or if at any meeting the chairman is not present within five minutes after the time appointed for holding the same, the members present may choose one of their number to be chairman of the meeting.
- 31.14 A committee appointed by the Directors may meet and adjourn as it thinks proper. Questions arising at any meeting shall be determined by a majority of votes of the committee members present and in case of an equality of votes the chairman shall not have a second or casting vote.
- 31.15 Meetings and actions of committees of the Directors shall be governed by, and held and taken in accordance with, the provisions of Article 31.1 (place of meetings), Article 31.2 (notice), Article 31.3 (telephonic meetings), and Article 31.4 (quorum), with such changes in the context of these Articles as are necessary to substitute the committee and its members for the Directors; provided, however, that the time of regular meetings of committees may be determined either by resolution of the Directors or by resolution of the committee, that special meetings of committees may also be called by resolution of the Directors, and that notice of special meetings of committees shall also be given to all alternate members, who shall have the right to attend all meetings of the committee. The Directors may adopt rules for the government of any committee not inconsistent with the provisions of these Articles.
- 31.16 All acts done by any meeting of the Directors or of a committee of Directors, or by any person acting as a Director, shall, notwithstanding that it be afterwards discovered that there was some defect in the appointment of any such Director or person acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such person had been duly appointed and was qualified to be a Director.

32 Presumption of Assent

A Director of the Company who is present at a meeting of the Directors at which action on any Company matter is taken shall be presumed to have assented to the action taken unless his dissent or abstention shall be entered in the Minutes of the meeting or unless he shall file his written dissent or abstention from such action with the person acting as the chairman or Secretary of the meeting before the adjournment thereof or shall forward such dissent or abstention by registered post to such person immediately after the adjournment of the meeting. Such right to dissent or abstain shall not apply to a Director who voted in favour of such action.

33 Dividends, Distributions and Reserve

- 33.1 Subject to any rights and restrictions for the time being attached to any class or classes of shares and these Articles, the Directors may from time to time declare dividends (including interim dividends) and other distributions on shares in issue and authorise payment of the same out of the funds of the Company lawfully available therefor. All dividends unclaimed for one (1) year after having been declared may be invested or otherwise made use of by the Directors for the benefit of the Company until claimed. Subject to any applicable unclaimed property or other laws, any dividend unclaimed after a period of six (6) years from the date of declaration shall be forfeited and shall revert to the Company. The payment by the Directors of any unclaimed dividend or other sums payable on or in respect of a share into a separate account shall not constitute the Company a trustee in respect thereof.
- 33.2 The Directors may, before recommending or declaring any dividend, set aside out of the funds legally available for distribution such sums as they think proper as a reserve or reserves which shall, at the discretion of the Directors be applicable for meeting contingencies, or for equalising dividends or for any other purpose to which those funds be properly applied and pending such application may, at the like discretion, either be employed in the business of the Company or be invested in such investments (other than shares of the Company) as the Directors may from time to time think fit. The Directors shall establish an account to be called the "Share Premium Account" and shall carry to the credit of such account from time to time a sum equal to the amount or value of the premium paid on the issue of any share in the Company. Unless otherwise provided by the provisions of these Articles, the Directors may apply the share premium account in any manner permitted by the Statute and the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law. The Company shall at all times comply with the provisions of these Articles, the Statute and the rules and regulations of the Designated Stock Exchange, the Securities and Exchange Commission and/or any other competent regulatory authority or otherwise under Applicable Law in relation to the share premium account.
- 33.3 Any dividend may be paid by cheque or warrant sent through the post to the registered address of the Member or person entitled thereto, or in the case of joint holders, to any one of such joint holders at his registered address or to such person and such address as the Member or person entitled, or such joint holders as the case may be, may direct. Every such cheque or warrant shall be made payable to the order of the person to whom it is sent or to the order of such other person as the Member or person entitled, or such joint holders as the case may be, may direct. Notwithstanding the foregoing, dividends may also be paid electronically to the account of the Members or persons entitled thereto or in such other manner approved by the Directors.

- 33.4 The Directors when paying dividends to the Members in accordance with the foregoing provisions may make such payment either in cash or in specie.
- 33.5 No dividend shall be paid otherwise than out of profits or, subject to the restrictions of the Statute, the share premium account.
- 33.6 Subject to the rights of persons, if any, entitled to shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as fully paid on the shares, but if and so long as nothing is paid up on any of the shares in the Company dividends may be declared and paid according to the amounts of the shares. No amount paid on a share in advance of calls shall, while carrying interest, be treated for the purposes of this Article as paid on the share.
- 33.7 If several persons are registered as joint holders of any share, any of them may give effectual receipts for any dividend or other moneys payable on or in respect of the share.
- 33.8 No dividend shall bear interest against the Company.

34 Book of Accounts

- 34.1 The books of account relating to the Company's affairs shall be kept in such manner as may be determined from time to time by the Directors.
- 34.2 The books of account shall be kept at such place or places as the Directors think fit, and shall always be open to the inspection of the Directors.
- 34.3 Except as provided in Article **Error! Reference source not found.**, the Directors shall from time to time determine whether and to what extent and at what times and places and under what conditions or regulations the accounts and books of the Company or any of them shall be open to the inspection of Members not being Directors, and no Member (not being a Director) shall have any right of inspecting any account or book or document of the Company except as conferred by Statute or authorised by the Directors.
- 34.4 The accounts relating to the Company's affairs shall be audited in such manner and with such financial year end as may be determined from time to time by the Directors or failing any determination as aforesaid shall not be audited.

35 Audit

- 35.1 The Directors or, if authorised to do so, the Audit Committee of the Directors, may appoint an auditor of the Company who shall hold office until removed from office by a resolution of the Directors and may fix his or their remuneration.
- 35.2 Every auditor of the Company shall have a right of access at all times to the books and accounts and vouchers of the Company and shall be entitled to require from the Directors and officers of the Company such information and explanation as may be necessary for the performance of the duties of the auditors.
- 35.3 Auditors shall, if so required by the Directors, make a report on the accounts of the Company during their tenure of office at the next annual general meeting following their appointment in the case of a company which is registered with the Registrar of Companies as an ordinary company, and at the next extraordinary general meeting following their appointment in the case of a company which is registered with the Registrar of Companies as an exempted company, and at any other time during their term of office, upon request of the Directors or any general meeting of the Members.

36 The Seal

- 36.1 The Seal of the Company shall not be affixed to any instrument except by the authority of a resolution of the Directors, provided always that such authority may be given prior to or after the affixing of the Seal and if given after may be in general form confirming a number of affixings of the Seal. The Seal shall be affixed in the presence of any one or more persons as the Directors may appoint for the purpose and every person as aforesaid shall sign every instrument to which the Seal of the Company is so affixed in their presence.
- 36.2 The Company may maintain a facsimile of its Seal in such countries or places as the Directors may appoint and such facsimile Seal shall not be affixed to any instrument except by the authority of a resolution of the Directors provided always that such authority may be given prior to or after the affixing of such facsimile Seal and if given after may be in general form confirming a number of affixings of such facsimile Seal. The facsimile Seal shall be affixed in the presence of such person or persons as the Directors shall for this purpose appoint and such person or persons as aforesaid shall sign every instrument to which the facsimile Seal of the Company is so affixed in their presence of and the instrument signed by a Director or the Secretary (or an Assistant Secretary) of the Company or in the presence of any one or more persons as the Directors may appoint for the purpose.
- 36.3 Notwithstanding the foregoing, a Director shall have the authority to affix the Seal, or the facsimile Seal, to any instrument for the purposes of attesting authenticity of the matter contained therein but which does not create any obligation binding on the Company.

37 Officers

Subject to these Articles, the Directors may from time to time appoint any person, whether or not a director of the Company, to hold the office of the Chief Executive Officer, the President, the Chief Financial Officer, one or more Vice Presidents or such other officers as the Directors may think necessary for the administration of the Company, for such term and at such remuneration (whether by way of salary or commission or participation in profits or partly in one way and partly in another), and with such powers and duties as the Directors may think fit.

38 Register of Directors and Officers

The Company shall cause to be kept in one or more books at its office a Register of Directors and Officers in which there shall be entered the full names and addresses of the Directors and Officers and such other particulars as required by the Statute. The Company shall send to the Registrar of Companies in the Cayman Islands a copy of such register, and shall from time to time notify the said Registrar of any change that takes place in relation to such Directors and Officers as required by the Statute.

39 Capitalisation of Profits

Subject to the Statute and these Articles, the Directors may capitalise any sum standing to the credit of any of the Company's reserve accounts (including a share premium account or a capital redemption reserve fund) or any sum standing to the credit of profit and loss account or otherwise available for distribution and to appropriate such sum to Members in the proportions in which such sum would have been divisible amongst them had the same been a distribution of profits by way of dividend and to apply such sum on their behalf in paying up in full unissued shares for allotment and distribution credited as fully paid up to and amongst them in the proportion aforesaid. In such event the Directors shall do all acts and things required to give effect to such capitalisation, with full power to the Directors to make such

provisions as they think fit for the case of shares becoming distributable in fractions (including provisions whereby the benefit of fractional entitlements accrue to the Company rather than to the Members concerned). The Directors may authorise any person to enter on behalf of all of the Members interested into an agreement with the Company providing for such capitalisation and matters incidental thereto and any agreement made under such authority shall be effective and binding on all concerned.

40 Notices

- 40.1 Except as otherwise provided in these Articles, any notice or document may be served by the Company or by the person entitled to give notice to any Member either personally, by facsimile, by email or by sending it through the post in a prepaid letter or via a recognised courier service, fees prepaid, addressed to the Member at his address as appearing in the Register of Members or, to the extent permitted by all applicable laws and regulations, by electronic means by transmitting it to any electronic number or address or website supplied by the Member to the Company or by placing it on the Company's Website, provided that, (i) with respect to notification via electronic means, the Company has obtained the Member's prior express positive confirmation in writing to receive or otherwise have made available to him notices in such fashion, and (i) with respect to posting to Company's Website, notification of such posting is provided to such Member. In the case of joint holders of a share, all notices shall be given to that one of the joint holders whose name stands first in the Register of Members in respect of the joint holding, and notice so given shall be sufficient notice to all the joint holders.
- 40.2 An affidavit of the mailing or other means of giving any notice of any general meeting, executed by the Secretary, Assistant Secretary or any transfer agent of the Company giving the notice, shall be prima facie evidence of the giving of such notice.
- 40.3 Any Member present, either personally or by proxy, at any meeting of the Company shall for all purposes be deemed to have received due notice of such meeting and, where requisite, of the purposes for which such meeting was convened.
- 40.4 Any notice or other document, if served by (a) post, shall be deemed to have been served when the letter containing the same is posted, or (b) facsimile or email, shall be deemed to have been served upon confirmation of successful transmission, or (c) recognised courier service, shall be deemed to have been served when the letter containing the same is delivered to the courier service and in proving such service it shall be sufficient to provide that the letter containing the notice or documents was properly addressed and duly posted or delivered to the courier, or (d) electronic means as provided herein shall be deemed to have been served and delivered on the day on which it is successfully transmitted or at such later time as may be prescribed by any applicable laws or regulations.
- 40.5 Any notice or document delivered or sent to any Member in accordance with the terms of these Articles shall notwithstanding that such Member be then dead or bankrupt, and whether or not the Company has notice of his death or bankruptcy, be deemed to have been duly served in respect of any share registered in the name of such Member as sole or joint holder, unless his name shall at the time of the service of the notice or document, have been removed from the Register of Members as the holder of the share, and such service shall for all purposes be deemed a sufficient service of such notice or document on all persons interested (whether jointly with or as claiming through or under him) in the share.

40.6 Notice of every general meeting shall be given to:

- (a) all Members who have supplied to the Company an address for the giving of notices to them, except that in case of joint holders, the notice shall be sufficient if given to the joint holder first named in the Register of Members; and
- (b) each Director.

40.7 No other person shall be entitled to receive notices of general meetings.

41 Information

41.1 No Member shall be entitled to require discovery of any information in respect of any detail of the Company's trading or any information which is or may be in the nature of a trade secret or secret process which may relate to the conduct of the business of the Company and which in the opinion of the Directors would not be in the interests of the members of the Company to communicate to the public.

41.2 The Directors shall be entitled (but not required, except as provided by law) to release or disclose any information in its possession, custody or control regarding the Company or its affairs to any of its Members including, without limitation, information contained in the Register of Members and transfer books of the Company.

42 Indemnity

42.1 The Company shall indemnify every Director and officer of the Company or any predecessor to the Company (which for the avoidance of doubt, shall not include auditors of the Company), together with every former Director and former officer of the Company or any predecessor to the Company, and may indemnify any person (other than current and former Directors and officers) (any such Director, officer or other person, an "**Indemnified Person**"), out of the assets of the Company against any liability, action, proceeding, claim, demand, costs, damages or expenses, including legal expenses, whatsoever which they or any of them may incur as a result of any act or failure to act in carrying out their functions in connection with the Company other than such liability (if any) that they may incur by reason of their own actual fraud, wilful neglect or wilful default. No Indemnified Person shall be liable to the Company for any loss or damage incurred by the Company as a result (whether direct or indirect) of the carrying out of their functions unless that liability arises through the actual fraud, wilful neglect or wilful default of such Indemnified Person. No person shall be found to have committed actual fraud or wilful default under this Article unless or until a court of competent jurisdiction shall have made a finding to that effect. Each Member agrees to waive any claim or right of action he or she might have, whether individually or by or in the right of the Company, against any Director on account of any action taken by such Director, or the failure of such Director to take any action in the performance of his duties with or for the Company; provided that such waiver shall not extend to any matter in respect of any actual fraud or wilful default which may attach to such Director.

42.2 The Company shall advance to each Indemnified Person reasonable attorneys' fees and other costs and expenses incurred in connection with the defence of any action, suit, proceeding or investigation involving such Indemnified Person for which indemnity will or could be sought. In connection with any advance of any expenses hereunder, the Indemnified Person shall execute an undertaking to repay the advanced amount to the Company if it shall be determined by final judgment or other final adjudication that such Indemnified Person was not entitled to indemnification pursuant to this Article. If it shall be determined by a final judgment or other final adjudication that such Indemnified Person was

not entitled to indemnification with respect to such judgment, costs or expenses, then such party shall not be indemnified with respect to such judgment, costs or expenses and any advancement shall be returned to the Company (without interest) by the Indemnified Person.

- 42.3 The Directors, on behalf of the Company, may purchase and maintain insurance for the benefit of any Director or other officer of the Company against any liability which, by virtue of any rule of law, would otherwise attach to such person in respect of any negligence, default, breach of duty or breach of trust of which such person may be guilty in relation to the Company.
- 42.4 Neither any amendment nor repeal of these Articles set forth under this heading of "**Indemnity**" (the "**Indemnification Articles**"), nor the adoption of any provision of the Company's Articles or Memorandum of Association inconsistent with the Indemnification Articles, shall eliminate or reduce the effect of the Indemnification Articles, in respect of any matter occurring, or any action or proceeding accruing or arising or that, but for these Indemnification Articles, would accrue or arise, prior to such amendment, repeal or adoption of an inconsistent provision.

43 Financial Year

Unless the Directors otherwise prescribe, the financial year of the Company shall end on April 30 in each year and shall begin on the day following.

44 Winding Up

- 44.1 If the Company shall be wound up the liquidator shall apply the assets of the Company in satisfaction of creditors' claims in such manner and order as such liquidator thinks fit. Subject to the rights attaching to any shares, in a winding up:
- (a) if the assets available for distribution amongst the Members shall be insufficient to repay the whole of the Company's issued share capital, such assets shall be distributed so that, as nearly as may be, the losses shall be borne by the Members in proportion to the par value of the shares held by them; or
 - (b) if the assets available for distribution amongst the Members shall be more than sufficient to repay the whole of the Company's issued share capital at the commencement of the winding up, the surplus shall be distributed amongst the Members in proportion to the par value of the shares held by them at the commencement of the winding up subject to a deduction from those shares in respect of which there are monies due, of all monies payable to the Company for unpaid calls or otherwise.
- 44.2 If the Company shall be wound up the liquidator may, subject to the rights attaching to any shares and with the sanction of a Special Resolution of the Company and any other sanction required by the Statute, divide amongst the Members in kind the whole or any part of the assets of the Company (whether such assets shall consist of property of the same kind or not) and may for that purpose value any assets and determine how the division shall be carried out as between the Members or different classes of Members. The liquidator may, with the like sanction, vest the whole or any part of such assets in trustees upon such trusts for the benefit of the Members as the liquidator, with the like sanction, shall think fit, but so that no Member shall be compelled to accept any asset upon which there is a liability.

45 Amendment of Memorandum and Articles of Association and Name of Company

Subject to the provisions of the Statute and the provisions of these Articles as regards the matters to be dealt with by Ordinary Resolution, the Company may by Special Resolution:

- (a) change its name;
- (b) alter or add to these Articles;
- (c) alter or add to the Memorandum with respect to any objects, powers or other matters specified therein; and
- (d) reduce its share capital or any capital redemption reserve fund.

46 Registration by Way of Continuation

Subject to these Articles, the Company may by Special Resolution resolve to be registered by way of continuation in a jurisdiction outside the Cayman Islands or such other jurisdiction in which it is for the time being incorporated, registered or existing. In furtherance of a resolution adopted pursuant to this Article, the Directors may cause an application to be made to the Registrar of Companies to deregister the Company in the Cayman Islands or such other jurisdiction in which it is for the time being incorporated, registered or existing and may cause all such further steps as they consider appropriate to be taken to effect the transfer by way of continuation of the Company.

47 Mergers and Consolidations

The Company shall, with the approval of a Special Resolution, have the power to merge or consolidate with one or more constituent companies (as defined in the Statute), upon such terms as the Directors may determine.

FORM OF INDEMNIFICATION AGREEMENT

This Indemnification Agreement (this “**Agreement**”), made and entered into as of the ____ day of _____, 20__, by and between Credo Technology Group Holding Ltd, an exempt company with limited liability organized in the Cayman Islands (the “**Company**”) and _____ (“**Indemnitee**”).

W I T N E S S E T H:

WHEREAS, highly competent persons have become more reluctant to serve publicly-held corporations as directors, executive officers, or in other capacities unless they are provided with adequate protection through insurance or adequate indemnification against risks of claims and actions against them arising out of their service to and activities on behalf of the corporation.

WHEREAS, the Board of Directors of the Company (the “**Board**”) has determined that, in order to attract and retain qualified individuals, the Company will attempt to maintain on an ongoing basis, at its sole expense, liability insurance to protect persons serving the Company and its subsidiaries from certain liabilities.

WHEREAS, directors, officers, and other persons in service to corporations or business enterprises are being increasingly subjected to expensive and time-consuming litigation relating to, among other things, matters that traditionally would have been brought only against the Company or business enterprise itself.

WHEREAS, the Amended and Restated Articles of Association of the Company (the “**Articles of Association**”) provide that the Company shall indemnify and advance expenses to all directors and officers of the Company in the manner set forth therein and provides for limitation of liability for directors. In addition, Indemnitee may also be entitled to indemnification pursuant to the Companies Law of the Cayman Islands, as amended from time to time. The Articles of Association and applicable law permit that the indemnification provisions set forth therein are not exclusive, and thereby contemplate that contracts may be entered into between the Company and members of the board of directors, officers and other persons with respect to indemnification.

WHEREAS, the uncertainties relating to such insurance and to indemnification have increased the difficulty of attracting and retaining such persons.

WHEREAS, the Board has determined that the increased difficulty in attracting and retaining such persons is detrimental to the best interests of the Company’s shareholders and that the Company should act to assure such persons that there will be increased certainty of such protection in the future.

WHEREAS, it is reasonable, prudent and necessary for the Company contractually to obligate itself to indemnify, and to advance expenses on behalf of, such persons to the fullest extent permitted by applicable law so that they will serve or continue to serve the Company free from undue concern that they will not be so indemnified.

WHEREAS, this Agreement is a supplement to and in furtherance of the Articles of Association and any resolutions adopted pursuant thereto and shall not be deemed a substitute therefor, nor to diminish or abrogate any rights of Indemnatee thereunder.

WHEREAS, Indemnatee does not regard the protection available under the Articles of Association and insurance as adequate in the present circumstances, and may not be willing to serve as an officer or director of the Company without adequate protection, and the Company desires Indemnatee to serve in such capacity. Indemnatee is willing to serve, continue to serve and to take on additional service for or on behalf of the Company on the condition that he be so indemnified.

NOW, THEREFORE, in consideration of the premises and the covenants contained herein, the Company and Indemnatee do hereby covenant and agree as follows:

ARTICLE 1 CERTAIN DEFINITIONS

(a) As used in this Agreement:

“Change of Control” means any one of the following circumstances occurring after the date hereof: (i) there shall have occurred an event required to be reported with respect to the Company in response to Item 6(e) of Schedule 14A of Regulation 14A (or in response to any similar item or any similar schedule or form) under the Exchange Act, regardless of whether the Company is then subject to such reporting requirement; (ii) any “person” or “group” (as such terms are used in Sections 13(d) and 14(d) of the Exchange Act) shall have become, without prior approval of the Company’s Board by approval of at least a majority of the Continuing Directors, the “beneficial owner” (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing 15% or more of the combined voting power of the Company’s then outstanding voting securities (provided that, for purposes of this clause (ii), the term “person” shall exclude (x) the Company, (y) any trustee or other fiduciary holding securities under an employee benefit plan of the Company, and (z) any corporation owned, directly or indirectly, by the shareholders of the Company in substantially the same proportions as their ownership of stock of the Company); (iii) there occurs a merger or consolidation of the Company with any other entity, other than a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior to such merger or consolidation continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity) more than 51% of the combined voting power of the voting securities of the surviving entity outstanding immediately after such merger or consolidation and with the power to elect at least a majority of the board of directors or other governing body of such surviving entity; (iv) all or substantially all the assets of the Company are sold or disposed of in a transaction or series of related transactions; (v) the approval by the shareholders of the Company of a complete liquidation of the Company; or (vi) the Continuing Directors cease for any reason to constitute at least a majority of the members of the Board.

“Continuing Director” means (i) each director on the Board on the date hereof or (ii) any new director whose election or nomination for election by the Company’s shareholders was

approved by a vote of at least a majority of the directors then still in office who were directors on the date hereof or whose election or nomination was so approved.

“Corporate Status” means the status of a person who is or was a director, officer, trustee, general partner, managing member, fiduciary, board of directors’ committee member, employee or agent of the Company or of any other Enterprise.

“Disinterested Director” means a director of the Company who is not and was not a party to the Proceeding in respect of which indemnification is sought by Indemnitee.

“Enterprise” means the Company and any other corporation, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise of which Indemnitee is or was serving at the request of the Company as a director, officer, trustee, general partner, managing member, fiduciary, board of directors’ committee member, employee or agent.

“Exchange Act” means the Securities Exchange Act of 1934, as amended.

“Expenses” means all direct and indirect costs (including attorneys’ fees, retainers, court costs, transcripts, fees of experts, witness fees, travel expenses, duplicating costs, printing and binding costs, telephone charges, postage, delivery service fees, and all other disbursements or expenses) reasonably incurred in connection with (i) prosecuting, defending, preparing to prosecute or defend, investigating, being or preparing to be a witness in, or otherwise participating in, a Proceeding or (ii) establishing or enforcing a right to indemnification under this Agreement, the Articles of Association, applicable law or otherwise. Expenses also shall include Expenses incurred in connection with any appeal resulting from any Proceeding, including the premium, security for, and other costs relating to any cost bond, supersedeas bond, or other appeal bond or its equivalent. For the avoidance of doubt, Expenses, however, shall not include any Liabilities.

“Independent Counsel” means a law firm, or a member of a law firm, that is experienced in matters of corporate law and neither currently is, nor in the five years previous to its selection or appointment has been, retained to represent (i) the Company or Indemnitee in any matter material to either such party (other than with respect to matters concerning Indemnitee under this Agreement or of other indemnitees under similar indemnification agreements) or (ii) any other party to the Proceeding giving rise to a claim for indemnification hereunder. Notwithstanding the foregoing, the term “Independent Counsel” shall not include any person who, under the applicable standards of professional conduct then prevailing, would have a conflict of interest in representing either the Company or Indemnitee in an action to determine Indemnitee’s rights under this Agreement.

“Liabilities” means any losses or liabilities, including any judgments, fines, excise taxes and penalties, penalties and amounts paid in settlement, arising out of or in connection with any Proceeding (including all interest, assessments and other charges paid or payable in connection with or in respect of any such judgments, fines, excise taxes and penalties, penalties or amounts paid in settlement).

“Proceeding” means any threatened, pending or completed action, derivative action, suit, claim, counterclaim, cross claim, arbitration, alternate dispute resolution mechanism,

investigation, inquiry, administrative hearing or any other actual, threatened or completed proceeding, whether civil (including intentional and unintentional tort claims), criminal, administrative or investigative, including any appeal therefrom, and whether instituted by or on behalf of the Company or any other party, or any inquiry or investigation that Indemnatee in good faith believes might lead to the institution of any such action, suit or other proceeding hereinabove listed in which Indemnatee was, is or will be involved as a party, potential party, non-party witness or otherwise by reason of any Corporate Status of Indemnatee, or by reason of any action taken (or failure to act) by him or her or of any action (or failure to act) on his or her part while serving in any Corporate Status.

(b) For the purposes of this Agreement:

References to “Company” shall include, in addition to the resulting or surviving company, any constituent company (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its directors, officers, employees or agents, so that if Indemnatee is or was a director, officer, employee, or agent of such constituent company or is or was serving at the request of such constituent company as a director, officer, employee, or agent of another company, partnership, joint venture, trust or other enterprise, then Indemnatee shall stand in the same position under the provisions of this Agreement with respect to the resulting or surviving company as Indemnatee would have with respect to such constituent company if its separate existence had continued.

Reference to “other enterprise” shall include employee benefit plans; references to “fines” shall include any excise tax assessed with respect to any employee benefit plan; references to “serving at the request of the Company” shall include any service as a director, officer, employee or agent of the Company which imposes duties on, or involves services by, such director, officer, employee or agent with respect to an employee benefit plan, its participants or beneficiaries; and a person who acted in good faith and in a manner he reasonably believed to be in the best interests of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner “not opposed to the best interests of the Company” as referred to in this Agreement.

Reference to “including” shall mean “including, without limitation,” regardless of whether the words “without limitation” actually appear, references to the words “herein,” “hereof” and “hereunder” and other words of similar import shall refer to this Agreement as a whole and not to any particular paragraph, subparagraph, section, subsection or other subdivision.

ARTICLE 2

SERVICES BY INDEMNITEE

Section 2.01. *Services By Indemnatee.* Indemnatee hereby agrees to serve or continue to serve, at the will of the Company, as a director, officer or key employee of the Company, for so long as Indemnatee is duly elected or appointed or until Indemnatee tenders his or her resignation or is removed.

ARTICLE 3
INDEMNIFICATION

Section 3.01. *General.* (a) The Company hereby agrees to and shall indemnify Indemnitee and hold Indemnitee harmless from and against any and all Expenses and Liabilities, in either case, actually and reasonably incurred by Indemnitee or on Indemnitee's behalf by reason of Indemnitee's Corporate Status, to the fullest extent permitted by applicable law. The Company's indemnification obligations set forth in this Section 3.01 shall apply (i) in respect of Indemnitee's past, present and future service in any Corporate Status and (ii) regardless of whether Indemnitee is serving in any Corporate Status at the time any such Expense or Liability is incurred.

For purposes of this Agreement, the meaning of the phrase "to the fullest extent permitted by applicable law" shall include, but not be limited to:

(i) to the fullest extent permitted by any provision of the applicable law, or the corresponding provision of any successor law, and

(ii) to the fullest extent authorized or permitted by any amendments to or replacements of the applicable law adopted after the date of this Agreement that increase the extent to which a corporation may indemnify its officers and directors.

(b) *Witness Expenses.* Notwithstanding any other provision of this Agreement, to the extent that Indemnitee is, by reason of his or her Corporate Status, a witness in any Proceeding to which Indemnitee is not a party, he shall be indemnified against all Expenses actually and reasonably incurred by Indemnitee or on his or her behalf in connection therewith.

(c) *Expenses as a Party Where Wholly or Partly Successful.* Notwithstanding any other provisions of this Agreement, to the fullest extent permitted by applicable law, to the extent that Indemnitee is a party to (or a participant in) and is successful, on the merits or otherwise, in any Proceeding or in defense of any claim, issue or matter therein, in whole or in part, the Company shall indemnify Indemnitee against all Expenses actually and reasonably incurred by him or her in connection therewith. If Indemnitee is not wholly successful in such Proceeding, but is successful, on the merits or otherwise, as to one or more but less than all claims, issues or matters in such Proceeding, the Company shall, to the fullest extent permitted by applicable law, indemnify Indemnitee against all Expenses actually and reasonably incurred by Indemnitee or on his or her behalf in connection with each successfully resolved claim, issue or matter. For purposes of this Section and without limitation, the termination of any claim, issue or matter in such a Proceeding by dismissal, with or without prejudice, shall be deemed to be a successful result as to such claim, issue or matter.

Section 3.02. *Exclusions.* Notwithstanding any provision of this Agreement and unless Indemnitee ultimately is successful on the merits with respect to any such claim, the Company shall not be obligated under this Agreement to make any indemnity in connection with any claim made against Indemnitee:

(a) for (i) an accounting of profits made from the purchase and sale (or sale and purchase) by Indemnitee of securities of the Company within the meaning of Section 16(b) of the

Exchange Act or similar provisions of state statutory law or common law or (ii) any reimbursement of the Company by Indemnatee of any bonus or other incentive-based or equity-based compensation or of any profits realized by Indemnatee from the sale of securities of the Company, as required in each case under the Exchange Act (including any such reimbursements that arise from an accounting restatement of the Company pursuant to Section 304 of the Sarbanes-Oxley Act of 2002 (the “**Sarbanes-Oxley Act**”), or the payment to the Company of profits arising from the purchase and sale by Indemnatee of securities in violation of Section 306 of the Sarbanes-Oxley Act); or

(b) except as otherwise provided in Sections 6.01(e), prior to a Change of Control, in connection with any Proceeding (or any part of any Proceeding) initiated by Indemnatee (other than any cross claim or counterclaim asserted by the Indemnatee), including any Proceeding (or any part of any Proceeding) initiated by Indemnatee against the Company or its directors, officers, employees or other indemnitees, unless (i) the Board authorized the Proceeding (or any part of any Proceeding) prior to its initiation or (ii) the Company provides the indemnification, in its sole discretion, pursuant to the powers vested in the Company under applicable law.

ARTICLE 4

ADVANCEMENT OF EXPENSES; DEFENSE OF CLAIMS

Section 4.01. *Advances.* Notwithstanding any provision of this Agreement to the contrary, the Company shall advance any Expenses actually and reasonably incurred by Indemnatee in connection with any Proceeding within thirty (30) days after the receipt by the Company of each statement requesting such advance from time to time, whether prior to or after final disposition of any Proceeding. Advances shall be unsecured and interest free. Advances shall be made without regard to Indemnatee’s ability to repay such amounts and without regard to Indemnatee’s ultimate entitlement to indemnification under the other provisions of this Agreement. Advances shall include any and all reasonable Expenses incurred pursuing an action to enforce this right of advancement, including Expenses incurred preparing and forwarding statements to the Company to support the advances claimed.

Section 4.02. *Repayment of Advances or Other Expenses.* Indemnatee agrees that Indemnatee shall reimburse the Company for all Expenses advanced by the Company pursuant to Section 4.01, in the event and only to the extent that it shall be determined by final judgment or other final adjudication under the provisions of any applicable law (as to which all rights of appeal therefrom have been exhausted or lapsed) that Indemnatee is not entitled to be indemnified by the Company for such Expenses.

Section 4.03. *Defense of Claims.* The Company will be entitled to participate in the Proceeding at its own expense. The Company shall not settle any action, claim or Proceeding (in whole or in part) which would impose any Expense, judgment, fine, penalty or limitation on Indemnatee without Indemnatee’s prior written consent, such consent not to be unreasonably withheld. Indemnatee shall not settle any action, claim or Proceeding (in whole or in part) without the Company’s prior written consent, such consent not to be unreasonably withheld.

ARTICLE 5

PROCEDURES FOR NOTIFICATION OF AND DETERMINATION OF ENTITLEMENT TO INDEMNIFICATION

Section 5.01. *Notification; Request For Indemnification.* (a) As soon as reasonably practicable after receipt by Indemnatee of written notice that he is a party to or a participant (as a witness or otherwise) in any Proceeding or of any other matter in respect of which Indemnatee intends to seek indemnification or advancement of Expenses hereunder, Indemnatee shall provide to the Company written notice thereof, including the nature of and the facts underlying the Proceeding. The omission by Indemnatee to so notify the Company will not relieve the Company from any liability which it may have to Indemnatee hereunder or otherwise.

(b) To obtain indemnification under this Agreement, Indemnatee shall deliver to the Company a written request for indemnification, including therewith such information as is reasonably available to Indemnatee and reasonably necessary to determine Indemnatee's entitlement to indemnification hereunder. Such request(s) may be delivered from time to time and at such time(s) as Indemnatee deems appropriate in his or her sole discretion. Indemnatee's entitlement to indemnification shall be determined according to Section 5.02 of this Agreement and applicable law.

Section 5.02. *Determination of Entitlement.* (a) Where there has been a written request by Indemnatee for indemnification pursuant to Section 5.01(b), then as soon as is reasonably practicable (but in any event not later than 60 days) after final disposition of the relevant Proceeding, a determination, if required by applicable law, with respect to Indemnatee's entitlement thereto shall be made in the specific case: (i) if a Change of Control shall not have occurred, (A) by a majority vote of the Disinterested Directors, even though less than a quorum of the Board, (B) by a committee of Disinterested Directors designated by a majority vote of the Disinterested Directors, even though less than a quorum of the Board, (C) if there are no such Disinterested Directors or, if such Disinterested Directors so direct, by Independent Counsel in a written opinion to the Board, a copy of which shall be delivered to Indemnatee; or (ii) if a Change of Control shall have occurred, by Independent Counsel in a written opinion to the Board, a copy of which shall be delivered to Indemnatee. If it is so determined that Indemnatee is entitled to indemnification, payment to Indemnatee shall be made within ten (10) days after such determination. Indemnatee shall reasonably cooperate with the person, persons or entity making such determination with respect to Indemnatee's entitlement to indemnification, including providing to such person, persons or entity upon reasonable advance request any documentation or information which is not privileged or otherwise protected from disclosure and which is reasonably available to Indemnatee and reasonably necessary to such determination. Any costs or expenses (including attorneys' fees and disbursements) actually and reasonably incurred by Indemnatee in so cooperating with the person, persons or entity making such determination shall be borne by the Company (irrespective of the determination as to Indemnatee's entitlement to indemnification).

(b) If entitlement to indemnification is to be determined by Independent Counsel pursuant to Section 5.02(a)(ii), such Independent Counsel shall be selected by Indemnatee, and Indemnatee shall give written notice to the Company advising it of the identity of the

Independent Counsel so selected. If entitlement to indemnification is to be determined by Independent Counsel pursuant to Section 5.02(a)(i)(C) (or if Indemnatee requests that such selection be made by the Board), such Independent Counsel shall be selected by the Company in which case the Company shall give written notice to Indemnatee advising him or her of the identity of the Independent Counsel so selected. In either event, Indemnatee or the Company, as the case may be, may, within 10 days after such written notice of selection shall have been received, deliver to the Company or to Indemnatee, as the case may be, a written objection to such selection; provided, however, that such objection may be asserted only on the ground that the Independent Counsel so selected does not meet the requirements of "Independent Counsel" as defined in Section 1 of this Agreement, and the objection shall set forth with particularity the factual basis of such assertion. Absent a proper and timely objection, the person so selected shall act as Independent Counsel. If such written objection is so made and substantiated, the Independent Counsel so selected may not serve as Independent Counsel unless and until such objection is withdrawn or a court of competent jurisdiction has determined that such objection is without merit. If, within 20 days after the later of submission by Indemnatee of a written request for indemnification pursuant to Section 5.01(b) hereof and the final disposition of the Proceeding, no Independent Counsel shall have been selected and not objected to, either the Company or Indemnatee may petition a court of competent jurisdiction for resolution of any objection which shall have been made by the Company or Indemnatee to the other's selection of Independent Counsel and/or for the appointment as Independent Counsel of a person selected by the court or by such other person as the court shall designate, and the person with respect to whom all objections are so resolved or the person so appointed shall act as Independent Counsel under Section 5.02(a) hereof. Upon the due commencement of any judicial proceeding or arbitration pursuant to Section 6.01(a) of this Agreement, the Independent Counsel shall be discharged and relieved of any further responsibility in such capacity (subject to the applicable standards of professional conduct then prevailing).

(c) The Company agrees to pay the reasonable fees and expenses of any Independent Counsel serving under this Agreement.

Section 5.03. *Presumptions and Burdens of Proof; Effect of Certain Proceedings.* In making any determination with respect to entitlement to indemnification hereunder, the person or persons or entity making such determination shall, to the fullest extent not prohibited by law, presume that Indemnatee is entitled to indemnification under this Agreement if Indemnatee has submitted a request for indemnification in accordance with Section 5.01(b) of this Agreement, and the Company shall, to the fullest extent not prohibited by law, have the burden of proof to overcome that presumption in connection with the making by any person, persons or entity of any determination contrary to that presumption. Neither the failure of any person, persons or entity to have made a determination prior to the commencement of any action pursuant to this Agreement that indemnification is proper in the circumstances because Indemnatee has met the applicable standard of conduct, nor an actual determination by any person, persons or entity that Indemnatee has not met such applicable standard of conduct, shall be a defense to the action or create a presumption that Indemnatee has not met the applicable standard of conduct.

(b) If the person, persons or entity empowered or selected under Section 5.02 of this Agreement to determine whether Indemnatee is entitled to indemnification shall not have made a

determination within the sixty (60) day period referred to in Section 5.02(a), the requisite determination of entitlement to indemnification shall, to the fullest extent not prohibited by law, be deemed to have been made and Indemnatee shall be entitled to such indemnification, absent (i) a misstatement by Indemnatee of a material fact, or an omission of a material fact necessary to make Indemnatee's statement not materially misleading, in connection with the request for indemnification, or (ii) a prohibition of such indemnification under applicable law; *provided*, however, that such 60-day period may be extended for a reasonable time, not to exceed an additional thirty (30) days, if the person, persons or entity making the determination with respect to entitlement to indemnification in good faith requires such additional time for the obtaining or evaluating of documentation and/or information relating thereto.

(c) The termination of any Proceeding or of any claim, issue or matter therein, by judgment, order, settlement or conviction, or upon a plea of *nolo contendere* or its equivalent, shall not (except as otherwise expressly provided in this Agreement) of itself adversely affect the right of Indemnatee to indemnification or create a presumption that Indemnatee did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the Company or, with respect to any criminal Proceeding, that Indemnatee had reasonable cause to believe that his or her conduct was unlawful.

(d) For purposes of any determination of good faith, Indemnatee shall be deemed to have acted in good faith if Indemnatee's action is in good faith reliance on the records or books of account of any Enterprise, including financial statements, or on information supplied to Indemnatee by the officers of such Enterprise in the course of their duties, or on the advice of legal counsel for such Enterprise or on information or records given or reports made to such Enterprise by an independent certified public accountant or by an appraiser or other expert selected by such Enterprise. The provisions of this Section 5.03(d) shall not be deemed to be exclusive or to limit in any way the other circumstances in which Indemnatee may be deemed or found to have met the applicable standard of conduct set forth in this Agreement.

(e) The knowledge and/or actions, or failure to act, of any other director, trustee, partner, managing member, fiduciary, officer, agent or employee of any Enterprise shall not be imputed to Indemnatee for purposes of determining any right to indemnification under this Agreement.

ARTICLE 6 REMEDIES OF INDEMNITEE

Section 6.01. *Adjudication or Arbitration.* (a) In the event of any dispute between Indemnatee and the Company hereunder as to entitlement to indemnification or advancement of Expenses (including where a determination is made pursuant to Section 5.02 of this Agreement that Indemnatee is not entitled to indemnification under this Agreement, advancement of Expenses is not timely made pursuant to Section 4.01 of this Agreement, payment of indemnification pursuant to Section 3.01 of this Agreement is not made within ten (10) days after a determination has been made that Indemnatee is entitled to indemnification, no determination as to entitlement to indemnification is timely made pursuant to Section 5.02 of this Agreement and no payment of indemnification is made within ten (10) days after entitlement is deemed to have been determined pursuant to Section 5.03(b)) or (v) a contribution payment is not made in a

timely manner pursuant to Section 8.04 of this Agreement, then Indemnatee shall be entitled to an adjudication by a court of his or her entitlement to such indemnification, contribution or advancement. Alternatively, in such case, Indemnatee, at his or her option, may seek an award in arbitration to be conducted by a single arbitrator pursuant to the Commercial Arbitration Rules of the American Arbitration Association. The Company shall not oppose Indemnatee's right to seek any such adjudication or award in arbitration.

(b) In the event that a determination shall have been made pursuant to Section 5.02(a) of this Agreement that Indemnatee is not entitled to indemnification, any judicial proceeding or arbitration commenced pursuant to this Section 6.01 shall be conducted in all respects as a *de novo* trial, or arbitration, on the merits, and Indemnatee shall not be prejudiced by reason of that adverse determination. In any judicial proceeding or arbitration commenced pursuant to this Section 6.01 the Company shall have the burden of proving Indemnatee is not entitled to indemnification or advancement of Expenses, as the case may be, and the Company may not refer to or introduce into evidence any determination pursuant to Section 5.02(a) of this Agreement adverse to Indemnatee for any purpose. If Indemnatee commences a judicial proceeding or arbitration pursuant to this Section 6.01, Indemnatee shall not be required to reimburse the Company for any advances pursuant to Section 4.02 until a final determination is made with respect to Indemnatee's entitlement to indemnification (as to which all rights of appeal have been exhausted or lapsed).

(c) If a determination shall have been made pursuant to Section 5.02(a) of this Agreement that Indemnatee is entitled to indemnification, the Company shall be bound by such determination in any judicial proceeding or arbitration commenced pursuant to this Section 6.01, absent (i) a misstatement by Indemnatee of a material fact, or an omission of a material fact necessary to make Indemnatee's statement not materially misleading, in connection with the request for indemnification, or (ii) a prohibition of such indemnification under applicable law.

(d) The Company shall be precluded from asserting in any judicial proceeding or arbitration commenced pursuant to this Section 6.01 that the procedures and presumptions of this Agreement are not valid, binding and enforceable and shall stipulate in any such court or before any such arbitrator that the Company is bound by all the provisions of this Agreement.

(e) The Company shall indemnify Indemnatee to the fullest extent permitted by law against all Expenses and, if requested by Indemnatee, shall (within thirty (30) days after the Company's receipt of such written request) advance such Expenses to Indemnatee, which are reasonably incurred by Indemnatee in connection with any judicial proceeding or arbitration brought by Indemnatee for (i) indemnification or advances of Expenses by the Company (or otherwise for the enforcement, interpretation or defense of his or her rights) under this Agreement or any other agreement, including any other indemnification, contribution or advancement agreement, or any provision of the Articles of Association now or hereafter in effect or (ii) recovery or advances under any directors' and officers' liability insurance policy maintained by the Company, regardless of whether Indemnatee ultimately is determined to be entitled to such indemnification, contribution, advancement or insurance recovery, as the case may be.

ARTICLE 7
DIRECTORS' AND OFFICERS' LIABILITY INSURANCE

Section 7.01. *D&O Liability Insurance*. To the extent that the Company maintains a policy or policies of insurance providing liability insurance for directors and officers of the Company in their capacities as such (and for any capacity in which any director or officer of the Company serves any other Enterprise at the request of the Company) ("**D&O Liability Insurance**"), in respect of acts or omissions occurring while serving in such capacity, Indemnitee shall be covered by such policy or policies, in accordance with its or their terms, to the maximum extent of the coverage available for any other director or officer under such policy or policies.

Section 7.02. *Evidence of Coverage*. Upon request by Indemnitee, the Company shall provide copies of all policies of D&O Liability Insurance obtained and maintained in accordance with Section 7.01 of this Agreement.

ARTICLE 8
MISCELLANEOUS

Section 8.01. *Nonexclusivity of Rights*. The rights of indemnification, contribution and advancement of Expenses as provided by this Agreement shall not be deemed exclusive of any other rights to which Indemnitee may at any time be entitled to under applicable law, the Articles of Association, any agreement, a vote of shareholders or a resolution of directors, or otherwise. No right or remedy herein conferred is intended to be exclusive of any other right or remedy, and every other right and remedy shall be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other right or remedy.

Section 8.02. *Insurance and Subrogation*. (a) If, at the time the Company receives notice of a claim hereunder, the Company has director and officer liability insurance in effect, the Company shall give prompt notice of such Proceeding to the insurers in accordance with the procedures set forth in the respective policies. The Company shall thereafter take all necessary or desirable action to cause such insurers to pay, on behalf of Indemnitee, all amounts payable as a result of such Proceeding in accordance with the terms of such policies. The failure or refusal of any such insurer to pay any such amount shall not affect or impair the obligations of the Company under this Agreement.

(b) In the event of any payment under this Agreement, the Company shall be subrogated to the extent of such payment to all of the rights of recovery of Indemnitee, who shall execute all papers required and take all action necessary to secure such rights, including execution of such documents as are necessary to enable the Company to bring suit to enforce such rights.

(c) The Company shall not be liable under this Agreement to make any payment of amounts otherwise indemnifiable (or for which advancement is provided) hereunder if and to the

extent that Indemnatee has actually received such payment under any insurance policy or other indemnity provision.

Section 8.03 The Company's obligation to indemnify or advance Expenses hereunder to Indemnatee who is or was serving at the request of the Company as a director, officer, trustee, partner, managing member, fiduciary, board of directors' committee member, employee or agent of any other Enterprise shall be reduced by any amount Indemnatee has actually received as indemnification or advancement of Expenses from such Enterprise.

Section 8.04. *Contribution.* To the fullest extent permissible under applicable law, if the indemnification provided for in this Agreement is unavailable to Indemnatee for any reason whatsoever, the Company, in lieu of indemnifying Indemnatee, shall contribute to the amount incurred by Indemnatee, whether for judgments, fines, penalties, excise taxes, amounts paid or to be paid in settlement and/or for Expenses, in connection with any claim relating to an indemnifiable event under this Agreement, in such proportion as is deemed fair and reasonable in light of all of the circumstances of such Proceeding in order to reflect the relative benefits received by the Company and Indemnatee as a result of the event(s) and/or transaction(s) giving rise to such Proceeding; and/or the relative fault of the Company (and its directors, officers, employees and agents) and Indemnatee in connection with such event(s) and/or transaction(s).

Section 8.05. *Amendment.* This Agreement may not be modified or amended except by a written instrument executed by or on behalf of each of the parties hereto. No amendment, alteration or repeal of this Agreement or of any provision hereof shall limit, restrict or reduce any right of Indemnatee under this Agreement in respect of any act or omission, or any event occurring, prior to such amendment, alteration or repeal. To the extent that a change in applicable law, whether by statute or judicial decision permits greater indemnification, contribution or advancement of Expenses than would be afforded currently under the Articles of Association and this Agreement, it is the intent of the parties hereto that Indemnatee shall enjoy by this Agreement the greater benefits so afforded by such change.

Section 8.06. *Waivers.* The observance of any term of this Agreement may be waived (either generally or in a particular instance and either retroactively or prospectively) by the party entitled to enforce such term only by a writing signed by the party against which such waiver is to be asserted. Unless otherwise expressly provided herein, no delay on the part of any party hereto in exercising any right, power or privilege hereunder shall operate as a waiver thereof, nor shall any waiver on the part of any party hereto of any right, power or privilege hereunder operate as a waiver of any other right, power or privilege hereunder nor shall any single or partial exercise of any right, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege hereunder.

Section 8.07. *Entire Agreement.* This Agreement and the documents referred to herein constitute the entire agreement between the parties hereto with respect to the matters covered hereby, and any other prior or contemporaneous oral or written understandings or agreements with respect to the matters covered hereby are superseded by this Agreement, provided that this Agreement is a supplement to and in furtherance of the Articles of Association and applicable law, and shall not be deemed a substitute therefor, nor to diminish or abrogate any rights of Indemnatee thereunder.

Section 8.08. *Severability.* If any provision or provisions of this Agreement shall be held to be invalid, illegal or unenforceable for any reason whatsoever: the validity, legality and enforceability of the remaining provisions of this Agreement (including each portion of any Section of this Agreement containing any such provision held to be invalid, illegal or unenforceable, that is not itself invalid, illegal or unenforceable) shall not in any way be affected or impaired thereby and shall remain enforceable to the fullest extent permitted by law; such provision or provisions shall be deemed reformed to the extent necessary to conform to applicable law and to give the maximum effect to the intent of the parties hereto; and to the fullest extent possible, the provisions of this Agreement (including each portion of any Section of this Agreement containing any such provision held to be invalid, illegal or unenforceable, that is not itself invalid, illegal or unenforceable) shall be construed so as to give effect to the intent manifested thereby.

Section 8.09. *Notices.* All notices, requests, demands and other communications under this Agreement shall be in writing (which may be by facsimile transmission). All such notices, requests and other communications shall be deemed received on the date of receipt by the recipient thereof if received prior to 5:00 p.m. in the place of receipt and such day is a business day in the place of receipt. Otherwise, any such notice, request or communication shall be deemed not to have been received until the next succeeding business day in the place of receipt. The address for notice to a party is as shown on the signature page of this Agreement, or such other address as any party shall have given by written notice to the other party as provided above.

Section 8.10. *Binding Effect.* (a) The Company expressly confirms and agrees that it has entered into this Agreement and assumed the obligations imposed on it hereby in order to induce Indemnitee to serve as a director or officer of the Company, and the Company acknowledges that Indemnitee is relying upon this Agreement in serving as a director or officer of the Company.

(b) This Agreement shall be binding upon and inure to the benefit of and be enforceable by the parties hereto and their respective successors, assigns, including any direct or indirect successor by purchase, merger, consolidation or otherwise to all or substantially all of the business and/or assets of the Company, spouses, heirs, and executors, administrators, personal and legal representatives. The Company shall require and cause any successor (whether direct or indirect by purchase, merger, consolidation or otherwise) to all or substantially all, or a substantial part of the business or assets of the Company, by written agreement in form and substance satisfactory to Indemnitee, expressly to assume and agree to perform this Agreement in the manner and to the same extent that the Company would be required to perform if no such succession had taken place.

(c) The indemnification, contribution and advancement of Expenses provided by, or granted pursuant to this Agreement shall continue as to a person who has ceased to be a director or officer and shall inure to the benefit of the heirs, executors, administrators, legatees and assigns of such a person.

Section 8.11. *Governing Law.* This Agreement and the legal relations among the parties shall be governed by, and construed and enforced in accordance with, the laws of the State of Delaware, without regard to its conflict of laws rules.

Section 8.12. *Consent To Jurisdiction.* Except with respect to any arbitration commenced by Indemnitee pursuant to Section 6.01(a) of this Agreement, the Company and Indemnitee hereby irrevocably and unconditionally agree that any action or proceeding arising out of or in connection with this Agreement shall be brought only in the Chancery Court of the State of Delaware (the “**Delaware Court**”), and not in any other state or federal court in the United States of America or any court in any other country, (ii) consent to submit to the exclusive jurisdiction of the Delaware Court for purposes of any action or proceeding arising out of or in connection with this Agreement, (iii) waive any objection to the laying of venue of any such action or proceeding in the Delaware Court, and (iv) waive, and agree not to plead or to make, any claim that any such action or proceeding brought in the Delaware Court has been brought in an improper or inconvenient forum.

Section 8.13. *Headings.* The Article and Section headings in this Agreement are for convenience of reference only, and shall not be deemed to alter or affect the meaning or interpretation of any provisions hereof.

Section 8.14. *Counterparts.* This Agreement may be executed in one or more counterparts, each of which shall for all purposes be deemed to be an original but all of which together shall constitute one and the same Agreement. Only one such counterpart signed by the party against whom enforceability is sought needs to be produced to evidence the existence of this Agreement.

Section 8.15. *Use of Certain Terms.* As used in this Agreement, the words “herein,” “hereof,” and “hereunder” and other words of similar import refer to this Agreement as a whole and not to any particular paragraph, subparagraph, section, subsection, or other subdivision. Whenever the context may require, any pronoun used in this Agreement shall include the corresponding masculine, feminine or neuter forms, and the singular form of nouns, pronouns and verbs shall include the plural and vice versa.

IN WITNESS WHEREOF, this Agreement has been duly executed and delivered to be effective as of the date first above written.

**CREDO TECHNOLOGY GROUP HOLDING LTD.
2021 LONG-TERM INCENTIVE PLAN**

Section 1. *Purpose.* The purpose of the Credo Technology Group Holding Ltd. 2021 Long-Term Incentive Plan (as amended from time to time, the “**Plan**”) is to motivate and reward employees and other individuals to perform at the highest level and contribute significantly to the success of Credo Technology Group Holding Ltd. (the “**Company**”), thereby furthering the best interests of the Company and its stockholders.

Section 2. *Definitions.* Certain capitalized terms applicable to the Plan are set forth in Appendix A.

Section 3. *Administration.*

(a) *Administration of the Plan.* The Plan shall be administered by the Committee. All decisions of the Committee shall be final, conclusive and binding upon all parties, including the Company, its stockholders, Eligible Persons and any Beneficiaries thereof. The Committee may issue rules and regulations for administration of the Plan.

(b) *Composition of Committee.* To the extent necessary or desirable to comply with applicable regulatory regimes, any action by the Committee shall require the approval of Committee members who are independent, within the meaning of and to the extent required by applicable rulings and interpretations of the applicable stock market or exchange on which the Ordinary Shares are quoted or traded; and non-employee Directors within the meaning of Rule 16b-3 under the Exchange Act. The Board may designate one or more Directors as alternate members of the Committee who may replace any absent or disqualified member at any meeting of the Committee. To the extent permitted by applicable law, the Committee may delegate to one or more officers of the Company some or all of its authority under the Plan, including the authority to grant Awards (except that such delegation shall not be applicable to any Award for a Person then covered by Section 16 of the Exchange Act), and the Committee may delegate to one or more committees of the Board (which may consist of solely one Director) some or all of its authority under the Plan, including the authority to grant all types of Awards, in accordance with applicable law.

(c) *Authority of Committee.* Subject to the terms of the Plan and applicable law, the Committee (or its delegate) shall have full discretion and authority to: designate Eligible Persons; determine the type or types of Awards (including Substitute Awards) to be granted to each Eligible Person under the Plan; determine the number of Ordinary Shares to be covered by (or with respect to which payments, rights or other matters are to be calculated in connection with) Awards; determine the terms and conditions of any Award and prescribe the form of each Award Agreement which need not be identical for each Participant; determine whether, to what extent and under what circumstances Awards may be settled or exercised in cash, Ordinary Shares, other Awards, other property, net settlement, or any combination thereof, or canceled, forfeited or suspended, and the method or methods by which Awards may be settled, exercised, canceled, forfeited or suspended; determine whether, to what extent and under what circumstances cash, Ordinary Shares, other Awards, other property and other amounts payable with respect to an Award under the Plan shall be deferred either automatically or at the election

of the holder thereof or of the Committee; amend terms or conditions of any outstanding Awards; correct any defect, supply any omission and reconcile any inconsistency in the Plan or any Award, in the manner and to the extent it shall deem desirable to carry the Plan into effect; interpret and administer the Plan and any instrument or agreement relating to, or Award made under, the Plan; establish, amend, suspend or waive such rules and regulations and appoint such agents, trustees, brokers, depositories and advisors and determine such terms of their engagement as it shall deem appropriate for the proper administration of the Plan and due compliance with applicable law, stock market or exchange rules and regulations or accounting or tax rules and regulations; and make any other determination and take any other action that the Committee deems necessary or desirable for the administration of the Plan and due compliance with applicable law, stock market or exchange rules and regulations or accounting or tax rules and regulations. Notwithstanding anything to the contrary contained herein, the Board may, in its sole discretion, at any time and from time to time, grant Awards or administer the Plan. In any such case, the Board shall have all of the authority and responsibility granted to the Committee herein.

Section 4. *Participation.*

Consistent with the purposes of the Plan, the Committee shall have exclusive power to select the Eligible Persons who may participate in the Plan and be granted Awards under the Plan. Eligible Persons may be selected individually or by groups or categories, as determined by the Committee in its discretion.

Section 5. *Shares Available for Award.*

(a) *Share Reserve.*

(i) Subject to adjustment as provided in Section 5(b) and except for Substitute Awards, the maximum number of Ordinary Shares available for issuance under the Plan shall not exceed [●]¹ Ordinary Shares. The total number of Ordinary Shares available for issuance under the Plan shall be increased on the first day of each Company fiscal year following the Effective Date in an amount equal to the least of (i) [●]² Ordinary Shares, (ii) 5% of the aggregate number of Ordinary Shares outstanding (on a fully diluted basis) on the last day of the immediately preceding fiscal year and (iii) such number of Ordinary Shares as determined by the Board. The maximum number of Ordinary Shares available for issuance with respect to Incentive Stock Options shall be [●].³ Ordinary Shares underlying Substitute Awards and Ordinary Shares remaining available for grant under a plan of an acquired company or of a company with which the Company combines (whether by way of amalgamation, merger, sale and purchase of shares or other securities or otherwise), appropriately adjusted to reflect the acquisition or combination transaction, shall not reduce the number of Ordinary Shares remaining available for grant hereunder.

¹ **Note to Draft:** To be 11% of the Ordinary Shares outstanding on a fully diluted basis as of immediately following the IPO (inclusive of new plan reserves but without regard to any exercise of the greenshoe).

² **Note to Draft:** To be the same as the share pool.

³ **Note to Draft:** To be the same as the share pool.

(ii) If any Award, in whole or in part, is forfeited, cancelled, expires, terminates or otherwise lapses, or is settled in cash without the delivery of Ordinary Shares, or if Ordinary Shares are withheld by the Company in respect of taxes on Awards other than Options or Stock Appreciation Rights, then the corresponding Ordinary Shares shall again be available for grant under the Plan. For the avoidance of doubt, any Ordinary Shares tendered or withheld to pay the exercise price of Options, or that are covered by a Stock Appreciation Right (to the extent that it is settled in Ordinary Shares, without regard to the number of Shares that are actually issued upon exercise), shall again become available for issuance under the Plan.

(iii) Ordinary Shares issued pursuant to the Plan may be either authorized but unissued shares, treasury shares, reacquired shares or any combination thereof.

(b) *Adjustments.* In the event that the Committee determines that, as a result of any dividend or other distribution (other than an ordinary dividend or distribution), recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, separation, rights offering, split-up, spin-off, combination, repurchase or exchange of Ordinary Shares or other securities of the Company, issuance of warrants or other rights to purchase Ordinary Shares or other securities of the Company, issuance of Ordinary Shares pursuant to the anti-dilution provisions of securities of the Company, or other similar corporate transaction or event affecting the Ordinary Shares, or changes in applicable laws, regulations or accounting principles, an adjustment is appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan, then the Committee shall, subject to compliance with Section 409A of the Code and other applicable law, adjust equitably so as to ensure no undue enrichment or harm (including, without limitation, by payment of cash) any or all of:

- (i) the number and type of Ordinary Shares (or other securities) which thereafter may be made the subject of Awards, including the aggregate limits specified in Section 5(a);
- (ii) the number and type of Ordinary Shares (or other securities) subject to outstanding Awards;
- (iii) the grant, purchase, exercise or hurdle price with respect to any Award or, if deemed appropriate, make provision for a cash payment to the holder of an outstanding Award; and
- (iv) the terms and conditions of any outstanding Awards, including the performance criteria of any Performance Awards.

provided, however, that the number of Ordinary Shares subject to any Award denominated in Ordinary Shares shall always be a whole number.

(c) *Non-Employee Director Limits.* The maximum number of Ordinary Shares subject to Awards granted during a single fiscal year of the Company to any non-employee Director, taken together with any cash fees paid during the fiscal year to the non-employee Director, in respect of the Director's service as a member of the Board during such year (including service as a member or chair of any committees of the Board), shall not exceed \$750,000 in total value

(calculating the value of any such Awards based on the grant date fair value of such Awards for financial reporting purposes). The independent Directors may make exceptions to this limit for a non-executive chair of the Board, *provided* that the non-employee Director receiving such additional compensation may not participate in the decision to award such compensation.

Section 6. *Awards under the Plan.*

(a) *Types of Awards.* Awards under the Plan may include, but need not be limited to, one or more of the following types, either alone or in any combination thereof: Options, Stock Appreciation Rights, Restricted Stock, Restricted Stock Units, Performance Awards, Other Cash-Based Awards and Other Stock-Based Awards.

(b) *Rights with Respect to Ordinary Shares and Other Securities.* Except as provided in Section 9(c) with respect to Awards of Restricted Stock and unless otherwise determined by the Committee in its discretion, a Participant to whom an Award is made (and any Person succeeding to such a Participant's rights pursuant to the Plan) shall have no rights as a stockholder with respect to any Ordinary Shares or as a holder with respect to other securities, if any, issuable pursuant to any such Award until the date a stock certificate evidencing such Ordinary Shares or other evidence of ownership is issued to such Participant or until Participant's ownership of such Ordinary Shares shall have been entered into the books of the registrar in the case of uncertificated shares.

(c) *Award Agreements.* Each Award granted or sold under the Plan shall be evidenced by an Award Agreement in such form as the Committee shall prescribe from time to time in accordance with the Plan and shall comply with the applicable terms and conditions of the Plan and applicable law, and with such other terms and conditions, including, but not limited to, treatment of the Award upon a Separation from Service and restrictions upon the Option or the Ordinary Shares issuable upon exercise thereof, as the Committee, in its discretion, shall establish.

Section 7. *Options.* The Committee may grant Options to Eligible Persons with the following terms and conditions and with such additional terms and conditions, in each case, not inconsistent with the provisions of the Plan, as the Committee shall determine; *provided* that an Incentive Stock Option may be granted only to Eligible Persons who are employees of the Company or any parent or subsidiary of the Company within the meaning of Sections 424(e) and (f) of the Code, including a subsidiary which becomes such after adoption of the Plan.

(a) The Committee shall determine the number of Ordinary Shares to be subject to each Option and the exercise price per Common Share subject to each Option. Except in the case of Substitute Awards, the exercise price of an Option shall not be less than the Fair Market Value of the Ordinary Shares subject to such Option on the date of grant, as determined by the Committee; *provided, however*, if an Incentive Stock Option is granted to a Ten Percent Employee, such exercise price shall not be less than 110% of such Fair Market Value at the time the Option is granted.

(b) Any Option may be exercised during its term only at such time or times and in such installments as the Committee may establish.

(c) An Option shall not be exercisable:

(i) in the case of any Incentive Stock Option granted to a Ten Percent Employee, after the expiration of five years from the date it is granted, and, in the case of any other Option, after the expiration of ten years from the date it is granted; and

(ii) no shares shall be issued unless payment in full is made for the shares being acquired under such Option at the time of exercise as provided in Section 7(e).

(d) In the case of an Incentive Stock Option, the amount of the aggregate Fair Market Value of Ordinary Shares (determined at the time of grant of the Option) with respect to which Incentive Stock Options are exercisable for the first time by an employee of the Company or a Subsidiary during any calendar year (under all such plans of his or her employer corporation and its parent and subsidiary corporations within the meaning of Sections 424(e) and (f) of the Code) shall not exceed \$100,000 or such other amount as is specified in the Code. An Incentive Stock Option that is exercised at a time that is beyond the time an Incentive Stock Option may be exercised in order to qualify as such under the Code shall cease to be an Incentive Stock Option.

(e) The Committee shall determine the method or methods by which, and the form or forms in which payment of the exercise price with respect thereto may be made or deemed to have been made, including cash, Ordinary Shares, other Awards, other property, net settlement, broker-assisted cashless exercise or any combination thereof, having a Fair Market Value on the exercise date equal to the exercise price of the Ordinary Shares as to which the Option shall be exercised. The Committee may provide in the applicable Award Agreement that, to the extent an Option is not previously exercised as to all of the Ordinary Shares subject thereto, and, if the Fair Market Value of one Common Share is greater than the exercise price then in effect, then the Option shall be deemed automatically exercised immediately before its expiration.

(f) No grant of Options may be accompanied by a tandem award of dividend equivalents or provide for dividends, dividend equivalents or other distributions to be paid on such Options.

(g) If the exercise of an Option is prevented by Section 20(f), the Option shall remain exercisable until thirty days after the date such exercise first would no longer be prevented by such provision, but in any event no later than the expiration date of such Option.

Section 8. *Stock Appreciation Rights.* The Committee may grant Stock Appreciation Rights to Eligible Persons with the following terms and conditions, and with such additional terms and conditions in each case not inconsistent with the provisions of the Plan, as the Committee shall determine.

(a) Stock Appreciation Rights may be granted under the Plan to Eligible Persons either alone or in addition to other Awards granted under the Plan and may, but need not, relate to a specific Option granted under Section 7.

(b) The Committee shall determine the number of Ordinary Shares to be subject to each Award of Stock Appreciation Rights and the exercise or hurdle price per Common Share subject to each Stock Appreciation Right. Except in the case of Substitute Awards, Stock

Appreciation Rights shall have an exercise or hurdle price no less than the Fair Market Value of the Ordinary Shares subject to such Stock Appreciation Right on the date of grant, as determined by the Committee.

(c) Any Stock Appreciation Right may be exercised during its term only at such time or times and in such installments as the Committee may establish and shall not be exercisable after the expiration of ten years from the date it is granted.

(d) An Award of Stock Appreciation Rights shall entitle the holder to exercise such Award and to receive from the Company in exchange thereof, without payment to the Company, that number of Ordinary Shares or cash or some combination thereof having an aggregate value equal to the excess of the Fair Market Value of one Common Share, at the time of such exercise, over the exercise or hurdle price, times the number of Ordinary Shares subject to the Award, or portion thereof, that is so exercised or surrendered, as the case may be. The Committee may provide in the applicable Award Agreement that, to the extent a Stock Appreciation Right is not previously exercised as to all of the Ordinary Shares subject thereto, and, if the Fair Market Value of one Common Share is greater than the exercise or hurdle price then in effect, then the Stock Appreciation Right shall be deemed automatically exercised immediately before its expiration.

(e) No grant of Stock Appreciation Rights may be accompanied by a tandem award of dividend equivalents or provide for dividends, dividend equivalents or other distributions to be paid on such Stock Appreciation Rights.

(f) If the exercise of a Stock Appreciation Right is prevented by Section 20(f), the Stock Appreciation Right shall remain exercisable until thirty days after the date such exercise first would no longer be prevented by such provision, but in any event no later than the expiration date of such Stock Appreciation Right.

Section 9. *Restricted Stock and Restricted Stock Units.* The Committee is authorized to grant Awards of Restricted Stock and Restricted Stock Units to Eligible Persons with the following terms and conditions and with such additional terms and conditions, in each case not inconsistent with the provisions of the Plan, as the Committee shall determine.

(a) The Committee shall determine the number of Ordinary Shares to be issued to a Participant pursuant to the Award of Restricted Stock or Restricted Stock Units, and the extent, if any, to which they shall be issued in exchange for cash, other consideration, or both. The Award Agreement shall specify the vesting schedule and such other applicable conditions and restrictions and, with respect to Restricted Stock Units, shall specify the delivery schedule (which may include deferred delivery later than the vesting date).

(b) Until the expiration of such period as the Committee shall determine from the date on which the Award is granted and subject to such other terms and conditions as the Committee, in its discretion, shall establish (the “**Restricted Period**”), a Participant to whom an Award of Restricted Stock is made shall be issued, but shall not be entitled to the delivery of, a stock certificate or other evidence of ownership representing the Ordinary Shares subject to such Award.

(c) Unless otherwise determined by the Committee in its discretion, a Participant to whom an Award of Restricted Stock has been made (and any Person succeeding to such a Participant's rights pursuant to the Plan) shall have, after issuance of a certificate for the number of Ordinary Shares awarded (or after the Participant's ownership of such Ordinary Shares shall have been entered into the books of the registrar in the case of uncertificated shares) and prior to the expiration of the Restricted Period, ownership of such Ordinary Shares, including the right to vote such Ordinary Shares and to receive dividends or other distributions made or paid with respect to such Ordinary Shares, *provided* that, such Ordinary Shares, and any new, additional or different shares, or other Company securities or property, or other forms of consideration that the Participant may be entitled to receive with respect to such Ordinary Shares as a result of a stock split, stock dividend or any other change in the corporation or capital structure of the Company, shall be subject to the restrictions set forth in the Award and the Plan. A Restricted Stock Unit shall not convey to the Participant the rights and privileges of a stockholder with respect to the Ordinary Shares subject to the Restricted Stock Unit, such as the right to vote or the right to receive dividends, unless and until a Common Share is issued to the Participant to settle the Restricted Stock Unit.

(d) The Committee may, in its discretion, specify in the applicable Award Agreement that any or all dividends, dividend equivalents or other distributions, as applicable, paid on Awards of Restricted Stock or Restricted Stock Units prior to vesting or settlement, as applicable, be paid either in cash or in additional Ordinary Shares and either on a current or deferred basis and that such dividends, dividend equivalents or other distributions may be reinvested in additional Ordinary Shares, which may be subject to the same restrictions as the underlying Awards. Notwithstanding the foregoing, dividends and dividend equivalents with respect to Restricted Stock and Restricted Stock Units that are granted as Performance Awards shall vest only if and to the extent that the underlying Performance Award vests, as determined by the Committee.

(e) The Committee may determine the form or forms (including cash, Ordinary Shares, other Awards, other property or any combination thereof) in which payment of the amount owing upon settlement of any Restricted Stock Unit may be made.

(f) The Committee may provide in an Award Agreement that an Award of Restricted Stock is conditioned upon the Participant making or refraining from making an election with respect to the Award under Section 83(b) of the Code. If a Participant makes an election pursuant to Section 83(b) of the Code with respect to an Award of Restricted Stock, such Participant shall be required to file within the time period required by Section 83(b) of the Code a copy of such election with the Company and the applicable Internal Revenue Service office.

Section 10. *Performance Awards.* The Committee is authorized to grant Performance Awards to Participants with the following terms and conditions and with such additional terms and conditions, in either case not inconsistent with the provisions of the Plan, as the Committee shall determine:

(a) Performance Awards may be denominated as a cash amount, number of Ordinary Shares or units or a combination thereof, and may be earned upon achievement or satisfaction of performance conditions specified by the Committee (including, without limitation, cash flow,

earnings (including EBITDA or some variation thereof), earnings per share, debt, return on investment, stock price, total or relative increases to stockholder return, operating income or net operating income, gross margin, operating margin or profit margin, and other financial or non-financial operating and management performance objectives). The Committee may use such business criteria and other measures of performance as it may deem appropriate in establishing any performance conditions. Subject to the terms of the Plan, the performance goals to be achieved during any Performance Period, the length of any Performance Period, the amount of any Performance Award granted and the amount of any payment or transfer to be made pursuant to any Performance Award shall be determined by the Committee.

(b) Performance criteria may be measured on an absolute (*e.g.*, plan or budget) or relative basis, and may be established on a corporate-wide basis, with respect to one or more business units, divisions, Subsidiaries or business segments, or on an individual basis. If the Committee determines that a change in the business, operations, corporate structure or capital structure of the Company, or the manner in which the Company conducts its business, or other events or circumstances render the performance objectives unsuitable, the Committee may modify the performance objectives or the related minimum acceptable level of achievement, in whole or in part, as the Committee deems appropriate and equitable such that it does not provide any undue enrichment or harm. Performance measures may vary from Performance Award to Performance Award and from Participant to Participant, and may be established on a stand-alone basis, in tandem or in the alternative. The Committee shall have the power to impose such other restrictions on Awards subject to this Section 10(b) as it may deem necessary or appropriate to ensure that such Awards satisfy all requirements of any applicable law, stock market or exchange rules and regulations or accounting or tax rules and regulations.

(c) Performance Awards may be settled in cash, Ordinary Shares, other Awards, other property, or any combination thereof, and at such times, as determined in the discretion of the Committee.

(d) A Performance Award shall not convey to a Participant the rights and privileges of a stockholder with respect to any Ordinary Shares subject to such Performance Award, such as the right to vote (except as relates to Restricted Stock) or the right to receive dividends, unless and until and to the extent Ordinary Shares are issued to such Participant to settle such Performance Award. The Committee may, in its discretion, specify in the applicable Award Agreement that any or all dividends, dividend equivalents or other distributions, as applicable, paid on a Performance Award during the period that such Performance Award is outstanding, be paid either in cash or in additional Ordinary Shares and either on a current or deferred basis and that such dividends, dividend equivalents or other distributions may be reinvested in additional Ordinary Shares, which may be subject to the same restrictions as the underlying Awards. For the avoidance of doubt, unless otherwise determined by the Committee, no dividend equivalent rights shall be provided with respect to any Ordinary Shares subject to Performance Awards that are not earned or otherwise do not vest or settle pursuant to their terms.

(e) The Committee may, in its discretion, increase or reduce the amount of a settlement otherwise to be made in connection with a Performance Award.

Section 11. *Other Cash-Based Awards and Other Stock-Based Awards.* The Committee may grant Other Cash-Based Awards (either independently or as an element of or supplement to any other Award under the Plan) and Other Share-Based Awards to Eligible Persons with the following terms and conditions and with such additional terms and conditions, in each case not inconsistent with the provisions of the Plan, as the Committee shall determine, which shall consist of any right that is not an Award described in Sections 7 through 10 above and an Award of Ordinary Shares or cash or an Award denominated or payable in, valued in whole or in part by reference to, or otherwise based on or related to, Ordinary Shares (including, without limitation, securities convertible into Ordinary Shares), as deemed by the Committee to be consistent with the purposes of the Plan. Subject to the terms of the Plan and any applicable Award Agreement, the Committee shall determine the terms and conditions of any such Other Cash-Based Award or Other Share-Based Award.

Section 12. *Effect of Separation from Service or a Change in Control on Awards.*

(a) The Committee may provide, by rule or regulation or in any applicable Award Agreement, or may determine in any individual case, the circumstances in which, and the extent to which, an Award may be exercised, settled, vested, paid or forfeited in the event of the Participant's Separation from Service prior to the end of a Performance Period or vesting, exercise or settlement of such Award.

(b) The Committee may determine, in its discretion, whether, and the extent to which, (i) an Award will vest during a leave of absence, (ii) a reduction in service level (for example, from full-time to part-time employment) will cause a reduction, or other change, to an Award and (iii) a leave of absence or reduction in service will be deemed a Separation from Service, in each case subject to the provisions of Section 409A.

(c) In the event of a Change in Control, the Committee may, in its sole discretion, and on such terms and conditions as it deems appropriate, take any one or more of the following actions with respect to any outstanding Award, which need not be uniform with respect to all Participants and/or Awards:

(i) continuation or assumption of such Award by the Company (if it is the surviving entity) or by the successor or surviving corporation or its parent;

(ii) substitution or replacement of such Award by the successor or surviving entity or its parent with cash, securities, rights or other property to be paid or issued, as the case may be, by the successor or surviving entity (or a parent or subsidiary thereof), with substantially the same terms and value as such Award (including, without limitation, any applicable performance targets or criteria with respect thereto);

(iii) acceleration of the vesting of such Award and the lapse of any restrictions thereon and, in the case of an Option or Stock Appreciation Right, acceleration of the right to exercise such Award during a specified period (and the termination of such Option or Stock Appreciation Right without payment of any consideration therefor to the extent such Award is not timely exercised), in each case, either (A) immediately prior to or as of the date of the Change in Control, (B) upon the Participant's involuntary Separation from Service (including upon a termination of the Participant's employment

by the Company (or a successor entity or its parent) without “cause” or by the Participant for “good reason”, as such terms may be defined in the applicable Award Agreement and/or the Participant’s employment agreement or offer letter, as the case may be) on or within a specified period following such Change in Control or (C) upon the failure of the successor or surviving entity (or its parent) to continue or assume such Award;

(iv) in the case of a Performance Award, determination of the level of attainment of the applicable performance condition(s); and

(v) cancellation of such Award in consideration of a payment, with the form, amount and timing of such payment determined by the Committee in its sole discretion, subject to the following: (A) such payment shall be made in cash, securities, rights and/or other property; (B) the amount of such payment shall equal the value of such Award, as determined by the Committee in its sole discretion; *provided* that, in the case of an Option or Stock Appreciation Right, if such value equals the Intrinsic Value of such Award, such value shall be deemed to be valid; *provided further* that, if the Intrinsic Value of an Option or Stock Appreciation Right is equal to or less than zero, the Committee may, in its sole discretion, provide for the cancellation of such Award without payment of any consideration therefor (for the avoidance of doubt, in the event of a Change in Control, the Committee may, in its sole discretion, terminate any Option or Stock Appreciation Right for which the exercise or hurdle price is equal to or exceeds the per Common Share value of the consideration to be paid in the Change in Control transaction without payment of consideration therefor); and (C) such payment shall be made promptly following such Change in Control or on a specified date or dates following such Change in Control; *provided* that the timing of such payment shall comply with Section 409A.

Section 13. *Section 409A.* Notwithstanding any provision of the Plan or an Award Agreement to the contrary, if any Award provided under the Plan is subject to the provisions of Section 409A, the provisions of the Plan and any applicable Award Agreement shall be administered, interpreted and construed in a manner necessary in order to comply with Section 409A or an exception thereto (or disregarded to the extent such provision cannot be so administered, interpreted or construed), and the following provisions shall apply, as applicable and as required by Section 409A:

(a) If a Participant is a “specified employee” under Section 409A and a payment subject to Section 409A (and not excepted therefrom) to the Participant is due upon Separation from Service, such payment shall be delayed for a period of six (6) months after the date the Participant Separates from Service (or, if earlier, the death of the Participant). Any payment that would otherwise have been due or owing during such six-month period will be paid immediately following the end of the six-month period unless another compliant date is specified in the applicable agreement. If an Award includes a “series of installment payments” (within the meaning of Treas. Reg. § 1.409A-2(b)(2)(iii)), a Participant’s right to such series of installment payments shall be treated as a right to a series of separate payments and not as a right to a single payment, and if an Award includes “dividend equivalents” (within the meaning of Treas. Reg. § 1.409A-3(e)), a Participant’s right to such dividend equivalents shall be treated separately from the right to other amounts under the Award.

(b) For purposes of Section 409A, and to the extent applicable to any Award under the Plan, it is intended that distribution events qualify as permissible distribution events for purposes of Section 409A and shall be interpreted and construed accordingly. Whether a Participant has Separated from Service will be determined by the Committee based on all of the facts and circumstances and, to the extent applicable to any Award, in accordance with the guidance issued under Section 409A.

(c) The grant of Non-Qualified Stock Options, Stock Appreciation Rights and other stock rights subject to Section 409A are intended to be granted under terms and conditions consistent with Treas. Reg. § 1.409A-1(b)(5) such that any such Award does not constitute a deferral of compensation under Section 409A.

Section 14. *Deferred Payment of Awards.* The Committee, in its discretion, may specify the conditions under which the payment of all or any portion of any cash compensation, or Ordinary Shares or other form of payment under an Award, may be deferred until a later date. Deferrals shall be for such periods or until the occurrence of such events, and upon such terms and conditions, as the Committee shall determine in its discretion, in accordance with the provisions of Section 409A; *provided, however*, that no deferral shall be permitted with respect to Options or Stock Appreciation Rights.

Section 15. *Transferability of Awards.* Except pursuant to the laws of descent and distribution, a Participant's rights and interest under the Plan or any Award may not be assigned or transferred, hypothecated or encumbered in whole or in part, including, but not by way of limitation, execution, levy, garnishment, attachment, pledge, bankruptcy or in any other manner; *provided, however*, the Committee may permit such transfer to a Permitted Transferee; and *provided, further*, that, unless otherwise permitted by the Code, any Incentive Stock Option granted pursuant to the Plan shall not be transferable other than by will or by the laws of descent and distribution, and shall be exercisable during the Participant's lifetime only by a Participant.

Section 16. *Amendment or Substitution of Awards under the Plan.*

(a) The terms of any outstanding Award under the Plan may be amended or modified from time to time after grant by the Committee in its discretion in any manner that it deems appropriate (including, but not limited to, acceleration of the date of exercise of any Award and/or payments under any Award) in accordance with the terms of the Plan. Subject to Section 5(b) and Section 13, no such amendments or acceleration shall adversely affect in a material manner any right of a Participant under the Award without his or her written consent, except (x) to the extent necessary to conform the provisions of the Award with Section 409A or any other provision of the Code or other applicable law, stock market or exchange rules and regulations or accounting or tax rules and regulations, or (y) to impose any "clawback" or recoupment provisions on any Awards (including any amounts or benefits arising from such Awards) in accordance with Section 20(o). The Committee may, in its discretion, permit holders of Awards under the Plan to surrender outstanding Awards in order to exercise or realize the rights under other Awards, or in exchange for the grant of new Awards, or require holders of Awards to surrender outstanding Awards as a condition precedent to the grant of new Awards under the Plan.

(b) *No Repricing.* Notwithstanding the foregoing, except as provided in Section 5(b), no action shall directly or indirectly, through cancellation and regrant or any other method, reduce, or have the effect of reducing, the exercise or hurdle price of any “out of the money” Award established at the time of grant thereof without approval of the Company’s stockholders, including (i) amending or modifying the terms of the Award to lower the exercise or hurdle price; (ii) cancelling the Award and granting either (A) replacement Options, Stock Appreciation Rights or similar Awards having a lower exercise or hurdle price or (B) Restricted Stock, Restricted Stock Units, Performance Awards or Other Share-Based Awards in exchange; or (iii) cancelling or repurchasing the out of the money Options, Stock Appreciation Rights or similar Awards for cash or other securities.

Section 17. *Termination of a Participant.* For all purposes under the Plan, the Committee shall determine whether a Participant has Separated from Service, terminated employment with, or terminated the performance of services for, the Company or any Subsidiary; *provided, however*, an absence or leave approved by the Company, to the extent permitted by applicable provisions of the Code, shall not be considered an interruption of employment or performance of services for any purpose under the Plan.

Section 18. *Designation of Beneficiary by Participant.* A Participant may name a beneficiary to receive any payment to which such Participant may be entitled with respect to any Award under the Plan in the event of his or her death, on a written form to be provided by and filed with the Committee, and in a manner determined by the Committee in its discretion (a “**Beneficiary**”). The Committee reserves the right to review and approve Beneficiary designations. A Participant may change his or her Beneficiary from time to time in a manner determined by the Committee in its discretion, unless such Participant has made an irrevocable designation. Any designation of a Beneficiary under the Plan (to the extent it is valid and enforceable under applicable law) shall be controlling over any other disposition, testamentary or otherwise, as determined by the Committee in its discretion. If no designated Beneficiary survives the Participant and is living on the date on which any amount becomes payable to such a Participant’s Beneficiary, such payment will be made to the legal representatives of the Participant’s estate, and the term “**Beneficiary**” as used in the Plan shall be deemed to include such Person or Persons. If there are any questions as to the legal right of any Beneficiary to receive a distribution under the Plan, the Committee in its discretion may determine that the amount in question be paid to the legal representatives of the estate of the Participant, in which event the Company, the Board, the Committee, the designated administrator (if any), and the members thereof, will have no further liability to anyone with respect to such amount.

Section 19. *Miscellaneous Provisions.*

(a) Any proceeds from Awards shall constitute general funds of the Company.

(b) No fractional shares may be delivered under an Award, but in lieu thereof a cash or other adjustment may be made as determined by the Committee in its discretion.

(c) No Eligible Person or other Person shall have any claim or right to be granted an Award under the Plan. Determinations made by the Committee under the Plan need not be uniform and may be made selectively among Eligible Persons under the Plan, whether or not

such Eligible Persons are similarly situated. Neither the Plan nor any action taken under the Plan shall be construed as giving any Eligible Person any right to continue to be employed by or perform services for the Company, and the Company specifically reserves the right to terminate the employment of, or performance of services by, Eligible Persons at any time and for any reason.

(d) No Participant or other Person shall have any right with respect to the Plan or the Ordinary Shares reserved for issuance under the Plan or in any Award, contingent or otherwise, until written evidence of the Award shall have been delivered to the Participant and all the terms, conditions and provisions of the Plan and the Award applicable to such Participant (and each Person claiming under or through him or her) have been met.

(e) No payment pursuant to the Plan shall be taken into account in determining any benefits under any severance, pension, retirement, savings, profit sharing, group insurance, welfare or other benefit plan of the Company or any Affiliate, except to the extent otherwise expressly provided in writing in such other plan or an agreement thereunder.

(f) Notwithstanding anything to the contrary contained in the Plan or in any Award agreement, each Award shall be subject to the requirement, if at any time the Committee shall determine, in its sole discretion, that such requirement shall apply, that the listing, registration or qualification of any Award under the Plan, or of the Ordinary Shares, other Company securities or property or other forms of payment issuable pursuant to any Award under the Plan, on any stock exchange or other market quotation system or under any federal or state law, or the consent or approval of any government regulatory body, is necessary or desirable as a condition of, or in connection with, the granting of such Award or the exercise or settlement thereof, such Award shall not be granted, exercised or settled in whole or in part until such listing, registration, qualification, consent or approval shall have been effected, obtained and maintained free of any conditions not acceptable to the Committee. Notwithstanding anything to the contrary contained in the Plan or in any Award agreement, no Ordinary Shares, other Company securities or property or other forms of payment shall be issued under the Plan with respect to any Award unless the Committee shall be satisfied that such issuance will be in compliance with applicable law and any applicable rules of any stock exchange or other market quotation system on which such Ordinary Shares are listed. If the Committee determines that the exercise of any Option or Stock Appreciation Right would fail to comply with any applicable law or any applicable rules of any stock exchange or other market quotation system on which Ordinary Shares are listed, the Participant holding such Option or Stock Appreciation Right shall have no right to exercise such Option or Stock Appreciation Right until such time as the Committee shall have determined that such exercise will not violate any applicable law or any such applicable rule.

(g) Although it is the intent of Company that the Plan and Awards hereunder, to the extent the Committee deems appropriate and to the extent applicable, comply with Rule 16b-3 and Sections 409A and 422; the Company does not warrant that any Award under the Plan will qualify for favorable tax treatment under any provision of federal, state, local or non-United States law; and in no event shall any member of the Committee or the Company (or its employees, officers or directors) have any liability to any Participant (or any other Person) due to the failure of an Award to satisfy the requirements of Rule 16b-3 or Section 409A or 422 or, as

applicable, for any tax, interest, or penalties the Participant might owe as a result of the grant, holding, vesting, exercise, or payment of any Award under the Plan.

(h) The Company shall have the right to deduct from any payment made under the Plan any federal, state, local or foreign income or other taxes required by law to be withheld with respect to such payment. It shall be a condition to the obligation of Company to issue Ordinary Shares, other securities or property, or other forms of payment, or any combination thereof, upon exercise, settlement or payment of any Award under the Plan, that the Participant (or any Beneficiary or Person entitled to act) pay to Company, upon its demand, such amount as may be required by the Company for the purpose of satisfying any liability to withhold federal, state, local or foreign income or other taxes. If the amount requested is not paid, Company may refuse to issue Ordinary Shares, other securities or property, or other forms of payment, or any combination thereof. Notwithstanding anything in this Plan to the contrary, the Committee may, in its discretion, permit an Eligible Person (or any Beneficiary or Person entitled to act) to elect to pay a portion or all of the amount requested by the Company for such taxes with respect to such Award, at such time and in such manner as the Committee shall deem to be appropriate (including, but not limited to, by authorizing the Company to withhold, or agreeing to surrender to the Company on or about the date such tax liability is determinable, Ordinary Shares, other securities or property, or other forms of payment, or any combination thereof, owned by such Person or a portion of such forms of payment that would otherwise be distributed, or have been distributed, as the case may be, pursuant to such Award to such Person, having a market value equal to the amount of such taxes); *provided, however*, that any broker-assisted cashless exercise shall comply with the requirements of Financial Accounting Standards Board, Accounting Standards Codification, Topic 718, and any withholding satisfied through a net-settlement of an Award shall be limited to the maximum statutory withholding requirements.

(i) The expenses of the Plan shall be borne by the Company; *provided, however*, the Company may recover from a Participant or his or her Beneficiary, heirs or assigns any and all damages, fees, expenses and costs incurred by the Company arising out of any actions taken by a Participant in breach of the Plan or any applicable Award Agreement.

(j) The Plan shall be unfunded. The Company shall not be required to establish any special or separate fund or to make any other segregation of assets to assure the payment of any Award under the Plan, and rights to the payment of Awards shall be no greater than the rights of the Company's general creditors.

(k) By accepting any Award or other benefit under the Plan, each Participant (and each Person claiming under or through him or her) shall be conclusively deemed to have indicated his or her acceptance and ratification of, and consent to, any action taken under the Plan by the Company, the Board, the Committee or the designated administrator (if applicable).

(l) Records of the Company shall be conclusive for all purposes under the Plan or any Award, unless determined by the Committee to be incorrect.

(m) If any provision of the Plan or any Award is held to be illegal or invalid for any reason, the illegality or invalidity shall not affect the remaining provisions of the Plan or any Award, but such provision shall be fully severable, and the Plan or Award, as applicable, shall be

construed and enforced as if the illegal or invalid provision had never been included in the Plan or Award, as applicable.

(n) The terms of the Plan shall govern all Awards under the Plan and in no event shall the Committee have the power to grant any Award under the Plan that is contrary to any of the provisions of the Plan.

(o) The Committee may specify in an Award Agreement that a Participant's rights, payments and benefits with respect to an Award shall be subject to reduction, cancellation, forfeiture or recoupment upon the occurrence of certain specified events, in addition to any otherwise applicable vesting or performance conditions of an Award. Such events may include a Separation from Service with or without "cause" (and, in the case of any "cause" that is resulting from an indictment or other non-final determination, the Committee may provide for such Award to be held in escrow or abeyance until a final resolution of the matters related to such event occurs, at which time the Award shall either be reduced, cancelled or forfeited (as provided in such Award Agreement) or remain in effect, depending on the outcome), violation of material policies, breach of non-competition, non-solicitation, confidentiality or other restrictive covenants, or requirements to comply with minimum share ownership requirements, that may apply to the Participant, or other conduct by the Participant that is detrimental to the business or reputation of the Company and/or its Affiliates. The Committee shall have full authority to implement any policies and procedures necessary to comply with Section 10D of the Exchange Act and any rules promulgated thereunder and any other regulatory regimes. Notwithstanding anything to the contrary contained herein, any Awards granted under the Plan (including any amounts or benefits arising from such Awards) shall be subject to any clawback or recoupment arrangements or policies the Company has in place from time to time, and the Committee may, to the extent permitted by applicable law and stock exchange rules or by any applicable Company policy or arrangement, and shall, to the extent required, cancel or require reimbursement of any Awards granted to the Participant or any Ordinary Shares issued or cash received upon vesting, exercise or settlement of any such Awards or sale of Ordinary Shares underlying such Awards.

(p) The Committee may from time to time establish sub-plans under the Plan for purposes of satisfying securities, tax or other laws of various jurisdictions in which the Company intends to grant Awards. Any sub-plans shall contain such limitations and other terms and conditions as the Committee determines are necessary or desirable. All sub-plans shall be deemed a part of the Plan, but, if applicable, each sub-plan shall apply only to the Participants in the jurisdiction for which the sub-plan was designed. Awards may be granted to Participants who are non-United States nationals or employed or providing services outside the United States, or both, on such terms and conditions different from those applicable to Awards to Participants who are employed or providing services in the United States as may, in the judgment of the Committee, be necessary or desirable to recognize differences in local law, tax policy or custom.

(q) All certificates, if any, for Ordinary Shares and/or other securities delivered under the Plan pursuant to any Award or the exercise or settlement thereof shall be subject to such stop transfer orders and other restrictions as the Committee may deem advisable under the Plan or the rules, regulations and other requirements of the Securities and Exchange Commission, any stock market or exchange upon which such Ordinary Shares or other securities are then quoted, traded

or listed, and any applicable securities laws, and the Committee may cause a legend or legends to be put on any such certificates to make appropriate reference to such restrictions.

(r) The Company will not be obligated to deliver any Ordinary Shares under the Plan or remove restrictions from Ordinary Shares previously delivered under the Plan until (i) all Award conditions have been met or removed to the Committee's satisfaction, (ii) as determined by the Committee, all other legal matters regarding the issuance and delivery of such Ordinary Shares have been satisfied, including any applicable securities laws, stock market or exchange rules and regulations or accounting or tax rules and regulations and (iii) the Participant has executed and delivered to the Company such representations or agreements as the Committee deems necessary or appropriate to satisfy any applicable laws. The Company's inability to obtain authority from any regulatory body having jurisdiction, which the Committee determines is necessary to the lawful issuance and sale of any Ordinary Shares, will relieve the Company of any liability for failing to issue or sell such Ordinary Shares as to which such requisite authority has not been obtained.

(s) The Committee may impose restrictions on any Award with respect to non-competition, non-solicitation, confidentiality and other restrictive covenants, or requirements to comply with minimum share ownership requirements, as it deems necessary or appropriate in its sole discretion, which such restrictions may be set forth in any applicable Award Agreement or otherwise.

Section 20. *Effective Date.* The Plan shall be effective on the Effective Date, *provided* that the Board and the Company's stockholders may approve the Plan prior to such date.

Section 21. *Amendment or Termination.*

(a) *Plan Amendment or Termination.* Except to the extent prohibited by applicable law, the Plan may be amended, suspended, discontinued or terminated in whole or in part at any time and/or from time to time by the Committee; *provided that* no such amendment, suspension, discontinuation or termination shall be made without stockholder approval if such approval is necessary to qualify for or comply with any tax or regulatory requirement, other applicable law or the rules of the stock market or exchange, if any, on which the Ordinary Shares are principally quoted or traded for which the Committee deems it necessary or desirable to qualify or comply. No amendment of the Plan shall adversely affect in a material manner any right of any Participant with respect to any Award previously granted without such Participant's written consent, except as permitted under Section 5(b) and Section 13. Notwithstanding the foregoing or any provision of the Plan to the contrary, the Committee may at any time (without the consent of any Participant) modify, amend or terminate any or all of the provisions of the Plan to the extent necessary to conform the provisions of the Plan with Section 409A or any other provision of the Code or other applicable law, the regulations issued thereunder or an exception thereto, regardless of whether such modification, amendment or termination of the Plan shall adversely affect the rights of a Participant.

(b) *Dissolution or Liquidation.* In the event of the dissolution or liquidation of the Company, each Award shall terminate immediately prior to the consummation of such action, unless otherwise determined by the Committee.

Section 22. *Term of the Plan.* No Awards shall be granted under the Plan after earlier of the following dates or events to occur:

- (a) upon the adoption of a resolution of the Board terminating the Plan;
- (b) the tenth anniversary of the Effective Date; or
- (c) the maximum number of Ordinary Shares available for issuance under the Plan has been issued.

However, unless otherwise expressly provided in the Plan or in an applicable Award Agreement, any Award theretofore granted may extend beyond such date, and the authority of the Committee to amend, alter, adjust, suspend, discontinue or terminate any such Award, or to waive any conditions or rights under any such Award, and the authority of the Committee to amend the Plan, shall extend beyond such date.

Section 23. *Governing Law.* The Plan and any Award granted under the Plan as well as any determinations made or actions taken under the Plan shall be governed by, and construed and enforced in accordance with, the internal laws of the State of California without regard to its choice or conflicts of laws principles.

The following terms shall have the meaning indicated:

“**Affiliate**” means any entity that, directly or indirectly through one or more intermediaries controls, is controlled by or is under common control with, the Company.

“**Award**” means an award of Options, Stock Appreciation Rights, Restricted Stock, Restricted Stock Units, Performance Awards, Other Cash-Based Awards or Other Stock-Based Awards under the Plan.

“**Award Agreement**” means any agreement, contract or other instrument or document (including in electronic form) evidencing any Award granted under the Plan, which may, but need not, be executed or acknowledged by a Participant.

“**Beneficial Owner**” has the meaning ascribed to such term in Rule 13d-3 under the Exchange Act.

“**Beneficiary**” has the meaning set forth in Section 19.

“**Board**” means the Board of Directors of the Company.

“**Change in Control**” means the occurrence of any one or more of the following events:

(i) any Person, other than any employee plan established by the Company or any Subsidiary, the Company or any of its Affiliates, an underwriter temporarily holding securities pursuant to an offering of such securities, or an entity owned, directly or indirectly, by stockholders of the Company in substantially the same proportions as their ownership of the Company, is (or becomes, during any 12-month period) the Beneficial Owner, directly or indirectly, of securities of the Company (not including in the securities beneficially owned by such Person any securities acquired directly from the Company or its Affiliates other than in connection with the acquisition by the Company or its Affiliates of a business) representing 50% or more of the total voting power of the stock of the Company; *provided* that the provisions of this subsection (i) are not intended to apply to or include as a Change in Control any transaction that is specifically excepted from the definition of Change in Control under subsection (iii) below;

(ii) a change in the composition of the Board such that, during any 12-month period, the individuals who, as of the beginning of such period, constitute the Board (the “**Existing Board**”) cease for any reason to constitute at least 50% of the Board; *provided, however*, that any individual becoming a member of the Board subsequent to the beginning of such period whose election, or nomination for election by the Company’s stockholders, was approved by a vote of at least a majority of the Directors immediately prior to the date of such appointment or election shall be considered as though such individual were a member of the Existing Board; *provided further*, that, notwithstanding the foregoing, no individual whose initial assumption of office occurs as a result of either an actual or threatened election contest (as such terms are used in Rule 14a-11 or Regulation 14A promulgated under the Exchange Act or successor statutes or rules

containing analogous concepts) or other actual or threatened solicitation of proxies or consents by or on behalf of an individual, corporation, partnership, group, associate or other entity or Person other than the Board, shall in any event be considered to be a member of the Existing Board;

(iii) the consummation of a merger, amalgamation or consolidation of the Company with any other corporation or other entity, or the issuance of voting securities in connection with such a transaction pursuant to applicable stock exchange requirements; *provided* that immediately following such transaction the voting securities of the Company outstanding immediately prior thereto do not continue to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity of such merger or consolidation or parent entity thereof) 50% or more of the total voting power of the Company's stock (or, if the Company is not the surviving entity of such transaction, 50% or more of the total voting power of the stock of such surviving entity or parent entity thereof); and *provided, further*, that such a transaction effected to implement a recapitalization of the Company (or similar transaction) in which no Person is or becomes the Beneficial Owner, directly or indirectly, of securities of the Company (not including in the securities beneficially owned by such Person any securities acquired directly from the Company or its Affiliates other than in connection with the acquisition by the Company or its Affiliates of a business) representing 50% or more of either the then-outstanding Ordinary Shares or the combined voting power of the Company's then-outstanding voting securities shall not be considered a Change in Control; or

(iv) the sale or disposition by the Company of the Company's assets in which any Person acquires (or has acquired during the 12-month period ending on the date of the most recent acquisition by such Person) assets from the Company that have a total gross fair market value equal to more than 50% of the total gross fair market value of all of the assets of the Company immediately prior to such acquisition or acquisitions.

Notwithstanding the foregoing, (A) no Change in Control shall be deemed to have occurred if there is consummated any transaction or series of integrated transactions immediately following which the record holders of the Ordinary Shares immediately prior to such transaction or series of transactions continue to have substantially the same proportionate ownership in an entity which owns substantially all of the assets of the Company immediately prior to such transaction or series of transactions, and (B) no Change in Control shall be deemed to have occurred upon the acquisition of additional control of the Company by any Person that, prior to such transaction, directly or indirectly controls, is controlled by, or is under common control with, the Company. Notwithstanding the foregoing or any provision of any Award Agreement to the contrary, for any Award that provides for accelerated distribution on a Change in Control of amounts that constitute "deferred compensation" (as defined in Section 409A of the Code), if the event that constitutes such Change in Control does not also constitute a change in the ownership or effective control of the Company, or in the ownership of a substantial portion of the Company's assets (in either case, as defined in Section 409A of the Code), such amount shall not be accelerated on such Change in Control but instead shall vest as of such Change in Control and shall be distributed on the scheduled payment date specified in the applicable Award Agreement,

except to the extent that earlier distribution would not result in the Participant who holds such Award incurring interest or additional tax under Section 409A of the Code.

“Code” shall mean the Internal Revenue Code of 1986, as it now exists or may be amended from time to time, and the rules and regulations promulgated thereunder, as they may exist or may be amended from time to time.

“Committee” shall mean the compensation committee of the Board unless another committee is designated by the Board. If there is no compensation committee of the Board and the Board does not designate another committee, references herein to the “Committee” shall refer to the Board.

“Consultant” means any individual, including an advisor, who is providing services to the Company or any Subsidiary or who has accepted an offer of service or consultancy from the Company or any Subsidiary.

“Director” means any member of the Board.

“Effective Date” means the date on which the registration statement covering the initial public offering of the Ordinary Shares is declared effective by the Securities and Exchange Commission.

“Eligible Person(s)” means those persons who are (i) full or part-time employees or Consultants of the Company or any Subsidiary or (ii) other individuals who perform services for the Company or any Subsidiary, including, without limitation, Directors who are not employees of the Company or any Subsidiary, in each case to the extent that an offer or receipt of an Award to such person is permitted by applicable law and stock market or exchange rules and regulations.

“Exchange Act” means the Securities Exchange Act of 1934, as it now exists or may be amended from time to time, and the rules promulgated thereunder, as they may exist or may be amended from time to time.

“Fair Market Value” means, except as otherwise determined by the Committee, (i) with respect to the Ordinary Shares, as of any date (A) if the Company’s Ordinary Shares are listed on any established stock exchange, system or market, the closing market price of the Ordinary Shares as quoted in such exchange, system or market on the trading day immediately preceding the date of determination (or, if such date is not a trading day, the trading day immediately preceding such date of determination) as reported in the Wall Street Journal or such other source as the Committee deems reliable or (B) in the absence of an established market for the Ordinary Shares, as determined in good faith by the Committee or (ii) with respect to property other than Ordinary Shares, the value of such property, as determined by the Committee, in its sole discretion.

“Incentive Stock Option” means an Option that is an incentive stock option as defined in Section 422 of the Code.

“Intrinsic Value” with respect to an Option or Stock Appreciation Right means the excess, if any, of the price or implied price per Common Share in a Change in Control or other event *over* the exercise or hurdle price of such Award *multiplied by* the number of Ordinary Shares covered by such Award.

“Non-Qualified Stock Option” means an Option that is not an Incentive Stock Option.

“Option” means an Incentive Stock Option or a Non-Qualified Stock Option.

“Ordinary Shares” means shares of ordinary stock, par value [\$0.00005] per share, of the Company and stock of any other class into which such shares may thereafter be changed.

“Other Cash-Based Award” means an Award granted pursuant to Section 11, including cash awarded as a bonus or upon the attainment of specified performance criteria or otherwise as permitted under the Plan.

“Other Stock-Based Award” means an Award granted pursuant to Section 11 that may be denominated or payable in, valued in whole or in part by reference to, or otherwise based on, or related to, Ordinary Shares or factors that may influence the value of Ordinary Shares, including convertible or exchangeable debt securities, other rights convertible or exchangeable into Ordinary Shares, purchase rights for Ordinary Shares, dividend rights or dividend equivalent rights or Awards with a value and payment contingent upon performance of the Company or business units thereof or any other factors designated by the Committee.

“Participant” means an Eligible Person to whom an Award has been granted under the Plan.

“Performance Award” means an Award subject, in part, to the terms, conditions and restrictions described in Section 10, pursuant to which the recipient may become entitled to receive cash, Ordinary Shares or other securities or property issuable under the Plan, or any combination thereof, as determined by the Committee.

“Performance Period” means the period established by the Committee with respect to any Performance Award during which the performance goals specified by the Committee with respect to such Award are to be measured.

“Permitted Transferee” means (i) any person defined as an employee in the Instructions to Registration Statement Form S-8 promulgated by the Securities and Exchange Commission, as such form may be amended from time to time, which persons include, as of the date of adoption of the Plan, executors, administrators or beneficiaries of the estates of deceased Participants, guardians or members of a committee for incompetent former Participants, or similar persons duly authorized by law to administer the estate or assets of former Participants, and (ii) Participants’ family members who acquire Awards from the Participant other than for value, including through a gift or a domestic relations order. For purposes of this definition, **“family member”** includes any child, stepchild, grandchild, parent, stepparent, grandparent, spouse, former spouse, sibling, niece, nephew, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, including adoptive relationships, any person sharing the Participant’s household (other than a tenant or employee), a trust in which these persons have

more than fifty percent of the beneficial interest, a foundation in which these persons (or the Participant) control the management of assets, and any other entity in which these persons (or the Participant) own more than fifty percent of the voting interests. For purposes of this definition, neither (i) a transfer under a domestic relations order in settlement of marital property rights, nor (ii) a transfer to an entity in which more than fifty percent of the voting or beneficial interests are owned by family members (or the Participant) in exchange for an interest in that entity is considered a transfer for “value”.

“**Person**” has the meaning ascribed to such term in Section 3(a)(9) of the Exchange Act and used in Sections 13(d) and 14(d) thereof, including a “group” as defined in Section 13(d) thereof.

“**Restricted Period**” has the meaning set forth in Section 9(b).

“**Restricted Stock**” means an Award of Ordinary Shares that are issued subject, in part, to the terms, conditions and restrictions described in Section 9.

“**Restricted Stock Units**” means an Award of the right to receive either (as the Committee determines) Ordinary Shares or cash equal to the Fair Market Value of an Ordinary Share on the payment date, issued subject, in part, to the terms, conditions and restrictions described in Section 9.

“**Rule 16b-3**” means Rule 16b-3 promulgated by the Securities and Exchange Commission under the Exchange Act and any successor rule.

“**Section 409A**” means Section 409A of the Code, any rules or regulations promulgated thereunder, as they may exist or may be amended from time to time, or any successor to such section.

“**Section 422**” means Section 422 of the Code, any rules or regulations promulgated thereunder, as they may exist or may be amended from time to time, or any successor to such section.

“**Separation from Service**” and “**Separate from Service**” means the Participant’s death, retirement or other termination of employment or service with the Company (including all persons treated as a single employer under Sections 414(b) and 414(c) of the Code) that constitutes a “separation from service” (within the meaning of Section 409A).

“**Stock Appreciation Right**” means an Award of a right to receive (without payment to the Company) cash, Ordinary Shares or other property, or other forms of payment, or any combination thereof, as determined by the Committee, based on the increase in the Fair Market Value of the number of Ordinary Shares specified in the Stock Appreciation Right. Stock Appreciation Rights are subject, in part, to the terms, conditions and restrictions described in Section 8.

“**Subsidiary**” means an entity of which the Company directly or indirectly holds at least a majority of the value of the outstanding equity interests of such entity or a majority of the voting power with respect to the voting securities of such entity.

“Substitute Award” means an Award granted in assumption of, or in substitution for, an outstanding award previously granted by a company or other business acquired by the Company or with which the Company combines.

“Ten Percent Employee” means an employee of the Company or any Subsidiary who owns stock representing more than ten percent of the voting power of all classes of stock of the Company or any parent or subsidiary of the Company within the meaning of Sections 424(e) and (f) of the Code.

Form of Stock Option Award

**CREDO TECHNOLOGY GROUP HOLDING LTD.
2021 LONG-TERM INCENTIVE PLAN
NOTICE OF [NON-QUALIFIED][INCENTIVE] STOCK OPTION AWARD**

Except as otherwise indicated, any capitalized term used but not defined in this Notice of [Non-Qualified][Incentive] Stock Option Award (this “**Notice**”) shall have the meaning ascribed to such term in the Credo Technology Group Holding Ltd. 2021 Long-Term Incentive Plan (as it may be amended from time to time, the “**Plan**”).

You (the “**Participant**”) have been granted an Award of [Non-Qualified][Incentive] Stock Options (the “**Award**”) under the Plan, subject to the terms and conditions of the Plan, this Notice and the attached [Non-Qualified][Incentive] Stock Option Agreement (this Notice and the [Non-Qualified][Incentive] Stock Option Agreement, including any country-specific appendix attached thereto, collectively, the “**Award Agreement**”).

2021 LONG-TERM INCENTIVE PLAN
[NON-QUALIFIED][INCENTIVE] STOCK OPTION AGREEMENT**

The Participant named in the attached Notice of [Non-Qualified][Incentive] Stock Option Award (the “**Notice**”) has been granted an Award of [Non-Qualified][Incentive] Stock Options (the “**Option**”) pursuant to the Credo Technology Group Holding Ltd. 2021 Long-Term Incentive Plan (as it may be amended from time to time, the “**Plan**”), the Notice and this [Non-Qualified] [Incentive] Stock Option Agreement (this “**Agreement**”), dated as of [●], 202[●], between the Participant and Credo Technology Group Holding Ltd. (the “**Company**”). Except as otherwise indicated, any capitalized term used but not defined herein shall have the meaning ascribed to such term in the Plan.

1. *Ordinary Shares Subject to Option; Exercise Price.* The Option shall entitle the Participant to purchase from the Company, upon exercise, a number of Ordinary Shares as set forth in the Notice, in accordance with and subject to the terms of this Agreement and the Plan. The exercise price of the Option is set forth in the Notice (the “**Exercise Price**”). The Option is not intended to be an incentive stock option under Section 422 of the Code.

2. *Vesting Dates.* Subject to Section 5, the Option shall vest and become exercisable on the dates set forth in the Notice.

3. *Option Term.*

(a) The term of the Option shall expire at close of the principal stock market or exchange on which the Ordinary Shares are quoted or traded on the tenth anniversary of the Date of Grant set forth in the Notice (the “**Expiration Date**”), unless terminated earlier in accordance with this Agreement or the Plan. In no event may any portion of the Option be exercised after the Expiration Date.

(b) Upon the Expiration Date, if all or any portion of the Option has not yet been exercised and if the Fair Market Value of an Ordinary Share as of such date is greater than the sum of the Exercise Price and any applicable transaction fees, then the Company will (i) effect a “net exercise” of the Option under which the Company will reduce the number of Ordinary Shares otherwise issuable to the Participant upon such exercise by the number of Ordinary Shares with an aggregate Fair Market Value that equals the sum of the aggregate Exercise Price and the withholding obligations with

regard to all Tax-Related Items (as defined in Section 8(a)) or (ii) unless the Participant is then covered by Section 16 of the Exchange Act, effectuate an exercise of the Option through a procedure whereby irrevocable instructions are delivered to a broker reasonably acceptable to the Committee to sell Ordinary Shares obtained upon exercise of the Option and to deliver promptly to the Company an amount of the proceeds of such sale equal to the sum of the aggregate Exercise Price and the withholding obligations with regard to all Tax-Related Items. In the event of such exercise and sale, the Company may determine, in its discretion, whether to (x) simultaneously sell the Ordinary Shares remaining following such exercise and sale, in which case the Company will remit the net proceeds from such sale to the Participant or (y) issue the remaining Ordinary Shares upon such exercise and sale to the Participant. If the Expiration Date is scheduled to occur during a restricted trading period (as defined in the Company's insider trading policy) and the Participant is then subject to such restricted trading period and is not covered by Section 16 of the Exchange Act, the Company may effect such exercise and sale on behalf of the Participant on the last trading day prior to the start of such restricted trading period.

4. *Option Exercise.*

(a) To the extent that the Option has become vested and exercisable with respect to a number of Ordinary Shares, the Option may thereafter be exercised by the Participant, in whole or in part, at any time or from time to time prior to the Expiration Date (or, if earlier, the applicable date determined in accordance with Section 5).

(b) To exercise the Option, the Participant must:

(i) deliver to the Company a written notice specifying the number of Ordinary Shares to be purchased; and

(ii) remit the aggregate Exercise Price to the Company in full, payable in the manner determined by the Committee from time to time in its sole discretion, which may include: (A) in cash or by check, bank draft or money order payable to the order of the Company; (B) through a procedure whereby the Participant delivers irrevocable instructions to a broker reasonably acceptable to the Committee to sell Ordinary Shares obtained upon exercise of the Option and to deliver promptly to the Company an amount of the proceeds of such sale equal to the aggregate Exercise Price; (C) by a "net exercise" under which the Company reduces the number of Ordinary Shares otherwise issuable to the Participant upon such exercise by the number of Ordinary Shares with an aggregate Fair Market Value that equals the aggregate Exercise Price; or (D) any other method acceptable to the Committee.

5. *Termination of Service.*

(a) *Other Than For Cause or Due to Death or Disability.* In the event of the Participant's Termination of Service for any reason other than (x) by the Company for Cause or (y) due to death or Disability, (i) any unvested portion of the Option will be forfeited and (ii) the Participant may exercise any vested portion of the Option until 90 days after the date of such Termination of Service (or, if earlier, the Expiration Date).

(b) *Due to Death or Disability.* In the event of the Participant's Termination of Service due to death or Disability, (i) any unvested portion of the Option will be forfeited and (ii) the Participant (or the Participant's Beneficiary, if applicable) may exercise any vested portion of the Option until the first anniversary of the date of such Termination of Service (or, if earlier, the Expiration Date).

(c) *For Cause.* In the event of the Participant's Termination of Service by the Company for Cause, the entire Option, whether vested or unvested, will be forfeited.

(d) As used herein, "**Disability**" has the meaning set forth in the Participant's Service Agreement, if any, or, if not so defined, means any physical or mental disability or infirmity that has at the time of termination already rendered the Participant incapable, with reasonable accommodation, of performing the Participant's usual and customary duties for a period of one hundred eighty (180) days during any twelve (12) month period.

6. *Change in Control.* In the event of a Change in Control, the Option will be treated in accordance with Section 12(c) of the Plan.

7. *Voting Rights.* The Participant shall have no voting rights or any other rights as a shareholder of the Company with respect to the Option unless and until the Participant becomes the record owner of the Ordinary Shares underlying the Option.

8. *Responsibility for Taxes.*

(a) The Participant acknowledges that, regardless of any action taken by the Company, the ultimate liability for all income tax, social insurance, payroll tax, fringe benefits tax, payment on account or other tax-related items related to the Participant's participation in the Plan and legally applicable to the Participant ("**Tax-Related Items**") is and remains the Participant's responsibility and may exceed the amount actually withheld by the Company. The Participant further acknowledges that the Company (i) makes no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Option, including but not limited to the grant, vesting or exercise of the Option or the subsequent sale of Ordinary Shares acquired on exercise of the Option; and (ii) does not commit to and are under no obligation to structure the terms of the grant or any aspect of the Option to reduce or eliminate the Participant's liability for Tax-Related Items or achieve any particular tax result. Further, if the Participant is subject to Tax-Related Items in more than one jurisdiction, the Participant acknowledges that the Company (or former employer, as applicable) may be required to withhold or account for Tax-Related Items in more than one jurisdiction.

(b) Prior to any relevant taxable or tax withholding event, as applicable, the Participant agrees to make adequate arrangements satisfactory to the Company to satisfy all Tax-Related Items. In this regard, the Participant authorizes the Company or its respective agents, at its discretion, to satisfy its withholding obligations with regard to all Tax-Related Items in the manner determined by the Company from time to time, which may include: (i) withholding from the Participant's wages or other cash compensation paid to the Participant by the Company, (ii) requiring the Participant to remit the

aggregate amount of such Tax-Related Items to the Company in full, in cash or by check, bank draft or money order payable to the order of the Company; (iii) through a procedure whereby the Participant delivers irrevocable instructions to a broker reasonably acceptable to the Committee to sell Ordinary Shares obtained upon exercise of the Option and to deliver promptly to the Company an amount of the proceeds of such sale equal to the amount of the Tax-Related Items; (iv) by a “net exercise” under which the Company reduces the number of Ordinary Shares otherwise issuable to the Participant upon exercise of the Option by the number of Ordinary Shares with an aggregate Fair Market Value that equals the amount of the Tax-Related Items; or (v) any other method of withholding determined by the Company and permitted by applicable law.

(c) Depending on the withholding method, the Company may withhold or account for Tax-Related Items by considering applicable minimum statutory withholding rates or other applicable withholding rates, including maximum applicable rates, in which case the Participant will receive a refund of any over-withheld amount in cash and will have no entitlement to the equivalent number of Ordinary Shares. If the obligation for Tax-Related Items is satisfied by withholding in Ordinary Shares, for tax purposes, the Participant is deemed to have been issued the full number of Ordinary Shares subject to the exercised portion of the Option, notwithstanding that a number of the Ordinary Shares are held back solely for the purpose of paying the Tax-Related Items.

(d) Finally, the Participant agrees to pay to the Company any amount of Tax-Related Items that the Company may be required to withhold or account for as a result of the Participant’s participation in the Plan that cannot be satisfied by the means previously described. The Company may refuse to issue or deliver the Ordinary Shares or the proceeds of the sale of Ordinary Shares, if the Participant fails to comply with the Participant’s obligations in connection with the Tax-Related Items.

9. *Not Salary, Pensionable Earnings or Base Pay.* The Participant acknowledges that the Option shall not be included in or deemed to be a part of (a) salary, normal salary or other ordinary compensation, (b) any definition of pensionable or other earnings (however defined) for the purpose of calculating any benefits payable to or on behalf of the Participant under any pension, retirement, termination or dismissal indemnity, severance benefit, retirement indemnity or other benefit arrangement of the Company or any Affiliate or (c) any calculation of base pay or regular pay for any purpose, except as required by applicable law.

10. *Cancellation/Clawback.* The Participant hereby acknowledges and agrees that the Participant and the Option are subject to the terms and conditions of Section 18 (*Cancellation or “Clawback” of Awards*) of the Plan.

11. *Provisions of Plan Control.* This Agreement is subject to all the terms, conditions and provisions of the Plan, including the amendment provisions thereof, and to such rules, regulations and interpretations relating to the Plan as may be adopted by the Committee and as may be in effect from time to time. The Plan is incorporated herein by reference. If and to the extent that this Agreement conflicts or is inconsistent with the Plan, the Plan shall control, and this Agreement shall be deemed to be modified accordingly.

12. *Notices.* Any notice required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been given when delivered personally or by courier, or sent by certified or registered mail, postage prepaid, return receipt requested, duly addressed to the party concerned at the address indicated below or to such changed address as such party may subsequently by similar process give notice of:

If to the Company:

Credo Technology Group Holding Ltd.
1600 Technology Drive
San Jose, California 95110
Attention: [●]
Email: [●]

If to the Participant, to the address of the Participant on file with the Company.

13. *No Right to Continued Service.* The grant of the Option shall not be construed as giving the Participant the right to be retained in the employ of, or to continue to provide services to, the Company or any Affiliate.

14. *No Right to Future Awards.* Any Option or other Award granted under the Plan shall be a one-time Award that does not constitute a promise of future grants. The Company, in its sole discretion, maintains the right to make available future grants under the Plan.

15. *Transfer of Option.* Except as may be permitted by the Committee, (a) neither the Option nor any right under the Option shall be assignable, alienable, saleable or transferable by the Participant otherwise than by will or pursuant to the laws of descent and distribution and (b) during the lifetime of the Participant, the Option may be exercised only by the Participant or the Participant's guardian or legal representative. This provision shall not apply to any portion of the Option that has been fully exercised and shall not preclude forfeiture of any portion of the Option in accordance with the terms herein.

16. *Entire Agreement.* This Agreement, the Plan and any other agreements, schedules, exhibits and other documents referred to herein or therein constitute the entire agreement and understanding between the parties in respect of the subject matter hereof and supersede all prior and contemporaneous arrangements, agreements and understandings, both oral and written, whether in term sheets, presentations or otherwise, between the parties with respect to the subject matter hereof.

17. *Severability.* If any provision of this Agreement is or becomes or is deemed to be invalid, illegal or unenforceable in any jurisdiction, or would disqualify the Plan or this Agreement under any law deemed applicable by the Board, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the determination of the Board, materially altering the intent of this Agreement, such provision shall be stricken as to such jurisdiction, and the remainder of this Agreement shall remain in full force and effect.

18. *Amendment; Waiver.* No amendment or modification of any provision of this Agreement that has a material adverse effect on the Participant shall be effective unless signed in writing by or on behalf of the Company and the Participant; *provided* that the Company may amend or modify this Agreement without the Participant's consent in accordance with the provisions of the Plan or as otherwise set forth in this Agreement. No waiver of any breach or condition of this Agreement shall be deemed to be a waiver of any other or subsequent breach or condition, whether of like or different nature. Any amendment or modification of or to any provision of this Agreement, or any waiver of any provision of this Agreement, shall be effective only in the specific instance and for the specific purpose for which such amendment, modification or waiver is made or given.

19. *Assignment.* Neither this Agreement nor any right, remedy, obligation or liability arising hereunder or by reason hereof shall be assignable by the Participant.

20. *Successors and Assigns; No Third-Party Beneficiaries.* This Agreement shall inure to the benefit of and be binding upon the Company and the Participant and their respective heirs, successors, legal representatives and permitted assigns. Nothing in this Agreement, express or implied, is intended to confer on any Person other than the Company and the Participant, and their respective heirs, successors, legal representatives and permitted assigns, any rights, remedies, obligations or liabilities under or by reason of this Agreement.

21. *Dispute Resolution.* All controversies and claims arising out of or relating to this Agreement, or the breach hereof, shall be settled by the Company's mandatory dispute resolution procedures, if any, as may be in effect from time to time with respect to matters arising out of or relating to the Participant's employment with the Company.

22. *Governing Law.* This Agreement and the transactions contemplated hereby shall be governed by the laws of California, without application of the conflicts of law principles thereof.

23. *Imposition of other Requirements and Participant Undertaking.* The Company reserves the right to impose other requirements on the Participant's participation in the Plan, on the Option and on any Ordinary Shares to be issued upon exercise of the Option, to the extent the Company determines it is necessary or advisable for legal or administrative reasons. The Participant agrees to take whatever additional action and execute whatever additional documents the Company may deem necessary or advisable to accomplish the foregoing or to carry out or give effect to any of the obligations or restrictions imposed on either the Participant or the Option pursuant to this Agreement.

24. *References.* References herein to rights and obligations of the Participant shall apply, where appropriate, to the Participant's legal representative or estate without regard to whether specific reference to such legal representative or estate is contained in a particular provision of this Agreement.

Form of RSU Award Agreement

**CREDO TECHNOLOGY GROUP HOLDING LTD.
2021 LONG-TERM INCENTIVE PLAN
NOTICE OF RSU AWARD**

Except as otherwise indicated, any capitalized term used but not defined in this Notice of RSU Award (this “**Notice**”) shall have the meaning ascribed to such term in the Credo Technology Group Holding Ltd. 2021 Long-Term Incentive Plan (as it may be amended from time to time, the “**Plan**”).

You (the “**Participant**”) have been granted an Award of RSUs (the “**Award**”) under the Plan, subject to the terms and conditions of the Plan, this Notice and the attached RSU Agreement (this Notice and the attached RSU Agreement, including any country-specific appendix attached thereto, collectively, the “**Award Agreement**”).

Name: [●]

Number of RSUs: [●]

Date of Grant: [●]

Vesting Schedule: Subject to Section 2 of the RSU Agreement, the Award will vest in accordance with the following schedule:

[●]

The Company, by its duly authorized officer, and the Participant have executed this Notice as of the Date of Grant.

**CREDO TECHNOLOGY GROUP HOLDING LTD.
2021 LONG-TERM INCENTIVE PLAN
RSU AGREEMENT**

The Participant named in the attached Notice of RSU Award (the “**Notice**”) has been granted an Award of RSUs (the “**Award**”) pursuant to the Credo Technology Group Holding Ltd. 2021 Long-Term Incentive Plan (as it may be amended from time to time, the “**Plan**”), the Notice and this RSU Agreement (this “**Agreement**”), dated as of [●], 202[●], between the Participant and Credo Technology Group Holding Ltd. (the “**Company**”). Except as otherwise indicated, any capitalized term used but not defined herein shall have the meaning ascribed to such term in the Plan.

1. *Issuance of Ordinary Shares.* Each RSU shall represent the right to receive one Ordinary Share upon the vesting of such RSU, as determined in accordance with and subject to the terms of this Agreement, the Plan and the Notice. The number of RSUs is set forth in the Notice.

2. *Vesting Dates.* Subject to Section 3, the Award shall vest on the dates set forth in the Notice.

3. *Termination of Service.*

(a) *Other Than For Cause or Due to Death or Disability.* In the event of the Participant’s Termination of Service for any reason other than (x) by the Company for Cause or (y) due to death or Disability, any RSUs that are not vested as of the date of such Termination of Service will be forfeited.

(b) *Due to Death or Disability.* In the event of the Participant’s Termination of Service due to death or Disability, any RSUs that are not vested as of the date of such Termination of Service will vest in full.

(c) *For Cause.* In the event of the Participant’s Termination of Service by the Company for Cause, the RSUs, whether vested or unvested, will be forfeited.

(d) As used herein, “**Disability**” has the meaning set forth in the Participant’s Service Agreement, if any, or, if not so defined, means any physical or mental disability or infirmity that has at the time of termination already rendered the Participant incapable, with reasonable accommodation, of performing the Participant’s usual and customary duties for a period of one hundred eighty (180) days during any twelve (12) month period.

4. *Change in Control.* In the event of a Change in Control, the RSUs will be treated in accordance with Section 12(c) of the Plan.

5. *Voting Rights.* The Participant shall have no voting rights or any other rights as a shareholder of the Company with respect to the RSUs unless and until the Participant becomes the record owner of the Ordinary Shares underlying the RSUs.

6. *Dividend Equivalents.* If a cash dividend is declared on Ordinary Shares during the period commencing on the Date of Grant set forth in the Notice and ending on the date on which the Ordinary Shares underlying the RSUs are distributed to the Participant pursuant to this Agreement, the Participant shall be eligible to receive an amount in cash (a “**Dividend Equivalent**”) equal to the dividend that the Participant would have received had the Ordinary Shares underlying the RSUs been held by the Participant as of the time at which such dividend was declared. Each Dividend Equivalent will be paid to the Participant in cash as soon as reasonably practicable (and in no event later than 30 days) after the applicable Vesting Date of the corresponding RSUs. For clarity, no Dividend Equivalent will be paid with respect to any RSUs that are forfeited.

7. *Distribution of Ordinary Shares.* Subject to the provisions of this Agreement, upon the vesting of any of the RSUs, the Company shall deliver to the Participant, as soon as reasonably practicable (and in no event later than 30 days) after the applicable Vesting Date, one Ordinary Share for each such RSU. Upon the delivery of Ordinary Shares, such Ordinary Shares shall be fully assignable, alienable, saleable and transferrable by the Participant; *provided* that any such assignment, alienation, sale, transfer or other alienation with respect to such Ordinary Shares shall be in accordance with applicable securities laws and any applicable Company policy.

8. *Responsibility for Taxes.*

(a) The Participant acknowledges that, regardless of any action taken by the Company, the ultimate liability for all income tax, social insurance, payroll tax, fringe benefits tax, payment on account or other tax-related items related to the Participant’s participation in the Plan and legally applicable to the Participant (“**Tax-Related Items**”) is and remains the Participant’s responsibility and may exceed the amount actually withheld by the Company. The Participant further acknowledges that the Company (i) makes no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Award, including, but not limited to, the grant, vesting or settlement of the Award, the subsequent sale of Ordinary Shares acquired upon settlement of the Award and the receipt of any dividends and/or Dividend Equivalents; and (ii) does not commit to and is under no obligation to structure the terms of the grant or any aspect of the Award to reduce or eliminate the Participant’s liability for Tax-Related Items or achieve any particular tax result. Further, if the Participant is subject to Tax-Related Items in more than one jurisdiction, the Participant acknowledges that the Company (or former employer, as applicable) may be required to withhold or account for Tax-Related Items in more than one jurisdiction.

(b) Prior to any relevant taxable or tax withholding event, as applicable, the Participant agrees to make adequate arrangements satisfactory to the Company to satisfy all Tax-Related Items. In this regard, the Participant authorizes the Company, or its respective agents, at its discretion, to satisfy any applicable withholding obligations with regard to all Tax-Related Items in the manner determined by the Company from time to time, which may include: (i) withholding from the Participant’s wages or other cash compensation paid to the Participant by the Company; (ii) requiring the Participant to remit the aggregate amount of such Tax-Related Items to the Company in full, in cash or

by check, bank draft or money order payable to the order of the Company; (iii) through a procedure whereby the Participant delivers or is deemed to deliver irrevocable instructions to a broker reasonably acceptable to the Committee to sell Ordinary Shares obtained upon settlement of the Award and to deliver promptly to the Company an amount of the proceeds of such sale equal to the amount of the Tax-Related Items; (iv) by a “net settlement” under which the Company reduces the number of Ordinary Shares issued on settlement of the Award by the number of Ordinary Shares with an aggregate Fair Market Value that equals the amount of the Tax-Related Items associated with such settlement; or (v) any other method of withholding determined by the Company and permitted by applicable law.

(c) Depending on the withholding method, the Company may withhold or account for Tax-Related Items by considering applicable minimum statutory withholding rates or other applicable withholding rates, including maximum applicable rates, in which case the Participant will receive a refund of any over-withheld amount in cash and will have no entitlement to the equivalent number of Ordinary Shares. If the obligation for Tax-Related Items is satisfied by withholding in Ordinary Shares, for tax purposes, the Participant is deemed to have been issued the full number of Ordinary Shares subject to the settled Award, notwithstanding that a number of the Ordinary Shares are held back solely for the purpose of paying the Tax-Related Items.

(d) Finally, the Participant agrees to pay to the Company any amount of Tax-Related Items that the Company may be required to withhold or account for as a result of the Participant’s participation in the Plan that cannot be satisfied by the means previously described. The Company may refuse to issue or deliver the Ordinary Shares or the proceeds of the sale of Ordinary Shares, if the Participant fails to comply with the Participant’s obligations in connection with the Tax-Related Items.

9. *Not Salary, Pensionable Earnings or Base Pay.* The Participant acknowledges that the Award shall not be included in or deemed to be a part of (a) salary, normal salary or other ordinary compensation, (b) any definition of pensionable or other earnings (however defined) for the purpose of calculating any benefits payable to or on behalf of the Participant under any pension, retirement, termination or dismissal indemnity, severance benefit, retirement indemnity or other benefit arrangement of the Company or any Affiliate or (c) any calculation of base pay or regular pay for any purpose.

10. *Cancellation/Clawback.* The Participant hereby acknowledges and agrees that the Participant and the Award are subject to the terms and conditions of Section 18 (*Cancellation or “Clawback” of Awards*) of the Plan.

11. *Provisions of Plan Control.* This Agreement is subject to all the terms, conditions and provisions of the Plan, including the amendment provisions thereof, and to such rules, regulations and interpretations relating to the Plan as may be adopted by the Committee and as may be in effect from time to time. The Plan is incorporated herein by reference. If and to the extent that this Agreement conflicts or is inconsistent with the Plan, the Plan shall control, and this Agreement shall be deemed to be modified accordingly.

12. *Notices.* Any notice required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been given when delivered personally or by courier, or sent by certified or registered mail, postage prepaid, return receipt requested, duly addressed to the party concerned at the address indicated below or to such changed address as such party may subsequently by similar process give notice of:

If to the Company:

Credo Technology Holdings Ltd.
1600 Technology Drive
San Jose, California 95110
Attention: [●]
Email: [●]

If to the Participant, to the address of the Participant on file with the Company.

13. *No Right to Continued Service.* The grant of the Award shall not be construed as giving the Participant the right to be retained in the employ of, or to continue to provide services to, the Company or any Affiliate.

14. *No Right to Future Awards.* Any Award granted under the Plan shall be a one-time Award that does not constitute a promise of future grants. The Company, in its sole discretion, maintains the right to make available future grants under the Plan.

15. *Transfer of RSUs.* Except as may be permitted by the Committee, neither the Award nor any right under the Award shall be assignable, alienable, saleable or transferable by the Participant otherwise than by will or pursuant to the laws of descent and distribution. This provision shall not apply to any portion of the Award that has been fully settled and shall not preclude forfeiture of any portion of the Award in accordance with the terms herein.

16. *Entire Agreement.* This Agreement, the Plan, the Notice and any other agreements, schedules, exhibits and other documents referred to herein or therein constitute the entire agreement and understanding between the parties in respect of the subject matter hereof and supersede all prior and contemporaneous arrangements, agreements and understandings, both oral and written, whether in term sheets, presentations or otherwise, between the parties with respect to the subject matter hereof.

17. *Severability.* If any provision of this Agreement is or becomes or is deemed to be invalid, illegal or unenforceable in any jurisdiction, or would disqualify the Plan or this Agreement under any law deemed applicable by the Board, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the determination of the Board, materially altering the intent of this Agreement, such provision shall be stricken as to such jurisdiction, and the remainder of this Agreement shall remain in full force and effect.

18. *Amendment; Waiver.* No amendment or modification of any provision of this Agreement that has a material adverse effect on the Participant shall be effective unless signed in writing by or on behalf of the Company and the Participant; *provided* that the Company may amend or modify this Agreement without the Participant's consent in accordance with the provisions of the Plan or as otherwise set forth in this Agreement. No waiver of any breach or condition of this Agreement shall be deemed to be a waiver of any other or subsequent breach or condition, whether of like or different nature. Any amendment or modification of or to any provision of this Agreement, or any waiver of any provision of this Agreement, shall be effective only in the specific instance and for the specific purpose for which such amendment, modification or waiver is made or given.

19. *Assignment.* Neither this Agreement nor any right, remedy, obligation or liability arising hereunder or by reason hereof shall be assignable by the Participant.

20. *Successors and Assigns; No Third-Party Beneficiaries.* This Agreement shall inure to the benefit of and be binding upon the Company and the Participant and their respective heirs, successors, legal representatives and permitted assigns. Nothing in this Agreement, express or implied, is intended to confer on any Person other than the Company and the Participant, and their respective heirs, successors, legal representatives and permitted assigns, any rights, remedies, obligations or liabilities under or by reason of this Agreement.

21. *Dispute Resolution.* All controversies and claims arising out of or relating to this Agreement, or the breach hereof, shall be settled by the Company's mandatory dispute resolution procedures, if any, as may be in effect from time to time with respect to matters arising out of or relating to the Participant's employment with the Company.

22. *Governing Law.* This Agreement and the transactions contemplated hereby shall be governed by the laws of California, without application of the conflicts of law principles thereof.

23. *Imposition of other Requirements and Participant Undertaking.* The Company reserves the right to impose other requirements on the Participant's participation in the Plan, on the Award and on any Ordinary Shares to be issued upon settlement of the Award, to the extent the Company determines it is necessary or advisable for legal or administrative reasons. The Participant agrees to take whatever additional action and execute whatever additional documents the Company may deem necessary or advisable to accomplish the foregoing or to carry out or give effect to any of the obligations or restrictions imposed on either the Participant or the RSU pursuant to this Agreement.

24. *References.* References herein to rights and obligations of the Participant shall apply, where appropriate, to the Participant's legal representative or estate without regard to whether specific reference to such legal representative or estate is contained in a particular provision of this Agreement.

CREDO TECHNOLOGY GROUP HOLDING LTD.
2021 LONG-TERM INCENTIVE PLAN
RSU AGREEMENT

The Participant named in the attached Notice of RSU Award (the “**Notice**”) has been granted an Award of RSUs (the “**Award**”) pursuant to the Credo Technology Group Holding Ltd. 2021 Long-Term Incentive Plan (as it may be amended from time to time, the “**Plan**”), the Notice and this RSU Agreement (this “**Agreement**”), dated as of [●], 202[●], between the Participant and Credo Technology Group Holding Ltd. (the “**Company**”). Except as otherwise indicated, any capitalized term used but not defined herein shall have the meaning ascribed to such term in the Plan.

1. *Issuance of Ordinary Shares.* Each RSU shall represent the right to receive one Ordinary Share upon the vesting of such RSU, as determined in accordance with and subject to the terms of this Agreement, the Plan and the Notice. The number of RSUs is set forth in the Notice.

2. *Vesting Dates.* Subject to Section 3, the Award shall vest on the dates set forth in the Notice.

3. *Termination of Service.*

(a) *Other Than Due to Death.* In the event of the Participant’s Termination of Service for any reason other than due to death, any RSUs that are not vested as of the date of such Termination of Service will be forfeited.

(b) *Due to Death.* In the event of the Participant’s Termination of Service due to death, any RSUs that are not vested as of the date of such Termination of Service will vest in full.

4. *Change in Control.* In the event of a Change in Control, the RSUs will be treated in accordance with Section 12(c) of the Plan.

5. *Voting Rights.* The Participant shall have no voting rights or any other rights as a shareholder of the Company with respect to the RSUs unless and until the Participant becomes the record owner of the Ordinary Shares underlying the RSUs.

6. *Dividend Equivalents.* If a cash dividend is declared on Ordinary Shares during the period commencing on the Date of Grant set forth in the Notice and ending on the date on which the Ordinary Shares underlying the RSUs are distributed to the Participant pursuant to this Agreement, the Participant shall be eligible to receive an amount in cash (a “**Dividend Equivalent**”) equal to the dividend that the Participant would have received had the Ordinary Shares underlying the RSUs been held by the Participant as of the time at which such dividend was declared. Each Dividend Equivalent will be paid to the Participant in cash as soon as reasonably practicable (and in no event later than 30 days) after the applicable Vesting Date of

the corresponding RSUs. For clarity, no Dividend Equivalent will be paid with respect to any RSUs that are forfeited.

7. *Distribution of Ordinary Shares.* Subject to the provisions of this Agreement, upon the vesting of any of the RSUs, the Company shall deliver to the Participant, as soon as reasonably practicable (and in no event later than 30 days) after the applicable Vesting Date, one Ordinary Share for each such RSU. Upon the delivery of Ordinary Shares, such Ordinary Shares shall be fully assignable, alienable, saleable and transferrable by the Participant; *provided* that any such assignment, alienation, sale, transfer or other alienation with respect to such Ordinary Shares shall be in accordance with applicable securities laws and any applicable Company policy.

8. *Responsibility for Taxes.* The Participant acknowledges that, regardless of any action taken by the Company, the ultimate liability for all income tax, social insurance, payroll tax, fringe benefits tax, payment on account or other tax-related items related to the Participant's participation in the Plan and legally applicable to the Participant ("**Tax-Related Items**") is and remains the Participant's responsibility. The Participant further acknowledges that the Company (i) makes no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Award, including, but not limited to, the grant, vesting or settlement of the Award, the subsequent sale of Ordinary Shares acquired upon settlement of the Award and the receipt of any dividends and/or Dividend Equivalents; and (ii) does not commit to and is under no obligation to structure the terms of the grant or any aspect of the Award to reduce or eliminate the Participant's liability for Tax-Related Items or achieve any particular tax result.

9. *Provisions of Plan Control.* This Agreement is subject to all the terms, conditions and provisions of the Plan, including the amendment provisions thereof, and to such rules, regulations and interpretations relating to the Plan as may be adopted by the Committee and as may be in effect from time to time. The Plan is incorporated herein by reference. If and to the extent that this Agreement conflicts or is inconsistent with the Plan, the Plan shall control, and this Agreement shall be deemed to be modified accordingly.

10. *Notices.* Any notice required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been given when delivered personally or by courier, or sent by certified or registered mail, postage prepaid, return receipt requested, duly addressed to the party concerned at the address indicated below or to such changed address as such party may subsequently by similar process give notice of:

If to the Company:

Credo Technology Holdings Ltd.
1600 Technology Drive
San Jose, California 95110
Attention: [I]
Email: [I]

If to the Participant, to the address of the Participant on file with the Company.

11. *No Right to Continued Service.* The grant of the Award shall not be construed as giving the Participant the right to continue to provide services to, the Company or any Affiliate.

12. *No Right to Future Awards.* Any Award granted under the Plan shall be a one-time Award that does not constitute a promise of future grants. The Company, in its sole discretion, maintains the right to make available future grants under the Plan.

13. *Transfer of RSUs.* Except as may be permitted by the Committee, neither the Award nor any right under the Award shall be assignable, alienable, saleable or transferable by the Participant otherwise than by will or pursuant to the laws of descent and distribution. This provision shall not apply to any portion of the Award that has been fully settled and shall not preclude forfeiture of any portion of the Award in accordance with the terms herein.

14. *Entire Agreement.* This Agreement, the Plan, the Notice and any other agreements, schedules, exhibits and other documents referred to herein or therein constitute the entire agreement and understanding between the parties in respect of the subject matter hereof and supersede all prior and contemporaneous arrangements, agreements and understandings, both oral and written, whether in term sheets, presentations or otherwise, between the parties with respect to the subject matter hereof.

15. *Severability.* If any provision of this Agreement is or becomes or is deemed to be invalid, illegal or unenforceable in any jurisdiction, or would disqualify the Plan or this Agreement under any law deemed applicable by the Board, such provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the determination of the Board, materially altering the intent of this Agreement, such provision shall be stricken as to such jurisdiction, and the remainder of this Agreement shall remain in full force and effect.

16. *Amendment; Waiver.* No amendment or modification of any provision of this Agreement that has a material adverse effect on the Participant shall be effective unless signed in writing by or on behalf of the Company and the Participant; *provided* that the Company may amend or modify this Agreement without the Participant's consent in accordance with the provisions of the Plan or as otherwise set forth in this Agreement. No waiver of any breach or condition of this Agreement shall be deemed to be a waiver of any other or subsequent breach or condition, whether of like or different nature. Any amendment or modification of or to any provision of this Agreement, or any waiver of any provision of this Agreement, shall be effective only in the specific instance and for the specific purpose for which such amendment, modification or waiver is made or given.

17. *Assignment.* Neither this Agreement nor any right, remedy, obligation or liability arising hereunder or by reason hereof shall be assignable by the Participant.

18. *Successors and Assigns; No Third-Party Beneficiaries.* This Agreement shall inure to the benefit of and be binding upon the Company and the Participant and their respective heirs, successors, legal representatives and permitted assigns. Nothing in this Agreement, express or implied, is intended to confer on any Person other than the Company and the Participant, and

their respective heirs, successors, legal representatives and permitted assigns, any rights, remedies, obligations or liabilities under or by reason of this Agreement.

19. *Dispute Resolution.* All controversies and claims arising out of or relating to this Agreement, or the breach hereof, shall be settled by the Company's mandatory dispute resolution procedures, if any, as may be in effect from time to time with respect to matters arising out of or relating to the Participant's employment with the Company.

20. *Governing Law.* This Agreement and the transactions contemplated hereby shall be governed by the laws of California, without application of the conflicts of law principles thereof.

21. *Imposition of other Requirements and Participant Undertaking.* The Company reserves the right to impose other requirements on the Participant's participation in the Plan, on the Award and on any Ordinary Shares to be issued upon settlement of the Award, to the extent the Company determines it is necessary or advisable for legal or administrative reasons. The Participant agrees to take whatever additional action and execute whatever additional documents the Company may deem necessary or advisable to accomplish the foregoing or to carry out or give effect to any of the obligations or restrictions imposed on either the Participant or the RSU pursuant to this Agreement.

22. *References.* References herein to rights and obligations of the Participant shall apply, where appropriate, to the Participant's legal representative or estate without regard to whether specific reference to such legal representative or estate is contained in a particular provision of this Agreement.

CREDO TECHNOLOGY GROUP HOLDING LTD. EMPLOYEE STOCK PURCHASE PLAN

Section 1. *Purpose.* This Credo Technology Group Holding Ltd. Employee Stock Purchase Plan is intended to provide employees of the Company and its Participating Subsidiaries with an opportunity to acquire a proprietary interest in the Company through the purchase of Shares. The Company intends that the Plan qualify as an “employee stock purchase plan” under Section 423 of the Code and the Plan shall be interpreted in a manner that is consistent with that intent.

Section 2. *Definitions.*

- (a) **“Board”** means the Board of Directors of the Company.
- (b) **“Code”** means the Internal Revenue Code of 1986, as amended from time to time, and the rules, regulations and guidance thereunder. Any reference to a provision in the Code shall include any successor provision thereto.
- (c) **“Committee”** means the compensation committee of the Board unless another committee is designated by the Board. If there is no compensation committee of the Board and the Board does not designate another committee, references herein to the “Committee” shall refer to the Board.
- (d) **“Company”** means Credo Technology Group Holding Ltd., an exempt company with limited liability organized in the Cayman Islands, including any successor thereto.
- (e) **“Compensation”** means base salary, wages, annual bonuses and commissions paid to an Eligible Employee by the Company or a Participating Subsidiary as compensation for services to the Company or Participating Subsidiary, before deduction for any salary deferral contributions made by the Eligible Employee to any tax-qualified or nonqualified deferred compensation plan, including overtime, vacation pay, holiday pay, parental leave pay, jury duty pay and funeral leave pay, but excluding education or tuition reimbursements, imputed income arising under any group insurance or benefit program, travel expenses, business and relocation expenses, and income received in connection with stock options or other equity-based awards.
- (f) **“Corporate Transaction”** means a merger, consolidation, acquisition of property or stock, separation, reorganization or other corporate event described in Section 424 of the Code.
- (g) **“Designated Broker”** means the financial services firm or other agent designated by the Company to maintain ESPP Share Accounts on behalf of Participants who have purchased Shares under the Plan.
- (h) **“Effective Date”** has the meaning provided in Section 18(h).

(i) **“Employee”** means any person who renders services to the Company or a Participating Subsidiary as an employee pursuant to an employment relationship with such employer. For purposes of the Plan, the employment relationship shall be treated as continuing intact while the individual is on military leave, sick leave or other leave of absence approved by the Company or a Participating Subsidiary that meets the requirements of Treasury Regulation Section 1.421-1(h)(2). Where the period of leave exceeds three (3) months, or such other period of time specified in Treasury Regulation Section 1.421-1(h)(2), and the individual’s right to re-employment is not guaranteed by statute or contract, the employment relationship shall be deemed to have terminated on the first day immediately following such three-month period, or such other period specified in Treasury Regulation Section 1.421-1(h)(2).

(j) **“Eligible Employee”** means an Employee who (i) has been employed by the Company or a Participating Subsidiary for at least six (6) months and (ii) is customarily employed for at least twenty (20) hours per week and more than five (5) months in any calendar year; *provided* that Employees who are members of the board, shall not constitute “Eligible Employees.” Notwithstanding the foregoing, the Committee may exclude from participation in the Plan or any Offering (i) any other Employees who are “highly compensated employees” (within the meaning of Section 414(q) of the Code) or any sub-set of such “highly compensated employees” and (ii) any Employees located outside of the United States to the extent permitted under Section 423 of the Code.

(k) **“Enrollment Form”** means an agreement pursuant to which an Eligible Employee may elect to enroll in the Plan, to authorize a new level of payroll deductions, or to stop payroll deductions and withdraw from an Offering Period.

(l) **“ESPP Share Account”** means an account into which Shares purchased with accumulated payroll deductions at the end of an Offering Period are held on behalf of a Participant.

(m) **“Exchange Act”** means the Securities Exchange Act of 1934, as amended from time to time, and the rules, regulations and guidance thereunder. Any reference to a provision in the Exchange Act shall include any successor provision thereto.

(n) **“Fair Market Value”** means, as of any date, the closing price of a Share on the trading day immediately preceding the date of determination (or, if there is no reported sale on such date, on the last preceding date on which any reported sale occurred), on the principal stock market or exchange on which Shares are quoted or traded, or if Shares are not so quoted or traded, the fair market value of a Share as determined by the Committee and such determination shall be conclusive and binding on all persons.

(o) **“Initial Offering Period”** means the period beginning on the Registration Date and ending on June 30, 2022.

(p) **“Offering Date”** means the first Trading Day of each Offering Period as designated by the Committee.

(q) **“Offering or Offering Period”** means, the Initial Offering Period, and thereafter each period commencing on (i) July 1 and ending on the following December 31 and (ii) January 1 and ending on the following June 30; *provided* that, pursuant to Section 5, the Committee may change the duration of future Offering Periods (subject to a maximum Offering Period of twenty-seven (27) months) and/or the start and end dates of future Offering Periods.

(r) **“Participant”** means an Eligible Employee who is actively participating in the Plan.

(s) **“Participating Subsidiaries”** means the Subsidiaries that have been designated as eligible to participate in the Plan, and such other Subsidiaries that may be designated by the Committee from time to time in its sole discretion.

(t) **“Plan”** means this Credo Technology Group Holding Ltd Employee Stock Purchase Plan, as set forth herein, and as amended from time to time.

(u) **“Purchase Date”** means the last Trading Day of each Offering Period.

(v) **“Purchase Price”** means an amount equal to eighty-five percent (85%) (or such greater percentage as designated by the Committee) of the Fair Market Value of a Share on the Offering Date or the Purchase Date, whichever is less; *provided* that the Purchase Price per Share will in no event be less than the par value of the Shares.

(w) **“Registration Date”** means the date upon which the registration statement on Form S-1 that is filed by the Company with respect to its initial public offering is declared effective by the U.S. Securities and Exchange Commission.

(x) **“Securities Act”** means the Securities Act of 1933, as amended from time to time, and the rules, regulations and guidance thereunder. Any reference to a provision in the Securities Act shall include any successor provision thereto.

(y) **“Share”** means an Ordinary share of the Company, \$0.00005 par value.

(z) **“Subsidiary”** means any corporation, domestic or foreign, of which not less than fifty percent (50%) of the combined voting power is held by the Company or a Subsidiary, whether or not such corporation exists now or is hereafter organized or acquired by the Company or a Subsidiary. In all cases, the determination of whether an entity is a Subsidiary shall be made in accordance with Section 424(f) of the Code.

(aa) **“Trading Day”** means any day on which the national stock exchange upon which the Shares are listed is open for trading or, if the Shares are not listed on an established stock exchange or national market system, a business day, as determined by the Committee in good faith.

Section 3. *Administration.*

(a) Administration of Plan. The Plan shall be administered by the Committee which shall have the authority to construe and interpret the Plan, prescribe, amend and rescind rules relating to the Plan's administration and take any other actions necessary or desirable for the administration of the Plan including, without limitation, adopting sub-plans applicable to particular Participating Subsidiaries or locations, which sub-plans may be designed to be outside the scope of Section 423 of the Code. The Committee may correct any defect or supply any omission or reconcile any inconsistency or ambiguity in the Plan. The decisions of the Committee shall be final and binding on all persons. All expenses of administering the Plan shall be borne by the Company.

(b) Delegation of Authority. To the extent permitted by applicable law, including under Section 157(c) of the Delaware General Corporation Law, the Committee may delegate to (i) one or more officers of the Company some or all of its authority under the Plan and (ii) one or more committees of the Board some or all of its authority under the Plan.

Section 4. *Eligibility.* In order to participate in an Offering, an Eligible Employee must deliver a completed Enrollment Form to the Company at least five (5) business days prior to the Offering Date (unless a different time is set by the Company for all Eligible Employees with respect to such Offering) and must elect his or her payroll deduction rate as described in Section 6. Notwithstanding any provision of the Plan to the contrary, no Eligible Employee shall be granted an option under the Plan if (i) immediately after the grant of the option, such Eligible Employee (or any other person whose stock would be attributed to such Eligible Employee pursuant to Section 424(d) of the Code) would own capital stock of the Company or hold outstanding options to purchase stock possessing five percent (5%) or more of the total combined voting power or value of all classes of stock of the Company or any Subsidiary or (ii) such option would permit his or her rights to purchase stock under all employee stock purchase plans (described in Section 423 of the Code) of the Company and its Subsidiaries to accrue at a rate that exceeds \$25,000 based on the Fair Market Value of such stock (determined at the time the option is granted) for each calendar year in which such option is outstanding at any time.

Section 5. *Offering Periods.* The Plan shall be implemented by a series of Offering Periods. The Committee shall have the authority to change the duration, frequency, start and end dates of Offering Periods.

Section 6. *Participation.*

(a) Enrollment; Payroll Deductions. An Eligible Employee may elect to participate in the Plan by properly completing an Enrollment Form, which may be electronic, and submitting it to the Company, in accordance with the enrollment procedures established by the Committee. Participation in the Plan is entirely voluntary. By submitting an Enrollment Form, which may be electronic, the Eligible Employee authorizes payroll deductions from his or her pay check in an amount equal to at least one

percent (1%), but not more than fifteen percent (15%) of his or her Compensation on each pay day occurring during an Offering Period (or such other maximum percentage as the Committee may establish from time to time before an Offering Period begins). Payroll deductions shall commence as soon as practicable following the Offering Date and end on the latest practicable payroll date on or before the Purchase Date. The Company shall maintain records of all payroll deductions but shall have no obligation to pay interest on payroll deductions or to hold such amounts in a trust or in any segregated account. Unless expressly permitted by the Committee, a Participant may not make any separate contributions or payments to the Plan.

(b) Election Changes. During an Offering Period, a Participant may decrease his or her rate of payroll deductions applicable to such Offering Period only once. To make such a change, the Participant must submit a new Enrollment Form authorizing the new rate of payroll deductions at least fifteen (15) days before the Purchase Date. A Participant may decrease or increase his or her rate of payroll deductions for future Offering Periods by submitting a new Enrollment Form authorizing the new rate of payroll deductions at least fifteen days before the start of the next Offering Period.

(c) Automatic Re-enrollment. The deduction rate selected in the Enrollment Form shall remain in effect for subsequent Offering Periods unless the Participant (i) submits a new Enrollment Form authorizing a new level of payroll deductions in accordance with Section 6(b), (ii) withdraws from the Plan in accordance with Section 10, or (iii) terminates employment or otherwise becomes ineligible to participate in the Plan.

(a) Foreign Employees. In order to facilitate participation in the Plan, the Committee may provide for such special terms applicable to Participants who are citizens or residents of a foreign jurisdiction, or who are employed by a Participating Subsidiary outside of the United States, as the Committee may consider necessary or appropriate to accommodate differences in local law, tax policy or custom. Moreover, the Committee may approve such supplements to, or amendments, restatements or alternative versions of, the Plan as it may consider necessary or appropriate for such purposes without thereby affecting the terms of the Plan as in effect for any other purpose. No such special terms, supplements, amendments or restatements shall include any provisions that are inconsistent with the terms of the Plan as then in effect unless the Plan could have been amended to eliminate such inconsistency without further approval by the stockholders of the Company.

Section 7. *Grant of Option*. On each Offering Date, each Participant in the applicable Offering Period shall be granted an option to purchase, on the Purchase Date, a number of Shares determined by dividing the Participant's accumulated payroll deductions by the applicable Purchase Price.

Section 8. *Exercise of Option/Purchase of Shares*. A Participant's option to purchase Shares will be exercised automatically on the Purchase Date of each Offering Period. The Participant's accumulated payroll deductions will be used to purchase the maximum number of whole Shares that can be purchased with the amounts in the

Participant's notional account. No fractional Shares may be purchased, but contributions unused in a given Offering Period due to being less than the cost of a Share will be carried forward to the next Offering Period, subject to earlier withdrawal by the Participant in accordance with Section 10 or termination of employment in accordance with Section 11.

Section 9. *Transfer of Shares; Holding Period.* As soon as reasonably practicable after each Purchase Date, the Company will arrange for the delivery to each Participant of the Shares purchased upon exercise of his or her option. The Committee may permit or require that the Shares be deposited directly into an ESPP Share Account established in the name of the Participant with a Designated Broker. The Committee may determine, prior to an Offering, that Shares purchased upon exercise of an option pursuant to the Plan are subject to a holding period following the Purchase Date before sale of such Shares shall be permitted. All certificated Shares issued pursuant to a purchase under the Plan shall bear a legend stating the applicable holding period. Participants will not have any voting, dividend or other rights of a shareholder with respect to the Shares subject to any option granted hereunder until such Shares have been delivered pursuant to this Section 9.

Section 10. *Withdrawal.*

(a) Withdrawal Procedure. A Participant may withdraw from an Offering by submitting to the Company a revised Enrollment Form indicating his or her election to withdraw at least fifteen days before the Purchase Date. The accumulated payroll deductions held on behalf of a Participant in his or her notional account (that have not been used to purchase Shares) shall be paid to the Participant promptly following receipt of the Participant's Enrollment Form indicating his or her election to withdraw and the Participant's option shall be automatically terminated. If a Participant withdraws from an Offering Period, no payroll deductions will be made during any succeeding Offering Period, unless the Participant re-enrolls in accordance with Section 6(a) of the Plan.

(b) Effect on Succeeding Offering Periods. A Participant's election to withdraw from an Offering Period will not have any effect upon his or her eligibility to participate in succeeding Offering Periods that commence following the completion of the Offering Period from which the Participant withdraws.

Section 11. *Termination of Employment; Change in Employment Status.* Notwithstanding Section 10, upon termination of a Participant's employment for any reason, including death, disability or retirement, or a change in the Participant's employment status following which the Participant is no longer an Eligible Employee, which in either case occurs at least ten (10) days before the Purchase Date, the Participant will be deemed to have withdrawn from the Plan and the payroll deductions in the Participant's notional account (that have not been used to purchase Shares) shall be returned to the Participant, or in the case of the Participant's death, to the person(s) entitled to such amounts by will or the laws of descent and distribution, and the Participant's option shall be automatically terminated. If the Participant's termination of employment or change in status occurs within ten days before a Purchase Date, the

accumulated payroll deductions shall be used to purchase Shares on the Purchase Date.

Section 12. *Interest.* No interest shall accrue on or be payable with respect to the payroll deductions of a Participant in the Plan.

Section 13. *Shares Reserved for Plan.*

(a) Number of Shares. A total of [●]¹ Shares (subject to adjustment in accordance with Section 17) have been reserved as authorized for the grant of options under the Plan. The Shares may be newly issued Shares, treasury Shares or Shares acquired on the open market. The Committee may elect to increase the total number of Shares available for purchase under the Plan as of the first day of each Company fiscal year following the Effective Date in an amount equal to up to one percent (1%) of the Shares issued and outstanding on the last day of the immediately preceding fiscal year; provided that the maximum number of Shares that may be issued under the Plan in any event shall be [●]² Shares (subject to any adjustment in accordance with Section 17).

(b) Over-subscribed Offerings. The number of Shares which a Participant may purchase in an Offering under the Plan may be reduced if the Offering is over-subscribed. No option granted under the Plan shall permit a Participant to purchase Shares which, if added together with the total number of Shares purchased by all other Participants in such Offering would exceed the total number of Shares remaining available under the Plan. If the Committee determines that, on a particular Purchase Date, the number of Shares with respect to which options are to be exercised exceeds the number of Shares then available under the Plan, the Company shall make a pro rata allocation of the Shares remaining available for purchase in as uniform a manner as practicable and as the Committee determines to be equitable.

Section 14. *Transferability.* No payroll deductions credited to a Participant, nor any rights with respect to the exercise of an option or any rights to receive Shares hereunder may be assigned, transferred, pledged or otherwise disposed of in any way (other than by will or the laws of descent and distribution) by the Participant. Any attempt to assign, transfer, pledge or otherwise dispose of such rights or amounts shall be without effect.

Section 15. *Application of Funds.* All payroll deductions received or held by the Company under the Plan may be used by the Company for any corporate purpose to the extent permitted by applicable law, and the Company shall not be required to segregate such payroll deductions or contributions.

Section 16. *Statements.* Participants will be provided with statements at least annually which shall set forth the contributions made by the Participant to the Plan, the

¹ **Note to Draft:** To be equal to 2.1% of the Ordinary Shares outstanding on a fully diluted basis as of immediately following the IPO (inclusive of new plan reserves but without regard to any exercise of the greenshoe).

² **Note to Draft:** To be equal to 10x the initial reserve.

Purchase Price of any Shares purchased with accumulated funds, the number of Shares purchased, and any payroll deduction amounts remaining in the Participant's notional account.

Section 17. *Adjustments Upon Changes in Capitalization; Dissolution or Liquidation; Corporate Transactions.*

(a) Adjustments. In the event that any dividend or other distribution (whether in the form of cash, Shares, or other property), recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase, or exchange of Shares or other securities of the Company, or other change in the Company's structure affecting the Shares occurs, then in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan, the Committee will, in such manner as it deems equitable, adjust the number of Shares and class of Shares that may be delivered under the Plan, the Purchase Price per Share and the number of Shares covered by each outstanding option under the Plan, and the numerical limits of Section 7 and Section 13.

(b) Dissolution or Liquidation. Unless otherwise determined by the Committee, in the event of a proposed dissolution or liquidation of the Company, any Offering Period then in progress will be shortened by setting a new Purchase Date and the Offering Period will end immediately prior to the proposed dissolution or liquidation. The new Purchase Date will be before the date of the Company's proposed dissolution or liquidation. Before the new Purchase Date, the Committee will provide each Participant with written notice, which may be electronic, of the new Purchase Date and that the Participant's option will be exercised automatically on such date, unless before such time, the Participant has withdrawn from the Offering in accordance with Section 10.

(c) Corporate Transaction. In the event of a Corporate Transaction, each outstanding option will be assumed or an equivalent option substituted by the successor corporation or a parent or Subsidiary of such successor corporation. If the successor corporation refuses to assume or substitute the option, the Offering Period with respect to which the option relates will be shortened by setting a new Purchase Date on which the Offering Period will end. The new Purchase Date will occur before the date of the Corporate Transaction. Prior to the new Purchase Date, the Committee will provide each Participant with written notice, which may be electronic, of the new Purchase Date and that the Participant's option will be exercised automatically on such date, unless before such time, the Participant has withdrawn from the Offering in accordance with Section 10. Notwithstanding the foregoing, in the event of a Corporate Transaction, the Committee may also elect to terminate all outstanding Offering Periods in accordance with Section 18(i).

Section 18. *General Provisions.*

(a) Equal Rights and Privileges. Notwithstanding any provision of the Plan to the contrary and in accordance with Section 423 of the Code, all Eligible Employees who are granted options under the Plan shall have the same rights and privileges.

(b) No Right to Continued Service. Neither the Plan nor any compensation paid hereunder will confer on any Participant the right to continue as an Employee or in any other capacity.

(c) Rights as Shareholder. A Participant will become a shareholder with respect to the Shares that are purchased pursuant to options granted under the Plan when the Shares are transferred to the Participant's ESPP Share Account. A Participant will have no rights as a shareholder with respect to Shares for which an election to participate in an Offering Period has been made until such Participant becomes a shareholder as provided above.

(d) Successors and Assigns. The Plan shall be binding on the Company and its successors and assigns.

(e) Entire Plan. The Plan constitutes the entire plan with respect to the subject matter hereof and supersedes all prior plans with respect to the subject matter hereof.

(f) Compliance with Law. The obligations of the Company with respect to payments under the Plan are subject to compliance with all applicable laws and regulations. Shares shall not be issued with respect to an option granted under the Plan unless the exercise of such option and the issuance and delivery of the Shares pursuant thereto shall comply with all applicable provisions of law, including, without limitation, the Securities Act, the Exchange Act, and the requirements of any stock exchange upon which the Shares may then be listed.

(g) Disqualifying Dispositions. Each Participant shall give the Company prompt written notice of any disposition or other transfer of Shares acquired pursuant to the exercise of an option acquired under the Plan, if such disposition or transfer is made within two (2) years after the Offering Date or within one (1) year after the Purchase Date. Notwithstanding the foregoing, Participants shall not transfer Shares acquired pursuant to the exercise of an option acquired under the Plan to a broker other than the Designated Broker within two (2) years after the Offering Date or within one (1) year after the Purchase Date.

(h) Effective Date; Term of Plan. The Plan shall, subject to shareholder approval in accordance with applicable law, take effect upon the date immediately preceding the Registration Date (the "**Effective Date**") and, unless terminated earlier pursuant to Section 18(i), shall have a term of ten (10) years.

(i) Amendment or Termination. The Committee may, in its sole discretion, amend, suspend or terminate the Plan at any time and for any reason. If the Plan is terminated, the Committee may elect to terminate all outstanding Offering Periods either immediately or once Shares have been purchased on the next Purchase Date (which may, in the discretion of the Committee, be accelerated) or permit Offering Periods to expire in accordance with their terms (and subject to any adjustment in accordance with Section 17). If any Offering Period is terminated before its scheduled expiration, all amounts that

have not been used to purchase Shares will be returned to Participants (without interest, except as otherwise required by law) as soon as administratively practicable.

(j) Applicable Law. The laws of the State of California shall govern all questions concerning the construction, validity and interpretation of the Plan, without regard to such state's conflict of law rules.

(k) Section 423. The Plan is intended to qualify as an "employee stock purchase plan" under Section 423 of the Code. Any provision of the Plan that is inconsistent with Section 423 of the Code shall be reformed to comply with Section 423 of the Code.

(l) Withholding. To the extent required by applicable Federal, state or local law, a Participant must make arrangements satisfactory to the Company for the payment of any withholding or similar tax obligations that arise in connection with the Plan.

(m) Severability. If any provision of the Plan shall for any reason be held to be invalid or unenforceable, such invalidity or unenforceability shall not affect any other provision hereof, and the Plan shall be construed as if such invalid or unenforceable provision were omitted.

(n) Headings. The headings of sections herein are included solely for convenience and shall not affect the meaning of any of the provisions of the Plan.
